A HELPING HAND, NOT A HANDOUT

INTRODUCTION TO THE WELFARE AND MEDICAID REFORM ACT OF 1996

This legislation incorporates two of the most important reforms being undertaken by the 104th Congress: reforming the Nation's failed welfare system and restructuring the Federal/State Medicaid program. The committees of jurisdiction have submitted extensive report language explaining their respective portions of the legislation. This introduction, by the Committee on the Budget, describes the broad policy goals of the reforms.

REFORMING WELFARE

There is little doubt that the current welfare system is a failure. It traps recipients in a cycle of dependency. It undermines the values of work and family that form the foundation of America's communities. Most devastating of all, it fails the Nation's children.

These are the pathologies that the welfare reform incorporated in this reconciliation measure is intended to cure.

The reform proposal saves families by promoting work, discouraging illegitimacy, and strengthening child support enforcement. It converts welfare into a helping hand, rather than a handout, by limiting lifetime welfare benefits. It halts payments to people who should not be on welfare. It grants maximum State flexibility to show true compassion by helping those in need achieve the freedom of self-reliance.

Opponents of such genuine reforms have tried to argue that the current system allows for State flexibility by providing waivers from Federal requirements. We reject this alternative—it only maintains a system in which States must beg Washington for permission to innovate for the benefit of their populations. This is not real reform. Only fundamental reform of welfare can correct the damage to families and children that the current system has caused.

THE CURRENT WELFARE SYSTEM IS A FAILURE

Consider the following facts about today's welfare system:

- Since 1960, all levels of government have spent \$5.4 trillion (in constant 1992 dollars) on programs to end poverty. Yet the poverty rate has held stubbornly at between 12 percent and 15 percent of the population.
- Total spending on antipoverty programs has risen from \$24.4 billion in 1960 to an estimated \$397.1 billion in 1995.
- While poverty has failed to decline, enrollment in Aid to Families With Dependent Children [AFDC], the principal welfare

program, has increased fivefold. At the same time, illegitimacy has increased 400 percent, the number of single-parent families has increased 238 percent, and violent crime has risen 560 percent. All these pathologies are linked to the current structure of welfare itself.

The welfare system contradicts fundamental American values that ought to be encouraged and rewarded: work, family, personal responsibility, and self-sufficiency. Instead, the system subsidizes dysfunctional behavior.

According to a recent Cato Institute study, the total package of public benefits for low-income persons is, in many cases, substantially more generous than working. Cato notes that welfare pays more than the starting salary for a teacher in 9 States; more than the average salary for a secretary in 29 States; more than an \$8 per hour job in 40 States; and more than the entry level salary for a computer programmer in the most generous States. Furthermore, only 20 percent of those receiving welfare benefits today are covered by any kind of work requirement, and still fewer work.

As welfare discourages work, it encourages long-term dependency. According to research done for the Urban Institute, 90 percent of those currently receiving welfare will eventually spend more than 2 years on the rolls, and 76 percent will receive welfare for more than 5 years. Thus welfare punishes its intended beneficiaries, isolating them from the economic and social mainstream.

The failures of welfare also represent a major factor in America's crime wave. High rates of welfare dependency correlate with high crime rates among young men. Indeed, a lack of married parents—a condition promoted by the current welfare system—contributes more to the crime rate than do race or poverty: A major 1988 study of 11,000 individuals found that “the percentage of single-parent households with children between the ages of 12 to 20 is significantly associated with rates of violent crime and burglary.”

In addition, the welfare system empowers bureaucrats rather than the poor. Washington spends roughly \$150 billion a year on about 75 means-tested programs that the public thinks of as “welfare.” But much of this spending has been absorbed by an expanding bureaucracy for delivering social services that eats up a disproportionate amount of the funds available for fighting poverty.

THE CURRENT SYSTEM FAILS CHILDREN

The greatest tragedy of the welfare system is how it harms the Nation's children. By promoting illegitimacy, the system breeds a variety of other pathologies scarring children in ways that can affect their entire lives.

First, welfare-encouraged illegitimacy leads to increased risks of behavioral and emotional problems during childhood. The National Health Interview Survey of Child Health has confirmed that children born out of wedlock have more emotional and behavioral problems than children in intact families. These problems include anti-social behavior, hyperactivity, disobedience, greater peer conflict, and dependency.

Second, welfare-encouraged out-of-wedlock childbearing increases the probability of teen sexual activity and future welfare depend-

ency. According to the National Longitudinal Survey of Youth, teenagers whose mothers have never married are two-and-a-half times more likely to be sexually active. Research done for the Department of Health and Human Services shows that children born out of wedlock are three times more likely to become dependent on welfare than are other children. An analysis by June E. O'Neill, Director of the Congressional Budget Office [CBO], concluded that a 50-percent increase in the monthly value of AFDC and food stamp benefits led to a 43-percent increase in the number of out-of-wedlock births.

Third, the receipt of welfare income has negative effects on young boys with respect to their long-term employment and earnings capacity. According to a University of Michigan study, the more welfare income received by the boy's family while he was growing up, the lower are his earnings as an adult.

BENEFITS OF THE WELFARE REFORM PLAN

The welfare reform incorporated in this reconciliation bill saves families and promotes work. CBO estimates that under this proposal, 1.3 million families on welfare will be working in fiscal year 2002. That is 30 percent more welfare recipients gaining the benefits of work experience than CBO estimates would be working under the administration's proposal.

Under the congressional plan, welfare is, for the first time, converted to a work program. The proposal requires one member of every family on welfare to be working within 2 years. Lifetime welfare benefits are limited to 5 years (though exemptions for special hardship may be applied to as many as 20 percent of families if necessary). The plan also fulfills the request of the Nation's Governors for \$4 billion in additional child care funding, resulting in \$3 billion more than current law to assist welfare recipients in obtaining the child care they need to leave welfare and move into the work force. In addition, a \$1-billion performance bonus fund makes additional moneys available to States that are successful in moving welfare recipients off welfare rolls and into productive work.

The proposal also discourages out-of-wedlock childbearing. It allows States to cap benefits for those on welfare, ending bonuses for families on welfare who have additional children they cannot support. States that reduce out-of-wedlock births without increasing abortions are rewarded with further cash grants. Any teenager who gives birth out of wedlock is required to live with an adult and remain in school to continue receiving welfare benefits.

At the same time, child support enforcement is significantly strengthened to ensure that absent noncustodial parents provide financial support for their children. Uniform State tracking procedures are established to catch deadbeat parents. Stronger measures are taken to establish paternity in cases of out-of-wedlock births.

The proposal cuts through the bureaucratic maze that the Washington-centered welfare regime has created. The plan gives States the freedom to innovate in developing income support programs for welfare families that encourage personal responsibility and move welfare recipients into the work force. [By contrast, the President's welfare plan would continue requiring States to seek Federal ap-

proval for such innovations.] Furthermore, States are permitted to harmonize cash welfare assistance and food stamps, so that one set of rules can be used for families applying for both programs. This eliminates bureaucratic duplication while providing one-stop service to program participants.

The plan also combats substance abuse by allowing States to sanction welfare recipients who test positive for illicit drug use.

The congressional welfare reform strategy ends the role of welfare as an immigration magnet and goes significantly farther than the President's proposals in discouraging welfare-based immigration. Under the congressional plan, families that sponsor immigrant relatives will be legally required to provide for the economic well-being of the members they bring to the United States. The reform also would exclude aliens who are not veterans of the U.S. military from receiving food stamps or Supplemental Security Income [SSI] benefits until they have obtained U.S. citizenship, or until they have worked and paid Social Security taxes for at least 40 quarters. This approach is significantly more forceful than the President's proposal, which still allows aliens who have never worked in the United States to obtain these welfare benefits if their U.S. citizen sponsors are low-income as well.

THE SHORTCOMINGS OF WAIVERS

Those who advocate the Federal waiver process as an alternative to fundamental welfare reform overlook the basic flaw in this approach: The process leaves unchallenged the notion that Federal bureaucrats in Washington should have the last say in any decision involving the design of programs intended to attack poverty. Waivers, which can be revoked, keep the power in Washington; they cannot substitute for fundamental, systemic changes that empower States and local communities to make their own decisions about how to address the needs of their populations. In virtually every case in which waivers have been granted, States have been required to modify their original programs to obtain Federal approval for the waiver. Thus, welfare recipients are denied the full benefit of the innovations that States are seeking to initiate. In addition, few waivers have been granted statewide, and most of them have involved relatively noncontroversial items such as requiring teenage mothers to attend school or remain in their parents' homes as a condition of receiving benefits.

The administration's treatment of Wisconsin's waiver requests is illuminating. For all of the administration's claims that it is reforming welfare through waivers, it remains to be seen if the administration will actually accept a statewide time limit on welfare benefits such as those the State of Wisconsin has requested. Some White House policymakers already are backtracking on the President's promise to grant Wisconsin the waiver to implement a statewide time limit, and so far the administration has resisted giving this kind of sweeping statewide waiver in a major substantive policy area.

Waivers themselves are treated not as welfare reform measures, but as social science "experiments." The waiver process requires States to maintain "control" groups—recipients who are kept in the existing system so they can be compared with those experiencing

the reform. This approach only serves the social engineers while denying some portion of a State's welfare population an escape from a system that is already known to have failed.

Also, because waivers are considered experimental, they have time limits; they expire after a period of several years, putting the State at risk that a future administration will choose not to renew the waiver, forcing the State to abandon their policy changes and revert to the old system.

OHIO'S EXPERIENCE WITH THE WAIVER PROCESS

On March 14, 1996, the administration announced its approval of the State of Ohio's request for waivers from Federal law needed to implement Ohio's welfare reform legislation passed last year. It took the administration 7 months to process the waiver. Nevertheless, Ohio's Governor Voinovich was pleased to finally receive a decision from Washington, and, on the whole, he and other State officials were pleased that most of their plan survived intact. But the administration rejected four parts of the Ohio plan, or requested substantive changes that essentially gutted certain provisions. The administration:

- Watered down Ohio's 36-month time limit on AFDC eligibility for participants in the AFDC JOBS program, essentially removing application of the limit to persons unable to find work after making good faith efforts to do so.
- Denied the State's request to block increases in food stamp benefits for persons whose AFDC benefits were reduced as a sanction for failure to comply with conditions of the new Ohio program.
- Denied the State's request that persons found guilty of welfare fraud could have their Medicaid benefits revoked. The provision applied only to adults in the household; children's benefits would have continued.
- Limited the State's ability to expand its subsidized jobs program, even though it contained safeguards against eliminating currently existing jobs.

In addition to these changes, the Department of Health and Human Services [HHS] prohibited the State from implementing the reforms in five counties, which would serve as a "control" group.

RESTRUCTURING MEDICAID

SHIFTING POWER AND INFLUENCE OUT OF WASHINGTON

Like the welfare reform strategy embraced in this legislation, the restructuring of Medicaid focuses on shifting greater control and responsibility to the States. It proceeds from the premise that allowing States to design their own programs will make each State better able to address the unique needs of its population. The congressional plan eliminates the current Federal Medicaid law and then adds back any guarantees and guidelines needed to assure appropriate coverage. This represents a key difference with the administration's approach. The President would retain the current Federal Medicaid law (Title XIX of the Social Security Act) and al-

most all of its regulations. Thus the President would keep the power and influence in Washington.

The congressional plan also recognizes that current Medicaid costs—driven by the structure of the Federal-State program itself—are unsustainable. Medicaid spending has exploded: It has grown an average of 19.1 percent annually between 1990 and 1994, and is currently projected to increase by roughly 10 percent a year through 2002 if left unreformed.

The growth of Medicaid spending also has put extraordinary pressure on State budgets. In 1987, Medicaid represented about 10.2 percent of all State expenditures; by 1994, it had increased to about 19.4 percent of all State expenditures. Thus, over a 7-year interval, State Medicaid spending had nearly doubled as a percent of total State spending. This growth has drained State funds from other critical needs, causing a decline in the proportion of State funds for elementary and secondary education, higher education, welfare, and transportation.

Medicaid cost pressure results from Federal micromanagement, complex bureaucratic requirements, outdated delivery systems, federally mandated expansions in eligibility, and waste, fraud, and abuse in the program. Additional cost pressure also comes from practices in the States, because Medicaid requires the Federal Government to pay its preestablished share of whatever the States spend. This encourages States to spend more so they can get more. The House Medicaid reform strategy encourages States instead to establish efficient and effective programs.

PROVIDING ADEQUATE FUNDING

Under the congressional Medicaid reform, funding would increase each year, from \$95.7 billion in fiscal year 1996 to \$136.5 billion in fiscal year 2002—a 43-percent increase. Outlays over the next 6 years will equal \$731 billion, a 58-percent increase from the \$463 billion over the previous 6 years. Medicaid spending per recipient would grow from \$2,600 in fiscal year 1996 to \$3,170 in fiscal year 2002. The plan allows States to provide health care for an individual whose income does not exceed 275 percent of the Federal poverty level. [The poverty level for a family of four is \$15,600 for 1996. The 275-percent level would be \$42,900.] States will continue to match the Federal Medicaid dollars to receive Federal funds.

ENSURING GUARANTEES OF COVERAGE

To assure that the most vulnerable populations will receive coverage, the plan contains coverage guarantees for the following populations:

- Pregnant women and children under age 6 whose families' incomes are below 133 percent of poverty.
- Children age 6 to 12 whose families' incomes are below 100 percent of poverty and phase in children up to age 18.
- Disabled individuals who meet specified income and resource standards.
- Elderly individuals who meet SSI income and resource standards.

The legislation also contains other, less restrictive, measures such as a requirement that each State continue to spend at least 90 percent of what it had been spending on mandatory services for three broad groups of eligibles: low-income families, low-income elderly, and low-income disabled.

PROTECTING NURSING HOME RESIDENTS, THEIR SPOUSES, AND THEIR FAMILIES

The plan maintains the Federal nursing home protections enacted in 1987. It also contains measures to ensure that the spouse of a nursing home resident will not have to impoverish himself or herself to ensure Medicaid nursing home benefits for an institutionalized spouse. Finally, the plan prohibits States from requiring an adult child of an institutionalized parent to contribute to the cost of the nursing facility and other long-term care services covered under the State plan. Contributions by the adult children must be voluntary.

PROVIDING A FAIRER DISTRIBUTION OF FUNDS

The current formula distributes Medicaid funds using State per-capita income only. Per-capita income is used as a measure of both the State's need and its fiscal capacity. It is a good measure of neither.

The congressional Medicaid restructuring plan employs a new formula, developed by the General Accounting Office [GAO]. The formula derives from three factors:

- A 3-year rolling average of the number of residents in poverty in each State.
- A "case mix index" reflecting the severity of a State's Medicaid caseload—such as what percentage of Medicaid recipients are elderly as opposed to mothers and children, who are less expensive to care for.
- A health care input cost index, which measures wages paid by hospitals in the State.

The formula also uses the U.S. average spending per person in poverty (the same value for all States) and the current Federal/State matching rate (which varies by State from 50 percent to 80 percent).

SPENDING COMPARISONS

Comparisons with historical data, and with the President's proposal, show that the congressional restructuring plan successfully reforms Medicaid and protects vulnerable populations at lower costs than those projected under current law or in the administration's plan [see tables 1 and 2].

For example, the congressional plan slows the growth of Medicaid to an average of 6.1 percent a year over the next 6 years, compared with the 9.7-percent-a-year projected by the Congressional Budget Office [CBO] if no reforms are undertaken. Overall, the plan would spend \$731 billion for Medicaid over the next 6 years, saving \$72 billion from the \$803 billion that CBO projects will be spent in an unreformed program. Nevertheless, the congressional

plan allows for 58 percent more funds over the next 6 years than the \$463 billion spent in the past 6 years.

In contrast, the administration plan calls for a spending growth rate averaging 7.2 percent a year over the next 6 years. The President's plan would spend \$749 billion over 6 years, an increase of 62 percent from the past 6 years. The administration's savings total \$54 billion through 2002.

A WORD ABOUT THE PROCESS

The Welfare and Medicaid Reform Act of 1996 represents the first installment of a three-part reconciliation process envisioned in the conference report on House Concurrent Resolution 178, the budget resolution for fiscal year 1997.

The budget resolution envisions an ambitious agenda of reforms to reduce the size and scope of the Federal Government and to provide tax relief for working American families. Under the most common practice, a major portion of these reforms would be pursued through a single, omnibus reconciliation bill. But such legislation can become so unwieldy and complex that Members may have difficulty grasping its entire content. The House-Senate conferees on an omnibus reconciliation bill can number in the hundreds. Finally, a President may be inclined to veto such legislation, even if he supports parts of it, because he opposes other portions. Thus, the all-or-nothing character of an omnibus bill can force the rejection of even those measures favored by both Congress and the President. More important, the Nation's citizens may sacrifice the benefits of legislative reforms that would have been enacted in a different combination.

The three-part reconciliation process called for by H.Con.Res. 178 seeks to overcome these hurdles by breaking down reconciliation into a more orderly process comprising more manageable pieces. The Welfare and Medicaid Reform Act of 1996 is the first of these. The process permits Congress to follow this bill later in the summer with a Medicare preservation plan and a package of tax relief and miscellaneous direct spending reforms.

As designed in the budget resolution conference report, the multi-reconciliation process provides maximum flexibility to achieve the changes in spending and the tax relief assumed in the budget. For example, any of the spending or revenue changes assumed in the first reconciliation bill could—if the first bill were not enacted—be achieved in the third bill. Moreover, the reconciled committees are permitted to exceed the savings assumed in each of the reconciliation bills.

Nevertheless, the process still requires reconciled committees ultimately to meet their targets, whether incrementally, through the separate reconciliation bills, or solely through the third bill.

SEC. 1068. DEFICIT REDUCTION.

It is the sense of the Committee on Agriculture of the House of Representatives that reductions in outlays resulting from this title shall not be taken into account for purposes of section 552 of the Balanced Budget and Emergency Deficit Control Act of 1985.

TITLE I—COMMITTEE ON AGRICULTURE

U.S. HOUSE OF REPRESENTATIVES,
COMMITTEE ON AGRICULTURE,
Washington, DC, June 13, 1996.

Hon. JOHN KASICH,
Chairman, Committee on the Budget, Cannon House Office Building, Washington, DC.

DEAR CHAIRMAN KASICH: I am transmitting herewith the results of the Committee on Agriculture's consideration of recommendations with respect to the reconciliation bill for fiscal year 1997, provided for under H.Con.Res. 178, the Concurrent Resolution on the Budget—Fiscal Year 1997.

The instructions to this committee contained in H.Con.Res. 178, section 201(b)(1) from the Budget Committee (H. Rept. 104-612) related to "changes in laws within its [the Committee on Agriculture's] jurisdiction that provide direct spending," especially the Food Stamp Act of 1977 and commodity distribution programs and the enclosed recommendations comply with those instructions.

A considerable number of hearings were held in 1995 and 1996 with respect to welfare reform, and more particularly with respect to food stamp and commodity distribution program reforms within the jurisdiction of this committee. There were also innumerable discussions, briefings, et cetera among the members of the committee, representatives the U.S. Department of Agriculture, groups representing food stamp recipients, representatives of the National Governors Conference, retailers of food, religious and other charitable institutions, and other groups with an interest in the food stamp and commodity distribution programs.

After H.R. 4, the "Personal Responsibility Act of 1995" was vetoed by the President January 9, 1996, work commenced on what was to become H.R. 3507, the "Personal Responsibility and Work Opportunity Act." Title X and related food stamp and commodity distribution program provisions of H.R. 3507 are essentially the same as they were in H.R. 4 approved by the House of Representatives on December 21, 1995, by a vote of 245 to 178—with one significant exception. The food stamp funding cap is eliminated in these recommendations as a concession to, and at the request of, the National Governor's Conference, the Clinton administration and the Secretary of Agriculture.

The committee's recommendations contain reforms that meet its instructions set forth in H.Con.Res. 178 and in addition represent sound food stamp policy. The recommendations with respect to the reform of the Food Stamp Program retain the program as a Federal safety net; permit States to harmonize their assistance to families with dependent children (AFDC) and Food Stamp Programs; end all automatic spending increases, except for annual increase in food benefits; require able-bodied persons without dependents to work,

and in addition there are increased penalties for trafficking and fraud.

The Staff of the Committee on Agriculture has reviewed the text of H.R. 3507 and has worked in cooperation with the other committee of jurisdiction in drafting language contained in H.R. 3507 as it relates to provisions within this committee's jurisdiction. The following provisions of H.R. 3507 have been identified as within the Committee on Agriculture's jurisdiction:

TITLE I—BLOCK GRANTS FOR TEMPORARY ASSISTANCE FOR NEEDY FAMILIES

Food stamp recipients who receive cash benefits under a program established by the State under the Temporary Assistance for Needy Families Block Grant (TANF) established in section 103 may be issued food stamp benefits in accordance with the rules and procedures established by the State under TANF.

Food stamp recipients who participate in the program established by the State under TANF will be required to meet the work requirements of the program established by the State under TANF.

TITLE II—SUPPLEMENTARY SECURITY INCOME

To the extent that the changes in this title affect eligibility of individuals for Supplemental Security Income, it affects the categorical eligibility of such individuals for the Food Stamp Program.

TITLE III—CHILD SUPPORT

To the extent that provisions relating to the establishment of paternity affect the eligibility of persons receiving benefits under the program established by the State under TANF, food stamp recipients TANF could be affected.

TITLE IV—RESTRICTING WELFARE AND PUBLIC BENEFITS FOR ALIENS

Section 401 prohibits illegal aliens from receiving any Federal means-tested benefits, including food stamps.

Section 403 prohibits legal aliens, with certain exceptions, from receiving food stamps;

TITLE IX—CHILD NUTRITION PROGRAMS

To the extent that provisions relating to providing commodities under the Child Nutrition Programs could be affected.

TITLE XI—MISCELLANEOUS PROVISIONS

Section 1105 allows States to consider the income and resources of an alien ineligible for food stamps when determining the eligibility of a household for food stamps.

Section 1110 exempts State and local governments from liability under the Electronic Fund Transfer Act as it relates to the operation of electronic benefits transfer systems established by a State to issue benefits under the Food Stamp Program or any other programs.

The Committee on Agriculture preserves its jurisdictional prerogatives as to such other provisions as further examination may disclose to be within its jurisdiction.

During the markup of these recommendations, the ranking minority member, Congressman E (Kika) de la Garza, offered a substitute amendment that was for the most part the administration's food stamp proposal (not introduced in the House as a bill and S. 1841 in the Senate). A comparison of Mr. de la Garza's substitute with title X, et cetera, of H.R. 3507 reflects that approximately 55 percent of the number of food stamp reforms in H.R. 3507 are identical to those in the substitute and 72 percent of the food stamp reforms in H.R. 3507 are identical or similar to those in the substitute. The CBO preliminary cost estimate for reductions in food stamp and related spending for the substitute is \$18.4 billion whereas it is \$23 billion for those in H.R. 3507.

Several other amendments were offered during markup, some of which were adopted, others withdrawn, and several failed adoption.

The committee's markup of H.R. 3507 commenced June 11 and was completed at 1:30 p.m., June 13, 1996.

I am enclosing a hard copy of the committee's recommendations on title X and related provisions of H.R. 3507 that achieve the budget reductions as contained in the instructions contained in H.Con.Res. 178 and as requested in your letter of June 12, 1996. There is also enclosed a hard copy of the Section-by-Section Analysis of the recommendations, as well as a Word Perfect 6.0 disk thereof. Final Congressional Budget Office cost estimates are not yet available and will be forwarded upon receipt but no later than June 17th. Minority views, if any; a hard copy of the Ramseyer; and the remainder of the contents of the report filed pursuant to Rule XI of the Rules of the House, including the Brief Explanation, Committee Consideration, the Purpose and Need, et cetera for the committee's recommendations will also be forwarded when available, but not later than Monday, June 17th.

Sincerely,

PAT ROBERTS, *Chairman.*

BRIEF EXPLANATION

The Food Stamp Reform and Commodity Distribution Act of 1996, as amended by the House Committee on Agriculture, is designed to reform and simplify the Food Stamp Program and to improve the Commodity Distribution Programs of the Department of Agriculture, and for other purposes.

SUBTITLE A—FOOD STAMP PROGRAM

- (1) reauthorizes and reforms the Food Stamp Program;
- (2) allows States to harmonize Food Stamp Program rules with those of the State Aid to Families with Dependent Children program for those receiving benefits from both programs;
- (3) provides for an annual increase in food stamp benefits, based on 100 percent of the thrifty food plan;
- (4) keeps certain income deductions at fiscal year 1996 levels;
- (5) keeps the threshold (\$4,600) above which the fair market value of vehicles is counted as an asset in determining food stamp eligibility at the fiscal year 1996 level;
- (6) requires able-bodied individuals between the ages of 18 and 50, with no dependents, to work at least 20 hours a week or participate in a State program for 4 months out of every 12 month period in order to continue to receive food stamps;
- (7) allows States to use food stamps in work supplementation or support programs where participants have the opportunity to achieve practical work experience;
- (8) increases penalties for trafficking and fraud;
- (9) provides that the same penalty for individuals failing to comply with the rules of a State welfare program would apply to food stamps;
- (10) encourages States to implement electronic benefit transfer (EBT) systems;
- (11) provides States with the option to operate the Food Stamp Program under a block grant if EBT operates statewide, or if the rate of error is reduced to acceptable levels, or if a State pays that part of the food stamp errors over acceptable levels.

SUBTITLE B—COMMODITY DISTRIBUTION PROGRAMS

- (1) consolidates USDA commodity distribution programs into one consolidated program, the emergency food assistance program (TEFAP);
- (2) provides \$300 million annually, beginning in fiscal year 1997, to purchase, process, store, and distribute commodities;
- (3) establishes guidelines for allocation of commodities among States, supplementation of commodities, and eligibility standards.
- (4) requires the Secretary of Agriculture to take precautions to ensure that commodities made available do not displace commercial sales.

SUBTITLE C—ELECTRONIC BENEFIT TRANSFER SYSTEMS

- (1) Exempts EBT systems that provide for distribution of means-tested benefits in States from the Regulation E requirements.

PURPOSE AND NEED

A. REFORM OF THE FOOD STAMP PROGRAM

Food Stamp Program

The Food Stamp Program began as pilot projects in 1961, by Presidential Executive Order under the authority to spend funds in order to support agriculture. In 1964, the administration proposed and Congress passed the Food Stamp Act. Eligibility standards were set by States, cities, and counties and they could choose to operate a Food Stamp Program or a food distribution program. As is the case now, the benefits were paid by the Federal Government. In 1971, uniform, national eligibility standards were set by Congress and the food stamp benefit was adjusted to reflect increases due to inflation. By 1975, amendments to the Food Stamp Act were adopted requiring that if the Food Stamp Program was in operation in any place in a State, it must be offered statewide. By this time the food distribution program was all but phased out.

In 1979, the Food Stamp Act of 1977 took effect, replacing the 1964 Act. The purchase requirement, through which participants had to pay a portion of their income, representing the expected contribution to their food costs, in order to receive a larger amount of food stamps, was eliminated. Because this action was determined to increase participation in the Food Stamp Program, Congress coupled this with restrictions on eligibility and benefits. The amount that could be spent on the Food Stamp Program was specifically limited through authorization ceilings. Nevertheless, the costs of the Food Stamp Program grew considerably. Congress acted to limit the growth through annual, rather than semi-annual inflation adjustments and established fiscal penalties for States with high rates of error. In 1981, the Food Stamp Program again was changed. Inflation adjustments were limited and the income eligibility standard was set at 130 percent of the poverty level. The growth of the program was slowed.

In 1984 and 1985, previous limitations were restored and benefits were increased. Further, in 1988, a 3 percent addition to the maximum food stamp benefit was enacted and benefits were further increased. Since that time the costs of the Food Stamp Program have continued to grow, due both to changes in the law, specifically the Omnibus Budget Reconciliation Act of 1993, and as a result of the automatic adjustments in several of the food stamp deductions and in the thrifty food plan.

Limiting automatic increases

The committee believes it is time to limit the automatic increases built into the Food Stamp Program. Therefore, the committee has stopped the automatic indexing of the standard deduction, the excess shelter deduction, and the homeless shelter allowance. The committee has provided for an annual increase in the thrifty food plan, the basis of food stamp benefits, based on 100 percent of the thrifty food plan, rather than the 103 percent of the thrifty food plan now in place.

Basic food stamp benefits are currently indexed each year to reflect the changes in the cost of the thrifty food plan. The annual increase in the thrifty food plan will continue to be automatically indexed, and will be set at 100 percent of the thrifty food plan.

The food stamp standard deduction (\$134 per month) will continue at the fiscal year 1996 level. The food stamp excess shelter deduction (\$247 per month) will continue at the fiscal year 1996 level. The food stamp homeless shelter deduction, now set by regulation at \$143 per month, will continue at the fiscal year 1996 level.

The standard deduction was introduced in the 1977 Food Stamp Act and it was to be adjusted based on increases in the Consumer Price Index for nonfood items. It was established to take the place of itemized deductions. The current excess shelter deduction was also introduced in the 1977 Food Stamp Act (the earlier program included a shelter deduction that was more generous than that included in the 1977 Act). The deduction provides flexibility for families subject to varying weather conditions and for increased rents. Shelter expenses, including utilities, to the extent they exceed 50 percent of a family's net income, after all other deductions, can be deducted as a shelter cost, up to a maximum. The 1993 Budget Reconciliation Act increased this deduction and eliminated the ceiling after fiscal year 1996.

Other deductions that are available to food stamp families include a deduction of 20 percent of earnings in recognition of taxes and work related expenses; dependent care expenses related to work or training up to \$200 for children under the age of 2 years and \$175 per month for all other dependents; medical expense deduction for elderly or disabled food stamp participants, to the extent medical expenses exceed \$35 per month, per person; and for the elderly and disabled an unlimited excess shelter expenses deduction is allowed. These deductions are not changed in the committee bill.

Vehicle allowance

The fair market value of vehicles is counted as an asset in determining food stamp eligibility, to the extent the value exceeds \$4,600 (total assets cannot exceed \$2,000 or \$3,000 for elderly persons). The \$4,600 threshold is scheduled to rise to \$5,000 in October 1996, and then be indexed for inflation. Also, the value of vehicles used to transport a food stamp household's fuel or water, if that is the primary source of fuel or water, is not counted in determining the total assets of a household. The October 1996, increase, and the indexing of the threshold are repealed.

The Omnibus Budget Reconciliation Act of 1993 expanded and indexed the fair market value of vehicles that can be owned by food stamp participants. The committee believes this is another example of indexing in the Food Stamp Program that can result in uncontrolled cost escalation.

Current food stamp law provides that certain vehicles are not counted at all in calculating eligibility for food stamp benefits. These vehicles include those used to produce income; necessary for long distance travel for migrant and seasonal workers; used for subsistence hunting or fishing; or needed for a physically disabled person. The fair market value of other vehicles is calculated and to the extent that value exceeds \$4,600, the amount over \$4,600 is attributed toward the resource limit of \$2,000. Therefore a family could have a vehicle with a fair market value of \$6,600, if there are no other liquid assets, and still retain eligibility for food stamps. Additionally, if a family has more than one vehicle, each valued under \$4,600, eligibility for food stamps will not be affected.

Simplified Food Stamp Program

The committee has determined that the Food Stamp Program will remain at the Federal level. Reform of the Aid to Families with Dependent Children (AFDC) program and other welfare programs will constitute significant changes in the provision of welfare. Until States have completed the transition to the reformed programs, food stamps should remain a Federal program, reformed, but still available to persons in need of food.

The committee believes it is essential to provide States with the ability to harmonize their new welfare program with the Food Stamp Program and has therefore provided States with considerable latitude to accomplish this task. Over the past several years many efforts have been made to allow States this option. Demonstration projects have been authorized, with some more successful than others. The 1981 Food Stamp and Commodity Distribution Amendments and the 1990 farm bill authorized demonstration projects to test various forms of a simplified process to determine eligibility and benefits for AFDC and food stamps.

The 1981 Simplified Application Demonstration Projects tested how different levels of standardization and simplification affect benefits, administrative costs, and errors in the Food Stamp Program. The demonstration projects centered on food stamp participants who also receive AFDC, Supplemental Security Income (SSI), and/or Medicaid. These simplified programs operated in Illinois, California, and Oklahoma. In Illinois, program simplification entailed assigning food stamp benefits to AFDC households based on

standard benefit tables under which all households within certain categories receive the same food stamp allotment. Three other demonstration sites adopted more limited forms of simplification. San Diego and Fresno Counties in California used AFDC income definitions for the Food Stamp Program. Oklahoma standardized the gross income level used to calculate food stamp benefits for households at the maximum AFDC payment for the households plus the household's "\$30 plus $\frac{1}{3}$ " AFDC earned income disregard. The demonstration projects authorized by the 1990 farm bill were not implemented. Three other States have implemented projects with similar characteristics, Alabama, Minnesota, and Washington.

The 1990 farm bill also established a Welfare Simplification and Coordination Advisory Committee. The members of that advisory committee were experts in the fields of public assistance programs, including food stamps, AFDC, medical assistance and housing programs and had demonstrated expertise in evaluating the operation of these programs and the interaction of these programs with one another. Representatives of State and local administrators and recipients were included as well. In June 1993, the advisory committee issued its report and recommended the replacement of the "numerous programs that currently serve the needy with one, family-focused, client-oriented, comprehensive program."

The committee believes it is time to provide States with the option of harmonizing their new AFDC program with the Food Stamp Program for those participants receiving assistance from both programs. The Food Stamp Program is reformed to make it possible for States to harmonize the eligibility and benefit determination standards for the new program and food stamps. States will have the option to establish one set of benefit rules for families applying for the new program and for food stamps. Penalties applied by the State program rules for work and program compliance will not result in an increase in food stamp benefits. States will be able to choose to apply the same penalties to food stamp benefits as are applied to other State welfare programs work and compliance requirements.

States will be able to define and count income and expenses for food stamp benefit purposes in the same way they do in their State program. They will be able to simplify rules, provide standard benefits varied by household size, area of residence, or other factors. The same procedural rules can be used for the State program and for food stamps (reporting of income, changes in household circumstances, verification standards) as long as a State provides notice of changes in benefits and a fair hearing process.

The committee intends that USDA can refuse to approve a State food stamp simplification plan only if it is judged to increase Federal food stamp costs or fails to include adequate notice and fair hearing rights and certain other provisions of current food stamp law.

The Federal Government operates a multitude of assistance programs which are under the jurisdiction of different Federal agencies and in some cases different State and local agencies. For major income and food assistance programs, this lack of coordination and resolution of the differences among programs is troublesome. The committee considers the simplified Food Stamp Program a first

step in the process of coordination. Further steps will be considered as the States continue the process of implementing reform of the overall welfare system.

Work requirements and program options in the Food Stamp Program

The committee believes that able-bodied participants with no dependents, between the ages of 18 and 50 years, must be required work or be in a training program. These persons will be ineligible for food stamps after 4 months, out of a 12 month period, unless they are employed at least 20 hours per week in a job; are in a training program for at least 20 hours per week, or participate in workfare.

The committee intends that, for 20 hours per week, able-bodied persons between the ages of 18 and 50, with no dependents, should be working; be in a program under the Job Training Partnership Act; be in a program under the Trade Adjustment Act; or be in a program of employment and training that meets the standards set by the Governor. These persons may also meet the work requirement by participating in workfare programs.

The committee understands that there may be instances in which high unemployment rates in all or part of a State or other specified circumstances may limit the jobs available for able-bodied food stamp participants between 18 and 50 years with no dependents. Therefore the Secretary, upon request from a State, is provided with the authority to waive job requirements in these circumstances or if unemployment rates are above 10 percent. The committee intends that the Secretary, in exercising this authority, will provide the Agriculture Committees of the House of Representatives and the Senate with the rationale for such a decision.

The committee has provided States with new money (food stamp benefits) to give employers who would, in turn, pay it, in lieu of food coupons, to food stamp recipients to participate in work supplementation or support programs. Such programs include those in which public assistance benefits, including food stamps, are provided to employers who hire public assistance recipients. The benefits pay part of the wages. These programs must meet standards set by the Secretary. Several States, including Oregon and Mississippi, have indicated interest in these types of work programs. The committee expects that the Secretary will keep the committee informed at regular intervals as to the progress of these work supplementation or support programs.

Food Stamp Program integrity

The incidence of fraud and the resulting losses to the Food Stamp Program are steadily increasing as the number of Food Stamp Program participants and the total value of benefits received increase. In fiscal year 1996, it is estimated that the Food Stamp Program will cost over \$26 billion and food stamp benefits will be issued to a monthly average of more than 27 million recipients.

Fraud occurs in the Food Stamp Program in three different ways. The first method of fraud is in the certification and issuance of benefits. USDA estimates that \$1.8 billion in food stamp benefits were

overissued to recipients in fiscal year 1994. Of this total, about \$414 million was issued to recipients as a result of fraud. The rest was the result of unintentional recipient error and caseworker error.

Recipient fraud varies from the intentional under-reporting of income or inflation of household expenses to elaborate schemes involving the creation of false documents and fictitious identities. The committee heard testimony describing a recent incident in the State of Washington in which two State welfare caseworkers and a refugee counselor were engaged in a scheme to fraudulently obtain social security and food stamp benefits for at least 300 refugees. The false food stamp applications were prompted by the refugee counselor and the caseworkers, who took kickbacks from the refugees in return for their being certified to receive benefits.

The second method of fraud is street trafficking in food stamp coupons. Street trafficking involves a person who sells, purchases, or barter food stamps for cash or other nonfood items. In many communities, food stamps have become a second currency. The committee heard reports and witnessed undercover video footage of food stamps being traded for cash, drugs, guns, and a stolen car.

The committee also heard reports that it was not uncommon for food stamp traffickers to be a part of other criminal enterprises, such as theft and fencing rings or drug trafficking operations. In Smithfield, North Carolina, OIG agents and other law enforcement officers successfully penetrated an organized drug trafficking ring that was transporting large quantities of "crack" cocaine from Florida to Smithfield. During the investigation, OIG documented members of the gang exchanging cocaine on numerous occasions for over \$23,000 in food stamps. In Los Angeles, an undercover OIG agent contacted a street trafficker who agreed to buy \$30,000 in food stamps from the agent. A subsequent search of the trafficker's residence and automobile uncovered an additional \$82,000 in food stamps that had been improperly acquired from recipients.

The third method of fraud is retail food store and wholesale food concern trafficking. USDA is responsible for authorizing retail food stores and wholesale food concerns to redeem food stamps. Currently, over 207,000 retail food stores and wholesale food concerns are authorized to redeem food stamps. Each year, about 30,000 new entities apply for authorization. Also, each year about 30,000 entities are disqualified or become ineligible to redeem food stamps. Approximately 77 percent of all food stamps are redeemed by supermarkets which comprise only about 15 percent of all authorized entities. USDA has found that most retail trafficking occurs in smaller food stores and in other retail entities whose business is not primarily food sales. During fiscal year 1994, USDA compliance investigators reviewed 4,300 entities authorized to redeem food stamps. Of these entities, 1,300 were found to have committed violations serious enough to warrant sanctions, including 902 entities which were trafficking in food stamps.

While neither USDA, OIG, nor GAO can provide an estimate with any certainty as to the amount of food stamp trafficking that occurs each year, trafficking in food stamps is believed by OIG to exceed \$1 billion each year. Clearly, the number of trafficking investigations involving multi-million dollar food stamp trafficking

operations and the organization with which such operations are operating is on the rise. The committee heard testimony of a case in Brooklyn, New York, in which investigators found an individual who had obtained authorization to redeem food stamps from USDA for a fictitious retail store. In a 22-month period, this fictitious store illegally accepted more than \$40 million in food stamps from over 600 restaurants, retail stores, and other businesses. In 1 month alone, this fictitious store illegally redeemed over \$4.7 million in food stamps, nearly 5 percent of all food stamps redeemed that month in New York City.

Electronic benefit transfer systems (EBT) systems have the potential to reduce but not eliminate trafficking and fraud in the Food Stamp Program. EBT has the potential to severely curtail street trafficking because such systems can only be used in conjunction with an authorized point-of-sale terminal at an authorized retail food store or wholesale food concern. EBT, however, is still susceptible to trafficking and fraud by retail food stores and wholesale food concerns. The committee heard testimony from OIG detailing a trafficking operation using EBT in Baltimore, Maryland, in which two small retailers at an indoor market trafficked over \$1.2 million in food stamp benefits. EBT data, however, assists investigators in detecting traffickers and provides evidence assisting in their prosecution. Additionally, EBT provides investigators with detailed records identifying recipients who traffic in food stamps and assists in prosecuting or disqualifying these individuals.

To combat recipient fraud, the committee believes that the disqualification periods for recipients for intentional program violations should be increased from 6 months to 1 year for the first offense and increased from 1 year to 2 years for the second offense. To combat recipient trafficking, the committee believes that recipients who are convicted of trafficking food stamps with a value of over \$500 should be permanently disqualified from the program. Additionally, the committee believes that States should be required to participate in the Federal Tax Refund Offset Program to collect outstanding food stamp claims. Also, existing authority for States to collect overissued food stamp benefits is greatly expanded.

To combat trafficking by retail food stores and wholesale food concerns, the committee believes that USDA, or an agent of USDA, should visit each retail food store or wholesale food concern, or may elicit the assistance of State or local agency before granting authorization to redeem food stamps. The committee believes that initial authorization should be for a limited period and that retail food stores and wholesale food concerns should be prohibited from submitting a new application for 6 months after a denial of an application for authorization to redeem food stamps. The committee believes that where an authorized retail food store or wholesale food concern is permanently disqualified, such disqualification should be effective from the date of receipt of the notice of disqualification pending any administrative or judicial review. The committee also believes that a retail food store or wholesale food concern disqualified from the Special Supplemental Food Program for Women, Infants, and Children also should be disqualified from the Food Stamp Program during such disqualifications. Finally, the committee believes that all property used to traffic in food stamps and pro-

ceeds traceable to any property used to traffic in food stamps should be subject to criminal forfeiture.

B. COMMODITY DISTRIBUTION PROGRAMS

Two commodity distribution programs are consolidated to provide for greater program efficiency and the amount of money provided for the new consolidated program is increased so that food will continue to be provided to needy families. Commodity distribution programs provide help directly to families at the local level through churches, soup kitchens and food banks. Other community organizations that provide help through the donation of food include battered women's shelters, homeless shelters and food pantries. The food provided through commodity distribution programs is often matched and exceeded by contributions from private sector sources, such as grocery stores, food processors and manufacturers, and farmers.

USDA currently operates several commodity distribution programs, two of which are consolidated into one program, thereby establishing one administrative structure. The essential nature of the programs is maintained. Persons and organizations operating food banks, soup kitchens, and other similar operations will continue to receive Federal commodities and administrative funds. The purpose of the consolidated program is to provide wholesome food for needy people and to assist farmers through the donation of federally purchased and donated commodities. This program will provide wholesome, nutritious food to needy families in temporary need due to emergencies or natural disasters or as a supplement to other programs.

The following programs are consolidated to provide food for distribution to needy individuals and families:

The Emergency Food Assistance Program (TEFAP)—State and local emergency feeding organizations receive federally donated commodities (some purchased and some surplus commodities) and administrative funding. Assistance varies with the availability of commodities but all States operate TEFAP. TEFAP began in December 1981. Congress authorized the program in 1983 and it is currently authorized through 2002.

The Soup Kitchen and Food Bank Program.—This program provides for the purchase and distribution of commodities to soup kitchens and food banks, with priority given to those organizations providing meals for homeless people. It was initiated in the 1988 Hunger Prevention Act. The 1990 Farm Bill reauthorized this program at an authorized level of \$32 million for 1991 and \$40 million for the following years.

Other programs providing commodity assistance to needy persons and families include:

Assistance for summer camps and charitable institutions.—The Secretary of Agriculture has the discretion to provide commodities to charitable institutions and summer camps. Surplus commodities are provided when no other outlet is available. The types of organizations receiving commodities are churches, orphanages, correctional institutions, homes for elderly and hospitals. Only nonprofit, tax-exempt organizations and correctional facilities that offer rehabilitation services are eligible.

Commodity Supplemental Food Program (CSFP).—CSFP began in 1968 as a program for supplemental food for women, infants, and children. In 1981 it was expanded to include elderly persons. Foods are purchased directly by USDA and distributed through State and local agencies. Approximately 400,000 people are provided benefits, half elderly and half women, infants and children. This program operates in 20 States with a total of 60 CSFP sites.

Commodity distribution programs serve several purposes. They provide food assistance directly to children, the elderly, the needy, the homeless and women and children at nutrition risk. They help farmers by providing the bounty of nutritious food to others in need. They also enable the Federal Government to dispose of commodity holdings that might otherwise be wasted.

The committee believes that commodity distribution programs are essential and are the first line of defense so that communities can help families in immediate need without the bureaucratic red tape required by other food assistance programs. Therefore the committee requires that the Secretary annually purchase \$300 million of commodities to distribute through the consolidated commodity distribution program (TEFAP) beginning in fiscal year 1997.

C. ELECTRONIC BENEFIT TRANSFER (EBT) ENCOURAGEMENT

The committee believes that EBT systems, in which food stamp benefits are provided through a debit card system instead of coupons, is the preferred choice of delivering food benefits. The Inspector General of USDA, in his testimony of February 1, 1995, before the committee, made it clear that EBT systems, while not eliminating trafficking in food stamps, were superior to coupons and a tool that can be used in tracking down persons abusing the Food Stamp Program.

For more than 10 years USDA, at the direction of Congress, has been investigating the feasibility, cost-effectiveness, and general impact of using an electronic benefit transfer (EBT) system to issue food stamp benefits. Paper coupons are replaced and recipients use a debit-like card at the grocery store check-out. Counties in several States, including Pennsylvania, Minnesota, New Mexico, and New Jersey have implemented EBT and Maryland, Texas, Utah, and South Carolina have EBT systems statewide.

USDA has found that EBT administrative costs are lower than coupon issuance costs; that food stamp benefit loss and trafficking are reduced; grocery store costs are reduced; food stamp participants prefer EBT; and financial institutions also prefer EBT and their costs are reduced.

Law enforcement officials have spoken in favor of EBT because it provides an electronic trail of abuses in the program. Trafficking is not eliminated under an EBT system; however, incidental street trafficking is reduced considerably.

The committee bill encourages States to go forward with EBT and allows them to design their own program, under the standards of USDA.

The committee is concerned that because of the standards adopted by the Federal Reserve Board in 1994 governing its Regulation E, and which become effective in March of 1997, States are receiving conflicting messages on implementation of EBT systems for the

Food Stamp Program. The committee stresses its encouragement of the advancement of EBT systems and is concerned that the increased liability and higher administrative costs under the Federal Reserve Board's 1994 decision may retard progress. Therefore Regulation E will not apply to means-tested programs, including the Food Stamp Program.

To further encourage adoption of EBT systems, once a State has implemented EBT on a statewide basis, that State will have the option of operating a Food Stamp Program under a block grant. Food stamp EBT benefits will be redeemable only for food.

SECTION-BY-SECTION

SUBTITLE A—FOOD STAMP PROGRAM

Section 1001. Short title

This title is cited as the Food Stamp Reform and Commodity Distribution Act of 1996.

Section 1011. Definition of a certification period

Food stamp certification periods cannot exceed 12 months. States are allowed to establish certification periods of up to 24 months for households with members that are elderly or disabled. States must have at least one contact with the household every 12 months.

Section 1012. Definition of coupon

The definition of a "coupon" is revised to include authorization cards, cash, or checks issued in lieu of coupons and "access devices" for electronic benefit transfer systems. This expands the types of items to which trafficking penalties apply.

Section 1013. Treatment of children living at home

Parents and their children 21 years of age or younger living together (current law), including children who are parents living with their children and children who are married and living with their spouses, must apply for food stamps as a single household.

Section 1014. Optional additional criteria for separate household determinations

States are allowed to set criteria that prescribe when individuals living together, and otherwise would be allowed to apply for food stamps as a separate household, must apply as a single household.

Section 1015. Adjustment of thrifty food plan

The maximum monthly food stamp benefits are set at 100 percent of the cost of the thrifty food plan, effective October 1, 1996, and adjusted annually, as under existing law. The October 1, 1996, adjustment will not reduce maximum benefit levels.

Section 1016. Definition of homeless individual

Persons whose primary residence is a temporary accommodation in the home of another may only be considered homeless if the accommodation is for no more than 90 days.

Section 1017. State option for eligibility standards

States are allowed, as provided in other sections of this Act, to set nonuniform standards of food stamp eligibility.

Section 1018. Earnings of students

The earnings of an elementary/secondary student must be counted as income for food stamp purposes once the student is 20 years or older.

Section 1019. Energy assistance

State and local energy assistance payments will be considered as income in the Food Stamp Program. A one-time payment under a Federal or State law for the costs of weatherization or emergency repair of heating or cooling devices will not be considered as income. Benefits paid under the low income home energy assistance program (LIHEAP) and HUD utility allowances will be considered as income. Payments made by LIHEAP or any other energy assistance program counted as income, whether paid directly or indirectly, are considered an out-of-pocket expense and the household may receive a shelter expense deduction for utility costs.

Section 1020. Deductions from income

The standard deduction will continue at the fiscal year 1996 level (\$134/month for the 48 States and the District of Columbia, \$229 for Alaska, \$189 for Hawaii, \$269 for Guam, and \$118 for the Virgin Islands).

An earned income deduction will not be allowed for any income not reported in a timely manner (the deduction is not allowed in determining the amount of any overissued food stamp benefits) and will be denied for the public assistance portion of income earned under a work supplementation/support program.

The homeless shelter allowance is set at the October 1995 level of \$143/month. This allowance must be used in establishing homeless households' excess shelter expense deduction when they do not receive free shelter throughout the month. States may prohibit use of the allowance for households with extremely low shelter costs.

The excess shelter deduction is set at the October 1995 level (\$247/month for the 48 States and the District of Columbia, \$429 for Alaska, \$353 for Hawaii, \$300 for Guam, and \$182 for the Virgin Islands).

Section 1021. Vehicle allowance

The threshold above which the fair market value of a vehicle is counted as an asset for determining eligibility for the Food Stamp Program is set at \$4,600.

Section 1022. Vendor payments for transitional housing counted as income

Payments from regular welfare benefits made on behalf of households in transitional housing are no longer disregarded as income.

Section 1023. Doubled penalties for violating Food Stamp Program requirements

The disqualification penalty for the first intentional violation of program requirements is increased to 1 year. The disqualification penalty for the second intentional violation (and the first violation involving trading of a controlled substance) is increased to 2 years.

Section 1024. Disqualification of convicted individuals

Persons convicted of trafficking in food stamp benefits, where the benefits trafficked have a value of \$500 or more, are permanently disqualified from the Food Stamp Program.

Section 1025. Disqualification

This section adds to the current rules governing disqualification for violation of work and employment/training requirements. Existing provisions for disqualification (job refusal and failure to participate in an employment/training program) are expanded to make ineligible (1) individuals refusing without good cause to provide sufficient information to allow a determination of employment status or job availability; (2) all individuals who voluntarily and without good cause quit a job; and (3) individuals who voluntarily and without good cause reduce their work effort and, after the reduction, are working less than 30 hours per week.

If any individual who is the head of the household is disqualified under a work rule, the entire household, at the option of a State, will be ineligible for the lesser of the duration of the individual's ineligibility or 180 days.

New mandatory minimum work disqualification periods are set. For the first violation, individuals will be ineligible until the later of the date the work rules are fulfilled, for 1 month, or a period to be determined by the State but not to exceed 3 months. For the second violation, individuals will be ineligible until the later of the date they fulfill the work rules, for 3 months, or a period to be determined by the State but not to exceed 6 months. For the third or subsequent violation, individuals will be ineligible until the later of the date they fulfill work rules, for 6 months, or a date determined by the State, or permanently at the option of the State. The same disqualification periods apply to those failing to meet any workfare requirements.

The Secretary is responsible for determining the definition of good cause, voluntary quit, and reduction of work effort. States will determine the definition of other terms and the procedures for making compliance decisions; however, they cannot be less restrictive than a comparable definition or procedure under the State's AFDC program. States must include a description of the standards and procedures in their State plans.

Section 1026. Caretaker exemption

Parents or other household members with responsibility for the care of a dependent child under the age of 1 are exempt from food stamp work rules, at State option.

Section 1027. Employment and training

The requirements for State-operated employment/training programs are revised as follows:

- (1) work experience is added to the purpose of employment/training programs;
- (2) each component of an employment/training program must be delivered through a “statewide work-force development system,” unless it is not available locally;
- (3) States may apply all work rules to food stamp applicants, not only job search rules;
- (4) specific rules governing job search components are removed;
- (5) eliminates provisions for components related to work experience requiring that they be in public service work and use food stamp recipients’ prior training and experience;
- (6) eliminates specific Federal rules regarding States’ authority to exempt categories and individuals from employment/training rules;
- (7) eliminates the requirement to serve volunteers in employment/training programs;
- (8) eliminates the rule for “conciliation procedures” for resolution of disputes involving participation in the employment/training program;
- (9) limits funding provided by the Food Stamp Program for services to AFDC recipients to the amount used by a State in fiscal year 1995; and
- (10) eliminates Federal performance standards.

The Secretary is required to reserve, from Food Stamp Program funding, the following amounts for employment/training programs:

[In millions of dollars]

Fiscal year:	
1997	79
1998	81
1999	84
2000	86
2001	88
2002	90

Allocations are to be based on a reasonable formula, determined by the Secretary, giving consideration to the States’ share of the populations affected by the work requirements. Minimum State allocations are set at \$50,000.

Section 1028. Comparable treatment for disqualification

Individuals disqualified for failure to perform an action required under a federal, State, or local means-tested public assistance program are also disqualified from food stamps, at the State’s option. States may use AFDC rules and procedures to impose the same disqualification for food stamps. Individuals disqualified from food stamps due to failure to perform a required action under another means-tested public assistance program may apply for food stamps after the disqualification period has expired; however, a prior disqualification period under food stamp work rules must be considered in determining eligibility. States must include the guidelines

used to carry out these food stamp disqualification provisions in their State plans.

Section 1029. Disqualification for receipt of multiple food stamp benefits

Individuals found to have fraudulently misrepresented their place of residence or identity in order to receive multiple food stamp benefits are disqualified from the Food Stamp Program for 10 years.

Section 1030. Disqualification of fleeing felons

Individuals, while they are (1) fleeing to avoid prosecution or custody after a conviction for a felony (or an attempt) or (2) violating a condition of parole under Federal or State law, are disqualified from participation in the Food Stamp Program.

Section 1031. Cooperation with child support agencies

States are allowed to disqualify custodial parents of children under the age of 18 years who have an absent parent, unless the custodial parent cooperates with the State in establishing the child's paternity and obtaining support for the child. Cooperation is not required if the State finds there is good cause for failure to cooperate. Fees and other costs for services can not be charged.

States are allowed to disqualify putative or noncustodial parents of children under the age of 18 years if they refuse to cooperate with the State in establishing the child's paternity and providing support for the child. The Secretary of Agriculture and the Secretary of HHS will develop guidelines for what constitutes a refusal to cooperate and States will develop procedures to determine whether there is a refusal to cooperate. Fees and other costs for services can not be charged. States are required to provide safeguards to restrict the use of information collected by the State to the purposes for which it was collected.

Section 1032. Disqualification relating to child support arrears

States may disqualify individuals under a court child support order during any period in which the individual has an unpaid liability, unless the court is allowing delayed payments.

Section 1033. Work requirement

Able-bodied persons between 18 years and 50 years who have no children or are not responsible for the care of others are ineligible if, during the prior 12-month period, they received food stamps for 4 months or more while not working 20 hours per week or more; or participating in a work program (such as the Jobs Training Partnership Act, the Trade Adjustment Assistance Act, or employment and training programs operated or supervised by a State meeting standards approved by the Governor, but not including job search or job search training programs) for at least 20 hours per week, or participating in a workfare program.

The disqualification ceases to apply if, during any 30-day period, an individual works 80 hours or more; participates in and complies with a work program for at least 80 hours; or participates in a workfare program. In the subsequent 12-month period, an individ-

ual is eligible for food stamps for up to 4 months while not working for at least 20 hours per week; participating in a work program for at least 20 hours per week; or participating in a workfare program.

Upon a State request, the Secretary is allowed to waive application of this work requirement for some or all individuals in part or all of a State if the Secretary determines that the area unemployment rate is over 10 percent or if there are insufficient jobs to provide employment for those subject to this requirement. The Secretary is required to report to the Agriculture Committees on all waivers granted.

Section 1034. Encourage electronic benefit transfer systems

States are encouraged to implement an electronic benefit transfer (EBT) system as soon as practicable. States are required to implement EBT before October 1, 2002, unless the Secretary waives the requirement because a State faces unusual barriers to implementation. Subject to Federal standards, States are allowed to procure and implement an EBT system under terms, conditions, and designs that they consider appropriate. A requirement for Federal procurement standards is added. EBT standards must follow generally accepted standard operating rules based on commercial technology; permit interstate operation; and permit monitoring and investigations by authorized law enforcement officials.

Regulations regarding replacement of benefits under an EBT system must be similar to those in effect for a paper-based food stamp issuance system.

EBT systems must be cost neutral; include measures to maximize the security of the EBT system; and include provisions allowing EBT systems to differentiate among food items, to the extent practicable.

States may charge food stamp participants for the cost of replacing a lost or stolen EBT card and may collect the charge by reducing the participant's food stamp benefit. States may require that EBT cards contain a photograph of one or more household members. If States require such a photograph, the States must establish procedures to ensure that other appropriate members of the food stamp household and authorized representatives may use the EBT card.

The anti-tying restrictions of the Bank Holding Company Act Amendments of 1970 will apply to electronic benefit transfer (EBT) services offered by nonbanks. Banks providing EBT services are subject to the anti-tying restrictions of section 106 of the Bank Holding Company Act Amendments of 1970. Bank holding companies and their subsidiaries that are not banks also are subject to the restrictions contained in section 106 pursuant to regulations promulgated by the Federal Reserve Board. This provision extends these restrictions to nonbanks that provide EBT services.

Section 1035. Value of minimum allotment

The minimum monthly allotment for 1- and 2-person households continues to be set at \$10.

Section 1036. Benefits on recertification

Food stamp participants who do not complete all the requirements for eligibility recertification in the last month of their certification periods, but were then determined eligible after their certification periods had expired, will receive reduced benefits in the first month of their new certification periods (i.e., their benefits will be prorated to the date they met the requirements and were again judged eligible). The 1-month “grace period” to fulfill eligibility recertification requirements during which benefits would not be subject to a prorata reduction is eliminated.

Section 1037. Optional combined allotment for expedited households

States may provide food stamp households, applying after the 15th of the month, an allotment that is an aggregate of the initial (pro-rated) benefit and the first regular monthly allotment. This provision applies to both regular and expedited service applications.

Section 1038. Failure to comply with other means-tested public assistance Programs

Food stamp benefits may not be increased when benefits received through federal, State, or local means-tested public assistance programs are reduced due to a failure to perform a required action. States may also reduce the food stamp household benefit by an amount up to 25 percent. If the food stamp benefit is reduced due to a failure to perform an action required under the State’s AFDC program, the State may use the rules of that program to reduce the food stamp benefit.

Section 1039. Allotments for households residing in centers

States are allowed to divide monthly food stamp benefits between the participant who was a resident of a drug or alcohol treatment center and then leaves the center and the drug or alcohol treatment center. States may require residents of these centers to designate the centers as authorized representatives.

Section 1040. Condition precedent for approval of retail food stores and wholesale food concerns

Retail food stores and wholesale food concerns can not be approved for participation in the Food Stamp Program unless a visit is made to the store by an appropriate person. The types of stores included in this requirement will be determined by the Secretary based on factors that include size, location, and type of items sold.

Section 1041. Authority to establish authorization periods

The Secretary is required to establish specific time periods during which retail food stores or a wholesale food concerns’ authorization to accept and redeem food stamp benefits (or EBT) will be valid.

Section 1042. Information for verifying eligibility for authorization

The Secretary is allowed to require that food retailers and wholesalers seeking approval must submit relevant income and sales tax filing documents. Also, the Secretary is allowed to issue regulations

requiring food retailers and wholesalers to provide written authorization to the Secretary to verify tax filings and to obtain corroborating documentation from other sources in order to verify the accuracy of the information provided by food retailers and wholesalers.

Section 1043. Waiting period for stores that fail to meet authorization criteria

Retail food stores and wholesale food concerns that fail to be approved for participation in the Food Stamp Program will not be allowed to submit a new application for 6 months. The Secretary may establish longer waiting periods, including permanent disqualification, that reflect the severity of the basis for denial.

Section 1044. Operation of food stamp offices

The requirements for States' plans for operation of the Food Stamp Program are replaced as follows: A State must (1) establish procedures governing operation of the food stamp offices that it determines best serves households in the State, including those with special needs; (2) provide timely, accurate, and fair service to applicants and participants; (3) allow applicants to apply and participate on the same day they first contact the food stamp office during office hours; (4) consider an application filed on the day the applicant submits an application that contains the applicant's name, address, and signature; (5) require applicants to certify in writing as to the truth of information on the application; (6) stipulate that the signature of a single adult is sufficient; (7) have methods for certifying homeless households; and (8) ensure that electronic storage of information is allowed.

States may establish operating procedures that vary for local food stamp offices to reflect regional and local differences.

States may disqualify food stamp participants based on another public assistance program's rules for disqualification for failure to comply with those rules.

Section 1045. State employee and training standards

Existing provisions for merit system standards are retained. A technical change to reflect the current Federal agency is made.

Section 1046. Exchange of law enforcement information

States must make available to law enforcement officials the address, social security number, and (when available) the photograph of a food stamp recipient if the law enforcement official furnishes the recipient's name and notifies the agency that the individuals if fleeing to avoid prosecution or custody for a felony crime (or attempt); that the location or apprehension of the individual is within the official's duties; and the request is within the proper exercise of official duties. The requested information must be related to the apprehension of a felon or parolee.

Section 1047. Expedited coupon service

The period in which expedited food stamp benefits must be provided is increased to 7 (from 5) calendar days.

Section 1048. Withdrawing fair hearing requests

States may allow food stamp households to withdraw fair hearing requests either orally or in writing.

Section 1049. Income, eligibility, and immigration status verification systems

The use of income and eligibility and immigration status verification systems established under the Social Security Act is made optional with the States.

Section 1050. Disqualification of retailers who intentionally submit falsified applications

The Secretary may disqualify retail food stores or wholesale food concerns, including permanent disqualification, when the store or concern knowingly submits false information on the application.

Section 1051. Disqualification of retailers who are disqualified under the WIC Program

The Secretary is required to issue regulations providing criteria for disqualifying retail food stores and wholesale food concerns from participation in the Food Stamp Program once they are disqualified from the WIC program. This food stamp disqualification is not subject to food stamp rules regarding judicial or administrative review.

Section 1052. Collection of overissuances

Existing overissuance collection rules are replaced. States must collect any overissuance of food stamp benefits by reducing future benefits, withholding unemployment compensation, recovering from Federal pay or income tax refunds, or any other means, unless the Secretary demonstrates that all of the means are not cost effective. Benefit reductions are limited to 10 percent of the monthly benefit or \$10 per month.

States may retain 25 percent of overissuances collected (other than those caused by a State agency error).

Section 1053. Authority to suspend stores violating program requirements pending administrative and judicial review

Permanent disqualification of a store or wholesale food concern will be effective from the date the notice of disqualification is received. If the disqualification is reversed through administrative or judicial review, the Secretary is not liable for the value of lost sales during the disqualification period.

Section 1054. Expanded criminal forfeiture for violations

This section establishes criminal forfeiture rules. Courts are required, in imposing sentences on those convicted of trafficking in food stamps to order that the person forfeit property to the United States. Property subject to forfeiture includes all property used in the transaction to commit a trafficking violation. Proceeds traceable to the violation are subject to forfeiture. An owner's property interest is not subject to forfeiture if the owner establishes that the violation was committed without the owner's knowledge or consent.

The proceeds from any sale of forfeited property and any money forfeited will be used to reimburse the Justice Department, to reimburse the Agriculture Department's Office of Inspector General, to reimburse Federal or State law enforcement agencies and to be provided to the Secretary to carry out approval of stores, reauthorizations of stores and compliance activities.

Section 1055. Limitation of Federal match

Federal reimbursement to States for informational (outreach) activities is not available for "recruitment activities."

Section 1056. Standards for administration

The requirement that the Secretary establish standards for efficient and effective administration of the Food Stamp Program is eliminated.

Section 1057. Work supplementation or support program

States are allowed to operate a work supplementation or support program, under which public assistance benefits, including food stamps, are provided to employers who hire recipients and then are used to pay part of their wages. Work supplementation or support programs must meet standards set by the Secretary. The food stamp portion cannot be considered income for other purposes and the household of the work supplementation participants cannot receive regular food stamps while the household member is in such a work program. States must describe how food stamp participants will be moved into jobs that are not supplemented or supported within a specific time frame and the program is available for new employees only.

States must describe work supplementation or support programs in their State plans of operation.

Section 1058. Waiver authority

Existing waiver authority is revised and authority is provided to the Secretary to conduct pilot or experimental projects and waive the Food Stamp Act as long as projects are consistent with the goals of the program and provides food for needy families. The Secretary is permitted to conduct projects that will improve administration of the program; increase self-sufficiency of food stamp participants; test innovative welfare reform strategies; or allow greater conformity among public assistance programs.

The Secretary may not conduct additional projects that involve issuing food stamp benefits in the form of cash; substantially transfer program benefits to other public assistance programs; or conduct projects not limited to specific time periods.

Section 1059. Response to waivers

Not later than 60 days after receipt of a request for a waiver so that a State may conduct a demonstration project, the Secretary must either approve the request; deny the request and explain any modifications needed for approval; deny the request and explain the grounds for denial; or ask for clarification of the request. If the Secretary does not respond within 60 days, the waiver is considered approved. Denials of waiver requests and the basis for the de-

nial must be provided by the Secretary to the House and Senate Agriculture Committees.

Section 1060. Employment Initiatives Program

States may operate private sector employment initiatives under which food stamp benefits may be paid in cash to certain households. States are eligible to operate this initiative if not less than 50 percent of the households in the State that received food stamps in the summer of 1993 also received AFDC benefits and if the State agrees to increase benefits, at the States' expense, to compensate for State or local sales taxes on food. Households are eligible to receive cash in lieu of food stamps if an adult member selects this option and (1) has worked in a nonsubsidized job for not less than the 90 preceding days; (2) has earned not less than \$350 a month from that employment; (3) is eligible to receive AFDC (or was eligible when the cash payments were first received but is no longer eligible because of earned income); and (4) is continuing to earn not less than \$350 a month from the employment.

States operating a private sector employment initiative program for 2 years must provide a written evaluation of the impact of cash assistance to the Secretary.

Section 1061. Reauthorization

The Food Stamp Program is reauthorized through fiscal year 2002.

Section 1062. Simplified Food Stamp Program

States may elect to carry out a simplified Food Stamp Program in all or part of a State for households in which all members receive AFDC. States may operate the simplified Food Stamp Program using the rules of the States' AFDC program, the Food Stamp Program, or a combination of both programs. States must, at a minimum, comply with the following Food Stamp Program rules:

- (1) requirements governing issuance procedures;
- (2) the requirement that benefits be calculated by subtracting 30 percent of a household's income (as determined by State established, not federal, rules under the simplified program option) from the maximum food stamp benefit;
- (3) the bar against counting food stamp benefits as income or resources in other programs;
- (4) the requirements that State agencies assume responsibility for eligibility certification and issuance of benefits and keep records for inspection and audit;
- (5) the bar against discrimination by reason or race, sex, religious creed, national origin, or politics;
- (6) requirements related to submission and approval of plans of operation and administration of the Food Stamp Program on Indian reservations;
- (7) limits on the use and disclosure of information about food stamp households;
- (8) requirements for notice to and fair hearings for aggrieved households (or comparable requirements established by the State under its AFDC program);

(9) requirements for submission of reports and other information required by the Secretary;

(10) the requirement to report illegal aliens to the Immigration and Naturalization Service;

(11) requirements for use of certain Federal and State data sources in verifying food stamp participants' eligibility;

(12) requirements to take measures to ensure that households are not receiving duplicate benefits; and

(13) requirements for the provision of social security numbers as a condition of eligibility and for their use by State agencies.

States are allowed to standardize food stamp deductions and must not increase food stamp benefits when other public assistance benefits are decreased.

States electing to operate a simplified Food Stamp Program must include in their State plans the rules and procedures to be followed in determining benefits under the option; how they will address the needs of households with high shelter costs; and a description of the method by which States will carry out its quality control obligations.

Section 1063. State Food Assistance Block Grant

States that meet one of three conditions may elect to receive an annual block grant to operate a food assistance program for needy persons in lieu of the Food Stamp Program. Eligible States may opt for a block grant at any time, but, if the State chooses to withdraw from the block grant or is disqualified, it may not again opt for a block grant. Eligible States include:

(1) those that have fully implemented a statewide electronic benefit transfer (EBT) system;

(2) those for which the dollar value of erroneous benefit and eligibility determinations (overpayments, payments to ineligible, and underpayments) in the Food Stamp Program or their food assistance block grant program is 6 percent of benefits issued or less (a "payment error rate" of 6 percent or less); and

(3) those with a payment error rate higher than 6 percent that agree to contribute, from nonfederal sources, a dollar amount equal to the difference between their payment error rate and a 6 percent rate to pay for benefits and administration of their food assistance block grant program. A State's payment error rate for block grant purposes is the most recent rate available, as determined by the Secretary.

States electing a block grant are provided an annual grant equal to:

(1) the greater of the fiscal year 1994 amount received as food stamp benefits or the 1992–1994 average received as food stamp benefits, and

(2) the greater of the fiscal year 1994 Federal share of administrative costs or the 1992–1994 average received as the Federal share of administrative costs.

However, grants to States with payment error rates above 6 percent would be reduced by the amount they are required to contribute (the dollar amount equal to the difference between their payment error rate and a 6 percent rate). In general, block grant pay-

ments must be expended in the fiscal year for which they were distributed; but, States may reserve up to 10 percent per year, up to a total of 30 percent of the block grant. If total allotments for a fiscal year exceed the amount of funds available to provide them, the Secretary is required to reduce allotments on a pro-rata basis as necessary. Grant payments will be made by issuing letters of credit.

Block grant funding may only be used for food assistance and administrative costs related to its provision and, in each fiscal year, not more than 6 percent of total funds expended (including State funds required to be spent) may be used for administrative costs.

Each participating block grant State is required to maintain a food stamp quality control program to measure erroneous benefit and eligibility determinations, and block grant States will continue to be subject to the Food Stamp Program's quality control system (including eligibility for incentive payments and imposition of fiscal sanctions for high payment error rates). Each participating State is required to implement an employment and training program under Food Stamp Act terms and conditions and is eligible to receive Federal funding for employment and training activities (in addition to the food stamp block grant amount).

In order to receive a block grant, a State must annually submit a State plan for approval by the Secretary. The State plan must:

- (1) identify a lead administering agency;
- (2) describe how and to what extent the State's program serves specific groups (e.g., the elderly, migrant and seasonal farm workers, the homeless, those with earnings, and Indians) and how the treatment differs from their treatment under the Food Stamp Program;
- (3) provide that benefits are available statewide;
- (4) provide for notice and an opportunity for a hearing to those adversely affected;
- (5) assess the food and nutrition needs of needy person in the State;
- (6) describe the State's eligibility standards for assistance under the block grant;
- (7) establish a system for exchanging information with other States to verify participants' identity and the possible receipt of benefits in another State;
- (8) providing for safeguarding and restricting the use and disclosure of information about participants; and
- (9) other information required by the Secretary.

Eligibility for assistance under the block grant is determined by the State, and there is not individual entitlement to assistance. However, certain Federal rules apply:

- (1) aliens who are not eligible under the Food Stamp Program are not eligible for block grant aid;
- (2) persons and households who are ineligible under the Food Stamp Program's work rules are not eligible for block grant aid;
- (3) disqualification of fleeing felons; and
- (4) disqualification for child support arrears.

If the Secretary finds that there has been a failure to comply with provisions of the block grant or the State's approved plan or

finds that, in the operation of any program or activity for which assistance is provided, there is a failure by the State to comply substantially with block grant provisions, the Secretary must withhold funding, as appropriate, until satisfied there is no longer a failure to comply or that the noncompliance will be promptly corrected. In addition the Secretary may impose other appropriate penalties, including recoupment of improperly spent money and disqualification from the block grant. States must be provided notice and an opportunity for a hearing in this process.

The Secretary is authorized to conduct research on the effects and costs of a State food assistance block grant.

Section 1064. A study of the use of food stamps to purchase vitamins and minerals

The Secretary is required, in consultation with the National Academy of Sciences and the Center for Disease Control and Prevention, to conduct a study of the use of food stamps to purchase vitamins and minerals.

The Secretary is encouraged to conduct a study on whether some food items now eligible for purchase with food stamps should be eliminated from that eligibility.

Section 1065. Investigations

Regulations issued by the Secretary concerning civil money penalties and disqualification of retail food stores and wholesale food concerns must include criteria to support findings of food stamp violations on the basis of evidence that may include on-site investigations, redemption data, and transaction reports from electronic benefit transfer (EBT) systems.

Section 1066. Food stamp eligibility

States are permitted to include either all of an ineligible alien's income and resources in the income and resources of the household of which the alien is a member or the income, less a pro rata share, and the resources of the ineligible alien, to determine the value of the allotment of the household of which the individual is a member.

Section 1067. Report by the Secretary

The Secretary may prepare a report on the effect of the Food Stamp Program reforms of the Personal Responsibility and Work Opportunity Act of 1996. If prepared, the report will be submitted to the Committee on Agriculture of the House of Representatives not later than January 1, 2000.

Section 1068. Deficit reduction

This section expresses the sense of the Committee on Agriculture that reductions in outlays resulting from this title will not be taken into account for purposes of Section 552 of the Balanced Budget and Emergency Deficit Control Act of 1985.

SUBTITLE B—COMMODITY DISTRIBUTION PROGRAMS

Section 1071. Emergency Food Assistance Program

The emergency food assistance program (TEFAP) and the soup kitchen/food bank program (Section 110 of the Hunger Prevention Act of 1988) are combined into TEFAP. Definitions applicable to the soup kitchen/food bank program are incorporated into TEFAP.

States are required to submit a State plan of operation every 4 years. State plans must include:

- (1) designation of the State agency responsible for distribution of TEFAP commodities;
- (2) a plan of operation and administration to distribute TEFAP commodities;
- (3) a description of the standards of eligibility for recipient agencies; and
- (4) a description of the standards of eligibility for individual or household recipients of commodities. Individuals and household recipients must be comprised of needy persons and must live in the geographic area served by the recipient agencies.

States are encouraged to set up an advisory board on which persons, from public and private entities, interested in commodity distribution programs, are invited to participate.

Beginning October 1, 1996, funds (\$300 million per year), from amounts appropriated under the Food Stamp Act, to purchase a variety of nutritious and useful commodities for distribution to States in accordance with TEFAP rules, are authorized through fiscal year 2002.

Section 1072. Food bank demonstration project

This section repeals the expired authority to carry out food bank demonstration projects.

Section 1073. Hunger prevention programs

This section repeals the authority for a separate soup kitchen/food bank program and other expired authority for evaluation and demonstration projects.

Section 1074. Report on entitlement commodity processing

This section deletes the expired authority requiring a report on commodity processing.

SUBTITLE C—ELECTRONIC BENEFIT TRANSFER SYSTEMS

Section 1091. Provisions to encourage electronic benefit transfer systems

Electronic benefit transfer (EBT) programs (distributing need-tested benefits) established under State or local law or administered by a State or local government are exempt from Regulation E requirements.

COMMITTEE CONSIDERATION

I—HEARINGS

The Committee on Agriculture met on February 1, 1995. Agriculture Committee Chairman Pat Roberts stated that the purpose of the hearing was to review enforcement efforts in the Food Stamp Program and that this must be accomplished prior to considering welfare reform.

February 1, 1995

The first witness was Roger Viadero, the Inspector General of the U.S. Department of Agriculture (USDA). Inspector General Viadero testified on the efforts of his office to investigate food stamp and electronic benefit transfer (EBT) trafficking and laundering operations in nonauthorized grocery stores, restaurants, and liquor stores. Video tapes of investigations in which officials of the Office of the Inspector General participated were shown to the committee.

The Inspector General also made recommendations for legislative and regulatory changes which he believed would enhance the integrity of the current Food Stamp Program. These recommendations included changing retailer eligibility criteria; submission of various tax or license forms to assure the retail food store is actually in operation; adding a 1-year waiting period for retailers prior to authorization; requiring a store visit by USDA's Food and Consumer Services (FCS) staff prior to authorization; charging stores a licensing fee; authorizing the forfeiture of proceeds in felony food stamp fraud; and suspension and permanent program disqualification for retailers who traffic in food stamps.

Congressman Ron Wyden, from Oregon, provided his recommendations for correcting existing abuses and systemic weaknesses in the Food Stamp Program. Mr. Wyden advocated reform of the current system and cautioned against efforts to send this program to the States in the form of a block grant. He suggested that the committee take a look at newly developed and emerging electronic technologies including biometric identification cards. He also expressed his support for program consolidation efforts.

Mr. Robert Rasor, representing the U.S. Secret Service, summarized the investigations and research performed by the Financial Crimes Division of the Secret Service relating to fraud and abuse in the Food Stamp Program. He reported that the Secret Service found very little evidence of counterfeiting in the program in the course of its investigations, but in its undercover investigations found the system to be quite vulnerable to other forms of abuse and fraud, such as embezzlement, recipient fraud, fraud by authorized retailers and trafficking in discounted food stamps by external parties. Mr. Rasor stressed the importance of incorporating new technologies in the form of EBT to minimize existing and future abuses to the Food Stamp Program.

The Subcommittee on Department Operations, Nutrition, and Foreign Agriculture met on February 7, 8, 9, and 14, 1995 to receive testimony on reforming the present welfare system. Subcommittee Chairman Bill Emerson expressed his desire to hear ideas on reforming the present welfare maintenance system from a wide variety of people.

February 7, 1995

Ms. Jane L. Ross, Director, Income Securities Issues, Health, Education, and Human Services, General Accounting Office (GAO) testified regarding the status of Federal means tested welfare programs. She reported that nearly 80 means-tested programs that compose the welfare system accounted for about 15 percent of Federal spending in fiscal year 1992. Federal welfare spending has risen from \$39 billion in 1975 to nearly \$208 billion in 1992. According to GAO's figures, growth in five major entitlement programs has driven this expansion. Aid to Families with Dependent Children (AFDC), food stamps, Medicaid, Supplemental Security Income (SSI) and two major housing programs resulting in a 106 percent increase in inflation adjusted dollars over this time period.

The GAO's work has shown that these means tested programs can be costly and difficult to administer. They sometimes overlap one another or are so narrowly focused that they create gaps in services. The task of applying for benefits is arduous and complex. Furthermore, they have found that technology to run the programs is not being effectively developed and used, and that many of these programs are inherently vulnerable to fraud, waste, and abuse. Finally, despite many years of experience with these programs, very little is known about how well they are working and whether the programs are meeting the purposes stated in the various acts.

February 8, 1995

Congressman Michael N. Castle, from Delaware, urged the subcommittee to consider the Delaware Model of "one stop shopping" as it reforms the Nation's welfare delivery system. He described Delaware's model as an innovative and comprehensive delivery system. The system consists of approximately 160 different welfare programs and serves, through its service centers, over 600,000 individuals annually. This agency has the mission of promoting access to health and human services, addressing and communicating the communities service needs, and providing access to support services. Congressman Castle cited the overlap in programs that result in a patchwork welfare system that restricts the effectiveness and efficiency with which the programs can be carried out.

Mr. Thomas P. Eichler, Secretary of the Delaware Department of Services for Children, Youth, and Their Families, spoke on the Welfare Simplification and Coordination Advisory Committee authorized by Congress in the 1990 farm bill. Charged with examining policies and procedures of the food stamp, AFDC, medical assistance and housing assistance programs, the advisory committee made a series of recommendations for reform. The advisory committee recommended eliminating current programs and moving to one comprehensive program with the goal of moving participants toward self-sufficiency. Primary elements of the new program they recommended included (1) a single point of client entry, (2) common rules and definitions for participation, (3) a single means test for eligibility, and (4) a public and private partnership to provide coordinated services.

The Honorable Ellen Haas, USDA Under Secretary for Food, Nutrition, and Consumer Services, spoke on the state of 16 food and nutrition programs for which she is responsible. She reiterated the

administration's position that nutrition programs for the needy are in the national interest and reform of these programs should ensure access to a healthy, nutritious diet and promote health. She insisted further that block granting these programs would eliminate the "automatic adjuster" currently in place and possibly force States to provide less assistance in times of economic downturn.

Ms. Haas' recommendations for change included (1) nutrition security, (2) program integrity, (3) modernizing benefits delivery systems, (4) expanding State flexibility, (5) preserving economic responsiveness, and (6) promoting personal responsibility.

The Honorable Mary Jo Bane, Health and Human Services (HHS) Assistant Secretary for Children and Families, testified in support of the administration's 1994 welfare reform proposal. Her presentation covered three major issues; (1) the proper balance between national objectives and State flexibility; (2) the conversion of AFDC and the Food Stamp Program to block grants or capped discretionary programs; and (3) national requirements or accountability standards governing a reformed welfare system. Ms. Bane recommended that in order to ensure greater State flexibility final reform should (1) achieve the objectives of work, responsibility and accountability; (2) ensure stability in funding over time; (3) cushion State and individuals against economic cycles; and (4) preserve the basic family protections for needy Americans, particularly children.

Sister Augusta Hamel, the Executive Assistant to the President of Second Harvest National Network of Food Banks, the largest domestic hunger relief organization in the United States, reviewed the role of such organizations and the importance of the Federal contribution to this network. Sister Hamel spoke of the need for private sector participation in dealing with the hunger problem in this country, but also stressed that Federal participation has been critical to the success of these efforts and must continue. While reform is necessary, she stated that private resources are already pushed to the limit and some reform proposals may be asking more of the charitable sector than they can possibly deliver.

On behalf of other organizations similar to Second Harvest, Sister Hamel suggested that rather than block granting the programs to the States, as proposed, commodity distribution programs should be consolidated and integrated. The programs include the emergency food assistance program (TEFAP), commodity supplemental food program (CSFP), soup kitchens and food banks program (SKFB), and the charitable institutions and summer camps program (CIP) into a single program: the American Commodity Hunger Relief Program (ACHR).

Reverend Monseigneur Roger P. Morin, Executive Director, Department of Community Services, Archdiocese of New Orleans spoke in his capacity as Executive Director of the Department of Community Services in the Archdiocese of New Orleans. He advocated the retention of CSFP. He expressed the view that the tremendous purchasing power of the USDA combined with the cost effectiveness and efficiency of the volunteer distribution system give the taxpayer the highest return. Reverend William T. Cunningham, Director, of Focus Hope, another CSFP program operating in Detroit, Michigan, expressed support for preserving the CSFP because the program targets the Nation's most vulnerable

populations, the very young and the very old. CSFP in Detroit was described as a program that provides a monthly selection of foods specifically tailored to the nutritional needs of the populations served; purchases foods at one-half to one-sixth the cost of equivalent goods in retail stores; involves the entire community in the problems of hunger and poverty; and links job training, child care and other critical services for low-income families.

Ms. Zoe Slagle, the Food Distribution Coordinator with the Michigan Department of Education testified on behalf of her Department and the American Commodity Distribution Association (ACDA). She advocated the preservation of the commodity distribution programs and reiterated the claims made by others, that while food and nutrition programs should be further streamlined for efficiency and effectiveness, Federal programs still represent the highest return to the taxpayer because of the tremendous buying power of the Federal Government.

February 9, 1995

The Honorable John Engler, Governor of Michigan, advocated placing food and nutrition programs into a single block grant to the States. He further maintained that because States know the needs of their people, they should be given the authority to plan and administer welfare programs that encourage and assist people into productive jobs and off of government assistance. In his experience, Federal programs have had the opposite effect of encouraging recipients not to work. When the State of Michigan has sanctioned individuals who do not work by reducing their AFDC benefits, their food stamp allowances have gone up.

Ms. Carol Anderson, Director of the Economic Support Services Section in the Georgia Division of Family and Children Services, discussed recent innovations and policy changes relating to the delivery of assistance benefits. Through the use of waivers from HHS and USDA, Ms. Anderson and others in her division have streamlined program access and have created "one-stop shopping" for six State and Federal programs. She addressed the new "Work First" strategy in which eligibility staff are trained to assess participants strengths and weaknesses in obtaining employment; contracts for self-sufficiency that map our steps to economic independence; expedited child support services that are used to direct applicants from welfare to independence; and specialized job developers that are hired to work directly with employers.

Ms. Anderson said that while a block grant is attractive, reduced funding levels in current proposals gave her cause for concern. However, if States knew what block granting would bring in terms of funding and if they knew that block granting would also bring increased flexibility, there could be more opportunities to create better programs.

Mr. John Petraborg, Deputy Commissioner of the Minnesota Department of Human Services testified before the subcommittee regarding welfare reform efforts underway in Minnesota. Its simplification and streamlining efforts feature the concepts of "Work Pays" which allows families to keep part of their AFDC payments; an enforced social contract-requiring AFDC participants to develop

a plan of employment and self-support; and a program that combines and simplifies the AFDC and Food Stamp Programs.

Ms. Sammie Lynn Puett, Vice President for Public Services at the Continuing Education, and University Relations of the University of Tennessee, testified of the work of the Welfare Simplification and Coordination Advisory Commission created by Congress in 1990. She reviewed the objectives of the advisory committee and the problems that remain for welfare reformers. The advisory committee concluded that the numerous and overlapping programs at both the State and Federal level should be replaced by a single, one family-focused, client-oriented, comprehensive program.

Ms. Joyce Walsh, of the Larue County Health Center in Hodgenville, Kentucky discussed her observations and experiences as a local Special Supplemental Program for Women, Infants, and Children (WIC) program coordinator. She stated that WIC has achieved its original objectives of reducing infant mortality and morbidity. She advocated the retention of WIC and also suggested combining the administration of WIC and the Food Stamp Program. Ms. Walsh suggested that food prescriptions for the Food Stamp Program, similar to those found in WIC, be developed. She stated that this would improve the nutritional status of needy families and could be done at a reduced cost.

February 14, 1995

Congressman Tony Hall, from Ohio, testified in opposition to block grants to the States for AFDC, the Food Stamp Program, WIC, and other nutrition programs. He said that under block grants food assistance would not be automatically increased in time of recession and that allocations to the States may be miscalculated. He stated State flexibility could be increased, fraud reduced, and the costs of the various programs reduced without block granting these programs.

Congressman Ron Wyden, from Oregon discussed his recommendations for reducing fraud, waste and abuse in the Food Stamp Program. He made three specific recommendations: (1) implementation of asset forfeiture laws similar to forfeiture provisions under anti-drug trafficking statutes, (2) submission of verifiable business license by authorized food stamp retailers, and (3) possible imposition of a certification fee on retailers to pay for the enforcement of anti-fraud efforts of this certification process.

Mr. Robert Rector, Senior Policy Analyst for Welfare and Family Issues at The Heritage Foundation summarized the historical objectives, growth, and social and actual costs of the welfare system from 1930 to the present. He stated that welfare spending is now nine times greater than when President Lyndon Johnson launched the War on Poverty. In 1964, welfare spending absorbed 1.23 percent of Gross Domestic Product (GDP) and by 1993, spending had risen to 5.1 percent of GDP. Mr. Rector described three objectives for welfare spending: (1) sustain living standards through cash and noncash transfers, (2) promote self-sufficiency, and (3) aid economically distressed communities. He maintained the U.S. society can no longer tolerate or afford open-ended growth in welfare spending. His recommendations included phasing out welfare entitlements

and sending the programs to the States in the form of a block grant.

Ms. Anna Kondratas, Senior Fellow at the Hudson Institute, testified on the issue of welfare reform that would discourage illegitimacy, promote productivity, and preserve the family unit. She expressed the view that the current welfare system is seriously flawed and called for scrapping it entirely and replacing it with a system that gives more flexibility to the States to operate and even change AFDC. This reform should, in her view, be done gradually, preserving and combining programs that have proven successful. She also expressed support for devolution in the federalism debate, but cautioned that State and local bureaucracies are still bureaucracies, and many of them are no more efficient than Federal ones.

Mr. Mark Greenberg, of the Center for Law and Social Policy testified on the issue of welfare reform as it relates to Food Stamp Program reform. He made four principal points: (1) the Food Stamp Program has a different purpose, structure, and serves a much broader population than the AFDC program; (2) block-granting food stamps would seriously undercut the program's basic purpose; (3) block-granting the AFDC-related portion of food stamps raises additional difficulties; and (4) in light of imminent changes in AFDC, the Food Stamp Program's role as safety net becomes even more crucial.

Mr. Robert Greenstein, the Executive Director of the Center on Budget and Policy Priorities expressed the view that while welfare reform must take place, block grants are ill conceived and will jeopardize existing programs and harm those they are intended to help. Mr. Greenstein made recommendations for increasing flexibility and controlling costs without resorting to block grants. States, he said, should be allowed (1) to align food stamp employment and training programs with work activities for AFDC recipients; (2) to modify rules determining income and resources; (3) additional flexibility to simplify or standardize procedures for determining food stamp benefit levels of AFDC families; (4) to convert food stamp benefits to wage subsidies for employees; (5) to have impediments to EBT systems removed; and (6) to remove dozens of unnecessary and prescriptive State requirements.

Mr. Robert J. Fersh, President of the Food Research and Action Center, discussed the treatment of current participants in the food assistance programs and sought assurances that the new nutrition programs will meet the objectives of the current system. He also addressed the issue of national consensus on hunger and malnutrition prevention, minimum nutrition requirements for all 50 States, the Food Stamp Programs' responsiveness in times of economic change; and advantages of maintaining a national Food Stamp Program.

Mr. Timothy M. Hammonds, President and CEO of the Food Marketing Institute recommended changes that would lead to, reduction of fraud and abuse, enhancement of the dignity of the programs, and reduction of both public and private administrative costs. He recommended that current food assistance coupons not be issued in cash, but that EBT systems be implemented as quickly as possible, that national uniformity in the food assistance program should be a goal, and licensing requirements for participating re-

tailers should not be restrictive. The Honorable John R. Block, National-American Wholesale Grocers' Association (NAWGA) and former Secretary of Agriculture, expressed support for efforts aimed at block granting welfare programs to the States. He opposed proposals which cash out the Food Stamp Program to the States and instead expressed support for maintaining the food stamp coupon/EBT delivery system.

Mr. William C. Ferriera, President of the Apricot Producers of California and representing the Commodity Distribution Coalition, encouraged reform of programs but not discontinuance of Federal food assistance programs. He endorsed the consolidation plan as proposed by Second Harvest; recommended a complete review of program administration and technology utilization; encouraged making the commodity support component of Federal food assistance programs available to other programs; advocated preserving nutrition standards for school meal programs; and recommended that U.S. agriculture commodities be purchased for domestic food assistance programs.

Reverend Robert A. Sirico of the Acton Institute for the Study of Religion and Liberty discussed his belief that the Federal Government has almost entirely usurped the traditional role of religious institutions and charity. He advocated reforming the current welfare system by taking the function of charity from the government and returning it to the family and churches who understand the most basic needs of people. Reverend Frederick Kammer, the President of the Catholic Charities USA, cautioned against cashing out or block granting food stamps. He stated that the Food Stamp Program is the place of last resort for the poorest and most desperate. Churches and charities, he said, are incapable of handling the present hunger problems.

Ms. Virginia White, of the Kansas Food Bank Warehouse, Inc., advocated keeping the Food Stamp Program and other food programs in their current form and suggested that Members seek the support of Governors for a plan that would provide a food insurance safety net. Ms. Jasmine Gunthorpe of Baltimore, Maryland described her personal difficulties living and functioning within the current AFDC system. She works in a nine-month, part-time-minimum wage, contractual position. If her work exceeds AFDC income levels, she loses AFDC benefits for that period, requiring her to re-apply for AFDC benefits for the 3 months she is not working. She expressed frustration at having different social workers who estimate benefits, calculate wages, assess food stamp needs, and who help with child care. She recommended reforms that provide for basic needs for children; reduction in poverty not just a reduction of individuals from the welfare roles; and efforts to bring people into the mainstream of life. Mr. D. Michael Hancock of the Farmworker Justice Fund stated that in the event that food and nutrition programs are block granted to the States, States should be directed to ensure inclusion of farm workers in these programs. He also called for educating farm workers on food and nutrition programs and for bilingual program counselors.

May 10, 1995

The Subcommittee on Department Operations, Nutrition, and Foreign Agriculture held a hearing on the Food Stamp Program and electronic benefit transfer (EBT) systems. The chairman of the subcommittee, Bill Emerson, stated that during the 1995 debate on welfare reform questions arose concerning EBT and the actions of the Department of the Treasury that may limit the flexibility of States to establish EBT systems. Therefore the subcommittee scheduled a hearing to receive testimony from administration officials and others interested in the use of EBT systems in the Food Stamp Program.

The witnesses included representatives from the Department of the Treasury and the EBT Task Force who described the administrations's goals in implementing EBT. Representatives from the Missouri Department of Social Services and the Maryland Department of Human Resources testified about their States' experience with EBT systems. Persons representing organizations that assist States in the design of EBT systems and other groups also testified. These witnesses represented the Unysis Corporation, Applied Systems Institute and the Hull House of Chicago, Illinois.

Representatives from retail food stores and organizations interested in EBT services in food stores testified about the operation of EBT and the effect on persons using food benefits and the types of food purchased.

June 8, 1995

The Subcommittee on Department Operations, Nutrition, and Foreign Agriculture held a hearing on the Food Stamp Program and the administration's proposal included in the "Guidance of the Administration" for the Farm Bill. The chairman of the subcommittee, Bill Emerson, stated that while the committee had acted on reform of the Food Stamp Program earlier in the year, he intended to work with the administration and take their proposals into consideration.

The witnesses at the hearing included the Honorable Eni F. H. Faleomavaega, from American Samoa. Mr. Faleomavaega testified in support of the modified Food Stamp Program in American Samoa. The Honorable Ellen Haas, Under Secretary for Food, Nutrition, and Consumer Services, described the administration's proposal for the Food Stamp Program to provide State flexibility, reduce food stamp regulations, improve the integrity of the program, and enhance child support enforcement programs.

Other witnesses included representatives of organizations providing self-help services in communities, such as America the Beautiful, Sustainable Food Center, and the Society of St. Andrew.

July 25, 1995

The Subcommittee on Department Operations, Nutrition, and Foreign Agriculture held a hearing on the Food Stamp Program and a bill (H.R. 236) introduced by the chairman of the subcommittee, Bill Emerson concerning the use of food stamps to purchase vitamins and minerals. Chairman Emerson stated that he introduced H.R. 236 because he believes that persons receiving food stamps should have the option to use their benefits to purchase vitamins

and minerals. The Honorable William J. Martini and the Honorable Donald Payne testified in support of H.R. 236.

The Deputy Administrator of the Food Stamp Program and the Director of USDA's Center for Nutrition Policy and Promotion expressed reservations about H.R. 236.

Other witnesses offering testimony on the subject of the use of food stamps to purchase vitamins and minerals included representatives from the Council for Responsible Nutrition, the Department of Food Science of Rutgers University, University of Texas Medical Branch, Food Research and Action Center, and United Fresh Fruit and Vegetable Association.

II—FULL COMMITTEE

The Committee on Agriculture met, pursuant to notice, on June 11, 1996, a quorum being present, to consider Title X and other related provisions of H.R. 3507 for its Recommendations to the Budget Committee as provided in the Budget Resolution Instructions contained in H.Con.Res. 178 with respect to the Reconciliation Bill for Fiscal Year 1997 to be introduced by the Budget Committee.

The chairman called the meeting to order at 1:40 p.m. and made a statement noting that H.R. 3507 was essentially the same bill that was approved by the House on December 21, 1996, by a vote of 245 yeas to 178 with one significant exception. The food stamp funding cap had been eliminated as a concession to and at the request of the National Governor's Association, the Clinton administration, and the Secretary of Agriculture.

Ranking Minority Member de la Garza was recognized for a statement, as were Mr. Emerson and Mr. LaHood.

The chairman laid before the committee his recommendations proposed for Title X and related provisions of H.R. 3507 and then asked Counsel to give a brief summary.

Thereafter, the chairman offered a technical, correcting and conforming amendment to Title X of H.R. 3507. The amendment was adopted by a voice vote.

Mr. Emerson was then recognized to offer and explain an amendment which would expand the definition of food eligible for purchase with food stamp coupons to include vitamins and minerals for home consumption. Discussion occurred on the amendment.

Mr. Condit was recognized to offer an amendment to the Emerson amendment which would require USDA to conduct a study on the anticipated impact of the purchase of vitamins and minerals with food stamps by recipients in the Food Stamp Program and report to the committee by December 15, 1996. Discussion occurred and Mr. Emerson noted that he was constrained to accept Mr. Condit's amendment. Mr. Volkmer noted that in the report accompanying H.R. 3603, the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Bill, 1997, there was language which he believed prohibited USDA from conducting any studies within the food stamp, child nutrition, and WIC programs during fiscal year 1997. The amendment was adopted by a voice vote.

Mr. Smith was then recognized to offer and explain an amendment concerning the definition of food under the Food Stamp Act of 1977 and those certain foods that would be ineligible for pur-

chase with food stamps under his amendment. Discussion occurred, and Mr. Emerson requested that Mr. Smith withdraw his amendment so that hearings could be held on the issue. Mr. Smith then requested by unanimous consent that report language be included which would encourage USDA to conduct a study on whether or not some items now considered eligible as food for purchase under the Food Stamp Act of 1977 should be eliminated from that eligibility. Acting Chairman Gunderson pointed out that report language could encourage USDA to take certain actions, but that it could not mandate USDA to do so. Without objection, the report language to that effect was adopted and the amendment was withdrawn.

Mr. LaHood was recognized to offer and explain an amendment concerning the application of anti-tying restrictions to nonbank electronic benefit transfer (EBT) systems service providers that is similar to a law that applies to banks. Mr. LaHood explained that the amendment is intended to maintain competition among EBT service providers of electronic benefit transfer systems and financial services. Discussion occurred, and by a voice vote, the amendment was adopted.

Ms. Clayton was then recognized to offer and explain an amendment which would require that the number of hours required for work and training for able-bodied 18 to 50 year old persons with no dependents must be determined by dividing the amount of food stamp benefits by the minimum wage. Lengthy discussion occurred.

During the proceedings, the committee recessed at approximately 4:10 p.m. so Members could respond to votes on the House Floor. The chairman returned at 4:45 p.m. and announced that the House was now considering H.R. 3603, the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Bill, 1997, and that the committee would recess, to reconvene subject to the call of the Chair and that the Clayton amendment would be the pending matter of business at that time.

On June 13, 1996 at 10:00 a.m. the committee reconvened to finish the consideration of Title X of H.R. 3507. The pending business from the business meeting of June 11, 1996 was the Clayton amendment as noted above. Chairman Roberts said that it was his understanding that an agreement had been reached on a modified amendment, and without objection, the pending Clayton amendment was withdrawn.

Ms. Clayton was recognized to offer and then explain a similar but modified amendment that would clarify in the definition of "work program" the term "program of employment or training." Ms. Clayton noted that questions had been raised as to the use of the conjunction "or" in the term "a program of employment or training" and the requirement of a subsequent paragraph to participate in 20 hours per week in a work program. The question was whether such 20 hours applied to a work activity as well as training program.

Mr. Gunderson said that he had not had an opportunity to review the revised amendment and that he was concerned about how the amendment would be consistent with the actions taken by the House Committee on Economic and Educational Opportunities on June 12, 1996. The amendment was then passed over to give Mr.

Gunderson and other members an opportunity to review it carefully.

Ms. Clayton was then recognized to offer and explain an amendment which would change the language in the text of the chairman's recommendation from 4 months to 6 months the amount of time that an able-bodied 18 to 50 year old person, with no dependents, could receive food stamp benefits before being required to comply with certain work requirements. Discussion occurred with Chairman Roberts noting that the CBO had estimated that the amendment would reduce the savings in the chairman's recommendations by \$885 million and he asked Ms. Clayton if she would like to withdraw her amendment. Ms. Clayton requested a vote, and by a voice vote the amendment was not adopted.

Mr. Gunderson was then recognized to discuss the Clayton modified amendment noted above which would clarify the definition of "work program" as a program of employment and training. Mr. Gunderson expressed concern that some States may be proceeding on two tracks as they consider work and training programs, one for food stamp recipients and one for AFDC recipients, and he suggested that consolidation of these programs is a worthy goal. Discussion occurred and by a voice vote the Clayton amendment to clarify the definition "work program" was adopted that substituted the words "a program of employment and training."

Mr. de la Garza was recognized to offer and explain a substitute amendment to Title X of H.R. 3507. Discussion occurred with Chairman Roberts noting that 55 percent of the food stamp reforms in H.R. 3507 are identical to those in the administration's bill offered by the Ranking Minority member in his amendment and that 72 percent of the food stamp reforms in H.R. 3507 are either identical or similar to those in the administration's bill so that there is bipartisan support for many reforms.

The chairman described provisions that are significantly different between H.R. 3507 and the de la Garza substitute amendment. He also noted provisions that are included in H.R. 3507 but not in the substitute amendment.

The chairman noted for the record that in H.R. 3507, but not in the substitute, existing waiver authority is revised and authority is provided to the Secretary to conduct pilot or experimental projects and waive certain requirements of the Food Stamp Act as long as such waivers for alternatives are consistent with the goals of the program and provides food for needy families. Chairman Roberts also stated that the de la Garza Substitute saved \$18.4 billion, while the savings for H.R. 3507 are \$23 billion which would meet the committee's obligation under the Budget Resolution instructions.

Lengthy discussion occurred with Mr. Baldacci asking the administration representatives and staff what would happen to States that had already been granted waivers and what would happen in the future if the Food Stamp Act were amended as recommended in the text under consideration.

Mrs. Thurman indicated that she wanted to work with the committee on two issues: the "able-bodied" work requirement program relating to 18-50 year old persons and the vehicle allowance provisions. Chairman Roberts suggested that the de la Garza Substitute

would be considered first and then the committee would consider other amendments on these issues.

After considerable discussion, the de la Garza Substitute, by a voice vote, was not adopted.

Mr. Pomeroy was then recognized to offer and explain an amendment which would retain a provision in current law that provides that there would be no cap on the excess shelter deduction beginning on January 1, 1997. H.R. 3507 would maintain current cap on shelter deduction after December 31, 1996. He raised the problems that arise in colder climates such as North Dakota. Discussion occurred and the chairman noted that the Congressional Budget Office estimated that the amendment would cost \$4 billion and that Mr. Pomeroy offered no off-setting costs and that he (the chairman) reluctantly must oppose the amendment. By a voice vote, the amendment was not adopted. Mr. Pomeroy requested a rollcall vote. By a recorded vote of 22 nays and 18 yeas, the Pomeroy amendment was not adopted. See Rollcall Vote No. 1.

Mrs. Thurman was then recognized to offer and explain an amendment on behalf of herself and Mrs. Clayton which would require annual indexing of the vehicle allowance from a base of \$4,600 for households with a working member or a member actively looking for work beginning October 1, 1996. Discussion occurred, and it was noted that the cost of the amendment had been roughly estimated by CBO to be \$350 million. Mr. Smith offered a verbal amendment to the Thurman amendment which would make the annual indexing of the vehicle allowance discretionary and dependent upon enactment of State law.

Mr. Volkmer raised the question of a point of order that no one had seen the Smith amendment to the Thurman amendment and that it was not in writing, and the amendment was laid aside to give staff and others a chance to discuss and review the Smith amendment.

Mr. Condit was then recognized to offer and explain an amendment which would clarify that evidence adduced by USDA could be used to support a finding of food stamp violations by stores. Such evidence could come from on-site investigations, redemption data and transaction reports from electronic benefit transfer systems. Mr. Condit also noted that the amendment was proposed by USDA and was not contained in H.R. 3507. Chairman Roberts stated that although he thought the amendment was duplicative of permanent law that he had no opposition to the amendment. By a voice vote, the Condit amendment was adopted.

Mr. Stenholm was then recognized to offer and explain an amendment to H.R. 3507 that would dedicate all savings from the bill to deficit reduction. Chairman Roberts requested that Mr. Stenholm withdraw his amendment as it was susceptible to a point of order as a nongermane amendment outside the jurisdiction of the Committee on Agriculture. Without objection, Mr. Stenholm withdrew his amendment.

Mr. Stenholm was also recognized to offer and explain an amendment which was a sense of the committee to the effect that reductions in outlays resulting from the committee's recommendations to this title to be used for deficit reduction. By a voice vote, the Stenholm amendment was adopted.

Discussion occurred about the conference process in 1995 regarding the Deficit Reduction Act of 1995.

Mr. Smith was then recognized to withdraw his verbal amendment to the Thurman-Clayton amendment concerning the indexing of the vehicle allowance. Further discussion occurred on the amendment and Mrs. Thurman requested a rollcall vote. By a recorded vote of 21 nays and 20 yeas, the amendment was not adopted. See Rollcall Vote #2.

Mr. Farr was then recognized to offer and explain an amendment which would mandate the Secretary of Agriculture and the Secretary of Health and Human Services to report on the effect of the Personal Responsibility and Work Opportunity Act and the ability of State and local government to deal with people in poverty. Chairman Roberts pointed out language in the report to accompany H.R. 3603, the Agriculture, Rural Development, Food and Drug Administration and Related Agencies Appropriations Bill of 1997 which prohibits USDA from conducting any studies within the food stamp, child nutrition, and WIC programs during fiscal year 1997. The chairman also stated that the Secretary of Health and Human Services was not under the jurisdiction of the Committee on Agriculture. Chairman Roberts offered a verbal amendment to make the amendment discretionary and apply it only to the Secretary of Agriculture and the recommendations in H.R. 3507, Title X and related provisions. Without objection, the Roberts amendment to the Farr amendment was accepted and by a voice vote the Farr amendment was adopted.

Mr. Gunderson then moved that Title X and its related provisions to food stamps contained in H.R. 3507, as amended, be submitted to the Budget Committee for its inclusion in the Reconciliation package to be reported to the House by the Budget Committee in response to the instructions to this committee contained in H.Con.Res. 178. By a voice vote the motion was accepted.

Chairman Roberts indicated that a letter had been sent to Mr. de la Garza enclosing a copy of a letter from Budget Committee Chairman Kasich advising that Minority Views could be submitted to the Budget Committee as late as Monday, June 17.

Without objection, staff was given permission to make any necessary technical, syntactical, clarifying, or conforming changes as are appropriate without changing the substance of the legislation.

The meeting adjourned, subject to the call of the Chair.

INFLATIONARY IMPACT STATEMENT

[(e) In computing household income for purposes of determining eligibility and benefit levels for households containing an elderly or disabled member and determining benefit levels only for all other households, the Secretary shall allow a standard deduction of \$85 a month for each household, except that households in Alaska, Hawaii, Guam, and the Virgin Islands of the United States shall be allowed a standard deduction of \$145, \$120, \$170, and \$75, respectively. Such standard deductions shall be adjusted (1) on October 1, 1983, to the nearest lower dollar increment to reflect changes in the Consumer Price Index for all urban consumers published by the Bureau of Labor Statistics, for items other than food and the homeowners' costs and maintenance and repair component of shelter costs, as appropriately adjusted by the Bureau of Labor Statistics after consultation with the Secretary, for the fifteen months ending the preceding March 31, (2) on October 1, 1984, to the nearest lower dollar increment to reflect such changes for the fifteen months ending the preceding June 30, (3) on October 1, 1985, and October 1, 1986, to the nearest lower dollar increment to reflect such changes for the twelve months ending the preceding June 30, and (4) on October 1, 1987, and each October 1 thereafter, to the nearest lower dollar increment to reflect changes in the Consumer Price Index for all urban consumers published by the Bureau of Labor Statistics, for items other than food, for the twelve months ending the preceding June 30. All households with earned income shall be allowed an additional deduction of 20 per centum of all earned income (other than that excluded by subsection (d) of this section), to compensate for taxes, other mandatory deductions from salary, and work expenses, except that such additional deduction shall not be allowed with respect to earned income that a household willfully or fraudulently fails (as proven in a proceeding provided for in section 6(b)) to report in a timely manner. Households, other than those households containing an elderly or disabled member, shall also be entitled, with respect to expenses other than expenses paid on behalf of the household by a third party, amounts made available and excluded for the expenses under subsection (d)(3), and expenses that are paid under section 6(d)(4)(I) for dependent care, to (1) a dependent care deduction, the maximum allowable level of which shall be \$200 a month for each dependent child under 2 years of age and \$175 a month for each other depend-

ent, for the actual cost of payments necessary for the care of a dependent when such care enables a household member to accept or continue employment, or training or education which is preparatory for employment and (2) an excess shelter expense deduction to the extent that the monthly amount expended by a household for shelter exceeds an amount equal to 50 per centum of monthly household income after all other applicable deductions have been allowed. In the 15-month period ending September 30, 1995, such excess shelter expense deduction shall not exceed \$231 a month in the 48 contiguous States and the District of Columbia, and shall not exceed, in Alaska, Hawaii, Guam, and the Virgin Islands of the United States, \$402, \$330, \$280, and \$171 a month, respectively. In the 15-month period ending December 31, 1996, such excess shelter expense deduction shall not exceed \$247 a month in the 48 contiguous States and the District of Columbia, and shall not exceed, in Alaska, Hawaii, Guam, and the Virgin Islands of the United States, \$429, \$353, \$300, and \$182 a month, respectively. In computing the excess shelter expense deduction, a State agency may use a standard utility allowance in accordance with regulations promulgated by the Secretary, except that a State agency may use an allowance which does not fluctuate within a year to reflect seasonal variations. An allowance for a heating or cooling expense may not be used for a household that does not incur a heating or cooling expense, as the case may be, or does incur a heating or cooling expense but is located in a public housing unit which has central utility meters and charges households, with regard to such expense, only for excess utility costs. No such allowance may be used for a household that shares such expense with, and lives with, another individual not participating in the food stamp program, another household participating in the food stamp program, or both, unless the allowance is prorated between the household and the other individual, household, or both. If a State agency elects to use a standard utility allowance that reflects heating or cooling costs, it shall be made available to households receiving a payment, or on behalf of which a payment is made, under the Low-Income Home Energy Assistance Act of 1981 (42 U.S.C. 8621 et seq.) or other similar energy assistance program, provided that the household still incurs out-of-pocket heating or cooling expenses. A State agency may use a separate standard utility allowance for households on behalf of which such payment is made, but may not be required to do so. A State agency not electing to use a separate allowance, and making a single standard utility allowance available to households incurring heating or cooling expenses (other than households described in the sixth sentence of this subsection) may not be required to reduce such allowance due to the provision (direct or indirect) of assistance under the Low-Income Home Energy Assistance Act of 1981. For purposes of the food stamp program, assistance provided under the Low-Income Home Energy Assistance Act of 1981 shall be considered to be prorated over the entire heating or cooling season for which it was provided. A State agency shall allow a household to switch between any standard utility allowance and a deduction based on its actual utility costs at the end of any certification period and up to one additional time during each twelve-month period. Households con-

taining an elderly or disabled member shall also be entitled, with respect to expenses other than expenses paid on behalf of the household by a third party, to—

[(A) an excess medical expense deduction for that portion of the actual cost of allowable medical expenses, incurred by elderly or disabled members, exclusive of special diets, that exceed \$35 a month;

[(B) a dependent care deduction, the maximum allowable level of which shall be the same as that contained in clause (1) of the fourth sentence of this subsection, for the actual cost of payments necessary for the care of a dependent, regardless of the dependent's age, when such care enables a household member to accept or continue employment, or training or education that is preparatory for employment; and

[(C) an excess shelter expense deduction to the extent that the monthly amount expended by a household for shelter exceeds an amount equal to 50 per centum of monthly household income after all other applicable deductions have been allowed.

State agencies shall offer eligible households a method of claiming a deduction for recurring medical expenses that are initially verified under the excess medical expense deduction provided for in subparagraph (A), in lieu of submitting information or verification on actual expenses on a monthly basis. The method described in the preceding sentence shall be designed to minimize the administrative burden for eligible elderly and disabled household members choosing to deduct their recurrent medical expenses pursuant to such method, shall rely on reasonable estimates of the member's expected medical expenses for the certification period (including changes that can be reasonably anticipated based on available information about the member's medical condition, public or private medical insurance coverage, and the current verified medical expenses incurred by the member), and shall not require further reporting or verification of a change in medical expenses if such a change has been anticipated for the certification period. Before determining the excess shelter expense deduction, all households shall be entitled to a deduction for child support payments made by a household member to or for an individual who is not a member of the household if such household member was legally obligated to make such payments, except that the Secretary is authorized to prescribe by regulation the methods, including calculation on a retrospective basis, that State agencies shall use to determine the amount of the deduction for child support payments.】

(e) *DEDUCTIONS FROM INCOME.*—

(1) *STANDARD DEDUCTION.*—*The Secretary shall allow a standard deduction for each household in the 48 contiguous States and the District of Columbia, Alaska, Hawaii, Guam, and the Virgin Islands of the United States of \$134, \$229, \$189, \$269, and \$118, respectively.*

(2) *EARNED INCOME DEDUCTION.*—

(A) *DEFINITION OF EARNED INCOME.*—*In this paragraph, the term "earned income" does not include income excluded by subsection (d) or any portion of income earned under a work supplementation or support program, as de-*

(B) *DEDUCTION.*—Except as provided in subparagraph (C), a household with earned income shall be allowed a deduction of 20 percent of all earned income to compensate for taxes, other mandatory deductions from salary, and work expenses.

(C) *EXCEPTION.*—The deduction described in subparagraph (B) shall not be allowed with respect to determining an overissuance due to the failure of a household to report earned income in a timely manner.

(3) *DEPENDENT CARE DEDUCTION.*—

(A) *IN GENERAL.*—A household shall be entitled, with respect to expenses (other than excluded expenses described in subparagraph (B)) for dependent care, to a dependent care deduction, the maximum allowable level of which shall be \$200 per month for each dependent child under 2 years of age and \$175 per month for each other dependent, for the actual cost of payments necessary for the care of a dependent if the care enables a household member to accept or continue employment, or training or education that is preparatory for employment.

(B) *EXCLUDED EXPENSES.*—The excluded expenses referred to in subparagraph (A) are—

(i) expenses paid on behalf of the household by a third party;

(ii) amounts made available and excluded for the expenses referred to in subparagraph (A) under subsection (d)(3); and

(iii) expenses that are paid under section 6(d)(4).

(4) *DEDUCTION FOR CHILD SUPPORT PAYMENTS.*—

(A) *IN GENERAL.*—A household shall be entitled to a deduction for child support payments made by a household member to or for an individual who is not a member of the household if the household member is legally obligated to make the payments.

(B) *METHODS FOR DETERMINING AMOUNT.*—The Secretary may prescribe by regulation the methods, including calculation on a retrospective basis, that a State agency shall use to determine the amount of the deduction for child support payments.

(5) *HOMELESS SHELTER ALLOWANCE.*—A State agency may develop a standard homeless shelter allowance, which shall not exceed \$143 per month, for such expenses as may reasonably be expected to be incurred by households in which all members are homeless individuals but are not receiving free shelter throughout the month. A State agency that develops the allowance may use the allowance in determining eligibility and allotments for the households, except that the State agency may prohibit the use of the allowance for households with extremely low shelter costs.

(6) *EXCESS MEDICAL EXPENSE DEDUCTION.*—

(A) *IN GENERAL.*—A household containing an elderly or disabled member shall be entitled, with respect to expenses

other than expenses paid on behalf of the household by a third party, to an excess medical expense deduction for the portion of the actual costs of allowable medical expenses, incurred by the elderly or disabled member, exclusive of special diets, that exceeds \$35 per month.

(B) METHOD OF CLAIMING DEDUCTION.—

(i) IN GENERAL.—A State agency shall offer an eligible household under subparagraph (A) a method of claiming a deduction for recurring medical expenses that are initially verified under the excess medical expense deduction in lieu of submitting information or verification on actual expenses on a monthly basis.

(ii) METHOD.—The method described in clause (i) shall—

(I) be designed to minimize the burden for the eligible elderly or disabled household member choosing to deduct the recurrent medical expenses of the member pursuant to the method;

(II) rely on reasonable estimates of the expected medical expenses of the member for the certification period (including changes that can be reasonably anticipated based on available information about the medical condition of the member, public or private medical insurance coverage, and the current verified medical expenses incurred by the member); and

(III) not require further reporting or verification of a change in medical expenses if such a change has been anticipated for the certification period.

(7) EXCESS SHELTER EXPENSE DEDUCTION.—

(A) IN GENERAL.—A household shall be entitled, with respect to expenses other than expenses paid on behalf of the household by a third party, to an excess shelter expense deduction to the extent that the monthly amount expended by a household for shelter exceeds an amount equal to 50 percent of monthly household income after all other applicable deductions have been allowed.

(B) MAXIMUM AMOUNT OF DEDUCTION.—In the case of a household that does not contain an elderly or disabled individual, the excess shelter expense deduction shall not exceed—

(i) in the 48 contiguous States and the District of Columbia, \$247 per month; and

(ii) in Alaska, Hawaii, Guam, and the Virgin Islands of the United States, \$429, \$353, \$300, and \$182 per month, respectively.

(C) STANDARD UTILITY ALLOWANCE.—

(i) IN GENERAL.—In computing the excess shelter expense deduction, a State agency may use a standard utility allowance in accordance with regulations promulgated by the Secretary, except that a State agency may use an allowance that does not fluctuate within a year to reflect seasonal variations.

(ii) *RESTRICTIONS ON HEATING AND COOLING EXPENSES.*—An allowance for a heating or cooling expense may not be used in the case of a household that—

(I) does not incur a heating or cooling expense, as the case may be;

(II) does incur a heating or cooling expense but is located in a public housing unit that has central utility meters and charges households, with regard to the expense, only for excess utility costs; or

(III) shares the expense with, and lives with, another individual not participating in the food stamp program, another household participating in the food stamp program, or both, unless the allowance is prorated between the household and the other individual, household, or both.

(iii) *MANDATORY ALLOWANCE.*—

(I) *IN GENERAL.*—A State agency may make the use of a standard utility allowance mandatory for all households with qualifying utility costs if—

(aa) the State agency has developed 1 or more standards that include the cost of heating and cooling and 1 or more standards that do not include the cost of heating and cooling; and

(bb) the Secretary finds that the standards will not result in an increased cost to the Secretary.

(II) *HOUSEHOLD ELECTION.*—A State agency that has not made the use of a standard utility allowance mandatory under subclause (I) shall allow a household to switch, at the end of a certification period, between the standard utility allowance and a deduction based on the actual utility costs of the household.

(iv) *AVAILABILITY OF ALLOWANCE TO RECIPIENTS OF ENERGY ASSISTANCE.*—

(I) *IN GENERAL.*—Subject to subclause (II), if a State agency elects to use a standard utility allowance that reflects heating or cooling costs, the standard utility allowance shall be made available to households receiving a payment, or on behalf of which a payment is made, under the Low-Income Home Energy Assistance Act of 1981 (42 U.S.C. 8621 et seq.) or other similar energy assistance program, if the household still incurs out-of-pocket heating or cooling expenses in excess of any assistance paid on behalf of the household to an energy provider.

(II) *SEPARATE ALLOWANCE.*—A State agency may use a separate standard utility allowance for households on behalf of which a payment described in subclause (I) is made, but may not be required to do so.

(III) STATES NOT ELECTING TO USE SEPARATE ALLOWANCE.—A State agency that does not elect to use a separate allowance but makes a single standard utility allowance available to households incurring heating or cooling expenses (other than a household described in subclause (I) or (II) of subparagraph (C)(ii)) may not be required to reduce the allowance due to the provision (directly or indirectly) of assistance under the Low-Income Home Energy Assistance Act of 1981 (42 U.S.C. 8621 et seq.).

(IV) PRORATION OF ASSISTANCE.—For the purpose of the food stamp program, assistance provided under the Low-Income Home Energy Assistance Act of 1981 (42 U.S.C. 8621 et seq.) shall be considered to be prorated over the entire heating or cooling season for which the assistance was provided.

[(ii) Final performance standards and measures referred to in clause (i) shall be published not later than 12 months after the date that the final outcome-based performance standards are published for job opportunities and basic skills training programs under part F of title IV of the Social Security Act (42 U.S.C. 681 et seq.).

[(iii) The standards shall encourage States to serve those individuals who have greater barriers to employment and shall take into account the extent to which persons have elected to participate in employment and training programs under this paragraph. [(iv) The performance standards in effect under subparagraph (K) shall remain in effect during the period beginning on October 1, 1988, and ending on the date the Secretary implements the outcome-based performance standards described in this subparagraph.

[(v) A State agency shall be considered in compliance with applicable performance standards under subparagraph (K) if the State agency operates an employment and training program in a manner consistent with its approved plan and if the program requires participants to make levels of effort comparable to those required under the regulations set forth in section 273.7(f)(1) of title 7, Code of Federal Regulations in effect on January 1, 1991.]

(c)(1) * * *

(2) As used in this subsection, the term "initial month" means (A) the first month for which an allotment is issued to a household, (B) the first month for which an allotment is issued to a household following any period [of more than one month] in which such household was not participating in the food stamp program under this Act after the expiration of a certification period or after the termination of the certification of a household, during a certification period, when the household ceased to be eligible after notice and an opportunity for a hearing under section 11(e)(10), and (C) in the case of a migrant or seasonal farmworker household, the first month for which allotment is issued to a household that applies following any period of more than 30 days in which such household was not participating in the food stamp program after previous participation in such program.

[(3) A State agency—

[(A) in the case of a household that is not entitled in the month in which it applies to expedited service under section 11(e)(9), may provide that an eligible household applying after the 15th day of the month shall receive, in lieu of its initial allotment and its regular allotment for the following month, an allotment that is the aggregate of the initial allotment and the first regular allotment, which shall be provided in accordance with paragraph (3) of section 11(e); and

[(B) in the case of a household that is entitled in the month in which it applies to expedited service under section 11(e)(9), shall provide that an eligible household applying after the 15th day of the month shall receive, in lieu of its initial allotment and its regular allotment for the following month, an allotment that is the aggregate of the initial allotment and the first regular allotment, which shall be provided in accordance with paragraphs (3) and (9) of section 11(e).]

(3) *OPTIONAL COMBINED ALLOTMENT FOR EXPEDITED HOUSEHOLDS.*—A State agency may provide to an eligible household applying after the 15th day of a month, in lieu of the initial allotment of the household and the regular allotment of the household for the following month, an allotment that is equal to the total amount of the initial allotment and the first regular allotment. The allotment shall be provided in accordance with section 11(e)(3) in the case of a household that is not entitled to expedited service and in accordance with paragraphs (3) and (9) of section 11(e) in the case of a household that is entitled to expedited service.

[(d) A household against which a penalty has been imposed for an intentional failure to comply with a Federal, State, or local law relating to welfare or a public assistance program may not, for the duration of the penalty, receive an increased allotment as the result of a decrease in the household's income (as determined under sections 5(d) and 5(e)) to the extent that the decrease is the result of such penalty.

[(e)(1) The Secretary may permit not more than five statewide projects (upon the request of a State) and not more than five projects in political subdivisions of States (upon the request of a State or political subdivision) to operate a program under which a household shall be considered to have satisfied the application and resource requirements prescribed under section 5(a) and the income and resource requirements prescribed under subsections (d) through (g) of section 5 if such household—

[(A) includes one or more members who are recipients of—

[(i) aid to families with dependent children under part A of title IV of the Social Security Act (42 U.S.C. 601 et seq.);

[(ii) supplemental security income under title XVI of such Act (42 U.S.C. 1381 et seq.); or

[(B) at the option of the State or political subdivision, the standard of need for such size household under the programs referred to in clause (A)(ii).

[(3) The Secretary shall adjust the value of allotments received by households under a program operated under this subsection to ensure that the average allotment by household size for households participating in such program and receiving such aid to families with dependent children, such supplemental security income, or

such medical assistance, as the case may be, is not less than the average allotment that would have been provided under this Act but for the operation of this subsection, for each category of households, respectively, in a State or political subdivision, for any period during which such program is in operation.

[(4) The Secretary shall evaluate the impact of programs operated under this subsection on recipient households, administrative costs, and error rates.

[(5) The administrative costs of such programs shall be shared in accordance with section 16.

[(6) In implementing this section, the Secretary shall consult with the Commissioner of Social Security and the Secretary of Health and Human Services to ensure that to the extent practicable, in the case of households participating in such programs, the processing of applications for, and determinations of eligibility to receive, food stamp benefits are simplified and are unified with the processing of applications for, and determinations of eligibility to receive, benefits under such titles of the Social Security Act (42 U.S.C. 601 et seq.).]

(d) REDUCTION OF PUBLIC ASSISTANCE BENEFITS.—

(1) IN GENERAL.—If the benefits of a household are reduced under a Federal, State, or local law relating to a means-tested public assistance program for the failure of a member of the household to perform an action required under the law or program, for the duration of the reduction—

(A) the household may not receive an increased allotment as the result of a decrease in the income of the household to the extent that the decrease is the result of the reduction; and

(B) the State agency may reduce the allotment of the household by not more than 25 percent.

(2) RULES AND PROCEDURES.—If the allotment of a household is reduced under this subsection for a failure to perform an action required under part A of title IV of the Social Security Act (42 U.S.C. 601 et seq.), the State agency may use the rules and procedures that apply under part A of title IV of the Act to reduce the allotment under the food stamp program.

APPROVAL OF RETAIL FOOD STORES AND WHOLESALE FOOD CONCERNS

SEC. 9. (a)(1) Regulations issued pursuant to this Act shall provide for the submission of applications for approval by retail food stores and wholesale food concerns which desire to be authorized

to accept and redeem coupons under the food stamp program and for the approval of those applicants whose participation will effectuate the purposes of the food stamp program. In determining the qualifications of applicants, there shall be considered among such other factors as may be appropriate, the following: (A) the nature and extent of the food business conducted by the applicant; (B) the volume of coupon business which may reasonably be expected to be conducted by the applicant food store or wholesale food concern; and (C) the business integrity and reputation of the applicant. Approval of an applicant shall be evidenced by the issuance to such applicant of a nontransferable certificate of approval. *No retail food store or wholesale food concern of a type determined by the Secretary, based on factors that include size, location, and type of items sold, shall be approved to be authorized or reauthorized for participation in the food stamp program unless an authorized employee of the Department of Agriculture, a designee of the Secretary, or, if practicable, an official of the State or local government designated by the Secretary has visited the store or concern for the purpose of determining whether the store or concern should be approved or reauthorized, as appropriate.*

* * * * *

(3) *AUTHORIZATION PERIODS.*—*The Secretary shall establish specific time periods during which authorization to accept and redeem coupons, or to redeem benefits through an electronic benefit transfer system, shall be valid under the food stamp program.*

* * * * *

(c) Regulations issued pursuant to this Act shall require an applicant retail food store or wholesale food concern to submit information, *which may include relevant income and sales tax filing documents*, which will permit a determination to be made as to whether such applicant qualifies, or continues to qualify, for approval under the provisions of this Act or the regulations issued pursuant to this Act. *The regulations may require retail food stores and wholesale food concerns to provide written authorization for the Secretary to verify all relevant tax filings with appropriate agencies and to obtain corroborating documentation from other sources so that the accuracy of information provided by the stores and concerns may be verified.* Regulations issued pursuant to this Act shall provide for safeguards which limit the use or disclosure of information obtained under the authority granted by this subsection to purposes directly connected with administration and enforcement of the provisions of this Act or the regulations issued pursuant to this Act, except that such information may be disclosed to any used by Federal law enforcement and investigative agencies and law enforcement and investigative agencies of a State government for the purposes of administering or enforcing this Act or any other Federal or State law and the regulations issued under this Act or such law, and State agencies that administer the special supplemental nutrition program for women, infants and children, authorized under section 17 of the Child Nutrition Act of 1966, for purposes of administering the provisions of that Act and the regulations issued under that Act. Any person who publishes, divulges, discloses,

or makes known in any manner or to any extent not authorized by Federal law (including a regulation) any information obtained under this subsection shall be fined not more than \$1,000 or imprisoned not more than 1 year, or both. The regulations shall establish the criteria to be used by the Secretary to determine whether the information is needed. The regulations shall not prohibit the audit and examination of such information by the Comptroller General of the United States authorized by any other provision of law.

(d) Any retail food store or wholesale food concern which has failed upon application to receive approval to participate in the food stamp program may obtain a hearing on such refusal as provided in section 14 of this Act. *A retail food store or wholesale food concern that is denied approval to accept and redeem coupons because the store or concern does not meet criteria for approval established by the Secretary may not, for at least 6 months, submit a new application to participate in the program. The Secretary may establish a longer time period under the preceding sentence, including permanent disqualification, that reflects the severity of the basis of the denial.*

ADMINISTRATION

SEC. 11. (a) * * *

* * * * *

(e) The State plan of operation required under subsection (d) of this section shall provide, among such other provisions as may be required by regulation—

(1) * * *

[(2) that each household which contacts a food stamp office in person during office hours to make what may reasonably be interpreted as an oral or written request for food stamp assistance shall receive and shall be permitted to file, on the same day that such contact is first made, a simplified, uniform national application form for participation in the food stamp program designed by the Secretary, unless the Secretary approves a deviation from that form by a particular State agency because of the use by that agency of a dual public assistance food stamp application form pursuant to subsection (i) of this section, the requirements of an agency's computer system, or other exigencies as determined by the Secretary, and in approving such deviation, the Secretary takes into account whether such State forms are easy to use, brief and readable. In consultation with the Secretary of Health and Human Services, the Secretary shall develop a program to provide assistance to States that request assistance in the development of brief, simply-written and readable application forms including application forms that cover the food stamp program, the aid to families with dependent children program under part A of title IV of the Social Security Act (42 U.S.C. 601 et seq.), and medical assistance programs administered by the Secretary of Health and Human Services under title XIX of the Social Security Act (42 U.S.C. 1396 et seq.). Each food stamp application form shall contain, in plain and prominent language on its

front cover, a place where applicants can write their names, addresses, and signatures, and (on or near its front cover) explanations in understandable terms informing households of their right to file the application without immediately completing additional sections, describing the expedited processing requirements of section 11(e)(9) and informing households that benefits are provided only from the date of application. Each application form shall contain a description in understandable terms in prominent and boldface lettering of the appropriate civil and criminal provisions dealing with violations of this Act, including the penalties therefor, by members of an eligible household. Each application shall also contain in understandable terms and in prominent and boldface lettering a statement that the information provided by the applicant in connection with the application for a coupon allotment will be subject to verification by Federal, State, and local officials to determine if such information is factual and that if any material part of such information is incorrect, food stamps may be denied to the applicant, and that the applicant may be subjected to criminal prosecution for knowingly providing incorrect information. The State agency shall waive in-office interviews, on a household's request, if a household is unable to appoint an authorized representative pursuant to paragraph (7) and has no adult household members able to come to the appropriate State agency office because such members are elderly, are mentally or physically handicapped, live in a location not served by a certification office, or have transportation difficulties or similar hardships as determined by the State agency (including hardships due to residing in a rural area, illness, care of a household member, prolonged severe weather, or work or training hours). If an in-office interview is waived, the State agency may conduct a telephone interview or a home visit. The State agency shall provide for telephone contact by, mail delivery of forms to, and mail return of forms by, households that have transportation difficulties or similar hardships. The State agency shall require that an adult representative of each household that is applying for food stamp benefits shall certify in writing, under penalty of perjury, that the information contained in the application is true and that all members of the household are either citizens or are aliens eligible to receive food stamps under section 6(f). The signature of the adult under this section shall be deemed sufficient to comply with any provision of Federal law requiring household members to sign the application or statements in connection with the application process. The State agency shall provide a method of certifying and issuing coupons to eligible households that do not reside in permanent dwellings or who do not have fixed mailing addresses. In carrying out the preceding sentence, the State agency shall take such steps as are necessary to ensure that participation in the food stamp program is limited to eligible households;■

(2)(A) that the State agency shall establish procedures governing the operation of food stamp offices that the State agency determines best serve households in the State, including house-

holds with special needs, such as households with elderly or disabled members, households in rural areas with low-income members, homeless individuals, households residing on reservations, and households in areas in which a substantial number of members of low-income households speak a language other than English;

(B) that in carrying out subparagraph (A), a State agency—

(i) shall provide timely, accurate, and fair service to applicants for, and participants in, the food stamp program;

(ii) shall develop an application containing the information necessary to comply with this Act;

*(iii) shall permit an applicant household to apply to participate in the program on the same day that the household first contacts a food stamp office in person during of-
fice hours;*

(iv) shall consider an application that contains the name, address, and signature of the applicant to be filed on the date the applicant submits the application;

(v) shall require that an adult representative of each applicant household certify in writing, under penalty of perjury, that—

(I) the information contained in the application is true; and

(II) all members of the household are citizens or are aliens eligible to receive food stamps under section 6(f);

(vi) shall provide a method of certifying and issuing coupons to eligible homeless individuals, to ensure that participation in the food stamp program is limited to eligible households; and

(vii) may establish operating procedures that vary for local food stamp offices to reflect regional and local differences within the State;

(C) that nothing in this Act shall prohibit the use of signatures provided and maintained electronically, storage of records using automated retrieval systems only, or any other feature of a State agency's application system that does not rely exclusively on the collection and retention of paper applications or other records;

(D) that the signature of any adult under this paragraph shall be considered sufficient to comply with any provision of Federal law requiring a household member to sign an application or statement;

(3) that the State agency shall thereafter promptly determine the eligibility of each applicant household by way of verification of income other than that determined to be excluded by section 5(d) of this Act (in part through the use of the information, if any, obtained under section 16(e) of this Act), household size (in any case such size is questionable), and such other eligibility factors as the Secretary determines to be necessary to implement sections 5 and 6 of this Act, although the State agency may verify prior to certification, whether questionable or not, the size of any applicant household and such other eligi-

bility factors as the State agency determines are necessary, so as to complete certification of and provide an allotment retroactive to the period of application to any eligible household not later than thirty days following its filing of an application, and that the State agency [shall—

[(A) provide each] *shall provide each* applicant household, at the time of application, a clear written statement explaining what acts the household must perform to cooperate in obtaining verification and otherwise completing the application process;

[(B) assist each applicant household in obtaining appropriate verification and completing the application process;

[(C) not require any household to submit additional proof of a matter on which the State agency already has current verification as determined under regulations issued by the Secretary, unless the State agency has reason to believe that the information possessed by the agency is inaccurate, incomplete, or inconsistent;

[(D) subject to subparagraph (E), not deny any application for participation under this program solely because of the failure of a person outside the household to cooperate (other than an individual failing to cooperate who would otherwise be a household member but for the operation of any of the individual disqualification provisions of subsections (b), (d), (e), (f), and (g) of section 6); and

[(E) process applications if a household complies with the requirements of the first sentence of section 6(c), by taking appropriate steps to verify information otherwise required to be verified under this Act,

[and that the State agency shall provide the household, at the time of each certification and recertification, with a statement describing the reporting responsibilities of the household under this Act, and provide a toll-free or local telephone number, or a telephone number at which collect calls will be accepted by the State agency, at which the household may reach an appropriate representative of the State agency. Under rules prescribed by the Secretary, a State agency shall develop standard estimates of the shelter expenses that may reasonably be expected to be incurred by households in which all members are homeless but that are not receiving free shelter throughout the month. The Secretary may issue regulations to preclude the use of the estimates for households with extremely low shelter costs for whom the following sentence shall not apply. A State agency shall use the estimates in determining the allotments of the households, unless a household verifies higher expenses;]

* * * * *

(6) [that (A) the] *that—*

(A) *the* State agency shall undertake the certification of applicant households in accordance with the general procedures prescribed by the Secretary in the regulations issued pursuant to this [Act; (B) the] *Act; and*

(B) the State agency personnel utilized in undertaking such certification shall be employed in accordance with the current standards for a Merit System of Personnel Administration or any standards later prescribed by the [United States Civil Service Commission] *Office of Personnel Management* pursuant to section 208 of the Intergovernmental Personnel Act of 1970 modifying or superseding such standards relating to the establishment and maintenance of personnel standards on a merit basis; [(C) the State agency shall provide a continuing, comprehensive program of training for all personnel undertaking such certification so that eligible households are promptly and accurately certified to receive the allotments for which they are eligible under this Act; (D) the State agency, at its option, may undertake intensive training to ensure that State agency personnel who undertake the certification of households that include a member who engages in farming are qualified to perform such certification; and (E) at its option, the State agency may provide, or contract for the provision of, training and assistance to persons working with volunteer or nonprofit organizations that provide program information activities or eligibility screening to persons potentially eligible for food stamps;]

* * * * *

(8) safeguards which limit the use or disclosure of information obtained from applicant households to persons directly connected with the administration or enforcement of the provisions of this Act, regulations issued pursuant to this Act, Federal assistance programs, or federally assisted State programs, except [that (A) such] *that*—

(A) the safeguards shall not prevent the use or disclosure of such information to the Comptroller General of the United States for audit and examination authorized by any other provision of [law, (B) notwithstanding] *law*;

(B) *notwithstanding* any other provision of law, all information obtained under this Act from an applicant household shall be made available, upon request, to local, State or Federal law enforcement officials for the purpose of investigating an alleged violation of this Act or any regulation issued under this [Act, and (C) such] *Act*;

(C) the safeguards shall not prevent the use by, or disclosure of such information, to agencies of the Federal Government (including the United States Postal Service) for purposes of collecting the amount of an overissuance of coupons, as determined under section 13(b) of this Act [and excluding claims arising from an error of the State agency, that has not been recovered pursuant to such section], from Federal pay (including salaries and pensions) as authorized pursuant to section 5514 of title 5 of the United States Code or a *Federal income tax refund as authorized by section 3720A of title 31, United States Code*;

(D) *notwithstanding any other provision of law, the address, social security number, and, if available, photograph of any member of a household shall be made available, on*

request, to any Federal, State, or local law enforcement officer if the officer furnishes the State agency with the name of the member and notifies the agency that—

(i) the member—

(I) is fleeing to avoid prosecution, or custody or confinement after conviction, for a crime (or attempt to commit a crime) that, under the law of the place the member is fleeing, is a felony (or, in the case of New Jersey, a high misdemeanor), or is violating a condition of probation or parole imposed under Federal or State law; or

(II) has information that is necessary for the officer to conduct an official duty related to subclause (I);

(ii) locating or apprehending the member is an official duty; and

(iii) the request is being made in the proper exercise of an official duty; and

(E) the safeguards shall not prevent compliance with paragraph (16);

ing is completed and an adverse decision rendered or until such time as the household's certification period terminates, whichever occurs earlier, except that in any case in which the State agency receives from the household a written statement containing information that clearly requires a reduction or termination of the household's benefits, the State agency may act immediately to reduce or terminate the household's benefits and may provide notice of its action to the household as late as the date on which the action becomes effective. *At the option of a State, at any time prior to a fair hearing determination under this paragraph, a household may withdraw, orally or in writing, a request by the household for the fair hearing. If the withdrawal request is an oral request, the State agency shall provide a written notice to the household confirming the withdrawal request and providing the household with an opportunity to request a hearing;*

[(18)] (17) at the option of the State agency, for the establishment and operation of an automatic data processing and information retrieval system that meets such conditions as the Secretary may prescribe and that is designed to provide efficient and effective administration of the food stamp program;

(2) Such notice shall be delivered by certified mail or personal service.

(3) If such store, concern, or State agency is aggrieved by such action, it may, in accordance with regulations promulgated under this Act, within ten days of the date of delivery of such notice, file a written request for an opportunity to submit information in support of its position to such person or persons as the regulations may designate.

(4) If such a request is not made or if such store, concern, or State agency fails to submit information in support of its position after filing a request, the administrative determination shall be final.

(5) If such request is made by such store, concern, or State agency, such information as may be submitted by the store, concern, or State agency, as well as such other information as may be available, shall be reviewed by the person or persons designated by the Secretary, who shall, subject to the right of judicial review hereinafter provided, make a determination which shall be final and which shall take effect thirty days after the date of the delivery or service of such final notice of determination.

(6) Determinations regarding claims made pursuant to section 16(c) (including determinations as to whether there is good cause for not imposing all or a portion of the penalty) shall be made on the record after opportunity for an agency hearing in accordance with section 556 and 557 of title 5, United States Code, in which one or more administrative law judges appointed pursuant to section 3105 of such title shall preside over the taking of evidence.

(7) Such judges shall have authority to issue and enforce subpoenas in the manner prescribed in sections 13 (c) and (d) of the Perishable Agricultural Commodities Act of 1930 (7 U.S.C. 499m (c) and (d)) and to appoint expert witnesses under the provisions of Rule 706 of the Federal Rules of Evidence.

(8) The Secretary may not limit the authority of such judges presiding over determinations regarding claims made pursuant to section 16(c).

(9) The Secretary shall provide a summary procedure for determinations regarding claims made pursuant to section 16(c) in amounts less than \$50,000.

(10) Such summary procedure need not include an oral hearing.

(11) On a petition by the State agency or sua sponte, the Secretary may permit the full administrative review procedure to be used in lieu of such summary review procedure for a claim of less than \$50,000.

claim made pursuant to section 16(c) shall be final and shall take effect thirty days after the date of the delivery or service of final notice of such determination.

(13) If the store, concern, or State agency feels aggrieved by such final determination, it may obtain judicial review thereof by filing a complaint against the United States in the United States court for the district in which it resides or is engaged in business, or, in the case of a retail food store or wholesale food concern, in any court of record of the State having competent jurisdiction, within thirty days after the date of delivery or service of the final notice of determination upon it, requesting the court to set aside such determination.

(14) The copy of the summons and complaint required to be delivered to the official or agency whose order is being attacked shall be sent to the Secretary or such person or persons as the Secretary may designate to receive service of process.

(15) The suit in the United States district court or State court shall be a trial de novo by the court in which the court shall determine the validity of the questioned administrative action in issue, except that judicial review of determinations regarding claims made pursuant to section 16(c) shall be a review on the administrative record.

(16) If the court determines that such administrative action is invalid, it shall enter such judgment or order as it determines is in accordance with the law and the evidence.

(17) During the pendency of such judicial review, or any appeal therefrom, the administrative action under review shall be and remain in full force and effect, unless on application to the court on not less than ten days' notice, and after hearing thereon and a consideration by the court of the applicant's likelihood of prevailing on the merits and of irreparable injury, the court temporarily stays such administrative action pending disposition of such trial or appeal.

(18) *SUSPENSION OF STORES PENDING REVIEW.*—Notwithstanding any other provision of this subsection, any permanent disqualification of a retail food store or wholesale food concern under paragraph (3) or (4) of section 12(b) shall be effective from the date of receipt of the notice of disqualification. of the food stamp program and improve the delivery of food stamp **benefits to eligible households, including** *benefits to eligible households, and may waive any requirement of this Act to the extent necessary for the project to be conducted.*

(B) PROJECT REQUIREMENTS.—

(i) PROGRAM GOAL.—The Secretary may not conduct a project under subparagraph (A) unless the project is consistent with the goal of the food stamp program of providing food assistance to raise levels of nutrition among low-income individuals.

(ii) PERMISSIBLE PROJECTS.—The Secretary may conduct a project under subparagraph (A) to—

(I) improve program administration;

(II) increase the self-sufficiency of food stamp recipients;

(III) test innovative welfare reform strategies; and

(IV) allow greater conformity with the rules of other programs than would be allowed but for this paragraph.

(iii) IMPERMISSIBLE PROJECTS.—The Secretary may not conduct a project under subparagraph (A) that—

(I) involves the payment of the value of an allotment in the form of cash, unless the project was approved prior to the date of enactment of this subparagraph;

(II) substantially transfers funds made available under this Act to services or benefits provided primarily through another public assistance program; or

(III) is not limited to a specific time period.

*(iv) ADDITIONAL INCLUDED PROJECTS.—Pilot or experimental projects may include projects involving the payment of the value of allotments or the average value of allotments by household size in the form of cash to eligible households all of whose members are age sixty-five or over or any of whose members are entitled to supplemental security income benefits under title XVI of the Social Security Act or to aid to families with dependent children under part A of title IV of the Social Security Act, the use of countersigned food coupons or similar identification mechanisms that do not invade a household's privacy, and the use of food checks or other voucher-type forms in place of food coupons. **¶**The Secretary may waive the requirements of this Act to the degree necessary for such projects to be conducted, except that no project, other than a project involving the payment of the average value of allotments by household size in the form of cash to eligible households or a project conducted under paragraph (3), shall be implemented which would lower or further restrict the income or resource standards or benefit levels provided pursuant to sections 5 and 8 of this Act. **¶** Any pilot or experimental project imple-*

mented under this paragraph and operating as of October 1, 1981, involving the payment of the value of allotments in the form of cash to eligible households all of whose members are either age sixty-five or over or entitled to supplemental security income benefits under title XVI of the Social Security Act shall be continued through October 1, 2002, if the State so requests.

[(B)] (C)(i) No waiver or demonstration program shall be approved under this Act after the date of enactment of this subparagraph unless—

(II) the State agency conducting the demonstration project pays the cost of any increased allotments.

(ii) Clause (i) shall not apply if a waiver or demonstration project already provides a household with assistance that exceeds that which the household would otherwise be eligible to receive by more than the estimated amount of any sales tax on the purchases of food that would be collected from the household in the project area in which the household resides.

(D) RESPONSE TO WAIVERS.—

(i) RESPONSE.—Not later than 60 days after the date of receiving a request for a waiver under subparagraph (A), the Secretary shall provide a response that—

(III) denies the waiver request and explains the grounds for the denial; or

(IV) requests clarification of the waiver request.

(ii) FAILURE TO RESPOND.—If the Secretary does not provide a response in accordance with clause (i), the waiver shall be considered approved, unless the approval is specifically prohibited by this Act.

(iii) NOTICE OF DENIAL.—On denial of a waiver request under clause (i)(III), the Secretary shall provide a copy of the waiver request and a description of the reasons for the denial to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate.

AUTHORIZATION AND APPROPRIATIONS

If a State agency is unable to use all of the funds so allocated to it, the Secretary shall reallocate such unused funds among the other States. [States may also use funds provided under this paragraph to pay for the costs associated with the distribution of commodities under the program authorized under section 110 of the Hunger Prevention Act of 1988, and to pay for the costs associated with the distribution of additional commodities provided pursuant to section 214.]

(2) Each State shall make available to emergency feeding organizations in the State not less than 40 per centum of the funds provided as authorized in paragraph (1) that it has been allocated for a fiscal year, as necessary to pay for, or provide advance payments to cover, the direct expenses of the emergency feeding organizations for distributing commodities to needy persons, but only to the extent such expenses are actually so incurred by such organizations. * * * * *

SEC. 214. REQUIRED PURCHASES OF COMMODITIES.

[(a) PURPOSE.—It is the purpose of this section to establish a formula so that the amount, measured by their value, of additional commodities that are to be allocated to each State can be precisely calculated for fiscal years 1991 through 2002. The share of commodities, as measured by their value, to be allocated to each State shall be based 60 percent on the number of persons in households within the State having incomes below the poverty level and 40 percent on the number of unemployed persons within the State.

[(b) DEFINITIONS.—As used in this section—

[(1) ADDITIONAL COMMODITIES.—The term “additional commodities” means commodities purchased under this section in

addition to the commodities otherwise made available under sections 202 and 203D(a).

[(2) AVERAGE MONTHLY NUMBER OF UNEMPLOYED PERSONS.—The term “average monthly number of unemployed persons” refers to the average monthly number of unemployed persons within each State in the most recent fiscal year for which such information is available as determined by the Bureau of Labor Statistics of the Department of Labor.

[(3) POVERTY LINE.—The term “poverty line” has the same meaning given such term in section 673(2) of the Community Services Block Grant Act (42 U.S.C. 9902(2)).

[(4) TOTAL VALUE OF ADDITIONAL COMMODITIES.—The term “total value of additional commodities” means the actual cost (including the distribution and processing costs incurred by the Secretary), as paid by the Secretary, for all additional commodities purchased under subsection (e).

[(5) VALUE OF ADDITIONAL COMMODITIES ALLOCATED TO EACH STATE.—The term “value of additional commodities allocated to each State” means the actual cost for additional commodities (including the distribution and processing costs incurred by the Secretary) as paid by the Secretary under this section and allocated to such State.

[(c) PURCHASE OF COMMODITIES.—The Secretary shall purchase a variety of nutritious and useful commodities of the types that the Secretary has the authority to acquire through the Commodity Credit Corporation or under section 32 of the Act entitled “An Act to amend the Agricultural Adjustment Act, and for other purposes”, approved August 24, 1935 (7 U.S.C. 612c note), to supplement the commodities otherwise provided under the program authorized by this Act.

[(d) TYPES AND VARIETIES.—The Secretary shall, to the extent practicable and appropriate, purchase types and varieties of commodities—

[(1) with high nutrient density per calorie;

[(2) that are easily and safely stored;

[(3) that are convenient to use and consume;

[(4) that are desired by recipient agencies; and

[(5) that meet the requirement imposed by section 203C(a).

[(e) AMOUNTS.—To carry out this section there are authorized to be appropriated \$175,000,000 for fiscal year 1991, \$190,000,000 for fiscal year 1992, and \$220,000,000 for each of the fiscal years 1993 through 2002 to purchase, process, and distribute additional commodities under this section. Any amounts provided for fiscal years 1991 through 2002 shall be available only to the extent and in such amounts as are provided in advance in appropriations Acts.

[(f)] (a) MANDATORY ALLOTMENTS.—In each fiscal year, the Secretary shall allot—

(1) 60 percent of the total value of additional commodities provided to States in a manner such that the value of additional commodities allocated to each State bears the same ratio to 60 percent of the total value of additional commodities as the number of persons in households within the State having incomes below the poverty line bears to the total number of

persons in households within all States having incomes below such poverty line, and each State shall be entitled to receive such value of additional commodities; and

(2) 40 percent of the total value of additional commodities provided to States in a manner such that the value of additional commodities allocated to each State bears the same ratio to 40 percent of the total value of additional commodities as the average monthly number of unemployed persons within the State bears to the average monthly number of unemployed persons within all States during the same fiscal year, and each State shall be entitled to receive such value of additional commodities.

【(g)】 (b) REALLOCATION.—The Secretary shall notify each State of the amount of the additional commodities that such State is allotted to receive under 【subsection (f) or subsection (j) if applicable,】 *subsection (a)* and each State shall promptly notify the Secretary if such State determines that it will not accept any or all of the commodities made available under such allocation. On such a notification by a State, the Secretary shall reallocate and distribute the amount the State was allocated to receive under the formula prescribed in 【subsection (f)】 *subsection (a)* but declines to accept. The Secretary shall further establish procedures to permit States to decline to receive portions of such allocation during each fiscal year as the State determines is appropriate and the Secretary shall reallocate and distribute such allocation. In the event of any drought, flood, hurricane, or other natural disaster affecting substantial numbers of persons in a State, county, or parish, the Secretary may request that States unaffected by such a disaster consider assisting affected States by allowing the Secretary to reallocate commodities to which each such unaffected State is entitled to States containing areas adversely affected by the disaster.

【(h)】 ADMINISTRATION.—Subject to subsections (e) and (f), or subsection (j) if applicable, purchases under this section shall be made by the Secretary at such times and under such conditions as the Secretary determines appropriate within each fiscal year. All such commodities purchased for each such fiscal year shall be delivered at reasonable intervals to States based on the allotments calculated under subsection (f), or reallocated under subsection (g), or calculated under subsection (j) if applicable, before the end of such fiscal year. Each State shall be entitled to receive that value of additional commodities that results from the application of the formula set forth in this section to the total value of additional commodities.】

(c) ADMINISTRATION.—

(1) *IN GENERAL.*—Commodities made available for each fiscal year under this section shall be delivered at reasonable intervals to States based on the grants calculated under *subsection (a)*, or reallocated under *subsection (b)*, before December 31 of the following fiscal year.

(2) *ENTITLEMENT.*—Each State shall be entitled to receive the value of additional commodities determined under *subsection (a)*.

【(i)】 (d) MAINTENANCE OF EFFORT.—If a State uses its own funds to provide commodities or services to organizations receiving

funds or services under this section, such State shall not diminish the level of support it provides to such organizations [or reduce the amount of funds available for other nutrition programs in the State in each fiscal year].

[(j) NEW FORMULA.—Notwithstanding the provisions of this section that set forth the specific formula for allocating additional commodities to each State, the Secretary is authorized to promulgate a different precise formula, after prior notice and comment as required by section 553 of title 5, United States Code, only to the extent that—

[(1) any such formula is effective at the outset of, and throughout any given fiscal year;

[(2) any such formula can be used to precisely calculate the amount of commodities to be made available to each State by the Secretary for each fiscal year; and

[(3) such formula provides that each State is entitled to receive that value of additional commodities which results from the application of such formula to the total value of additional commodities.]

All commodities purchased under subsection (c) within each fiscal year shall be provided to States prior to the end of each such fiscal year.

[(g) MAINTENANCE OF EFFORT.—If a State uses its own funds to provide commodities or services under this section, such State funds shall not be obtained from existing Federal or State programs.

[(h) INCREASED COMMODITY LEVELS AND MAINTENANCE OF EFFORT.—

[(1) INCREASED COMMODITY LEVELS.—Commodities provided under the amendments made by section 104 and under this section shall be in addition to the commodities otherwise provided (through commodity donations traditionally provided by the Secretary or the Commodity Credit Corporation) to emergency feeding organizations. The value of the commodity donations traditionally provided to such organizations shall not be diminished as a result of the purchases required by the amendments made by section 104 and this section.

[(2) FEDERAL MAINTENANCE.—The purchase of commodities required under the amendments made by section 104 and under this section, shall not be made in such a manner as to cause any reduction in the value of the bonus commodities that would otherwise be distributed, in the absence of section 104 and this section, to charitable institutions, or to any other domestic food assistance program, such as the programs authorized under the National School Lunch Act, the Child Nutrition Act of 1966, the Food Stamp Act of 1977, or sections 4 and 5 of the Agriculture and Consumer Protection Act of 1973.

[(3) OTHER MAINTENANCE.—Local agencies receiving commodities purchased under this section shall provide an assurance to the State that donations of foodstuffs from other sources shall not be diminished as a result of the receipt of commodities under this section.

[(i) NEW FORMULA.—Notwithstanding the provisions of this section that set forth the specific formula for allocating additional commodities to each State, the Secretary is authorized to establish a different precise formula, after prior notice and comment as required by section 553 of title 5, United States Code, only to the extent that—

[(1) any such formula is effective at the outset of, and throughout any given fiscal year;

[(2) any such formula can be used to precisely calculate the amount of commodities to be made available to each State by the Secretary for each fiscal year; and

[(3) such formula provides that each State is entitled to receive that value of additional commodities which results from the application of such formula to the total value of additional commodities.

[(j) PRIORITY SYSTEM FOR STATE DISTRIBUTION OF COMMODITIES.—

[(1) SOUP KITCHENS.—In distributing commodities under this section, the distributing agency, under procedures determined appropriate by the distributing agency, shall offer, or otherwise make available, its full allocation of commodities for distribution to soup kitchens and other like organizations that serve meals to homeless persons, and to food banks for distribution to such organizations.

[(2) INSTITUTIONS THAT SERVE ONLY LOW-INCOME RECIPIENTS.—If distributing agencies determine that they will not likely exhaust their allocation of commodities under this section through distribution to institutions referred to in paragraph (1), the distributing agencies shall make the remaining commodities available to food banks for distribution to institutions that distribute commodities to the needy. When such institutions distribute commodities to individuals for home consumption, eligibility for such commodities shall be determined through a means test as determined appropriate by the State distributing agency.

[(3) OTHER INSTITUTIONS.—If the distributing agency's commodity allocation is not likely to be exhausted after distribution under paragraphs (1) and (2) (as determined by the food bank), food banks may distribute the remaining commodities to institutions that serve meals to needy persons and do not employ a means test to determine eligibility for such meals, provided that the organizations have documented, to the satisfaction of the food bank, that the organizations do, in fact, serve predominantly needy persons.

[(k) SETTLEMENT AND ADJUSTMENT OF CLAIMS.—

[(1) IN GENERAL.—The Secretary or a designee of the Secretary shall have the authority to—

[(A) determine the amount of, settle, and adjust any claim arising under this section; and

[(B) waive such a claim if the Secretary determines that to do so will serve the purposes of this section.

[(2) LITIGATION.—Nothing contained in this subsection shall be construed to diminish the authority of the Attorney General of the United States under section 516 of title 28, United States Code, to conduct litigation on behalf of the United States.]

“(i) disabled individuals (as defined by the State) who meet the income and resource standards established under the plan, or

“(ii) individuals who are under 65 years of age, who are disabled (as determined under section 1614(a)(3)), and who, using the methodology provided for determining eligibility for payment of supplemental security income benefits under title XVI, meet the income and resource standards for payment of such benefits.

“(3) STATE ELECTION OF DISABLED INDIVIDUALS TO BE GUARANTEED COVERAGE.—

“(A) IN GENERAL.—Each State shall specify in its State plan, before the beginning of each Federal fiscal year, whether to guarantee coverage of disabled individuals under the plan under the option described in paragraph (1)(D)(i) or under the option described in paragraph (1)(D)(ii). An election under this paragraph shall continue in effect for the subsequent fiscal year unless the election is changed before the beginning of the fiscal year.

“(B) CONSEQUENCES OF ELECTION.—

“(i) STATE FLEXIBLE DEFINITION OPTION.—If a State elects the option described in paragraph (1)(D)(i) for a fiscal year—

“(I) the State plan must provide under section 1502(c) for a set aside of funds for disabled individuals for the fiscal year, and

“(II) disabled individuals are not taken into account in determining a State supplemental umbrella allotment under section 1511(g).

“(ii) SSI DEFINITION OPTION.—If a State elects the option described in paragraph (1)(D)(ii) for a fiscal year—

“(I) section 1502(c) shall not apply for the fiscal year, and

“(II) the State is eligible for an increase under section 1511(g) in its outlay allotment for the fiscal year based on an increase in the number of guaranteed and optional disabled individuals covered under the plan.

“(4) CONTINUATION OF SPECIAL ELIGIBILITY STANDARDS FOR SECTION 209(b) STATES.—

“(A) IN GENERAL.—A section 209(b) State (as defined in subparagraph (B)) may elect to treat any reference in paragraph (1)(E) to ‘elderly individuals who meet the income and resource standards for the payment of supplemental security income benefits under title XVI’ as a reference to ‘elderly individuals who meet the standards described in the first sentence of section 1902(f) (as in effect on the day before the date of the enactment of this title)’.

“(B) SECTION 209(b) STATE DEFINED.—In subparagraph (A), the term ‘section 209(b) State’ means a State to which section 1902(f) applied as of the day before the date of the enactment of this title.

“(5) OPTION FOR APPLICATION OF CURRENT REQUIREMENTS FOR CERTAIN CHILDREN.—A State may elect to apply paragraph (1)(F) by treating any reference to ‘requirements for receipt of foster care maintenance payments or adoption assistance under title IV’ as a reference to ‘requirements for receipt of foster care maintenance payments or adoption assistance as in effect under its State plan under part E of title IV as of the date of the enactment of this title’.

“(6) SPECIAL RULES FOR LOW-INCOME FAMILIES.—

“(A) OPTIONAL USE OF LOWER NATIONAL AVERAGE STANDARDS.—In the case of a State in which the current AFDC income and resource standards are above the national average of the current AFDC income and resource standards for the 50 States and the District of Columbia, as determined and published by the Secretary, in applying paragraph (1)(G), the State may elect to substitute such national average income and resource standards for the current AFDC income and resource standards in that State.

“(B) OPTIONAL ELIGIBILITY BASED ON LINK TO OTHER ASSISTANCE.—

“(i) IN GENERAL.—Subject to clause (ii), in the case of a State which maintains a link between eligibility for aid or assistance under one or more parts of title IV and eligibility for medical assistance under this title, in applying paragraph (1)(G), the State may elect to treat any reference in such paragraph to ‘individuals and members of families who meet current AFDC income and resource standards in the State’ as a reference to ‘members of families who are receiving assistance under a State plan under part A or E of title IV’.

“(ii) LIMITATION ON ELECTION.—A State may only make the election described in clause (i) if, and so long as, the State demonstrates to the satisfaction of the

Secretary that the such election does not result in Federal expenditures under this title (taking into account any supplemental amounts provided pursuant to section 1511(g)) that are greater than the Federal expenditures that would have been made under this title if the State had not made such election.

“(C) CURRENT AFDC INCOME AND RESOURCE STANDARDS DEFINED.—In this subsection, the term ‘current AFDC income and resource standards’ means, with respect to a State, the income and resource standards for the payment of assistance under the State plan under part A or E of title IV (as in effect as of May 1, 1996).

“(D) MEDICAL ASSISTANCE REQUIRED TO BE PROVIDED FOR 1 YEAR FOR FAMILIES BECOMING INELIGIBLE FOR FAMILY ASSISTANCE DUE TO INCREASED EARNINGS FROM EMPLOYMENT OR COLLECTION OF CHILD SUPPORT.—A State plan shall provide that if any family becomes ineligible to receive assistance under the State program funded under part A of title IV as a result of increased earnings from employment or as a result of the collection or increased collection of child or spousal support, or a combination thereof, having received such assistance in at least 3 of the 6 months immediately preceding the month in which such ineligibility begins, the family shall be eligible for medical assistance under the State plan during the immediately succeeding 12-month period for so long as family income is less than the poverty line, and that the family will be appropriately notified of such eligibility.

“(7) METHODOLOGY.—Family income shall be determined for purposes of subparagraphs (A) through (C) of paragraph (1) in the same manner (and using the same methodology) as income was determined under the State medicaid plan under section 1902(l) (as in effect as of May 1, 1996).

“(b) GUARANTEED COVERAGE OF MEDICARE PREMIUMS AND COST-SHARING FOR CERTAIN MEDICARE BENEFICIARIES.—

“(1) GUARANTEED ELIGIBILITY.—Each State plan shall provide—

“(A) for making medical assistance available for required medicare cost-sharing (as defined in paragraph (2)) for qualified medicare beneficiaries described in paragraph (3);

“(B) for making medical assistance available for payment of medicare premiums under section 1818A for qualified disabled and working individuals described in paragraph (4); and

“(C) for making medical assistance available for payment of medicare premiums under section 1839 for individuals who would be qualified medicare beneficiaries described in paragraph (3) but for the fact that their income exceeds 100 percent, but is less than 120 percent, of the poverty line for a family of the size involved.

“(2) REQUIRED MEDICARE COST-SHARING DEFINED.—

“(A) IN GENERAL.—In this subsection, the term ‘required medicare cost-sharing’ means, with respect to an in-

dividual, costs incurred for medicare cost-sharing described in paragraphs (1) through (4) of section 1571(c) (and, at the option of a State, section 1571(c)(5)) without regard to whether the costs incurred were for items and services for which medical assistance is otherwise available under the plan.

“(B) LIMITATION ON OBLIGATION FOR CERTAIN COST-SHARING ASSISTANCE.—In the case of medical assistance furnished under this title for medicare cost-sharing described in paragraph (2), (3), or (4) of section 1571(c) relating to the furnishing of a service or item to a medicare beneficiary, nothing in this title shall be construed as preventing a State plan—

“(i) from limiting the assistance to the amount (if any) by which (I) the amount that is otherwise payable under the plan for the item or service for eligible individuals who are not such medicare beneficiaries (or, if payments for such items or services are made on a capitated basis, an amount reasonably related or derived from such capitated payment amount), exceeds (II) the amount of payment (if any) made under title XVIII with respect to the service or item, and

“(ii) if the amount described in subclause (II) of clause (i) exceeds the amount described in subclause (I) of such clause, from treating the amount paid under title XVIII as payment in full and not requiring or providing for any additional medical assistance under this subsection.

“(3) QUALIFIED MEDICARE BENEFICIARY DEFINED.—In this subsection, the term ‘qualified medicare beneficiary’ means an individual—

“(A) who is entitled to hospital insurance benefits under part A of title XVIII (including an individual entitled to such benefits pursuant to an enrollment under section 1818, but not including an individual entitled to such benefits only pursuant to an enrollment under section 1818A),

“(B) whose income (as determined under section 1612 for purposes of the supplemental security income program, except as provided in paragraph (5)) does not exceed 100 percent of the poverty line applicable to a family of the size involved, and

“(C) whose resources (as determined under section 1613 for purposes of the supplemental security income program) do not exceed twice the maximum amount of resources that an individual may have and obtain benefits under that program.

“(4) QUALIFIED DISABLED AND WORKING INDIVIDUAL DEFINED.—In this subsection, the term ‘qualified disabled and working individual’ means an individual—

“(A) who is entitled to enroll for hospital insurance benefits under part A of title XVIII under section 1818A;

“(B) whose income (as determined under section 1612 for purposes of the supplemental security income program)

does not exceed 200 percent of the poverty line applicable to a family of the size involved;

“(C) whose resources (as determined under section 1613 for purposes of the supplemental security income program) do not exceed twice the maximum amount of resources that an individual or a couple (in the case of an individual with a spouse) may have and obtain benefits for supplemental security income benefits under title XVI; and

“(D) who is not otherwise eligible for medical assistance under this title.

“(5) INCOME DETERMINATIONS.—

“(A) IN GENERAL.—In determining under this subsection the income of an individual who is entitled to monthly insurance benefits under title II for a transition month (as defined in subparagraph (B)) in a year, such income shall not include any amounts attributable to an increase in the level of monthly insurance benefits payable under such title which have occurred pursuant to section 215(i) for benefits payable for months beginning with December of the previous year.

“(B) TRANSITION MONTH DEFINED.—For purposes of subparagraph (A), the term ‘transition month’ means each month in a year through the month following the month in which the annual revision of the poverty line is published.

“SEC. 1502. OTHER PROVISIONS RELATING TO ELIGIBILITY AND BENEFITS.

“(a) OPTIONAL ELIGIBILITY GROUPS FOR WHICH UMBRELLA SUPPLEMENTAL FUNDING IS AVAILABLE.—In addition to the guaranteed coverage categories described in section 1501(a)(1), the following are population groups with respect to which supplemental allotments may be made under section 1511(g), but only if (for the individual involved) medical assistance is made available under the State plan for the guaranteed benefit package (as defined in section 1501(a)(2)):

“(1) CERTAIN DISABLED INDIVIDUALS.—Individuals (not described in section 1501(a)(1)(D)(ii)) who are disabled (as determined under section 1614(a)(3)), covered under the State plan, and meet the eligibility standards for coverage under the State medicaid plan under title XIX (as in effect as of May 1, 1996).

“(2) CERTAIN ELDERLY INDIVIDUALS.—Elderly individuals (not described in section 1501(a)(1)(E)) who are covered under the State plan and who meet the eligibility standards for coverage under the State medicaid plan under title XIX (as in effect as of May 1, 1996) other than solely on the basis of being an individual described in section 1902(a)(10)(E).

Eligibility under paragraphs (1) and (2) shall be determined using the methodologies that are not more restrictive than the methodologies used under the State medicaid plan as in effect as of May 1, 1996.

“(b) OTHER PROVISIONS RELATING TO GENERAL ELIGIBILITY AND BENEFITS.—

“(1) GENERAL DESCRIPTION.—Each State plan shall include a description (consistent with this title) of the following:

“(A) ELIGIBILITY GUIDELINES FOR THE NON-GUARANTEED, NON-UMBRELLA POPULATION.—The general eligibility guidelines of the plan for eligible low-income individuals who are not covered under subsection (a) or (b) of section 1501 or under subsection (a) of this section.

“(B) SCOPE OF ASSISTANCE.—The amount, duration, and scope of health care services and items covered under the plan, including differences among different eligible population groups.

“(ii) utilization control systems.

“(D) FEE-FOR-SERVICE BENEFITS.—To the extent that medical assistance is furnished on a fee-for-service basis—

“(i) how the State determines the qualifications of health care providers eligible to provide such assistance; and

“(ii) how the State determines rates of reimbursement for providing such assistance.

“(E) COST-SHARING.—Beneficiary cost-sharing (if any), including variations in such cost-sharing by population group or type of service and financial responsibilities of parents of recipients who are children and the spouses of recipients.

“(F) UTILIZATION INCENTIVES.—Incentives or requirements (if any) to encourage the appropriate utilization of services.

“(G) SUPPORT FOR CERTAIN HOSPITALS.—

“(i) IN GENERAL.—With respect to hospitals described in clause (ii) located in the State, a description of the extent to which provisions are made for expenditures for items and services furnished by such hospitals and covered under the State plan.

“(ii) HOSPITALS DESCRIBED.—A hospital described in this clause is a short-term acute care general hospital or a children’s hospital, the low-income utilization rate of which exceeds the lesser of—

“(I) 1 standard deviation above the mean low-income utilization rate for hospitals receiving payments under a State plan in the State in which such hospital is located, or

“(II) 1¼ standard deviations above the mean low-income utilization rate for hospitals receiving such payments in the 50 States and the District of Columbia.

“(iii) LOW-INCOME UTILIZATION RATE.—For purposes of clause (ii), the term ‘low-income utilization rate’ means, for a hospital, a fraction (expressed as a percentage), the numerator of which is the hospital’s

number of patient days attributable to patients who (for such days) were eligible for medical assistance under a State plan or were uninsured in a period, and the denominator of which is the total number of the hospital's patient days in that period.

“(iv) PATIENT DAYS.—For purposes of clause (iii), the term ‘patient day’ includes each day in which—

“(I) an individual, including a newborn, is an inpatient in the hospital, whether or not the individual is in a specialized ward and whether or not the individual remains in the hospital for lack of suitable placement elsewhere; or

“(II) an individual makes one or more outpatient visits to the hospital.

“(2) CONDITIONS FOR GUARANTEES AND RELATION OF GUARANTEES TO FINANCING.—The guarantees of States required under subsection (a) and (b) of section 1501 and subsection (d) of this section are subject to the limitations on payment to the States provided under section 1511 (including the provisions of subsection (g), relating to supplemental umbrella allotments). In submitting a plan under this title, a State voluntarily agrees to accept payment amounts provided under such section as full payment from the Federal Government in return for providing for the benefits (including the guaranteed benefit package) under this title.

“(3) SECONDARY PAYMENT.—Nothing in this section shall be construed as preventing a State from denying benefits to an individual to the extent such benefits are available to the individual under the medicare program under title XVIII or under another public or private health care insurance program.

“(4) RESIDENCY REQUIREMENT.—In the case of an individual who—

“(A) is described in section 1501(a)(1),

“(B) changed residence from another State to the State, and

“(C) has resided in the State for less than 180 days, the State may limit the benefits provided to such individual in the guaranteed benefits package under paragraph (2) of section 1501(a) to the amount, duration, and scope of benefits available under the State plan of the individual's previous State of residence.

“(c) SET-ASIDE OF FUNDS FOR THE LOW-INCOME DISABLED.—

“(1) IN GENERAL.—In the case of a State that has elected the option described in section 1501(a)(1)(D)(i) for a fiscal year, the State plan shall provide that the percentage of funds expended under the plan for medical assistance for eligible low-income individuals who are not elderly individuals and who are eligible for such assistance on the basis of a disability, including being blind, for the fiscal year is not less than the minimum low-income-disabled percentage specified in paragraph (2) of the total funds expended under the plan for medical assistance for the fiscal year.

“(2) MINIMUM LOW-INCOME-DISABLED PERCENTAGE.—The minimum low-income-disabled percentage specified in this

paragraph for a State is equal to 90 percent of the percentage of the expenditures under title XIX for medical assistance in the State during Federal fiscal year 1995 which was attributable to expenditures for medical assistance for benefits furnished to individuals whose coverage (at such time) was on a basis directly related to disability status, including being blind.

“(3) COMPUTATIONS.—States shall calculate the minimum percentage under paragraph (2) in a reasonable manner consistent with reports submitted to the Secretary for the fiscal years involved and medical assistance attributable to the exception provided under section 1903(v)(2) shall not be considered to be expenditures for medical assistance.

“(d) TRANSITIONAL PAYMENT FOR FEDERALLY-QUALIFIED HEALTH CENTER SERVICES AND RURAL HEALTH CLINIC SERVICES.—Each State plan shall provide that, for Federally-qualified health center services and rural health clinic services (as defined in section 1571(f)) furnished under the plan during the first 8 calendar quarters in which the plan is in effect and for which payment is made under the plan, payment shall be made for such services at a rate based on 100 percent of costs which are reasonable and related to the cost of furnishing such services or based on such other tests of reasonableness, as the Secretary prescribes in regulations under section 1833(a)(3), or, in the case of services to which those regulations do not apply, on the same methodology used under section 1833(a)(3).

“(e) PREEXISTING CONDITION EXCLUSIONS.—Notwithstanding any other provision of this title—

“(1) a State plan may not deny or exclude coverage of any item or service for an eligible individual for benefits under the State plan for such item or service on the basis of a preexisting condition; and

“(2) if a State contracts or makes other arrangements (through the eligible individual or through another entity) with a capitated health care organization, insurer, or other entity, for the provision of items or services to eligible individuals under the State plan and the State permits such organization, insurer, or other entity to exclude coverage of a covered item or service on the basis of a preexisting condition, the State shall provide, through its State plan, for such coverage (through direct payment or otherwise) for any such covered item or service denied or excluded on the basis of a preexisting condition.

“(f) SOLVENCY STANDARDS FOR CAPITATED HEALTH CARE ORGANIZATIONS.—

“(1) IN GENERAL.—A State may not contract with a capitated health care organization, as defined in section 1504(c)(1), for the provision of medical assistance under a State plan under which the organization is—

“(A) at full financial risk, as defined by the State, unless the organization meets solvency standards established by the State for private health maintenance organizations or is described in paragraph (4) and meets other solvency standards established by the State, or

“(B) is not at such risk, unless the organization meets solvency standards that are established under the State plan.

“(2) TREATMENT OF PUBLIC ENTITIES.—Paragraph (1) shall not apply to an organization that is a public entity or if the solvency of such organization is guaranteed by the State.

“(3) TRANSITION.—In the case of a capitated health care organization that as of the date of the enactment of this title has entered into a contract with a State for the provision of medical assistance under title XIX under which the organization assumes full financial risk and is receiving capitation payments, paragraph (1) shall not apply to such organization until 3 years after the date of the enactment of this title.

“(4) ORGANIZATION DESCRIBED.—An organization described in this paragraph is a capitated health organization which is (or is controlled by) one or more Federally-qualified health centers or rural health clinics. For purposes of this paragraph, the term ‘control’ means the possession, whether direct or indirect, of the power to direct or cause the direction of the management and policies of a capitated health organization through membership, board representation, or an ownership interest equal to or greater than 50.1 percent.

“(g) FOR SERVICES PROVIDED AT FEDERALLY-QUALIFIED HEALTH CENTERS AND RURAL HEALTH CLINICS.—

“(1) IN GENERAL.—Subject to paragraph (2), a State plan shall provide that the amount of funds expended under the plan for medical assistance for services provided at rural health clinics (as defined in section 1861(aa)(2)) and Federally-qualified health centers (as defined in section 1861(aa)(4)), for eligible low-income individuals for a fiscal year is not less than 85 percent of the average annual expenditures under title XIX for medical assistance in the State during Federal fiscal year 1995 which were attributable to expenditures for medical assistance for rural health clinic services and Federally-qualified health center services (as defined in section 1905(l)).

“(2) ALTERNATIVE MINIMUM SET-ASIDES.—

“(A) IN GENERAL.—Beginning with fiscal year 2001, a State may provide in its State plan (through an amendment to the plan) for a lower percentage of expenditures than the minimum percentages specified in paragraph (1) if the State determines to the satisfaction of the Secretary that—

“(i) the health care needs of the low-income populations described in such paragraph who are eligible for medical assistance under the plan during the previous fiscal year can be reasonably met without the expenditure of the percentage otherwise required to be expended;

“(ii) the performance goals established under section 1521 relating to such population can reasonably be met with the expenditure of such lower percentage of funds; and

“(iii) the health care needs of eligible low-income individuals residing in medically underserved rural

areas can reasonably be met without the level of expenditure for such services otherwise required and the performance goals established under section 1521 relating to such individuals can reasonably be met with such lower level of expenditures.

“(B) PERIOD OF APPLICATION.—The determination under subparagraph (A) shall be made for such period as a State may request, but may not be made for a period of more than 3 consecutive Federal fiscal years (beginning with the first fiscal year for which the lower percentage is sought). A new determination must be made under such subparagraph for any subsequent period.

“SEC. 1503. LIMITATIONS ON PREMIUMS AND COST-SHARING.

“(a) LIMITATION ON PREMIUMS.—

“(1) NONE FOR GUARANTEED POPULATION.—The State plan shall not impose any enrollment fee, premium, or similar charge for eligible individuals described in subsection (a) or (b) of section 1501 or section 1502(a).

“(2) INCOME-RELATED FOR OTHER POPULATIONS.—The State plan may impose an enrollment fee, premium, or similar charge for eligible individuals not described in paragraph (1) if it is related to the individual’s income (and does not exceed 2 percent of the individual’s gross income).

“(b) LIMITATION ON COST-SHARING.—Subject to subsection (c)—

“(1) GUARANTEED POPULATIONS.—With respect to individuals covered under subsection (a) or (b) of section 1501 or section 1502, the State may not impose any cost-sharing with respect to items and services unless the amount is nominal in amount. For purposes of this paragraph, an amount is nominal if it does not exceed 6 percent of the amount otherwise payable, or, if greater, 50 cents.

“(2) OTHER POPULATIONS.—With respect to individuals not described in paragraph (1), the State may not impose any cost-sharing with respect to items and services unless such cost sharing is pursuant to a public cost-sharing schedule and such cost-sharing is not in excess of the average, nominal cost-sharing imposed in the State for health plans offered by health maintenance organizations (and similar organizations) for the same or similar items and services, as determined by the State insurance commissioner.

“(c) CERTAIN COST-SHARING PERMITTED.—

“(1) IN GENERAL.—Subject to paragraph (2), a State may—

“(A) impose additional cost-sharing to discourage the inappropriate use of emergency medical services delivered through a hospital emergency room, a medical transportation provider, or otherwise;

“(B) impose additional cost-sharing differentially in order to encourage the use of primary and preventive care and discourage unnecessary or less economical care; and

“(C) from imposing additional cost-sharing based on the failure to participate in employment training programs, drug or alcohol abuse treatment, counseling programs, or other programs promoting personal responsibility.

“(2) LIMITATION.—The additional cost-sharing imposed under paragraph (1) may not result—

“(A) in the case of an individual described in subsection (b)(1), in aggregate cost-sharing that exceeds the maximum amount of cost-sharing that may be imposed under subsection (b)(2) (determined without regard to this subsection); or

“(B) in the case of an individual described in subsection (b)(2), in aggregate cost-sharing that exceeds twice the maximum amount of cost-sharing that may be imposed under such subsection (determined without regard to this subsection).

“(d) PROHIBITION ON BALANCE BILLING.—An individual eligible for benefits for items and services under the State plan who is furnished such an item or service by a provider under the plan may not be billed by the provider for such item or service, other than such amount of cost-sharing as is permitted with this section.

“(e) COST-SHARING DEFINED.—In this section, the term ‘cost-sharing’ includes copayments, deductibles, coinsurance, and other charges for the provision of health care services.

“SEC. 1504. DESCRIPTION OF PROCESS FOR DEVELOPING CAPITATION PAYMENT RATES.

“(a) IN GENERAL.—If a State contracts (or intends to contract) with a capitated health care organization (as defined in subsection (c)(1)) under which the State makes a capitation payment (as defined in subsection (c)(2)) to the organization for providing or arranging for the provision of medical assistance under the State plan for a group of services, including at least inpatient hospital services and physicians’ services, the plan shall include a description of the following:

“(1) USE OF ACTUARIAL SCIENCE.—The extent and manner in which the State uses actuarial science—

“(A) to analyze and project health care expenditures and utilization for individuals enrolled (or to be enrolled) in such an organization under the State plan, and

“(B) to develop capitation payment rates, including a brief description of the general methodologies used by actuaries.

“(2) QUALIFICATIONS OF ORGANIZATIONS.—The general qualifications, including any accreditation, State licensure or certification, or provider network standards, required by the State for participation of capitated health care organizations under the State plan.

“(3) DISSEMINATION PROCESS.—The process used by the State under subsection (b) and otherwise to disseminate, before entering into contracts with capitated health care organizations, actuarial information to such organizations on the historical fee-for-service costs (or, if not available, other recent financial data associated with providing covered services) and utilization associated with individuals described in paragraph (1)(A).

“(b) PUBLIC NOTICE AND COMMENT.—Under the State plan the State shall provide a process for providing, before the beginning of each contract year—

- “(1) public notice of—
- “(A) the amounts of the capitation payments (if any) made under the plan for the contract year preceding the public notice, and
- “(B)(i) the information described under subsection (a)(1) with respect to capitation payments for the contract year involved, or (ii) amounts of the capitation payments the State expects to make for the contract year involved, unless such information is designated as proprietary and not subject to public disclosure under State law, and
- “(2) an opportunity for receiving public comment on the amounts and information for which notice is provided under paragraph (1).

“(c) DEFINITIONS.—In this title:

“(1) CAPITATED HEALTH CARE ORGANIZATION.—The term ‘capitated health care organization’ means a health maintenance organization or any other entity (including a health insuring organization, managed care organization, prepaid health plan, integrated service network, or similar entity) which under State law is permitted to accept capitation payments for providing (or arranging for the provision of) a group of items and services including at least inpatient hospital services and physicians’ services.

“(a) SPECIAL TREATMENT FOR INSTITUTIONALIZED SPOUSES.—

“(1) SUPERSEDES OTHER PROVISIONS.—In determining the eligibility for medical assistance of an institutionalized spouse (as defined in subsection (h)(1)), the provisions of this section supersede any other provision of this title which is inconsistent with them.

“(2) DOES NOT AFFECT CERTAIN DETERMINATIONS.—Except as this section specifically provides, this section does not apply to—

“(A) the determination of what constitutes income or resources, or

“(B) the methodology and standards for determining and evaluating income and resources.

“(3) NO APPLICATION IN COMMONWEALTHS AND TERRITORIES.—This section shall only apply to a State that is one of the 50 States or the District of Columbia.

“(b) RULES FOR TREATMENT OF INCOME.—

“(1) SEPARATE TREATMENT OF INCOME.—During any month in which an institutionalized spouse is in the institution, except as provided in paragraph (2), no income of the community spouse shall be deemed available to the institutionalized spouse.

“(2) ATTRIBUTION OF INCOME.—In determining the income of an institutionalized spouse or community spouse for pur-

poses of the post-eligibility income determination described in subsection (d), except as otherwise provided in this section and regardless of any State laws relating to community property or the division of marital property, the following rules apply:

“(A) NON-TRUST PROPERTY.—Subject to subparagraphs (C) and (D), in the case of income not from a trust, unless the instrument providing the income otherwise specifically provides—

“(i) if payment of income is made solely in the name of the institutionalized spouse or the community spouse, the income shall be considered available only to that respective spouse,

“(ii) if payment of income is made in the names of the institutionalized spouse and the community spouse, $\frac{1}{2}$ of the income shall be considered available to each of them, and

“(iii) if payment of income is made in the names of the institutionalized spouse or the community spouse, or both, and to another person or persons, the income shall be considered available to each spouse in proportion to the spouse’s interest (or, if payment is made with respect to both spouses and no such interest is specified, $\frac{1}{2}$ of the joint interest shall be considered available to each spouse).

“(B) TRUST PROPERTY.—In the case of a trust—

“(i) except as provided in clause (ii), income shall be attributed in accordance with the provisions of this title; and

“(ii) income shall be considered available to each spouse as provided in the trust, or, in the absence of a specific provision in the trust—

“(I) if payment of income is made solely to the institutionalized spouse or the community spouse, the income shall be considered available only to that respective spouse,

“(II) if payment of income is made to both the institutionalized spouse and the community spouse, $\frac{1}{2}$ of the income shall be considered available to each of them, and

“(III) if payment of income is made to the institutionalized spouse or the community spouse, or both, and to another person or persons, the income shall be considered available to each spouse in proportion to the spouse’s interest (or, if payment is made with respect to both spouses and no such interest is specified, $\frac{1}{2}$ of the joint interest shall be considered available to each spouse).

“(C) PROPERTY WITH NO INSTRUMENT.—In the case of income not from a trust in which there is no instrument establishing ownership, subject to subparagraph (D), $\frac{1}{2}$ of the income shall be considered to be available to the institutionalized spouse and $\frac{1}{2}$ to the community spouse.

“(D) REBUTTING OWNERSHIP.—The rules of subparagraphs (A) and (C) are superseded to the extent that an in-

stitutionalized spouse can establish, by a preponderance of the evidence, that the ownership interests in income are other than as provided under such subparagraphs.

“(c) RULES FOR TREATMENT OF RESOURCES.—

“(1) COMPUTATION OF SPOUSAL SHARE AT TIME OF INSTITUTIONALIZATION.—

“(A) TOTAL JOINT RESOURCES.—There shall be computed (as of the beginning of the first continuous period of institutionalization of the institutionalized spouse)—

“(i) the total value of the resources to the extent either the institutionalized spouse or the community spouse has an ownership interest, and

“(ii) a spousal share which is equal to $\frac{1}{2}$ of such total value.

“(B) ASSESSMENT.—At the request of an institutionalized spouse or community spouse, at the beginning of the first continuous period of institutionalization of the institutionalized spouse and upon the receipt of relevant documentation of resources, the State shall promptly assess and document the total value described in subparagraph (A)(i) and shall provide a copy of such assessment and documentation to each spouse and shall retain a copy of the assessment for use under this section. If the request is not part of an application for medical assistance under this title, the State may, at its option as a condition of providing the assessment, require payment of a fee not exceeding the reasonable expenses of providing and documenting the assessment. At the time of providing the copy of the assessment, the State shall include a notice indicating that the spouse will have a right to a fair hearing under subsection (e)(2).

“(2) ATTRIBUTION OF RESOURCES AT TIME OF INITIAL ELIGIBILITY DETERMINATION.—In determining the resources of an institutionalized spouse at the time of application for medical assistance under this title, regardless of any State laws relating to community property or the division of marital property—

“(A) except as provided in subparagraph (B), all the resources held by either the institutionalized spouse, community spouse, or both, shall be considered to be available to the institutionalized spouse, and

“(B) resources shall be considered to be available to an institutionalized spouse, but only to the extent that the amount of such resources exceeds the amount computed under subsection (f)(2)(A) (as of the time of application for medical assistance).

“(3) ASSIGNMENT OF SUPPORT RIGHTS.—The institutionalized spouse shall not be ineligible by reason of resources determined under paragraph (2) to be available for the cost of care where—

“(A) the institutionalized spouse has assigned to the State any rights to support from the community spouse,

“(B) the institutionalized spouse lacks the ability to execute an assignment due to physical or mental impairment but the State has the right to bring a support pro-

ceeding against a community spouse without such assignment, or

“(C) the State determines that denial of eligibility would work an undue hardship.

“(4) SEPARATE TREATMENT OF RESOURCES AFTER ELIGIBILITY FOR MEDICAL ASSISTANCE ESTABLISHED.—During the continuous period in which an institutionalized spouse is in an institution and after the month in which an institutionalized spouse is determined to be eligible for medical assistance under this title, no resources of the community spouse shall be deemed available to the institutionalized spouse.

“(5) RESOURCES DEFINED.—In this section, the term ‘resources’ does not include—

“(A) resources excluded under subsection (a) or (d) of section 1613, and

“(B) resources that would be excluded under section 1613(a)(2)(A) but for the limitation on total value described in such section.

“(d) PROTECTING INCOME FOR COMMUNITY SPOUSE.—

“(1) ALLOWANCES TO BE OFFSET FROM INCOME OF INSTITUTIONALIZED SPOUSE.—After an institutionalized spouse is determined or redetermined to be eligible for medical assistance, in determining the amount of the spouse’s income that is to be applied monthly to payment for the costs of care in the institution, there shall be deducted from the spouse’s monthly income the following amounts in the following order:

“(A) A personal needs allowance (described in paragraph (2)(A)), in an amount not less than the amount specified in paragraph (2)(C).

“(B) A community spouse monthly income allowance (as defined in paragraph (3)), but only to the extent income of the institutionalized spouse is made available to (or for the benefit of) the community spouse.

“(C) A family allowance, for each family member, equal to at least $\frac{1}{3}$ of the amount by which the amount described in paragraph (4)(A)(i) exceeds the amount of the monthly income of that family member.

“(D) Amounts for incurred expenses for medical or remedial care for the institutionalized spouse as provided under paragraph (6).

In subparagraph (C), the term ‘family member’ only includes minor or dependent children, dependent parents, or dependent siblings of the institutionalized or community spouse who are residing with the community spouse.

“(2) PERSONAL NEEDS ALLOWANCE.—

“(A) IN GENERAL.—The State plan must provide that, in the case of an institutionalized individual or couple described in subparagraph (B), in determining the amount of the individual’s or couple’s income to be applied monthly to payment for the cost of care in an institution, there shall be deducted from the monthly income (in addition to other allowances otherwise provided under the plan) a monthly personal needs allowance—

“(i) which is reasonable in amount for clothing and other personal needs of the individual (or couple) while in an institution, and

“(ii) which is not less (and may be greater) than the minimum monthly personal needs allowance described in subparagraph (C).

“(B) INSTITUTIONALIZED INDIVIDUAL OR COUPLE DEFINED.—In this paragraph, the term ‘institutionalized individual or couple’ means an individual or married couple—

“(ii) who is or are determined to be eligible for medical assistance under the State plan.

“(C) MINIMUM ALLOWANCE.—The minimum monthly personal needs allowance described in this subparagraph is \$40 for an institutionalized individual and \$80 for an institutionalized couple (if both are aged, blind, or disabled, and their incomes are considered available to each other in determining eligibility).

“(3) COMMUNITY SPOUSE MONTHLY INCOME ALLOWANCE DEFINED.—

“(A) IN GENERAL.—In this section (except as provided in subparagraph (B)), the community spouse monthly income allowance for a community spouse is an amount by which—

“(i) except as provided in subsection (e), the minimum monthly maintenance needs allowance (established under and in accordance with paragraph (4)) for the spouse, exceeds

“(ii) the amount of monthly income otherwise available to the community spouse (determined without regard to such an allowance).

“(B) COURT ORDERED SUPPORT.—If a court has entered an order against an institutionalized spouse for monthly income for the support of the community spouse, the community spouse monthly income allowance for the spouse shall be not less than the amount of the monthly income so ordered.

“(4) ESTABLISHMENT OF MINIMUM MONTHLY MAINTENANCE NEEDS ALLOWANCE.—

“(A) IN GENERAL.—Each State shall establish a minimum monthly maintenance needs allowance for each community spouse which, subject to subparagraph (B), is equal to or exceeds—

“(i) 150 percent of $\frac{1}{12}$ of the poverty line applicable to a family unit of 2 members, plus

“(ii) an excess shelter allowance (as defined in paragraph (4)).

A revision of the poverty line referred to in clause (i) shall apply to medical assistance furnished during and after the second calendar quarter that begins after the date of publication of the revision.

“(B) CAP ON MINIMUM MONTHLY MAINTENANCE NEEDS ALLOWANCE.—The minimum monthly maintenance needs allowance established under subparagraph (A) may not exceed \$1,500 (subject to adjustment under subsections (e) and (g)).

“(5) EXCESS SHELTER ALLOWANCE DEFINED.—In paragraph (4)(A)(ii), the term ‘excess shelter allowance’ means, for a community spouse, the amount by which the sum of—

“(A) the spouse’s expenses for rent or mortgage payment (including principal and interest), taxes and insurance and, in the case of a condominium or cooperative, required maintenance charge, for the community spouse’s principal residence, and

“(B) the standard utility allowance (used by the State under section 5(e) of the Food Stamp Act of 1977) or, if the State does not use such an allowance, the spouse’s actual utility expenses,

exceeds 30 percent of the amount described in paragraph (4)(A)(i), except that, in the case of a condominium or cooperative, for which a maintenance charge is included under subparagraph (A), any allowance under subparagraph (B) shall be reduced to the extent the maintenance charge includes utility expenses.

“(6) TREATMENT OF INCURRED EXPENSES.—With respect to the post-eligibility treatment of income under this section, there shall be disregarded reparation payments made by the Federal Republic of Germany and, there shall be taken into account amounts for incurred expenses for medical or remedial care that are not subject to payment by a third party, including—

“(A) medicare and other health insurance premiums, deductibles, or coinsurance, and

“(B) necessary medical or remedial care recognized under State law but not covered under the State plan under this title, subject to reasonable limits the State may establish on the amount of these expenses.

“(e) NOTICE AND FAIR HEARING.—

“(1) NOTICE.—Upon—

“(A) a determination of eligibility for medical assistance of an institutionalized spouse, or

“(B) a request by either the institutionalized spouse, or the community spouse, or a representative acting on behalf of either spouse,

each State shall notify both spouses (in the case described in subparagraph (A)) or the spouse making the request (in the case described in subparagraph (B)) of the amount of the community spouse monthly income allowance (described in subsection (d)(1)(B)), of the amount of any family allowances (described in subsection (d)(1)(C)), of the method for computing the amount of the community spouse resources allowance permitted under subsection (f), and of the spouse’s right to a fair hearing under the State plan respecting ownership or availability of income or resources, and the determination of the community spouse monthly income or resource allowance.

“(2) FAIR HEARING.—

“(A) IN GENERAL.—If either the institutionalized spouse or the community spouse is dissatisfied with a determination of—

“(i) the community spouse monthly income allowance;

“(ii) the amount of monthly income otherwise available to the community spouse (as applied under subsection (d)(3)(A)(ii));

“(iii) the computation of the spousal share of resources under subsection (c)(1);

“(iv) the attribution of resources under subsection (c)(2); or

“(v) the determination of the community spouse resource allowance (as defined in subsection (f)(2));

such spouse is entitled to a fair hearing under the State plan with respect to such determination if an application for benefits under this title has been made on behalf of the institutionalized spouse. Any such hearing respecting the determination of the community spouse resource allowance shall be held within 30 days of the date of the request for the hearing.

“(B) REVISION OF MINIMUM MONTHLY MAINTENANCE NEEDS ALLOWANCE.—If either such spouse establishes that the community spouse needs income, above the level otherwise provided by the minimum monthly maintenance needs allowance, due to exceptional circumstances resulting in significant financial duress, there shall be substituted, for the minimum monthly maintenance needs allowance in subsection (d)(3)(A)(i), an amount adequate to provide such additional income as is necessary.

“(C) REVISION OF COMMUNITY SPOUSE RESOURCE ALLOWANCE.—If either such spouse establishes that the community spouse resource allowance (in relation to the amount of income generated by such an allowance) is inadequate to raise the community spouse’s income to the minimum monthly maintenance needs allowance, there shall be substituted, for the community spouse resource allowance under subsection (f)(2), an amount adequate to provide such a minimum monthly maintenance needs allowance.

“(f) PERMITTING TRANSFER OF RESOURCES TO COMMUNITY SPOUSE.—

“(1) IN GENERAL.—An institutionalized spouse may, without regard to any other provision of the State plan to the contrary, transfer an amount equal to the community spouse resource allowance (as defined in paragraph (2)), but only to the extent the resources of the institutionalized spouse are transferred to, or for the sole benefit of, the community spouse. The transfer under the preceding sentence shall be made as soon as practicable after the date of the initial determination of eligibility, taking into account such time as may be necessary to obtain a court order under paragraph (3).

“(2) COMMUNITY SPOUSE RESOURCE ALLOWANCE DEFINED.—In paragraph (1), the ‘community spouse resource allowance’ for a community spouse is an amount (if any) by which—

“(A) the greatest of—

“(i) \$12,000 (subject to adjustment under subsection (g)), or, if greater (but not to exceed the amount specified in clause (ii)(II)) an amount specified under the State plan,

“(ii) the lesser of (I) the spousal share computed under subsection (c)(1), or (II) \$60,000 (subject to adjustment under subsection (g)),

“(iii) the amount established under subsection (e)(2), or

“(iv) the amount transferred under a court order under paragraph (3);

“(B) ADJUSTMENTS.—

“(i) CARRYOVER OF BASE ALLOTMENT PERMITTED.—Subject to clauses (ii), if the amount of obligations entered into under this part with a State for quarters in a fiscal year is less than the amount of the obligation allotment under this section to the State for the fiscal year, the amount of the difference (less any amount computed under clause (iii)) shall be added to the amount of the State obligation allotment otherwise provided under this section for the succeeding fiscal year.

“(ii) NO CARRYOVER PERMITTED FOR STATES RECEIVING SUPPLEMENTAL UMBRELLA ALLOTMENTS.—Clause (i) shall not apply, insofar as it permits a carryover for a State from a particular year to the next year, if in the particular year the State receives a supplemental umbrella allotment under subsection (g).

“(F) RELATION TO GUARANTEES.—The Federal Government’s obligations for payments under this title are limited as provided under subparagraph (A) and are only subject to adjustment based on any guarantee provided under section 1501 as provided under subsection (g).

“(3) AGGREGATE LIMIT ON NEW BASE OBLIGATION AUTHORITY.—

“(A) IN GENERAL.—For purposes of this subsection, subject to subparagraph (C), the ‘aggregate limit on new base obligation authority’, for a fiscal year, is the base pool amount under subsection (b) for the fiscal year, divided by the payout adjustment factor (described in subparagraph (B)) for the fiscal year.

“(B) PAYOUT ADJUSTMENT FACTOR.—For purposes of this subsection, the ‘payout adjustment factor’—

“(i) for fiscal year 1997 is 0.950,

“(ii) for fiscal year 1998 is 0.986, and

“(iii) for a subsequent fiscal year is 0.998.

“(C) TRANSITIONAL ADJUSTMENT FOR PRE-FISCAL YEAR 1997-OBLIGATION OUTLAYS.—In order to account for pre-fiscal year 1997-obligation outlays described in paragraph (4)(C)(iv), in determining the aggregate limit on new obligation authority under subparagraph (A) for fiscal year 1997, the pool amount for such fiscal year is equal to—

“(i) the pool amount for such year, reduced by

“(ii) \$12,000,000,000.

“(4) BASE OBLIGATION ALLOTMENTS.—

“(A) GENERAL RULE FOR 50 STATES AND THE DISTRICT OF COLUMBIA.—Except as provided in this paragraph, the ‘base obligation allotment’ for any of the 50 States or the District of Columbia for a fiscal year (beginning with fiscal year 1997) is an amount that bears the same ratio to the base outlay allotment under subsection (c)(2) for such State or District (not taking into account any adjustment due to an election under subsection (c)(4)) for the fiscal year as the ratio of—

“(i) the aggregate limit on new base obligation authority (less the total of the obligation allotments under subparagraph (B)) for the fiscal year, to

“(ii) the base pool amount (less the sum of the base outlay allotments for the territories) for such fiscal year.

“(B) TERRITORIES.—The base obligation allotment for each of the Commonwealths and territories for a fiscal year is the base outlay allotment for such Commonwealth or Territory (as determined under subsection (c)(5)) for the fiscal year divided by the payout adjustment factor for the fiscal year (as defined in paragraph (3)(B)).

“(C) TRANSITIONAL RULE FOR FISCAL YEAR 1997.—

“(i) IN GENERAL.—The obligation amount for fiscal year 1997 for any State (including the District of Columbia, a Commonwealth, or Territory) is determined according to the formula: $A=(B-C)/D$, where—

“(II) ‘B’ is the base outlay allotment of such State for fiscal year 1997, as determined under subsection (c),

“(III) ‘C’ is the amount of the pre-enactment-obligation outlays (as established for such State under clause (ii)), and

“(ii) PRE-FISCAL YEAR 1997-OBLIGATION OUTLAY AMOUNTS.—Not later than November 1, 1996, the Secretary shall estimate (based on the best data available) and publish in the Federal Register the amount of the pre-fiscal year 1997-obligation outlays (as defined in clause (iv)) for each State (including the District of Columbia, Commonwealths, and Territories). The total of such amounts shall equal the dollar amount specified in paragraph (3)(C)(ii).

“(iii) AGREEMENT.—The submission of a State plan by a State under this title is deemed to constitute the State’s acceptance of the obligation allotment limitations under this subsection, including the formula for computing the amount of the base obligation allotment and any supplemental obligation allotments.

“(iv) PRE-FISCAL YEAR 1997-OBLIGATION OUTLAYS DEFINED.—In this subsection, the term ‘pre-fiscal year 1997-obligation outlays’ means, for a State, the outlays of the Federal Government that result from obligations that have been incurred under title XIX with respect to the State before October 1, 1996, but for which payments to States have not been made as of such date.

“(D) ADJUSTMENT TO REFLECT ADOPTION OF ALTERNATIVE GROWTH FORMULA.—Any State that has elected an alternative growth formula under subsection (c)(4) which increases or decreases the dollar amount of an outlay allotment for a fiscal year is deemed to have increased or decreased, respectively, its obligation amount for such fiscal year by the amount of such increase or decrease.

“(E) TRANSITIONAL CORRECTION FOR FISCAL YEAR 1997.—

“(i) IN GENERAL.—The base obligation amount for fiscal year 1998 for any State described in clause (ii) shall be increased by the amount by which the amount described in clause (ii)(I) exceeds the amount described in clause (ii)(II), divided by the payout adjustment factor specified in paragraph (3)(B) for fiscal year 1997. The increase under this clause shall be paid to a State in the first quarter of fiscal year 1998.

“(ii) STATES DESCRIBED.—A State described in this clause is a State for which—

“(5) SEQUENCE OF OBLIGATIONS.—For purposes of carrying out this title, payments under section 1512 to a State eligible for a supplemental outlay allotment that are attributable to—

“(A) expenditures for medical assistance described in the second sentence of subsection (f)(1) or the second sentence of subsection (h)(1) shall first be counted toward the supplemental outlay allotment provided under subsection (f) or (h), respectively, rather than toward the base outlay allotment otherwise provided under this section; or

“(B) subsection (g) (relating to the umbrella fund) shall first be counted toward the allotment provided other than under such subsection, and then to such subsection.

“(b) BASE POOL OF AVAILABLE FUNDS.—

“(C) ADJUSTMENT FACTOR.—The adjustment factor under this subparagraph for a fiscal year is such proportion so that, when it is applied under subparagraph (A)(ii) for the fiscal year (taking into account the floors and ceilings under paragraph (3)), the total of the base outlay allotments under this subsection for all the 50 States and the District of Columbia for the fiscal year (not taking into account any increase in a base outlay allotment for a fiscal year attributable to the election of an alternative growth formula under paragraph (4)) is equal to the amount by which (i) the base pool amount for the fiscal year (as determined under subsection (b)), exceeds (ii) the sum of the base outlay allotments provided under paragraph (5) for the Commonwealths and Territories for the fiscal year.

“(3) FLOORS AND CEILINGS.—

“(A) FLOORS.—Subject to the ceiling established under subparagraph (B), in no case shall the amount of the State base outlay allotment under paragraph (2) for a fiscal year be less than the greatest of the following:

the national growth percentage for the fiscal year involved.

“(B) CEILINGS.—

“(i) IN GENERAL.—Subject to clause (ii), in no case shall the amount of the State base outlay allotment under paragraph (2) for a fiscal year be greater than the product of—

“(I) the State base outlay allotment under this subsection for the State for the preceding fiscal year, and

“(iv) DETERMINATION OF FEDERAL SPENDING PER RESIDENT-IN-POVERTY RATE.—For purposes of clause (iii), the ‘Federal spending per resident-in-poverty rate’ for a State for a fiscal year is equal to—

“(I) the State’s outlay allotment under this subsection for the previous fiscal year (determined without regard to paragraph (4)), divided by

“(II) the average annual number of residents of the State in poverty (as defined in subsection (d)(2)) with respect to the fiscal year.

“(B) FORMULA.—The alternative growth formula under this paragraph may be any formula under which a portion of the State base outlay allotment for fiscal year 1997 under paragraph (1) is deferred and applied to increase the amount of its base outlay allotment for one or more subsequent fiscal years, so long as the total amount of such increases for all such subsequent fiscal years does not exceed the amount of the base outlay allotment deferred from fiscal year 1997.

“(C) reasonably consider any such clarifications and information submitted.

“(4) JUSTIFICATION OF ANY INCONSISTENCIES IN DETERMINATIONS.—If the Secretary makes a determination under this section that is, in whole or in part, inconsistent with any previous determination issued by the Secretary under this title, the Secretary shall include in the determination a detailed explanation and justification for any such difference.

“(5) SUBSTANTIAL VIOLATION DEFINED.—For purposes of this title, a State plan (or amendment to such a plan) or the administration of the State plan is considered to ‘substantially violate’ a requirement of this title if a provision of the plan or amendment (or an omission from the plan or amendment) or the administration of the plan—

“(A) is material and substantial in nature and effect,

and

“(B) is inconsistent with an express requirement of this title.

A failure to meet a strategic objective or performance goal (as described in section 1521) shall not be considered to substantially violate a requirement of this title.

“(6) RELATION TO OTHER PROVISION.—This subsection shall not apply to violation of a requirement of subsection (a) or (b) of section 1501.

“(d) STATE RESPONSE TO ORDERS.—

“(1) STATE RESPONSE BY REVISING PLAN.—

“(A) IN GENERAL.—Insofar as an order under subsection (b)(1) or (c)(1) relates to a violation by a State plan or plan amendment, a State may respond (before the date the order becomes effective) to such an order by submitting a written revision of the State plan or plan amendment to comply with the requirements of this title.

“(B) REVIEW OF REVISION.—In the case of submission of such a revision, the Secretary shall promptly review the submission and shall, in the case of an order under subsection (c)(1), withhold any action on the order during the period of such review.

“(C) SECRETARIAL RESPONSE.—

“(i) ORDERS RELATING TO GUARANTEES.—In the case of a revision submitted in response to an order under subsection (b)(1), the revision shall not be considered to have corrected the deficiency unless the Secretary determines and notifies the State that the State plan or amendment, as proposed to be revised complies with the requirements of subsections (a) and (b) of section 1501. If the Secretary determines that the revision does not correct the deficiency, the Secretary shall notify the State in writing of such determination and the State may respond by seeking reconsideration or a hearing under paragraph (2).

“(ii) OTHER ORDERS.—In the case of a revision submitted in response to an order under subsection (c)(1), the revision shall be considered to have corrected the deficiency (and the order rescinded insofar as it relates to such deficiency) unless the Secretary determines and notifies the State in writing, within 15 days after the date the Secretary receives the revision, that the State plan or amendment, as proposed to be revised, still substantially violates a requirement of this title. In such case the State may respond by seeking reconsideration or a hearing under paragraph (2).

“(D) REVISION RETROACTIVE.—If the revision provides for compliance (in the case of an order under subsection (b)(1)) or substantial compliance (in the case of an order under subsection (c)(1)), the revision may be treated, at the option of the State, as being effective either as of the effective date of the provision to which it relates or such later date as the State and Secretary may agree.

“(2) STATE RESPONSE BY SEEKING RECONSIDERATION OR AN ADMINISTRATIVE HEARING.—A State may respond to an order under subsection (b) or (c) by filing a request with the Secretary for—

“(A) a reconsideration of the determination, pursuant to subsection (e)(1), or

“(B) a review of the determination through an administrative hearing, pursuant to subsection (e)(2).

In such case for an order under subsection (c), the order shall not take effect before the completion of the reconsideration or hearing.

“(3) STATE RESPONSE BY CORRECTIVE ACTION PLAN.—

“(A) IN GENERAL.—In the case of an order described in subsection (b)(2) or (c)(2) that relates to a violation in the administration of the State plan, a State may respond to such an order by submitting a corrective action plan with the Secretary to correct deficiencies in the administration of the plan which are the subject of the order.

“(B) REVIEW OF CORRECTIVE ACTION PLAN.—In the case of a corrective action plan submitted in response to an order under subsection (c)(2), the Secretary shall withhold any action on the order for a period (not to exceed 30 days) during which the Secretary reviews the corrective action plan.

“(C) SECRETARIAL RESPONSE.—

“(i) ORDERS RELATING TO GUARANTEES.—In the case of a corrective action plan submitted in response to an order under subsection (b)(2), the plan shall not be considered to have corrected the deficiency unless the Secretary determines and notifies the State that the State’s administration of the State plan, as proposed to be corrected in the plan, will not violate a requirement of subsection (a) or (b) of section 1501. If the Secretary determines that the plan does not correct the deficiency, the Secretary shall notify the State in writing of such determination and the State may respond by seeking reconsideration or a hearing under paragraph (2).

“(ii) OTHER ORDERS.—In the case of a corrective action plan submitted in response to an order under subsection (c)(2), the corrective action plan shall be considered to have corrected the deficiency (and the order rescinded insofar as it relates to such deficiency) unless the Secretary determines and notifies the State in writing, within 15 days after the date the Secretary receives the corrective action plan, that the State’s administration of the State plan, as proposed to be corrected in the plan, will still substantially violate a requirement of this title. In such case the State may respond by seeking reconsideration or a hearing under paragraph (2).

“(4) STATE RESPONSE BY WITHDRAWAL OF PLAN AMENDMENT; FAILURE TO RESPOND.—Insofar as an order relates to a violation in a plan amendment submitted, a State may respond to such an order by withdrawing the plan amendment and the State plan shall be treated as though the amendment had not been made.

“(e) ADMINISTRATIVE REVIEW AND HEARING.—

“(1) RECONSIDERATION.—Within 30 days after the date of receipt of a request under subsection (d)(2)(A), the Secretary shall notify the State of the time and place at which a hearing will be held for the purpose of reconsidering the Secretary’s determination. The hearing shall be held not less than 20 days nor more than 60 days after the date notice of the hearing is furnished to the State, unless the Secretary and the State agree in writing to holding the hearing at another time. The Secretary shall affirm, modify, or reverse the original determination within 60 days of the conclusion of the hearing.

“(2) ADMINISTRATIVE HEARING.—Within 30 days after the date of receipt of a request under subsection (d)(2)(B), an administrative law judge shall schedule a hearing for the purpose of reviewing the Secretary’s determination. The hearing shall be held not less than 20 days nor more than 60 days after the date notice of the hearing is furnished to the State, unless the Secretary and the State agree in writing to holding the hearing at another time. The administrative law judge shall affirm, modify, or reverse the determination within 60 days of the conclusion of the hearing.

“(f) JUDICIAL REVIEW.—

“(1) IN GENERAL.—A State which is dissatisfied with a final determination made by the Secretary under subsection (e)(1) or a final determination of an administrative law judge under subsection (e)(2) may, within 60 days after it has been notified of such determination, file with the United States court of appeals for the circuit in which the State is located a petition for review of such determination. A copy of the petition shall be forthwith transmitted by the clerk of the court to the Secretary and, in the case of a determination under subsection (e)(2), to the administrative law judge involved. The Secretary (or judge involved) thereupon shall file in the court the record of the proceedings on which the final determination was based, as provided in section 1502 of title 28, United States Code. Except as provided in section 1508, only the Secretary, in accordance with this title, may compel a State under Federal law to comply with the provisions of this title or a State plan, or otherwise enforce a provision of this title against a State, and no action may be filed under Federal law against a State in relation to the State’s compliance, or failure to comply, with the provisions of this title or of a State plan except under section 1508 or by the Secretary as provided under this subsection.

“(2) STANDARD FOR REVIEW.—The findings of fact by the Secretary or administrative law judge, if supported by substantial evidence, shall be conclusive, but the court, for good cause shown, may remand the case to the Secretary or judge to take further evidence, and the Secretary or judge may thereupon make new or modified findings of fact and may modify a previous determination, and shall certify to the court the transcript and record of the further proceedings. Such new or modified findings of fact shall likewise be conclusive if supported by substantial evidence.

“(3) JURISDICTION OF APPELLATE COURT.—The court shall have jurisdiction to affirm the action of the Secretary or judge or to set it aside, in whole or in part. The judgment of the court shall be subject to review by the Supreme Court of the United States upon certiorari or certification as provided in section 1254 of title 28, United States Code.

“(g) WITHHOLDING OF FUNDS.—

“(1) IN GENERAL.—Any order under this section relating to the withholding of funds shall be effective not earlier than the effective date of the order and shall only relate to the portions of a State plan or administration thereof which violate a requirement of subsection (a) or (b) of section 1501 or substantially violate another requirement of this title. In the case of a failure to meet a set-aside requirement under section 1502(c), any withholding shall only apply to the extent of such failure.

“(2) SUSPENSION OF WITHHOLDING.—The Secretary may suspend withholding of funds under paragraph (1) during the period reconsideration or administrative and judicial review is pending under subsection (e) or (f).

“(3) RESTORATION OF FUNDS.—Any funds withheld under this subsection under an order shall be immediately restored to a State—

“(A) to the extent and at the time the order is—

“(i) modified or withdrawn by the Secretary upon reconsideration,

“(ii) modified or reversed by an administrative law judge, or

“(iii) set aside (in whole or in part) by an appellate court; or

“(B) when the Secretary determines that the deficiency which was the basis for the order is corrected;

“(C) when the Secretary determines that violation which was the basis for the order is resolved or the amendment which was the basis for the order is withdrawn; or

“(D) at any time upon the initiative of the Secretary.

“(h) **INDIVIDUAL COMPLAINT PROCESS.**—The Secretary shall provide for a process under which an individual may notify the Secretary concerning a State’s failure to provide medical assistance as required under the State plan or otherwise comply with the requirements of this title or such plan, including any failure to comply with a requirement of subsection (a) or (b) of section 1501. If the Secretary finds that there is a pattern of complaints with respect to a State or that a particular failure or finding of noncompliance is egregious, the Secretary shall notify the chief executive officer of the State of such finding and shall notify the Congress if the State fails to respond to such notification within a reasonable period of time.

“SEC. 1530. SECRETARIAL AUTHORITY.

“(a) **NEGOTIATED AGREEMENT AND DISPUTE RESOLUTION.**—

“(1) **NEGOTIATIONS.**—Nothing in this part shall be construed as preventing the Secretary and a State from at any time negotiating a satisfactory resolution to any dispute concerning the approval of a State plan (or amendments to a State plan) or the compliance of a State plan (including its administration) with requirements of this title.

“(2) **COOPERATION.**—The Secretary shall act in a cooperative manner with the States in carrying out this title. In the event of a dispute between a State and the Secretary, the Secretary shall, whenever practicable, engage in informal dispute resolution activities in lieu of formal enforcement or sanctions under section 1529.

“(b) **LIMITATIONS ON DELEGATION OF DECISIONMAKING AUTHORITY.**—The Secretary may not delegate (other than to the Administrator of the Health Care Financing Administration) the authority to make determinations or reconsiderations respecting the approval of State plans (or amendments to such plans) or the compliance of a State plan (including its administration) with requirements of this title. Such Administrator may not further delegate such authority to any individual, including any regional official of such Administration.

“(c) **REQUIRING FORMAL RULEMAKING FOR CHANGES IN SECRETARIAL ADMINISTRATION.**—The Secretary shall carry out the administration of the program under this title only through a prospective formal rulemaking process, including issuing notices of proposed rulemaking, publishing proposed rules or modifications to rules in the Federal Register, and soliciting public comment.

“(2) VERIFICATION AUDITS.—If, after consultation with the State and the Comptroller General and after a fair hearing, the Secretary determines that a State’s audit under paragraph (1) was performed in substantial violation of chapter 75 of title 31, United States Code, the Secretary may—

“(A) require that the State provide for a verification audit in compliance with such chapter, or

“(B) conduct such a verification audit.

“(3) AVAILABILITY OF AUDIT REPORTS.—Within 30 days after completion of each audit or verification audit under this subsection, the State shall—

“(A) provide the Secretary with a copy of the audit report, including the State’s response to any recommendations of the auditor, and

“(B) make the audit report available for public inspection in the same manner as proposed State plan amendments are made available under section 1525.

“(b) FISCAL CONTROLS.—

“(1) IN GENERAL.—With respect to the accounting and expenditure of funds under this title, each State shall adopt and maintain such fiscal controls, accounting procedures, and data processing safeguards as the State deems reasonably necessary to assure the fiscal integrity of the State’s activities under this title.

“(2) CONSISTENCY WITH GENERALLY ACCEPTED ACCOUNTING PRINCIPLES.—Such controls and procedures shall be generally consistent with generally accepted accounting principles as recognized by the Governmental Accounting Standards Board or the Comptroller General.

“(c) AUDITS OF PROVIDERS.—Each State plan shall provide that the records of any entity providing items or services for which payment may be made under the plan may be audited as necessary to ensure that proper payments are made under the plan.

“SEC. 1552. FRAUD PREVENTION PROGRAM.

“(a) ESTABLISHMENT.—Each State plan shall provide for the establishment and maintenance of an effective program for the detection and prevention of fraud and abuse by beneficiaries, providers, and others in connection with the operation of the program.

“(b) PROGRAM REQUIREMENTS.—The program established pursuant to subsection (a) shall include at least the following requirements:

“(1) DISCLOSURE OF INFORMATION.—Any disclosing entity (as defined in section 1124(a)) receiving payments under the State plan shall comply with the requirements of section 1124.

“(2) SUPPLY OF INFORMATION.—An entity (other than an individual practitioner or a group of practitioners) that furnishes,

“(3) EXCLUSION.—

“(A) IN GENERAL.—The State plan shall exclude any specified individual or entity from participation in the plan for the period specified by the Secretary when required by the Secretary to do so pursuant to section 1128 or section 1128A, and provide that no payment may be made under the plan with respect to any item or service furnished by such individual or entity during such period.

“(B) AUTHORITY.—In addition to any other authority, a State may exclude any individual or entity for purposes of participating under the State plan for any reason for which the Secretary could exclude the individual or entity from participation in a program under title XVIII or under section 1128, 1128A, or 1866(b)(2).

“(4) NOTICE.—The State plan shall provide that whenever a provider of services or any other person is terminated, suspended, or otherwise sanctioned or prohibited from participating under the plan, the State agency responsible for administering the plan shall promptly notify the Secretary and, in the case of a physician, the State medical licensing board of such action.

“(5) ACCESS TO INFORMATION.—The State plan shall provide that the State will provide information and access to certain information respecting sanctions taken against health care practitioners and providers by State licensing authorities in accordance with section 1553.

“(1) INFORMATION REPORTING SYSTEM.—The State must have in effect a system of reporting the following information with respect to formal proceedings (as defined by the Secretary in regulations) concluded against a health care practitioner or entity by any authority of the State (or of a political subdivision thereof) responsible for the licensing of health care practitioners (or any peer review organization or private accreditation entity reviewing the services provided by health care practitioners) or entities:

“(A) Any adverse action taken by such licensing authority as a result of the proceeding, including any revocation or suspension of a license (and the length of any such suspension), reprimand, censure, or probation.

“(B) Any dismissal or closure of the proceedings by reason of the practitioner or entity surrendering the license or leaving the State or jurisdiction.

“(b) FORM OF INFORMATION.—The information described in subsection (a)(1) shall be provided to the Secretary (or to an appropriate private or public agency, under suitable arrangements made by the Secretary with respect to receipt, storage, protection of confidentiality, and dissemination of information) in such a form and manner as the Secretary determines to be appropriate in order to provide for activities of the Secretary under this Act and in order to provide, directly or through suitable arrangements made by the Secretary, information—

“(d) APPROPRIATE COORDINATION.—The Secretary shall provide for the maximum appropriate coordination in the implementation of subsection (a) of this section and section 422 of the Health Care Quality Improvement Act of 1986 and section 1128E.

“SEC. 1554. STATE FRAUD CONTROL UNITS.

“(a) IN GENERAL.—Each State plan shall provide for a State fraud control unit described in subsection (b) that effectively carries out the functions and requirements described in such subsection, unless the State demonstrates to the satisfaction of the Secretary that the effective operation of such a unit in the State would not be cost-effective because minimal fraud exists in connection with the provision of covered services to eligible individuals under the plan, and that beneficiaries under the plan will be protected from abuse and neglect in connection with the provision of medical assistance under the plan without the existence of such a unit.

“(b) UNITS DESCRIBED.—For purposes of this section, the term ‘State fraud control unit’ means a single identifiable entity of the State government which meets the following requirements:

“(1) ORGANIZATION.—The entity—

“(A) is a unit of the office of the State Attorney General or of another department of State government which possesses statewide authority to prosecute individuals for criminal violations;

“(B) is in a State the constitution of which does not provide for the criminal prosecution of individuals by a statewide authority and has formal procedures that—

“(i) assure its referral of suspected criminal violations relating to the program under this title to the appropriate authority or authorities in the State for prosecution, and

“(ii) assure its assistance of, and coordination with, such authority or authorities in such prosecutions; or

“(C) has a formal working relationship with the office of the State Attorney General and has formal procedures (including procedures for its referral of suspected criminal violations to such office) which provide effective coordination of activities between the entity and such office with respect to the detection, investigation, and prosecution of suspected criminal violations relating to the program under this title.

“(2) INDEPENDENCE.—The entity is separate and distinct from any State agency that has principal responsibilities for administering or supervising the administration of the State plan.

“(3) FUNCTION.—The entity’s function is conducting a statewide program for the investigation and prosecution of violations of all applicable State laws regarding any and all aspects of fraud in connection with any aspect of the provision of medical assistance and the activities of providers of such assistance under the State plan.

“(4) REVIEW OF COMPLAINTS.—The entity has procedures for reviewing complaints of the abuse and neglect of patients of health care facilities which receive payments under the State plan under this title, and, where appropriate, for acting upon such complaints under the criminal laws of the State or for referring them to other State agencies for action.

“(5) OVERPAYMENTS.—

“(A) IN GENERAL.—The entity provides for the collection, or referral for collection to a single State agency, of overpayments that are made under the State plan to health care providers and that are discovered by the entity in carrying out its activities.

“(B) TREATMENT OF CERTAIN OVERPAYMENTS.—If an overpayment is the direct result of the failure of the provider (or the provider’s billing agent) to adhere to a change in the State’s billing instructions, the entity may recover the overpayment only if the entity demonstrates that the provider (or the provider’s billing agent) received prior written or electronic notice of the change in the billing instructions before the submission of the claims on which the overpayment is based.

“(6) PERSONNEL.—The entity employs such auditors, attorneys, investigators, and other necessary personnel and is organized in such a manner as is necessary to promote the effective and efficient conduct of the entity’s activities.

“SEC. 1555. RECOVERIES FROM THIRD PARTIES AND OTHERS.

“(a) THIRD PARTY LIABILITY.—Each State plan shall provide for reasonable steps—

“(1) to ascertain the legal liability of third parties to pay for care and services available under the plan, including the collection of sufficient information to enable States to pursue claims against third parties, and

“(2) to seek reimbursement for medical assistance provided to the extent legal liability is established where the amount expected to be recovered exceeds the costs of the recovery.

“(b) BENEFICIARY PROTECTION.—

“(1) IN GENERAL.—Each State plan shall provide that in the case of a person furnishing services under the plan for which a third party may be liable for payment—

“(A) the person may not seek to collect from the individual (or financially responsible relative) payment of an amount for the service more than could be collected under the plan in the absence of such third party liability, and

“(B) may not refuse to furnish services to such an individual because of a third party’s potential liability for payment for the service.

“(2) PENALTY.—A State plan may provide for a reduction of any payment amount otherwise due with respect to a person who furnishes services under the plan in an amount equal to up to 3 times the amount of any payment sought to be collected by that person in violation of paragraph (1)(A).

“(c) GENERAL LIABILITY.—The State shall prohibit any health insurer, including a group health plan as defined in section 607 of the Employee Retirement Income Security Act of 1974, a service

benefit plan, or a health maintenance organization, in enrolling an individual or in making any payments for benefits to the individual or on the individual's behalf, from taking into account that the individual is eligible for or is provided medical assistance under a State plan for any State.

“(d) ACQUISITION OF RIGHTS OF BENEFICIARIES.—To the extent that payment has been made under a State plan in any case where a third party has a legal liability to make payment for such assistance, the State shall have in effect laws under which, to the extent that payment has been made under the plan for health care items or services furnished to an individual, the State is considered to have acquired the rights of such individual to payment by any other party for such health care items or services.

“(e) ASSIGNMENT OF MEDICAL SUPPORT RIGHTS.—The State plan shall provide for mandatory assignment of rights of payment for medical support and other medical care owed to recipients in accordance with section 1556.

“(f) REQUIRED LAWS RELATING TO MEDICAL CHILD SUPPORT.—

“(1) IN GENERAL.—Each State with a State plan under this title shall have in effect the following laws:

“(A) A law that prohibits an insurer from denying enrollment of a child under the health coverage of the child's parent on the ground that—

“(i) the child was born out of wedlock,

“(ii) the child is not claimed as a dependent on the parent's Federal income tax return, or

“(iii) the child does not reside with the parent or in the insurer's service area.

“(B) In any case in which a parent is required by a court or administrative order to provide health coverage for a child and the parent is eligible for family health coverage through an insurer, a law that requires such insurer—

“(i) to permit such parent to enroll under such family coverage any such child who is otherwise eligible for such coverage (without regard to any enrollment season restrictions);

“(ii) if such a parent is enrolled but fails to make application to obtain coverage of such child, to enroll such child under such family coverage upon application by the child's other parent or by the State agency administering the program under this title or part D of title IV; and

“(iii) not to disenroll, or eliminate coverage of, such a child unless the insurer is provided satisfactory written evidence that—

“(I) such court or administrative order is no longer in effect, or

“(II) the child is or will be enrolled in comparable health coverage through another insurer which will take effect not later than the effective date of such disenrollment.

“(C) In any case in which a parent is required by a court or administrative order to provide health coverage

for a child and the parent is eligible for family health coverage through an employer doing business in the State, a law that requires such employer—

“(i) to permit such parent to enroll under such family coverage any such child who is otherwise eligible for such coverage (without regard to any enrollment season restrictions);

“(ii) if such a parent is enrolled but fails to make application to obtain coverage of such child, to enroll such child under such family coverage upon application by the child’s other parent or by the State agency administering the program under this title or part D of title IV; and

“(iii) not to disenroll (or eliminate coverage of) any such child unless—

“(I) the employer is provided satisfactory written evidence that such court or administrative order is no longer in effect, or the child is or will be enrolled in comparable health coverage which will take effect not later than the effective date of such disenrollment, or

“(II) the employer has eliminated family health coverage for all of its employees; and

“(iv) to withhold from such employee’s compensation the employee’s share (if any) of premiums for health coverage (except that the amount so withheld may not exceed the maximum amount permitted to be withheld under section 303(b) of the Consumer Credit Protection Act), and to pay such share of premiums to the insurer, except that the Secretary may provide by regulation for appropriate circumstances under which an employer may withhold less than such employee’s share of such premiums.

“(D) A law that prohibits an insurer from imposing requirements on a State agency, which has been assigned the rights of an individual eligible for medical assistance under this title and covered for health benefits from the insurer, that are different from requirements applicable to an agent or assignee of any other individual so covered.

“(E) A law that requires an insurer, in any case in which a child has health coverage through the insurer of a noncustodial parent—

“(i) to provide such information to the custodial parent as may be necessary for the child to obtain benefits through such coverage,

“(ii) to permit the custodial parent (or provider, with the custodial parent’s approval) to submit claims for covered services without the approval of the noncustodial parent, and

“(iii) to make payment on claims submitted in accordance with clause (ii) directly to such custodial parent, the provider, or the State agency.

“(F) A law that permits the State agency under this title to garnish the wages, salary, or other employment in-

come of, and requires withholding amounts from State tax refunds to, any person who—

“(i) is required by court or administrative order to provide coverage of the costs of health services to a child who is eligible for medical assistance under this title,

“(ii) has received payment from a third party for the costs of such services to such child, but

“(iii) has not used such payments to reimburse, as appropriate, either the other parent or guardian of such child or the provider of such services,

to the extent necessary to reimburse the State agency for expenditures for such costs under its plan under this title, but any claims for current or past-due child support shall take priority over any such claims for the costs of such services.

“(2) DEFINITION.—For purposes of this subsection, the term ‘insurer’ includes a group health plan, as defined in section 607(1) of the Employee Retirement Income Security Act of 1974, a health maintenance organization, and an entity offering a service benefit plan.

“(g) ESTATE RECOVERIES AND LIENS PERMITTED.—A State may take such actions as it considers appropriate to adjust or recover from the individual or the individual’s estate any amounts paid as medical assistance to or on behalf of the individual under the State plan, including through the imposition of liens against the property or estate of the individual to the extent consistent with section 1506.

“SEC. 1556. ASSIGNMENT OF RIGHTS OF PAYMENT.

“(a) IN GENERAL.—For the purpose of assisting in the collection of medical support payments and other payments for medical care owed to recipients of medical assistance under the State plan, each State plan shall—

“(1) provide that, as a condition of eligibility for medical assistance under the plan to an individual who has the legal capacity to execute an assignment for himself, the individual is required—

“(A) to assign the State any rights, of the individual or of any other person who is eligible for medical assistance under the plan and on whose behalf the individual has the legal authority to execute an assignment of such rights, to support (specified as support for the purpose of medical care by a court or administrative order) and to payment for medical care from any third party,

“(B) to cooperate with the State (i) in establishing the paternity of such person (referred to in subparagraph (A)) if the person is a child born out of wedlock, and (ii) in obtaining support and payments (described in subparagraph (A)) for himself and for such person, unless (in either case) the individual is a pregnant woman or the individual is found to have good cause for refusing to cooperate as determined by the State, and

“(C) to cooperate with the State in identifying, and providing information to assist the State in pursuing, any

third party who may be liable to pay for care and services available under the plan, unless such individual has good cause for refusing to cooperate as determined by the State; and

“(2) provide for entering into cooperative arrangements, including financial arrangements, with any appropriate agency of any State (including, with respect to the enforcement and collection of rights of payment for medical care by or through a parent, with a State’s agency established or designated under section 454(3)) and with appropriate courts and law enforcement officials, to assist the agency or agencies administering the plan with respect to—

“(A) the enforcement and collection of rights to support or payment assigned under this section, and

“(B) any other matters of common concern.

“(b) USE OF AMOUNTS COLLECTED.—Such part of any amount collected by the State under an assignment made under the provisions of this section shall be retained by the State as is necessary to reimburse it for medical assistance payments made on behalf of an individual with respect to whom such assignment was executed (with appropriate reimbursement of the Federal Government to the extent of its participation in the financing of such medical assistance), and the remainder of such amount collected shall be paid to such individual.

“SEC. 1557. QUALITY ASSURANCE REQUIREMENTS FOR NURSING FACILITIES.

“(a) NURSING FACILITY DEFINED.—In this title, the term ‘nursing facility’ means an institution (or a distinct part of an institution) which—

“(A) skilled nursing care and related services for residents who require medical or nursing care,

“(B) rehabilitation services for the rehabilitation of injured, disabled, or sick persons, or

“(C) on a regular basis, health-related care and services to individuals who because of their mental or physical condition require care and services (above the level of room and board) which can be made available to them only through institutional facilities,

and is not primarily for the care and treatment of mental diseases;

“(2) has in effect a transfer agreement (meeting the requirements of section 1861(l)) with one or more hospitals having agreements in effect under section 1866; and

“(3) meets the requirements for a nursing facility described in subsections (b), (c), and (d) of this section.

Such term also includes any facility which is located in a State on an Indian reservation and is certified by the Secretary as meeting the requirements of paragraph (1) and subsections (b), (c), and (d).

“(b) REQUIREMENTS RELATING TO PROVISION OF SERVICES.—

“(1) QUALITY OF LIFE.—

“(C) is periodically reviewed and revised by such team after each assessment under paragraph (3).

“(2) NURSE AIDE REGISTRY.—

“(A) IN GENERAL.—The State shall establish and maintain a registry of all individuals who have satisfactorily completed a nurse aide training and competency evaluation program, or a nurse aide competency evaluation program, approved under paragraph (1) in the State, or any individual described in subsection (f)(2)(B)(ii) or in subparagraph (B), (C), or (D) of section 6901(b)(4) of the Omnibus Budget Reconciliation Act of 1989.

“(B) INFORMATION IN REGISTRY.—The registry under subparagraph (A) shall provide (in accordance with regulations of the Secretary) for the inclusion of specific documented findings by a State under subsection (g)(1)(C) of resident neglect or abuse or misappropriation of resident property involving an individual listed in the registry, as well as any brief statement of the individual disputing the findings. The State shall make available to the public information in the registry. In the case of inquiries to the registry concerning an individual listed in the registry, any information disclosed concerning such a finding shall also include disclosure of any such statement in the registry relating to the finding or a clear and accurate summary of such a statement.

“(C) PROHIBITION AGAINST CHARGES.—A State may not impose any charges on a nurse aide relating to the registry established and maintained under subparagraph (A).

“(3) STATE APPEALS PROCESS FOR TRANSFERS AND DISCHARGES.—The State must provide for a fair mechanism, meeting the guidelines established under subsection (f)(3), for hearing appeals on transfers and discharges of residents of such facilities.

“(4) NURSING FACILITY ADMINISTRATOR STANDARDS.—The State must implement and enforce the nursing facility administrator standards developed under subsection (f)(4) respecting the qualification of administrators of nursing facilities. Any such standards promulgated shall apply to administrators of hospital-based facilities as well as administrators of freestanding facilities.

“(5) SPECIFICATION OF RESIDENT ASSESSMENT INSTRUMENT.—The State shall specify the instrument to be used by nursing facilities in the State in complying with the requirement of subsection (b)(3)(A)(iii). Such instrument shall be—

“(A) one of the instruments designated under subsection (f)(6)(B), or

“(B) an instrument which the Secretary has approved as being consistent with the minimum data set of core elements, common definitions, and utilization guidelines specified by the Secretary under subsection (f)(6)(A).

“(6) NOTICE OF RIGHTS.—Each State shall develop (and periodically update) a written notice of the rights and obligations of residents of nursing facilities (and spouses of such residents) under this title.

“(7) STATE REQUIREMENTS FOR PREADMISSION SCREENING AND RESIDENT REVIEW.—

“(A) PREADMISSION SCREENING.—

“(i) IN GENERAL.—The State must have in effect a preadmission screening program, for identifying mentally ill and mentally retarded individuals (as defined in subparagraph (B)) who are admitted to nursing facilities and for determining whether they require the level of services of such a facility.

“(ii) STATE REQUIREMENT FOR RESIDENT REVIEW.—The State shall notify the State mental health authority or the State mental retardation or developmental disability authority, as appropriate, of the individuals so identified.

“(B) DEFINITIONS.—In this paragraph:

“(i) An individual is considered to be ‘mentally ill’ if the individual has a serious mental illness (as defined by the Secretary in consultation with the National Institute of Mental Health) and does not have a primary diagnosis of dementia (including Alzheimer’s disease or a related disorder) or a diagnosis (other than a primary diagnosis) of dementia and a primary diagnosis that is not a serious mental illness.

“(ii) An individual is considered to be ‘mentally retarded’ if the individual is mentally retarded or a person with a related condition.

“(f) RESPONSIBILITIES RELATING TO NURSING FACILITY REQUIREMENTS.—

“(1) GENERAL RESPONSIBILITY.—It is the duty and responsibility of the Secretary to assure that requirements which govern the provision of care in nursing facilities under State plans approved under this title, and the enforcement of such requirements, are adequate to protect the health, safety, welfare, and rights of residents and to promote the effective and efficient use of public moneys.

“(2) REQUIREMENTS FOR NURSE AIDE TRAINING AND COMPETENCY EVALUATION PROGRAMS AND FOR NURSE AIDE COMPETENCY EVALUATION PROGRAMS.—

“(A) IN GENERAL.—For purposes of subsections (b)(5) and (e)(1)(A), the Secretary shall establish—

“(i) requirements for the approval of nurse aide training and competency evaluation programs, including requirements relating to (I) the areas to be covered in such a program (including at least basic nursing skills, personal care skills, recognition of mental health and social service needs, care of cognitively impaired residents, basic restorative services, and residents’ rights) and content of the curriculum, (II) minimum hours of initial and ongoing training and retraining (including not less than 75 hours in the case of initial training), (III) qualifications of instructors, and (IV) procedures for determination of competency;

“(ii) requirements for the approval of nurse aide competency evaluation programs, including requirement relating to the areas to be covered in such a program, including at least basic nursing skills, personal

care skills, recognition of mental health and social service needs, care of cognitively impaired residents, basic restorative services, and residents' rights, and procedures for determination of competency;

“(iii) requirements respecting the minimum frequency and methodology to be used by a State in reviewing such programs' compliance with the requirements for such programs; and

“(iv) requirements, under both such programs, that—

“(I) provide procedures for determining competency that permit a nurse aide, at the nurse aide's option, to establish competency through procedures or methods other than the passing of a written examination and to have the competency evaluation conducted at the nursing facility at which the aide is (or will be) employed (unless the facility is described in subparagraph (B)(iii)(I)),

“(II) prohibit the imposition on a nurse aide who is employed by (or who has received an offer of employment from) a facility on the date on which the aide begins either such program of any charges (including any charges for textbooks and other required course materials and any charges for the competency evaluation) for either such program, and

“(III) in the case of a nurse aide not described in subclause (II) who is employed by (or who has received an offer of employment from) a facility not later than 12 months after completing either such program, the State shall provide for the reimbursement of costs incurred in completing such program on a prorata basis during the period in which the nurse aide is so employed.

“(B) APPROVAL OF CERTAIN PROGRAMS.—Such requirements—

“(i) may permit approval of programs offered by or in facilities, as well as outside facilities (including employee organizations);

“(ii) shall permit a State to find that an individual who has completed (before July 1, 1989) a nurse aide training and competency evaluation program shall be deemed to have completed such a program approved under subsection (b)(5) if the State determines that, at the time the program was offered, the program met the requirements for approval under such paragraph; and

“(iii) subject to subparagraph (C), shall prohibit approval of such a program—

“(I) offered by or in a nursing facility which, within the previous 2 years—

“(a) has operated under a waiver under subsection (b)(4)(C)(ii) that was granted on the basis of a demonstration that the facility

is unable to provide the nursing care required under subsection (b)(4)(C)(i) for a period in excess of 48 hours during a week;

“(b) has been subject to an extended (or partial extended) survey under section 1819(g)(2)(B)(i) or subsection (g)(2)(B)(i) of this section; or

“(c) has been assessed a civil money penalty described in section 1819(h)(2)(B)(ii) or subsection (h)(2)(A)(ii) of this section of not less than \$5,000, or has been subject to a remedy described in subsection (h)(1)(B)(i) of this section, clauses (i), (iii), or (iv) of subsection (h)(2)(A) of this section, clauses (i) or (iii) of section 1819(h)(2)(B), or section 1819(h)(4), or

“(II) offered by or in a nursing facility unless the State makes the determination, upon an individual’s completion of the program, that the individual is competent to provide nursing and nursing-related services in nursing facilities.

A State may not delegate (through subcontract or otherwise) its responsibility under clause (iii)(II) to the nursing facility.

“(C) WAIVER AUTHORIZED.—Clause (iii) of subparagraph (B) shall not apply to a program offered in (but not by) a nursing facility in a State if the State—

“(i) determines that there is no other such program offered within a reasonable distance of the facility,

“(ii) assures, through an oversight effort, that an adequate environment exists for operating the program in the facility, and

“(iii) provides notice of such determination and assurances to the State long-term care ombudsman.

“(3) FEDERAL GUIDELINES FOR STATE APPEALS PROCESS FOR TRANSFERS AND DISCHARGES.—For purposes of subsections (c)(2)(B)(iii) and (e)(3), the Secretary shall establish guidelines for minimum standards which State appeals processes under subsection (e)(3) must meet to provide a fair mechanism for hearing appeals on transfers and discharges of residents from nursing facilities.

“(4) QUALIFICATION OF ADMINISTRATORS.—For purposes of subsections (d)(1)(C) and (e)(4), the Secretary shall develop standards to be applied in assuring the qualifications of administrators of nursing facilities. Any such standards must apply to administrators of hospital-based facilities as well as administrators of freestanding facilities.

“(5) CRITERIA FOR ADMINISTRATION.—The Secretary shall establish criteria for assessing a nursing facility’s compliance with the requirement of subsection (d)(1) with respect to—

“(A) its governing body and management,

“(B) agreements with hospitals regarding transfers of residents to and from the hospitals and to and from other nursing facilities,

“(C) disaster preparedness,

“(D) direction of medical care by a physician,

“(E) laboratory and radiological services,

“(F) clinical records, and

“(G) resident and advocate participation.

“(6) SPECIFICATION OF RESIDENT ASSESSMENT DATA SET AND INSTRUMENTS.—The Secretary shall—

“(A) specify a minimum data set of core elements and common definitions for use by nursing facilities in conducting the assessments required under subsection (b)(3), and establish guidelines for utilization of the data set; and

“(B) designate one or more instruments which are consistent with the specification made under subparagraph (A) and which a State may specify under subsection (e)(5)(A) for use by nursing facilities in complying with the requirements of subsection (b)(3)(A)(iii).

“(7) LIST OF ITEMS AND SERVICES FURNISHED IN NURSING FACILITIES NOT CHARGEABLE TO THE PERSONAL FUNDS OF A RESIDENT.—The Secretary shall issue regulations that define those costs which may be charged to the personal funds of residents in nursing facilities who are individuals receiving medical assistance with respect to nursing facility services under this title and those costs which are to be included in the payment amount under this title for nursing facility services.

“(8) CRITERIA FOR MONITORING STATE WAIVERS.—The Secretary shall develop criteria and procedures for monitoring State performances in granting waivers pursuant to subsection (b)(4)(C)(ii).

“(g) SURVEY AND CERTIFICATION PROCESS.—

“(1) STATE AND FEDERAL RESPONSIBILITY.—

“(A) IN GENERAL.—Under each State plan under this title, the State shall be responsible for certifying, in accordance with surveys conducted under paragraph (2), the compliance of nursing facilities (other than facilities of the State) with the requirements of subsections (b), (c), and (d). The Secretary shall be responsible for certifying, in accordance with surveys conducted under paragraph (2), the compliance of State nursing facilities with the requirements of such subsections.

“(B) EDUCATIONAL PROGRAM.—Each State shall conduct periodic educational programs for the staff and residents (and their representatives) of nursing facilities in order to present current regulations, procedures, and policies under this section.

“(C) INVESTIGATION OF ALLEGATIONS OF RESIDENT NEGLIGENCE AND ABUSE AND MISAPPROPRIATION OF RESIDENT PROPERTY.—The State shall provide, through the agency responsible for surveys and certification of nursing facilities under this subsection, for a process for the receipt and timely review and investigation of allegations of neglect and abuse and misappropriation of resident property by a

nurse aide of a resident in a nursing facility or by another individual used by the facility in providing services to such a resident. The State shall, after notice to the individual involved and a reasonable opportunity for a hearing for the individual to rebut allegations, make a finding as to the accuracy of the allegations. If the State finds that a nurse aide has neglected or abused a resident or misappropriated resident property in a facility, the State shall notify the nurse aide and the registry of such finding. If the State finds that any other individual used by the facility has neglected or abused a resident or misappropriated resident property in a facility, the State shall notify the appropriate licensure authority. A State shall not make a finding that an individual has neglected a resident if the individual demonstrates that such neglect was caused by factors beyond the control of the individual.

“(2) SURVEYS.—

“(A) ANNUAL STANDARD SURVEY.—

“(i) IN GENERAL.—Each nursing facility shall be subject to a standard survey, to be conducted without any prior notice to the facility. Any individual who notifies (or causes to be notified) a nursing facility of the time or date on which such a survey is scheduled to be conducted is subject to a civil money penalty of not to exceed \$2,000. The provisions of section 1128A (other than subsections (a) and (b)) shall apply to a civil money penalty under the previous sentence in the same manner as such provisions apply to a penalty or proceeding under section 1128A(a). The Secretary shall review each State’s procedures for scheduling and conduct of standard surveys to assure that the State has taken all reasonable steps to avoid giving notice of such a survey through the scheduling procedures and the conduct of the surveys themselves.

“(ii) CONTENTS.—Each standard survey shall include, for a case-mix stratified sample of residents—

“(I) a survey of the quality of care furnished, as measured by indicators of medical, nursing, and rehabilitative care, dietary and nutrition services, activities and social participation, and sanitation, infection control, and the physical environment,

“(II) written plans of care provided under subsection (b)(2) and an audit of the residents’ assessments under subsection (b)(3) to determine the accuracy of such assessments and the adequacy of such plans of care, and

“(III) a review of compliance with residents’ rights under subsection (c).

“(iii) FREQUENCY.—

“(I) IN GENERAL.—Each nursing facility shall be subject to a standard survey not later than 15 months after the date of the previous standard survey conducted under this subparagraph. The

statewide average interval between standard surveys of a nursing facility shall not exceed 12 months.

“(II) SPECIAL SURVEYS.—If not otherwise conducted under subclause (I), a standard survey (or an abbreviated standard survey) may be conducted within 2 months of any change of ownership, administration, management of a nursing facility, or director of nursing in order to determine whether the change has resulted in any decline in the quality of care furnished in the facility.

“(B) EXTENDED SURVEYS.—

“(i) IN GENERAL.—Each nursing facility which is found, under a standard survey, to have provided substandard quality of care shall be subject to an extended survey. Any other facility may, at the Secretary’s or State’s discretion, be subject to such an extended survey (or a partial extended survey).

“(ii) TIMING.—The extended survey shall be conducted immediately after the standard survey (or, if not practicable, not later than 2 weeks after the date of completion of the standard survey).

“(iii) CONTENTS.—In such an extended survey, the survey team shall review and identify the policies and procedures which produced such substandard quality of care and shall determine whether the facility has complied with all the requirements described in subsections (b), (c), and (d). Such review shall include an expansion of the size of the sample of residents’ assessments reviewed and a review of the staffing, of in-service training, and, if appropriate, of contracts with consultants.

“(iv) CONSTRUCTION.—Nothing in this paragraph shall be construed as requiring an extended or partial extended survey as a prerequisite to imposing a sanction against a facility under subsection (h) on the basis of findings in a standard survey.

“(C) SURVEY PROTOCOL.—Standard and extended surveys shall be conducted—

“(i) based upon the protocol which the Secretary has developed, tested, and validated, as of the date of the enactment of this title, and

“(ii) by individuals, of a survey team, who meet such minimum qualifications as the Secretary establishes.

“(D) CONSISTENCY OF SURVEYS.—Each State shall implement programs to measure and reduce inconsistency in the application of survey results among surveyors.

“(E) SURVEY TEAMS.—

“(i) IN GENERAL.—Surveys under this subsection shall be conducted by a multidisciplinary team of professionals (including a registered professional nurse).

“(ii) PROHIBITION OF CONFLICTS OF INTEREST.—A State may not use as a member of a survey team

under this subsection an individual who is serving (or has served within the previous 2 years) as a member of the staff of, or as a consultant to, the facility surveyed respecting compliance with the requirements of subsections (b), (c), and (d), or who has a personal or familial financial interest in the facility being surveyed.

“(iii) TRAINING.—The Secretary shall provide for the comprehensive training of State and Federal surveyors in the conduct of standard and extended surveys under this subsection, including the auditing of resident assessments and plans of care. No individual shall serve as a member of a survey team unless the individual has successfully completed a training and testing program in survey and certification techniques that has been approved by the Secretary.

“(3) VALIDATION SURVEYS.—

“(A) IN GENERAL.—The Secretary shall conduct onsite surveys of a representative sample of nursing facilities in each State, within 2 months of the date of surveys conducted under paragraph (2) by the State, in a sufficient number to allow inferences about the adequacies of each State’s surveys conducted under paragraph (2). In conducting such surveys, the Secretary shall use the same survey protocols as the State is required to use under paragraph (2). If the State has determined that an individual nursing facility meets the requirements of subsections (b), (c), and (d), but the Secretary determines that the facility does not meet such requirements, the Secretary’s determination as to the facility’s noncompliance with such requirements is binding and supersedes that of the State survey.

“(B) SCOPE.—With respect to each State, the Secretary shall conduct surveys under subparagraph (A) each year with respect to at least 5 percent of the number of nursing facilities surveyed by the State in the year, but in no case less than 5 nursing facilities in the State.

“(C) REDUCTION IN ADMINISTRATIVE COSTS FOR SUBSTANDARD PERFORMANCE.—If the Secretary finds, on the basis of such surveys, that a State has failed to perform surveys as required under paragraph (2) or that a State’s survey and certification performance otherwise is not adequate, the Secretary may provide for the training of survey teams in the State and shall provide for a reduction of the payment otherwise made to the State under section 1512(a)(3)(C) with respect to a quarter equal to 33 percent multiplied by a fraction, the denominator of which is equal to the total number of residents in nursing facilities surveyed by the Secretary that quarter and the numerator of which is equal to the total number of residents in nursing facilities which were found pursuant to such surveys to be not in compliance with any of the requirements of subsections (b), (c), and (d). A State that is dissatisfied with the Secretary’s findings under this subparagraph may obtain reconsideration and review of the findings under sec-

tion 1116 in the same manner as a State may seek reconsideration and review under that section of the Secretary's determination under section 1116(a)(1).

“(D) SPECIAL SURVEYS OF COMPLIANCE.—Where the Secretary has reason to question the compliance of a nursing facility with any of the requirements of subsections (b), (c), and (d), the Secretary may conduct a survey of the facility and, on the basis of that survey, make independent and binding determinations concerning the extent to which the nursing facility meets such requirements.

“(4) INVESTIGATION OF COMPLAINTS AND MONITORING NURSING FACILITY COMPLIANCE.—Each State shall maintain procedures and adequate staff to—

“(A) investigate complaints of violations of requirements by nursing facilities, and

“(B) monitor, on-site, on a regular, as needed basis, a nursing facility's compliance with the requirements of subsections (b), (c), and (d), if—

“(i) the facility has been found not to be in compliance with such requirements and is in the process of correcting deficiencies to achieve such compliance;

“(ii) the facility was previously found not to be in compliance with such requirements, has corrected deficiencies to achieve such compliance, and verification of continued compliance is indicated; or

“(iii) the State has reason to question the compliance of the facility with such requirements.

A State may maintain and utilize a specialized team (including an attorney, an auditor, and appropriate health care professionals) for the purpose of identifying, surveying, gathering and preserving evidence, and carrying out appropriate enforcement actions against substandard nursing facilities.

“(5) DISCLOSURE OF RESULTS OF INSPECTIONS AND ACTIVITIES.—

“(A) PUBLIC INFORMATION.—Each State, and the Secretary, shall make available to the public—

“(i) information respecting all surveys and certifications made respecting nursing facilities, including statements of deficiencies, within 14 calendar days after such information is made available to those facilities, and approved plans of correction,

“(ii) copies of cost reports of such facilities filed under this title or under title XVIII,

“(iii) copies of statements of ownership under section 1124, and

“(iv) information disclosed under section 1126.

“(B) NOTICE TO OMBUDSMAN.—Each State shall notify the State long-term care ombudsman (established under title III or VII of the Older Americans Act of 1965 in accordance with section 712 of the Act) of the State's findings of noncompliance with any of the requirements of subsections (b), (c), and (d), or of any adverse action taken against a nursing facility under paragraphs (1), (2), or (3)

of subsection (h), with respect to a nursing facility in the State.

“(C) NOTICE TO PHYSICIANS AND NURSING FACILITY ADMINISTRATOR LICENSING BOARD.—If a State finds that a nursing facility has provided substandard quality of care, the State shall notify—

“(i) the attending physician of each resident with respect to which such finding is made, and

“(ii) any State board responsible for the licensing of the nursing facility administrator of the facility.

“(D) ACCESS TO FRAUD CONTROL UNITS.—Each State shall provide its State fraud and abuse control unit (established under section 1554) with access to all information of the State agency responsible for surveys and certifications under this subsection.

“(h) ENFORCEMENT PROCESS.—

“(1) IN GENERAL.—If a State finds, on the basis of a standard, extended, or partial extended survey under subsection (g)(2) or otherwise, that a nursing facility no longer meets a requirement of subsection (b), (c), or (d)—

“(A) the State shall require the facility to correct the deficiency involved;

“(B) if the State finds that the facility’s deficiencies immediately jeopardize the health or safety of its residents, the State shall take immediate action to remove the jeopardy and correct the deficiencies through the remedy specified in paragraph (2)(A)(iii), or terminate the facility’s participation under the State plan and may provide, in addition, for one or more of the other remedies described in paragraph (2); and

“(C) if the State finds that the facility’s deficiencies do not immediately jeopardize the health or safety of its residents, the State may—

“(i) terminate the facility’s participation under the State plan,

“(ii) provide for one or more of the remedies described in paragraph (2), or

“(iii) do both.

Nothing in this paragraph shall be construed as restricting the remedies available to a State to remedy a nursing facility’s deficiencies. If a State finds that a nursing facility meets the requirements of subsections (b), (c), and (d), but, as of a previous period, did not meet such requirements, the State may provide for a civil money penalty under paragraph (2)(A)(ii) for the days in which it finds that the facility was not in compliance with such requirements.

“(2) SPECIFIED REMEDIES.—

“(A) LISTING.—Except as provided in subparagraph (B), each State shall establish by law (whether statute or regulation) at least the following remedies:

“(i) Denial of payment under the State plan with respect to any individual admitted to the nursing facility involved after such notice to the public and to the facility as may be provided for by the State.

“(ii) A civil money penalty assessed and collected, with interest, for each day in which the facility is or was out of compliance with a requirement of subsection (b), (c), or (d). Funds collected by a State as a result of imposition of such a penalty (or as a result of the imposition by the State of a civil money penalty for activities described in subsection (b)(3)(B)(ii)(I), (b)(3)(B)(ii)(II), or (g)(2)(A)(i)) shall be applied to the protection of the health or property of residents of nursing facilities that the State or the Secretary finds deficient, including payment for the costs of relocation of residents to other facilities, maintenance of operation of a facility pending correction of deficiencies or closure, and reimbursement of residents for personal funds lost.

“(iii) The appointment of temporary management to oversee the operation of the facility and to assure the health and safety of the facility’s residents, where there is a need for temporary management while—

“(I) there is an orderly closure of the facility,

or

“(II) improvements are made in order to bring the facility into compliance with all the requirements of subsections (b), (c), and (d).

The temporary management under this clause shall not be terminated under subclause (II) until the State has determined that the facility has the management capability to ensure continued compliance with all the requirements of subsections (b), (c), and (d).

“(iv) The authority, in the case of an emergency, to close the facility, to transfer residents in that facility to other facilities, or both.

The State also shall specify criteria, as to when and how each of such remedies is to be applied, the amounts of any fines, and the severity of each of these remedies, to be used in the imposition of such remedies. Such criteria shall be designed so as to minimize the time between the identification of violations and final imposition of the remedies and shall provide for the imposition of incrementally more severe fines for repeated or uncorrected deficiencies. In addition, the State may provide for other specified remedies, such as directed plans of correction.

“(B) GUIDANCE AND ALTERNATIVE REMEDIES.—(i) The Secretary shall provide through regulations guidance to States in establishing remedies under clauses (i) through (iv) of subparagraph (A).

“(ii) A State may establish alternative remedies (other than termination of participation) other than those described in clauses (i) through (iv) of subparagraph (A), if the State demonstrates to the Secretary’s satisfaction that the alternative remedies are as effective in deterring non-compliance and correcting deficiencies as those described in such subparagraph.

“(C) ASSURING PROMPT COMPLIANCE.—If a nursing facility has not complied with any of the requirements of subsections (b), (c), and (d), within 3 months after the date the facility is found to be out of compliance with such requirements, the State shall impose the remedy described in subparagraph (A)(i) for all individuals who are admitted to the facility after such date.

“(D) REPEATED NONCOMPLIANCE.—In the case of a nursing facility which, on 3 consecutive standard surveys conducted under subsection (g)(2), has been found to have provided substandard quality of care, the State shall (regardless of what other remedies are provided)—

“(i) impose the remedy described in subparagraph (A)(i), and

“(ii) monitor the facility under subsection (g)(4)(B), until the facility has demonstrated, to the satisfaction of the State, that it is in compliance with the requirements of subsections (b), (c), and (d), and that it will remain in compliance with such requirements.

“(E) FUNDING.—The reasonable expenditures of a State to provide for temporary management and other expenses associated with implementing the remedies described in clauses (iii) and (iv) of subparagraph (A) shall be considered, for purposes of section 1512(a)(3)(C), to be necessary for the proper and efficient administration of the State plan.

“(F) INCENTIVES FOR HIGH QUALITY CARE.—In addition to the remedies specified in this paragraph, a State may establish a program to reward, through public recognition, incentive payments, or both, nursing facilities that provide the highest quality care to residents who are entitled to medical assistance under this title. For purposes of section 1512(a)(3)(C), proper expenses incurred by a State in carrying out such a program shall be considered to be expenses necessary for the proper and efficient administration of the State plan.

“(3) SECRETARIAL AUTHORITY.—

“(A) FOR STATE NURSING FACILITIES.—With respect to a State nursing facility, the Secretary shall have the authority and duties of a State under this subsection, including the authority to impose remedies described in clauses (i), (ii), and (iii) of paragraph (2)(A). Nothing in this subparagraph shall be construed as restricting the remedies available to the Secretary to remedy a nursing facility’s deficiencies.

“(B) OTHER NURSING FACILITIES.—With respect to any other nursing facility in a State, if the Secretary finds that a nursing facility no longer meets a requirement of subsection (b), (c), (d), or (e), and further finds that the facility’s deficiencies—

“(i) immediately jeopardize the health or safety of its residents, the Secretary shall take immediate action to remove the jeopardy and correct the deficiencies through the remedy specified in subparagraph

(C)(iii), or terminate the facility's participation under the State plan and may provide, in addition, for one or more of the other remedies described in subparagraph (C); or

“(ii) do not immediately jeopardize the health or safety of its residents, the Secretary may impose any of the remedies described in subparagraph (C).

Nothing in this subparagraph shall be construed as restricting the remedies available to the Secretary to remedy a nursing facility's deficiencies. If the Secretary finds that a nursing facility meets such requirements but, as of a previous period, did not meet such requirements, the Secretary may provide for a civil money penalty under subparagraph (C)(ii) for the days on which he finds that the facility was not in compliance with such requirements.

“(C) SPECIFIED REMEDIES.—The remedies specified in this subparagraph are as follows:

“(i) DENIAL OF PAYMENT.—Denial of any further payments to the State in accordance with section 1529(f) for medical assistance furnished by the facility to all individuals in the facility or to individuals admitted to the facility after the effective date of the finding.

“(ii) AUTHORITY WITH RESPECT TO CIVIL MONEY PENALTIES.—Imposition of a civil money penalty against the facility in an amount not to exceed \$10,000 for each day of noncompliance. The provisions of section 1128A (other than subsections (a) and (b)) shall apply to a civil money penalty under the previous sentence in the same manner as such provisions apply to a penalty or proceeding under section 1128A(a).

“(iii) APPOINTMENT OF TEMPORARY MANAGEMENT.—Appointment of temporary management to oversee the operation of the facility and to assure the health and safety of the facility's residents, where there is a need for temporary management while—

“(I) there is an orderly closure of the facility,

or

“(II) improvements are made in order to bring the facility into compliance with all the requirements of subsections (b), (c), and (d).

The temporary management under this clause shall not be terminated under subclause (II) until the Secretary has determined that the facility has the management capability to ensure continued compliance with all the requirements of subsections (b), (c), and (d).

The Secretary shall specify criteria, as to when and how each of such remedies is to be applied, the amounts of any fines, and the severity of each of these remedies, to be used in the imposition of such remedies. Such criteria shall be designed so as to minimize the time between the identification of violations and final imposition of the remedies

and shall provide for the imposition of incrementally more severe fines for repeated or uncorrected deficiencies. In addition, the Secretary may provide for other specified remedies, such as directed plans of correction.

“(D) CONTINUATION OF PAYMENTS PENDING REMEDIATION.—The Secretary may continue payments, over a period of not longer than 6 months after the effective date of the findings, under this title with respect to a nursing facility not in compliance with a requirement of subsection (b), (c), or (d), if—

“(i) the State survey agency finds that it is more appropriate to take alternative action to assure compliance of the facility with the requirements than to terminate the certification of the facility,

“(ii) the State has submitted a plan and timetable for corrective action to the Secretary for approval and the Secretary approves the plan of corrective action, and

“(iii) the State agrees to repay to the Federal Government payments received under this subparagraph if the corrective action is not taken in accordance with the approved plan and timetable.

The Secretary shall establish guidelines for approval of corrective actions requested by States under this subparagraph.

“(4) SPECIAL RULES REGARDING PAYMENTS TO FACILITIES.—

“(A) CONTINUATION OF PAYMENTS PENDING REMEDIATION.—The State or the Secretary, as appropriate, may continue payments, over a period of not longer than 6 months after the effective date of the findings, under this title with respect to a nursing facility not in compliance with a requirement of subsection (b), (c), or (d). The State may continue such payments only if—

“(i) the State survey agency finds that it is more appropriate to take alternative action to assure compliance of the facility with the requirements than to terminate the certification of the facility,

“(ii) the State has submitted a plan and timetable for corrective action to the Secretary for approval and the Secretary approves the plan of corrective action, and

“(iii) the State agrees to repay to the Federal Government payments received under this subparagraph if the corrective action is not taken in accordance with the approved plan and timetable.

The Secretary shall establish guidelines for approval of corrective actions requested by States under this subparagraph.

“(B) EFFECTIVE PERIOD OF DENIAL OF PAYMENT.—A finding to deny payment under this subsection shall terminate when the State or Secretary (as the case may be) finds that the facility is in substantial compliance with all the requirements of subsections (b), (c), and (d).

“(5) IMMEDIATE TERMINATION OF PARTICIPATION FOR FACILITY WHERE STATE OR SECRETARY FINDS NONCOMPLIANCE AND IMMEDIATE JEOPARDY.—If either the State or the Secretary finds that a nursing facility has not met a requirement of subsection (b), (c), or (d), and finds that the failure immediately jeopardizes the health or safety of its residents, the State or the Secretary, respectively shall notify the other of such finding, and the State or the Secretary, respectively, shall take immediate action to remove the jeopardy and correct the deficiencies through the remedy specified in paragraph (2)(A)(iii) or (3)(C)(iii), or terminate the facility’s participation under the State plan. If the facility’s participation in the State plan is terminated by either the State or the Secretary, the State shall provide for the safe and orderly transfer of the residents eligible under the State plan consistent with the requirements of subsection (c)(2).

“(6) SPECIAL RULES WHERE STATE AND SECRETARY DO NOT AGREE ON FINDING OF NONCOMPLIANCE.—

The Secretary shall provide, upon request, a manufacturer with a hearing concerning such a termination, but such hearing shall not delay the effective date of the termination. “(I) the average manufacturer price for the dosage form and strength of the drug for the period, exceeds

“(II) the average manufacturer price for such dosage form and strength for the calendar quarter beginning July 1, 1990 (without regard to whether or not the drug has been sold or transferred to an entity, including a division or subsidiary of the manufacturer, after the first day of such quarter),

increased by the percentage by which the Consumer Price Index for All Urban Consumers (United States city average) for the month before the month in which the rebate period begins exceeds such index for September 1990.

“(B) TREATMENT OF SUBSEQUENTLY APPROVED DRUGS.—In the case of a covered outpatient drug approved by the Food and Drug Administration after October 1, 1990, clause (ii)(II) of subparagraph (A) shall be applied by substituting ‘the first full calendar quarter after the day on which the drug was first marketed’ for ‘the calendar quarter beginning July 1, 1990’ and ‘the month prior to the first month of the first full calendar quarter after the day on which the drug was first marketed’ for ‘September 1990’.

“(3) REBATE FOR OTHER DRUGS.—

“(A) IN GENERAL.—The amount of the rebate paid to a State participating in the master rebate agreement for a rebate period with respect to each dosage form and strength of covered outpatient drugs (other than single source drugs and innovator multiple source drugs) shall be equal to the product of—

“(ii) the total number of units of such dosage form and strength dispensed after December 31, 1990, for which payment was made under the State plan for the rebate period.

“(B) APPLICABLE PERCENTAGE DEFINED.—For purposes of subparagraph (A)(i), the ‘applicable percentage’ is 11 percent.

“(4) LIMITATION ON AMOUNT OF REBATE TO AMOUNTS PAID FOR CERTAIN DRUGS.—

“(A) IN GENERAL.—Upon request of the manufacturer of a covered outpatient drug, the Secretary shall limit, in accordance with subparagraph (B), the amount of the rebate under this subsection with respect to a dosage form and strength of such drug if the majority of the estimated number of units of such dosage form and strength that are subject to rebates under this section were dispensed to inpatients of nursing facilities.

“(B) AMOUNT OF REBATE.—In the case of a covered outpatient drug subject to subparagraph (A), the amount of the rebate specified in this subsection for a rebate period, with respect to each dosage form and strength of such drug, shall not exceed the amount paid under the State plan with respect to such dosage form and strength of the drug in the rebate period (without consideration of any dispensing fees paid).

“(5) SUPPLEMENTAL REBATES PROHIBITED.—No rebates shall be required to be paid by manufacturers with respect to covered outpatient drugs furnished to individuals in any State

that provides for the collection of such rebates in excess of the rebate amount payable under this section.

“(d) LIMITATIONS ON COVERAGE OF DRUGS BY STATES PARTICIPATING IN MASTER AGREEMENT.—

“(1) PERMISSIBLE RESTRICTIONS.—A State participating in the master rebate agreement under this section may—

“(A) subject to prior authorization under its State plan any covered outpatient drug so long as any such prior authorization program complies with the requirements of paragraph (5); and

“(B) exclude or otherwise restrict coverage under its plan of a covered outpatient drug if—

“(i) the drug is contained in the list referred to in paragraph (2);

“(ii) the drug is subject to such restrictions pursuant to the master rebate agreement or any agreement described in subsection (a)(4); or

“(iii) the State has excluded coverage of the drug from its formulary established in accordance with paragraph (4).

“(2) LIST OF DRUGS SUBJECT TO RESTRICTION.—The following drugs or classes of drugs, or their medical uses, may be excluded from coverage or otherwise restricted by a State participating in the master rebate agreement:

“(4) REQUIREMENTS FOR FORMULARIES.—A State participating in the master rebate agreement may establish a formulary if the formulary meets the following requirements:

“(A) The formulary is developed by a committee consisting of physicians, pharmacists, and other appropriate individuals appointed by the Governor of the State.

“(B) Except as provided in subparagraph (C), the formulary includes the covered outpatient drugs of any man-

ufacturer which has entered into and complies with the agreement under subsection (a) (other than any drug excluded from coverage or otherwise restricted under paragraph (2)).

“(C) A covered outpatient drug may be excluded with respect to the treatment of a specific disease or condition for an identified population (if any) only if, based on the drug’s labeling (or, in the case of a drug the prescribed use of which is not approved under the Federal Food, Drug, and Cosmetic Act but is a medically accepted indication, based on information from the appropriate compendia described in subsection (i)(5)), the excluded drug does not have a significant, clinically meaningful therapeutic advantage in terms of safety, effectiveness, or clinical outcome of such treatment for such population over other drugs included in the formulary and there is a written explanation (available to the public) of the basis for the exclusion.

“(D) The State plan permits coverage of a drug excluded from the formulary (other than any drug excluded from coverage or otherwise restricted under paragraph (2)) pursuant to a prior authorization program that is consistent with paragraph (5).

“(E) The formulary meets such other requirements as the Secretary may impose in order to achieve program savings consistent with protecting the health of program beneficiaries.

A prior authorization program established by a State under paragraph (5) is not a formulary subject to the requirements of this paragraph.

“(5) REQUIREMENTS OF PRIOR AUTHORIZATION PROGRAMS.—The State plan of a State participating in the master rebate agreement may require, as a condition of coverage or payment for a covered outpatient drug for which Federal financial participation is available in accordance with this section, the approval of the drug before its dispensing for any medically accepted indication (as defined in subsection (i)(5)) only if the system providing for such approval—

“(A) provides response by telephone or other telecommunication device within 24 hours of a request for prior authorization, and

“(6) OTHER PERMISSIBLE RESTRICTIONS.—A State participating in the master rebate agreement may impose limitations, with respect to all such drugs in a therapeutic class, on the minimum or maximum quantities per prescription or on the number of refills, if such limitations are necessary to discourage waste, and may address instances of fraud or abuse by individuals in any manner authorized under this Act.

“(e) DRUG USE REVIEW.—

“(1) IN GENERAL.—A State participating in the master rebate agreement may provide for a drug use review program to educate physicians and pharmacists to identify and reduce the frequency of patterns of fraud, abuse, gross overuse, or inappropriate or medically unnecessary care, among physicians, pharmacists, and patients, or associated with specific drugs or groups of drugs, as well as potential and actual severe adverse reactions to drugs.

“(2) APPLICATION OF STATE STANDARDS.—A State with a drug use review program under this subsection shall establish and operate the program under such standards as it may establish.

“(f) ELECTRONIC CLAIMS MANAGEMENT.—In accordance with chapter 35 of title 44, United States Code (relating to coordination of Federal information policy), the Secretary shall encourage each State to establish, as its principal means of processing claims for covered outpatient drugs under its State plan, a point-of-sale electronic claims management system, for the purpose of performing on-line, real time eligibility verifications, claims data capture, adjudication of claims, and assisting pharmacists (and other authorized persons) in applying for and receiving payment.

“(g) ANNUAL REPORT.—

“(1) IN GENERAL.—Not later than May 1 of each year, the Secretary shall transmit to the Committee on Finance of the Senate, and the Committee on Commerce of the House of Representatives, a report on the operation of this section in the preceding fiscal year.

“(i) DEFINITIONS.—In the section—

“(1) AVERAGE MANUFACTURER PRICE.—The term ‘average manufacturer price’ means, with respect to a covered outpatient drug of a manufacturer for a rebate period, the average price paid to the manufacturer for the drug in the United States by wholesalers for drugs distributed to the retail pharmacy class of trade, after deducting customary prompt pay discounts.

“(2) COVERED OUTPATIENT DRUG.—Subject to the exceptions in paragraph (3), the term ‘covered outpatient drug’ means—

“(H) Renal dialysis services.

Such term also does not include any such drug or product for which a National Drug Code number is not required by the Food and Drug Administration or a drug or biological product used for a medical indication which is not a medically accepted indication. Any drug, biological product, or insulin excluded from the definition of such term as a result of this paragraph shall be treated as a covered outpatient drug for purposes of determining the best price (as defined in subsection (c)(1)(C)) for such drug, biological product, or insulin.

“(4) MANUFACTURER.—The term ‘manufacturer’ means, with respect to a covered outpatient drug, the entity holding legal title to or possession of the National Drug Code number for such drug.

(a) **TERMINATION OF CURRENT PROGRAM; LIMITATION ON MEDICAID PAYMENTS IN FISCAL YEAR 1997.**—

(1) **REPEAL OF TITLE.**—Title XIX of the Social Security Act is repealed effective October 1, 1997, except that the repeal of section 1928 of such Act is effective on the date of the enactment of this Act and the succeeding two sections of such title shall be effective during fiscal year 1996 in the same manner and to the same extent as such sections were effective during fiscal year 1995.

(2) **LIMITATION ON OBLIGATION AUTHORITY.**—Notwithstanding any other provision of such title—

(C) **AGREEMENT.**—A State’s submission of claims for payment under section 1903 of such Act on or after October 1, 1996, is deemed to constitute the State’s acceptance of the obligation limitation under subparagraph (A) (including the formula for computing the amount of such obligation limitation).

(D) **EFFECT ON MEDICAL ASSISTANCE.**—Effective October 1, 1996—

(i) except as provided in this paragraph, the Federal Government has no obligation to provide payment with respect to items and services provided under title XIX of the Social Security Act, and

(3) REQUIREMENT FOR TIMELY SUBMITTAL OF CLAIMS.—No payment shall be made to a State under title XIX of such Act with respect to an obligation incurred before October 1, 1996, unless the State has submitted to the Secretary, by not later than April 1, 1997, a claim for Federal financial participation for expenses paid by the State with respect to such obligations. The Secretary shall grant waivers in a manner that permits States flexibility in contracting with medicare risk providers and other providers for services, oversight of contract administration and quality management, and administration of a single enrollment process. TITLE II—COMMITTEE ON COMMERCE

**TITLE II, SUBTITLE A—MEDICAID RESTRUCTURING ACT OF
1996**

HOUSE OF REPRESENTATIVES,
COMMITTEE ON COMMERCE,
Washington, DC, June 20, 1996.

Hon. JOHN R. KASICH,
*Chairman, Committee on the Budget,
Washington, DC.*

DEAR MR. CHAIRMAN: On Friday, June 14, 1996, I transmitted to you legislative language reflecting the recommendations of the Committee on Commerce for changes in laws within its jurisdiction with respect to Welfare and Medicaid Reform pursuant to the provisions of section 310 of the Congressional Budget Act of 1974 and section 201 of H.Con.Res. 178, the Concurrent Resolution on the Budget—Fiscal Year 1997.

This legislative language was incorporated into Title II as follows: Subtitle A—Medicaid Restructuring Act of 1996; and Subtitle B—Other Provisions.

Because the committee did not complete markup of the Medicaid Restructuring Act of 1996 until late on Thursday, June 13, 1996, the committee was unable to submit the official Congressional Budget Office cost estimate for Title II, a Ramsayer submission, or the committee report when it transmitted the legislative language to the Budget Committee. In addition, the Minority had requested 3 days to file Minority Views on the Commerce Committee's action.

I am pleased to transmit to you at this time the accompanying report language for Title II. I understand that the Congressional Budget Office submitted a Title II cost estimate directly to the Budget Committee on June 17, 1996, and that it is also in the process of preparing an updated version of that cost estimate which should be submitted to you in the near future. In addition, I have been informed that the Legislative Counsel's Office has made arrangements with your staff to submit the Ramsayer language directly to the Budget Committee to expedite your committee's action.

If you have any questions concerning the committee's recommendations, or if I can be of any further assistance to you as you proceed with your committee's deliberations, please do not hesitate to contact me.

Sincerely,

THOMAS J. BLILEY, Jr.,
Chairman.

Enclosure.

PURPOSE AND SUMMARY

The purpose of Subtitle A of Title II, the Medicaid Restructuring Act of 1996, as amended, is to repeal Title XIX and establish Title XV of the Social Security Act to guarantee coverage, benefits, and consumer protections to low-income individuals and families while providing additional funding and operational flexibility to enable the States to provide medical assistance in a more effective, efficient, and responsive manner.

BACKGROUND AND NEED FOR LEGISLATION

Established by President Lyndon Johnson in 1965, Medicaid is a joint Federal-State matching open-ended entitlement program that pays for medically necessary health care services provided to eligible beneficiaries by qualified providers. There are Medicaid programs in all States except Arizona, which runs a similar medical assistance program under a Section 1115 waiver. (Federal funds for the Arizona program come from the Medicaid budget.) In addition, the Medicaid program is operated in the District of Columbia and U.S. territories, such as Puerto Rico and Guam.

Due to numerous operational and administrative flaws—which are detailed below—calls for Medicaid reform have come from States and localities, Congress, and the administration. Among the proposals for reform is the “Restructuring Medicaid” proposal unanimously adopted by the National Governors Association on February 6, 1996. The nature of this initiative and its impact on

the Federal legislative process are discussed in the section below entitled "State Perspectives on Medicaid Reform".

According to the Congressional Budget Office (CBO), the Medicaid program will cost a total of \$168.0 billion in fiscal year 1996. Of this amount, the Federal government will be responsible for an estimated \$95.7 billion. This expenditure represents an increase of nearly 12,000 percent over the program's initial cost to the Federal government of \$800 million in fiscal year 1966. Since 1990, Medicaid has been the fastest-growing segment of the Federal government's budget, with costs soaring at annual rates as high as 31 percent. Placed in broader context, the Medicaid program's average annual rate of growth since 1990 has been four times that of private sector health care costs, which are rising at roughly 4-5 percent annually. Although CBO projects Medicaid spending will rise at a rate of approximately 10 percent per year over the next 10 years, at that rate total program costs will double by the year 2002 absent reform. As detailed in the section entitled "Program Growth versus Program Cuts" below, the Medicaid Restructuring Act replaces the current Medicaid program's unsustainable cost spiral with considerable and consistent funding to the States.

Medicaid's extraordinary rate of growth has made it the single largest item in many State budgets. According to the testimony of the many Governors and Medicaid officials who have appeared before the Committee on Commerce, States have been compelled by the program's cost to restrict investment in other critical human services, including child welfare, education, mental health, and public safety. As described in the "Fiscal Impact of Medicaid Growth on the Federal and State Budgets" section below, the program's cost has been frequently underestimated and continues to threaten the budgetary stability of virtually every State.

Despite the vast sums expended on the Medicaid program, great disparities exist in the level of funding received by the States. Due to varying State match capabilities and an outdated funding distribution system, many States experiencing high program growth receive much lower levels of Federal funding than do more affluent States with lower program growth. This persistent inequality indicates that the current Medicaid program fails to target Federal funding where it is most needed. This flaw is examined in greater detail below in the section entitled "Does Money Follow People?".

In addition, the level of flexibility currently accorded the States has been restricted over time, thereby reducing States' abilities to adjust to changing program needs and the existing disparity in Federal funding. Medicaid was intended to operate as a joint Federal-State matching entitlement program providing medical assistance for low-income persons who are aged, blind, disabled, members of families with dependent children, and certain other pregnant women and children. Accordingly, States were permitted to design and administer their own programs, subject to specified Federal guidelines. Unfortunately, the current Medicaid program hardly resembles that which was originally intended. Instead of allowing State and local officials the flexibility to best administer Medicaid, the Federal government created an extensive "one-size-fits-all" maze of Federal mandates and administrative requirements. The nature of this centralized approach to program admin-

istration is described in the "Medicaid Micromanagement" section below.

Finally, the operational and administrative inflexibility of the current Medicaid program has prevented States from developing innovative and cost-efficient mechanisms designed to meet the health care needs of their residents. Instead, they have been forced to shoulder the uncontrollable costs of what has become a rigid and ineffective health care program. The program's centralized micro-management, complex bureaucratic requirements, and outdated service delivery is often cited by the States as impeding their ability to provide the quality health coverage, patient responsiveness, and efficient administration common in the private sector. As a result, States have long sought enhanced operational flexibility so that they can better meet the health care needs of their low-income residents. The current program's complex system of waivers and the anticipated impact of the Medicaid Restructuring Act's flexibility is described below in the section entitled "Fostering Greater State Innovation."

STATE PERSPECTIVES ON MEDICAID REFORM

On February 6, 1996, the National Governors Association (NGA) adopted a detailed proposal for restructuring the Medicaid program (provided in Appendix A). This plan was adopted by a unanimous bipartisan vote following the President's veto of the Balanced Budget Act of 1995, which included a landmark Medicaid reform proposal. As such, the NGA agreement signaled the States' strong desire that the Medicaid program be reformed, despite apparent political obstacles, to provide them the tools and flexibility to give more effective, responsive, and efficient medical assistance to their vulnerable residents.

In response to the Governors' historic agreement, the House Committee on Commerce drafted the Medicaid Restructuring Act, a legislative plan founded on the principles unanimously endorsed by the bipartisan National Governors Association. (An analysis detailing the similarities between the NGA plan and the Medicaid Restructuring Act is provided in Appendix B.) Chief among these principles was that coverage and benefits should be guaranteed to all needy individuals. As a result, the NGA plan and the Medicaid Restructuring Act establish coverage guarantees to protect vulnerable Americans: pregnant women with family income below 133 percent of the poverty line; children under age 6 with family income below 133 percent of the poverty line; children age 6 through 12 with family income below 100 percent of the poverty line; children ages 13 through 18 with family income below 100 percent, phased in as per current law; children receiving foster care and adoption assistance; disabled individuals who meet specified income and resource standards; elderly individuals who meet Supplemental Security Income (SSI) and resource standards; qualified Medicare beneficiaries; qualified disabled and working individuals; certain other Medicare beneficiaries; and other poor adults who receive public assistance and who are not included in any of the above groups. (Appendix C provides a Congressional Research Service analysis of the Medicaid Restructuring Act's provisions relating to Medicare beneficiaries.)

In addition, both the NGA plan and the Medicaid Restructuring Act provide for a generous package of guaranteed benefits, including: inpatient and outpatient hospital services; physicians' surgical and medical services; laboratory and x-ray services; immunizations for children; prenatal care and nurse midwife services; pediatric and family nurse practitioner services; nursing facility services and home health care; services provided by Federally-qualified health centers and rural health centers; prepregnancy family planning services and supplies; and early periodic screening and diagnostic services for children.

The funding proposals set forth by the NGA plan have similarly been incorporated into the Medicaid Restructuring Act. As detailed below, both plans provide for the creation of four new funding sources: a base allotment distributing annually-increasing funding levels according to a differential rate formula, an "umbrella" fund to meet States' "rainy day" needs, a special grant for Native Americans, and a special grant for States with large populations of illegal aliens. In addition, the Medicaid Restructuring Act adopts the NGA provisions requiring a State match as a condition of the receipt of "base allotment" and "umbrella fund" resources and establishes a new ceiling for the Federal medical assistance percentage (FMAP). (The latter provision has attracted bipartisan support in the House, as indicated by the New York delegation letter to President Clinton provided in Appendix D.)

Further, in response to concerns raised by a number of Governors and program experts, the Medicaid Restructuring Act retains current law protections for elderly Medicaid recipients who are institutionalized. These include: current law protections against the impoverishment of spouses of institutionalized recipients, which are retained to protect community spouses from becoming impoverished before their institutionalized spouses can be deemed eligible for medical assistance; current law limitations on the liens that may be placed on residents' property; prohibitions on any requirements that the adult children of institutionalized or hospitalized parents contribute to the cost of nursing facility services; and current law (OBRA 87) nursing home standards and enforcement provisions. In addition, the NGA plan and the Medicaid Restructuring Act set forth important protections for recipients seeking to satisfy a grievance against any State. In particular, States are required to provide for an administrative procedure enabling an individual alleging a denial of benefits or eligibility to receive a hearing; States are required to provide for judicial review in the State court system to an individual or class of individuals alleging a denial of benefits; an individual or class of individuals alleging a denial of benefits may file a petition for certiorari before the United States Supreme Court; and the Secretary of the U.S. Department of Health and Human Services is authorized to bring an action alleging denial of benefits in Federal court against a State on behalf of an individual or class of individuals.

Finally, both the NGA agreement and the Medicaid Restructuring Act provide for unprecedented flexibility to ensure that all States are able to improve their medical assistance programs. The Act provides for: streamlined State plan submission and amendment procedures; State capability to develop service delivery inno-

vations without a Federal waiver; repeal of the Boren Amendment and establishment of disallowance protections; and greater coordination in the development and implementation of State Medicaid plans through a process of public input by providers and the populations served. These reforms are intended to expedite plan implementation and pave the way to more effective, responsive, and efficient State Medicaid programs.

PROGRAM GROWTH VERSUS PROGRAM CUTS

During the debate on the Medicaid Restructuring Act, the assertion has been repeatedly made that this legislation “cuts” health care spending for low-income people. This assertion is categorically false. Over the 7-year period ending in fiscal year 2002, the average annual growth rate is approximately 5.2 percent. Total Federal “base allotment” spending between fiscal years 1996–2002 will total \$797.0 billion. In fact, Federal expenditures in fiscal year 2002 will total \$130.9 billion, a 46.9 percent increase over actual Federal funding in fiscal year 1995. Further, during every year during the 7-year budget window, Federal Medicaid spending will grow by an annual rate of at least 4.82 percent.

In addition to the base allotment, the Medicaid Restructuring Act establishes three additional new funding sources which distribute Federal funds to the States in addition to the base allotment. These additional sources include an “umbrella” fund, a special fund for Native Americans, and a special fund for States with large populations of illegal aliens. The “umbrella fund” is an open-ended source of funding that provides additional resources on a per capita basis to any State experiencing growth in the guaranteed population groups (and specified optional groups) that exceeds the States’ financing capacity provided by the base allotments and special grants. The \$500 million Native American fund is dedicated exclusively for services provided by Native American providers and is distributed to any State within whose boundaries Native Americans reside. Finally, the \$3.5 billion illegal alien fund is distributed among the fifteen States with the largest populations of illegal aliens, as determined annually by the Immigration and Naturalization Service.

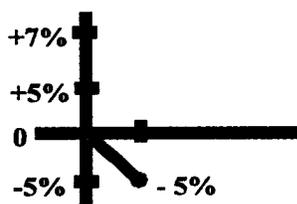

The four funding sources established by the Medicaid Restructuring Act provide more funding to all States and territories than they have ever received under the current Medicaid program. Further, just as the Act’s funding provisions differ significantly from those in current law, they also contrast sharply with the proposals set forth by the President in this and past years.

For instance, the Medicaid Restructuring Act provides for annual rates of positive growth, whereas President Clinton’s 1993 proposal for Medicaid spending called for a net reduction in Medicaid spending. A comparison of the two proposals reveals which represents spending growth and which represents a spending cut. As the chart below clearly illustrates, H.R. 3600 (the President’s “Health Security Act,” introduced November 20, 1993) proposed a very different first-year Medicaid spending than that contained in the Medicaid Restructuring Act. In fact, Section 9101 of the Health Security Act actually cut the Federal contribution to Medicaid by 5 percent (i.e., a growth rate of negative 5 percent). By contrast, the Medicaid Re-

structuring Act increases Medicaid spending by an average of nearly 7.1 percent in the first year.

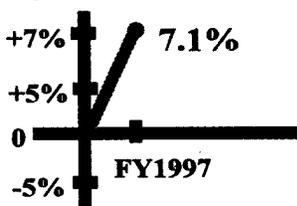

A Medicaid Definition Primer

Clinton in 1993: This is a CUT in Medicaid

Section 9101 (Clinton Bill):
 "The Secretary shall provide each year for payment to each regional alliance of an amount equal to the Federal Medicaid assistance percentage of (a) 95 percent..."

Republicans in 1996 : This is GROWTH in Medicaid

Section 1511 (The Medicaid Restructuring Act of 1996)
FY1997 National Average Growth Rate: 7.1%

The Medicaid reform plan proposed by the administration this year adopts a different but no less problematic approach to Medicaid funding. The President's plan terminates the current funding mechanism in favor of a "per capita cap" which limits the amount of Federal funding available to a State to a specified per capita level. This per capita funding limit varies depending upon the population—children, nondisabled adults, nondisabled elderly, and the disabled—and depending upon a State's historical per capita spending level. As a result, States with low current per capita spending levels will be frozen in place and will never be able to rise to the funding levels received by their more affluent and historically more generous counterparts.

The administration plan's impact on States is not limited to the funding inequity it locks in, however. Since the administration's "per capita cap" proposal limits the level of funding available to the States, any costs incurred above that level are to be assumed solely by the States. Further, such an outcome is likely given the proposal's retention of many current law mandates and regulations. As a result, the "per capita cap" plan would place tremendous fiscal pressure on the States. According to a June 10, 1996 Congressional Budget Office letter to Commerce Committee Chairman Thomas J. Bliley (provided in Appendix E), States would be able to offset the unfunded coverage and benefits requirements of the administration's plan only by dropping optional individuals and services.

FISCAL IMPACT OF MEDICAID GROWTH ON THE FEDERAL AND STATE
BUDGETS

Federal expenditures on the Medicaid program during the past 7 years have contributed significantly to the Federal budget deficit. However, Federal costs—while great—are only half the story. The States have been faced with even more extraordinary fiscal pressures because Medicaid mandates have made health care the fastest growing area of State budgets. Since almost all States are constitutionally required to annually balance their budgets, the Medicaid financial squeeze has had dramatic effects.

The table below, prepared by the National Association of State Budget Officers (NASBO), documents the extraordinary growth of Medicaid expenditures as a percentage of State expenditures. In 1987, Medicaid represented approximately 10.2 percent of all State expenditures. By 1991, Medicaid's State spending share had risen to 14.2 percent, and by 1994 it was a striking 19.4 percent of all State spending.

As State Medicaid spending has experienced uncontrollable rates of growth, other critical State funding initiatives have suffered commensurately. The table below, also prepared by NASBO, documents the decline in State spending for (a) elementary and secondary education, (b) higher education, (c) welfare, and (d) transportation, due to the growth in Medicaid. Based on NASBO data, State expenditures for elementary and secondary education declined 11 percent between 1987 and 1994; State higher education spending dropped 8 percent over the same time period; State welfare spending experienced a 13 percent decrease; and State investment in public transportation declined 16 percent. On the other hand, during the 1987–1994 time period, Medicaid spending increased by more than 90 percent.

This data clearly reveals why many State officials have described Medicaid mandates as the worst of all the Federal unfunded mandates placed on the States. As these mandates were enacted into law through budget reconciliation in the late 1980s and early 1990s, they created havoc with State budgets and ultimately drained State funds away from education and welfare programs.

FEDERAL AND STATE BUDGETARY HAVOC WITHIN BUDGET
RECONCILIATION

One of the most perplexing issues concerning the unconstrained fiscal growth of Medicaid is the manner in which it was accomplished. Most of the Medicaid mandates were enacted through reconciliation bills which were supposed to be budget-cutting vehicles.

How was this accomplished? In the days of the Gramm-Rudman-Hollings Budgetary Act, it was accomplished by “budgetary tricks.” For example, in the Concurrent Resolution of the Budget for fiscal year 1990 (H.Con.Res. 106), \$200 million of new budget entitlement authority became available for fiscal year 1990 for Medicaid spending. With this \$200 million, the Energy and Commerce Committee was able to report out five new mandated Medicaid expansions by slipping effective dates on some of the spending provisions so that only one calendar quarter’s worth of spending would occur in fiscal year 1990. By this “budgetary trick,” the Medicaid provisions technically met the budget target in the Budget Resolution. However, in the out-years, these five Medicaid provisions would cost additional billions of dollars. In 1991, the Office of Management and Budget (OMB) estimated that, taken together, these Medicaid provisions would increase Federal spending by approximately \$8.6 billion over a 5-year period.

Another perplexing issue in the enactment of Medicaid mandates has been the inability of the Congressional Budget Office (CBO) to provide accurate estimates of the projected costs of these laws. The table below documents the astounding inaccuracies in the CBO analysis of a number of Medicaid mandates enacted into law in the Omnibus Reconciliation Act of 1989 (OBRA 1989).

Payment for obstetrical and pediatric services	11	4
Total	321	106

Note.—Florida represents 3.8 percent of all Federal Medicaid expenditures—but accounted for 33 percent of total estimated expenditures.

This table lists four major Medicaid mandates enacted into law in 1989: (1) mandatory coverage of pregnant women up to 133 percent; (2) mandatory coverage of early and periodic screening, diagnostic, and treatment services (EPSDT); (3) enhanced payment for health care centers; and (4) enhanced payments for obstetrical and pediatric services.¹ The first column is the official CBO estimate for all Federal expenditures for these benefits in fiscal year 1991. The second column is the actual Florida Federal expenditures provided

¹In a 1990 official policy document of the National Governors’ Association (NGA) entitled “Short-Term Medicaid Policy” [Appendix G], the Nation’s Governors identified several of these mandates as particularly troublesome. In this NGA official document, they asked for relief from mandates in general and specified detailed changes to the EPSDT benefit. Governor Florio of New Jersey chaired the NGA Health Care Task Force which produced this policy, and then-Governor Bill Clinton was a member of the Task Force.

by the Florida Medicaid Director at that time. Florida represents only 3.8 percent of all Federal Medicaid expenditures.

First, compare the totals for fiscal year 1991. The CBO calculated that the total Federal expenditures for these four mandates would be \$321 million in fiscal year 1991 for all States. However, Florida's actual total was a whopping \$106 million.

With regard to the CBO cost estimate of the EPSDT benefit, the picture is even more disturbing. Incredibly, the CBO estimated that the total Federal expenditures for all States would be \$25 million for fiscal year 1991. The State of Florida alone spent \$63 million in fiscal year 1991 to comply with this mandate, or more than double the CBO official estimate.²

If one projects the Florida cost experience for these OBRA 1989 mandates to the entire Nation, the analysis leads to a disturbing conclusion. While CBO projected expenditures of \$323 million in fiscal year 1991, estimated Federal expenditures were closer to \$2.8 billion. Though forecasting is not an exact science, an error of 888 percent is truly indefensible. This staggering forecasting error not only contributed to the growth of the Federal budget deficit but was a devastating fiscal blow to the States.

DOES MONEY FOLLOW PEOPLE?

Despite the vast sums expended on the Medicaid program, great disparities exist in the level of funding received by the States. Due to varying State match capabilities and an outdated funding distribution system, many States experiencing high program growth receive much lower levels of Federal funding than do more affluent States with lower program growth. This persistent inequality indicates that the current Medicaid program fails to target Federal funding where it is most needed.

According to General Accounting Office analyses (see Appendix F), Medicaid differs from most other Federal programs in that it does not currently provide funding based on State needs. Instead, the current Medicaid program directs significant sums to certain States not because they experience high program need but because they are able to afford high levels of State matching funds. As a result, fully 20 States currently receive per capita Federal funding that is less than 90 percent of the national average. By contrast, 20 other States receive per capita grants that exceed 110 percent of the same national average, and six of these States receive grants that exceed 150 percent of the national average.

The vast disparities that exist in current Federal Medicaid funding can be illustrated by examining the very different circumstances of seven States. As the first segment of the chart below reveals, Oklahoma and Massachusetts receive highly divergent funding levels despite roughly equal poverty population sizes. Meanwhile, the grants received by New Mexico and Rhode Island are similar despite very different poverty populations. Finally, and

²In 1990, the American Public Welfare Association (APWA), conducted a study of the effect of the EPSDT expansions of OBRA 1989. Preliminary results from just 13 States showed an increase of \$468 million in State and Federal spending in fiscal year 1991. The States responding were: Alabama, Alaska, Arizona, Florida, Idaho, Maryland, Missouri, North Dakota, Oregon, South Dakota, Texas, Utah, and Wisconsin. The APWA study states "Please also be advised that this total figure is likely to increase as more States complete a budget analysis." Note that the two largest Medicaid programs—California and New York—were not included in this study.

perhaps most revealing, New York's Federal funding level is equivalent to the combined grants received by California and Florida, even though those two States also have a combined poverty population three times larger than New York's.

THE CURRENT MEDICAID PROGRAM PROVIDES UNEQUAL FUNDING TO THE STATES

	Poverty population	Fiscal year 1995 Federal grant
Oklahoma	605,437	\$833,975,195
Massachusetts	633,322	2,626,336,189
New Mexico	333,804	\$593,135,963
Rhode Island	109,520	567,026,552
California and Florida	7,615,972	\$12,742,333,244
New York	2,886,553	12,565,107,768

By contrast, the Medicaid Restructuring Act utilizes differential growth rates to ensure that all States receive larger Federal funding grants each year and that existing disparities are removed over time. As the following chart illustrates, the Medicaid Restructuring Act allows for a much higher cumulative increase for Oklahoma, which has an historically low per capita expenditure level but relatively higher program need, than for Rhode Island, which has low program need but a much higher per capita funding level. For comparison purposes, the impact on these two States of the President's "per capita cap" plan is also shown. Because it freezes all States at their current per capita level and grows them at the same rate, the current funding disparity between Oklahoma and Rhode Island is locked in place and no greater equality is possible.

MEDICAID MICROMANAGEMENT

According to many State officials, the explosion of Medicaid spending that has occurred over the last decade is due in large part to congressional and executive directives. During that period, Federally mandated eligibility changes fueled the expansion of the Medicaid-eligible population and the cost of the program. Although States have the discretion of supplementing Medicaid's mandated coverage standards, the Federal government frequently expanded the scope of these standards. As a result, States have been compelled to increase their spending levels in order to receive their share of Federally-matched Medicaid spending.

One of the most frequently heard State complaints regarding the Medicaid program concerns micromanagement by the Health Care Financing Administration (HCFA). At the Federal level, Medicaid is administered by HCFA which, through a network of regional offices, is supposed to work with State Medicaid departments to en-

sure appropriate management of the Medicaid program. However, the reality of HCFA-State relations has been described by many State officials as less a matter of coordinated cooperation than as an example of Federal micromanagement in State affairs.

Current Democrat and Republican Governors are by no means the first, or only, State Executives to describe to Congress the burdens of HCFA and the Medicaid program it administers. On December 8, 1990, then-Governor Bill Clinton told the House Government Operations Committee that "Medicaid used to be a program with a lot of options and few mandates—now, it's just the opposite."

Not surprisingly, many States have sought to take advantage of one of the only forms of relief available to them: waivers granted by the Federal government. Faced with the bureaucratic complexity and escalating costs of the Medicaid program, States have sought to make more efficient use of Medicaid dollars by such means as managed care. In many instances, the savings realized from these measures have been used to help fund program expansions, as part of State initiatives to extend coverage to uninsured individuals. Since significant use of managed care in Medicaid is not permitted under current Medicaid rules, States have sought waivers of statutory and regulatory requirements from the Secretary of Health and Human Services.

Currently, Federal Medicaid law makes two basic types of waivers available to the States. Section 1915 of the Social Security Act provides for "program waivers," which allow States meeting specified conditions to operate certain types of special programs that are listed in the statute. Section 1115(a) provides much broader authority to grant "demonstration waivers," under which nearly any provision of Medicaid law may be waived to allow States to experiment with program improvements.

The experience of those States with waivers permitted under Sections 1915 and 1115(a) has been mixed. While any relief from the Medicaid program's many restrictions is certainly appreciated by the States, the waiver process itself is a source of great dissatisfaction. The process by which States seek Section 1115 waivers is particularly complex and costly. In order to comply with HCFA's numerous application requirements, States must devote staff time and money to the process—resources they charge could be used to provide health care services to low-income State residents. When the application is complete, it typically contains enough paper to measure almost 3 feet in height.

Unfortunately, States still face often insurmountable obstacles to flexibility even after completing their waiver applications. To date, only 10 of an estimated 23 Section 1115 waivers have been approved by HCFA. In addition, the length of Federal waiver application review averages at least 12 months.

FOSTERING GREATER STATE INNOVATION

All across the Nation, States are working to improve the quality, effectiveness, and efficiency of the health care assistance they provide to their low-income residents. However, they have little of the operational or administrative flexibility they need to make their medical assistance programs more responsive and efficient. As a re-

sult, Governors and other State officials have long complained that Medicaid has served as an obstacle, rather than as an opportunity, to developing innovative health care delivery strategies.

The limited role that States are currently permitted to play has given State officials little choice but to watch, almost from the sidelines, as Medicaid has consumed more and more of their State resources. With Medicaid already the single largest program in virtually every State budget, its projected growth raises the prospect of severe financial crisis in the States. Already, Medicaid spending has prevented increased State investments in education, welfare services, law enforcement, and other critical human services.

Amidst the charges that the Health Care Financing Administration has served more as a hindrance than a help in States' efforts to get control over Medicaid spending, many States have sought relief through the Federal waiver process. As described above, however, that process is itself a source of considerable State frustration.

This is particularly difficult for many States to understand, given the success achieved by the relatively few States that have received waivers. For example, HCFA data reveals that States have achieved significant program efficiencies by means of waiver-facilitated managed care initiatives. In particular, Section 1915(b) waivers have enabled some States to establish limited managed care programs. Based on State reports to HCFA, the General Accounting Office has calculated that the national weighted average of the savings realized from such Medicaid managed care initiatives is 9.4 percent. As a result, States were able to serve the populations enrolled in these programs using almost 10 percent fewer dollars than required by the traditional Medicaid program.

According to State officials, the lesson to be drawn from such experiences is clear: if Medicaid is to be substantially improved and the growth rate of its costs brought under control, States must be empowered to restructure their Medicaid programs. They argue that the millions of low-income Americans who need health care assistance will be more effectively and efficiently served only when Governors and State legislators are given the flexibility to tailor Medicaid to meet the unique conditions in their States.

In light of the inflexibility of the current Medicaid program and the ineffectiveness of its waiver process, many States have petitioned Congress for significant Medicaid reform. In fact, State Governors have forged a close working relationship with the 104th Congress in an effort to develop the Medicaid Restructuring Act reform initiative. During the course of its hearings on the Medicaid program, the full Committee on Commerce and the Subcommittee on Health and Environment was advised by State Governors, Medicaid Directors, and other program experts to replace the current Medicaid program and its lengthy waiver process with a reform initiative allowing for real flexibility.

The Medicaid Restructuring Act of 1996 would give States unprecedented operational and administrative flexibility. According to State officials, the reform principles adopted by the National Governors Association and incorporated into the Medicaid Restructuring Act would enable States to develop innovative service delivery strategies to meet the health care needs of their low-income resi-

dents. In other words, such a reform initiative would free States in a manner far surpassing any flexibility they may enjoy under a waiver. In fact, under the proposed Medicaid reform initiative, the program would become the State-run program it was initially intended to be. In place of the current rigid, bureaucratic, and often inadequate service delivery system, States would be able to develop health service strategies tailored to match the differing characteristics of their communities. These can include capitation and managed care; enhanced maternal, child, and mental health care initiatives; and insurance premium subsidy programs. In addition, the Act would allow States that have received statewide or demonstration waivers—such as utilized by the State of Oregon in developing their prioritized list of health services—to maintain their innovative programs, subject to the provisions of this Act.

Administrative and operational flexibility would also create compelling incentives for States to achieve unprecedented program efficiency. Currently, the Medicaid program effectively penalizes States which save Medicaid resources. On average, 57 percent of all State savings revert to the Federal government, not the States that made the savings possible. Under the Medicaid Restructuring Act, States would be able to utilize the full value of any savings they achieve because they would be free to reinvest those resources into better service delivery, expanded benefits, and new program innovations.

SECTION-BY-SECTION ANALYSIS OF THE LEGISLATION

TITLE II, SUBTITLE A—MEDICAID RESTRUCTURING ACT OF 1996

Sec. 2001. Short title of subtitle A

This section cites this Subtitle as the Medicaid Restructuring Act of 1996.

Sec. 2002. Finding; goals for Medicaid restructuring

This section cites Congress' finding with regard to Medicaid, as follows: The Congress finds that the National Governors' Association on February 6, 1996, adopted unanimously and on a bipartisan basis goals and principles to guide the restructuring of the Medicaid program.

In addition, this Section cites four primary goals for restructuring Medicaid:

1. The basic health care needs of the Nation's most vulnerable populations must be guaranteed;
2. The growth in health care expenditures must be brought under control;
3. States must have maximum flexibility in the design and implementation of cost-effective systems of care; and
4. States must be protected from unanticipated program costs resulting from economic fluctuations in the business cycle, changing demographics, and natural disasters.

Sec. 2003. Restructuring the Medicaid Program

This section amends the Social Security Act by inserting after Title XIV a new Title XV.

TITLE XV—PROGRAM OF MEDICAL ASSISTANCE FOR LOW-
INCOME INDIVIDUALS AND FAMILIES

Sec. 1500. Purpose; State plans

Section 1500 states that the purpose of this title is to enable States to provide medical assistance to low-income individuals and families in a more effective, efficient, and responsive manner. A State would be required to provide the Secretary of Health and Human Services (the Secretary) with a plan that sets forth how the State intends to use the funds provided to provide medical assistance. An approved plan would continue in effect unless and until (1) the State amends the plan; (2) the State terminates participation in the program; or (3) the Secretary finds substantial non-compliance of the plan with the program's requirements.

The bill specifies that this title constitutes budget authority in advance of appropriations Acts; the Federal government would be obligated to provide for payment to States. However, no State would be eligible for payments under this Title for calendar quarters beginning before October 1, 1996.

PART A—ELIGIBILITY AND BENEFITS

Sec. 1501. Guaranteed eligibility and benefits

Section 1501 provides for each participating State to guarantee coverage and benefits to certain population groups as follows:

A. Pregnant women with income below 133 percent of the poverty line;

B. Children under age 6 with family income not over 133 percent of the poverty line;

C. Children born after September 30, 1983, who are over 5 years of age, but under 19 years of age, whose family income does not exceed 100 percent of the poverty line;

D. Disabled individuals. At the option of the State, either individuals who meet the disability definition, and income and resource standards established by the State; or individuals under age 65 who meet the disability, income, and resource standards for payment of Supplemental Security Income (SSI) benefits under Title XVI;

E. Elderly individuals who meet the income and resource requirements for payment of SSI benefits under Title XVI;

F. Children who meet the requirements for receipt of foster care payments or adoption assistance under Title IV. A State would have the option of using the requirements in its State plan in effect under Part E of Title IV as of the date of enactment; and

G. Individuals and members of families who meet the income and resource standards of the State's plan for its Aid to Families with Dependent Children (AFDC) program, or its foster care and adoption assistance program as in effect on March 1, 1996. A State with AFDC standards above the national aver-

age could elect to substitute the national average AFDC standards to determine eligibility under this title.

A guaranteed benefit package (in an amount, duration, and scope specified by the State) would include at least the following:

- A. Inpatient and outpatient hospital services;
- B. Physicians' surgical and medical services;
- C. Laboratory and x-ray services;
- D. Nursing facility services;
- E. Home health care;
- F. Federally qualified health center services and rural health clinic services;
- G. Immunizations for children;
- H. Prepregnancy family planning services and supplies;
- I. Prenatal care;
- J. Pediatric and family nurse practitioner services and nurse midwife services; and
- K. Early and periodic screening, diagnostic, and treatment (EPSDT) services for individuals under age 21.

Each State would establish criteria for specifying the amount, duration, and scope of benefits provided, subject to Secretarial approval under sections 1526 and 1527.

Before the beginning of each Federal fiscal year, each State would be required to specify how it would guarantee coverage of the disabled. States would elect to use either their own definitions of disability or SSI standards. Unless changed before the beginning of the following year, the election would continue in effect for the subsequent year. A State opting to use its own definition would be required to set aside funds for disabled individuals; disabled individuals would not be taken into account in determining a supplemental umbrella allotment (see Section 1511). A State that chose to use SSI standards for disability would not be subject to the set-aside requirement and would be eligible for a supplemental allotment based on an increase in the number of guaranteed and optional disabled individuals covered. States (known as 209(b) States) that were using more restrictive eligibility standards for Medicaid than for SSI on January 1, 1972, could continue to apply their standards and use a spend-down process that allows applicants to deduct medical expenses from income.

A State plan must provide that if any family becomes ineligible to receive assistance under the State program funded under Part A of Title IV as a result of increased earnings from employment, or as a result of the collection or increased collection of child or spousal support, the family shall be eligible for medical assistance under the State plan during the immediately succeeding 12-month period for so long as family income is less than the poverty line.

In the case of a State that maintained a link between medical assistance eligibility and eligibility under Title IV, the State could elect to treat any reference to individuals and members of families who meet March 1, 1996, AFDC income and resource standards as a reference to members of families receiving assistance under Title IV so long as the election would not result in increased Federal expenditures. Each State would have the option to continue medical assistance to an individual who lost Title IV eligibility because of increased employment hours or income.

This section would carry over the current law requirements that States cover Medicare premiums, deductibles, and coinsurance for “qualified Medicare beneficiaries” (QMBs). These are aged and disabled Medicare beneficiaries whose income is below 100 percent of the Federal poverty level, and whose resources do not exceed twice the allowable amount under SSI. Also, States would be required to pay Medicare Part B premiums for individuals who would be QMBs except that their incomes are up to 120 percent of poverty. States would also be required to continue to pay Part A premiums, but no other expenses, for “qualified disabled and working individuals” (QDWIs), *i.e.*, persons who formerly received Social Security disability benefits and hence Medicare and who have lost eligibility for both programs, but are permitted to continue to receive Medicare in return for payment of the Part A premium. Each State would be required to pay premiums for QDWIs who have incomes below 200 percent of poverty and resources no greater than twice the SSI standard. States could opt to pay health maintenance organization (HMO) premiums for Medicare beneficiaries. A State could limit payment for Medicare cost-sharing to its medical assistance rates that would be paid for items or services furnished to eligible individuals who are not Medicare beneficiaries.

Sec. 1502. Other provisions relating to eligibility and benefits

Supplemental umbrella allotments under Section 1511 could be made for individuals in the following population groups if medical assistance for the guaranteed benefit package were made available to disabled (under SSI standards) or elderly or disabled individuals who are covered under the State plan and meet the State’s eligibility standards in effect as of May 1, 1996.

Each State’s plan would have to describe (a) general eligibility guidelines for low-income individuals who are not covered under subsection (a) or (b) of section 1501 or subsection (a) of this section; (b) the amount, duration, and scope of covered items and services; (c) the State’s delivery method including the use of vouchers, fee-for-service, or managed care arrangements; (d) qualifications of providers and rates of reimbursement for fee-for-service benefits; (e) beneficiary cost-sharing including responsibilities of parents and spouses of recipients; (f) utilization incentives (if any) to encourage appropriate utilization of services; and (g) the State’s provisions for short-term acute care hospitals and children’s hospitals with specified low-income utilization rates.

Guaranteed coverage and benefits would be subject to a State’s eligibility guidelines and Federal limitations on payments to the State including provisions relating to supplemental allotments. A State could deny benefits available to an individual if such benefits were available under Medicare or another public or private health care insurance or program. In the case of an individual who has moved from another State and has resided in the new State for less than 180 days, the State could limit benefits to the benefits that would have been provided in the previous State of residence.

Each State that elected to use its own disability standards would be required to devote a minimum percentage of total program spending to services for low-income persons eligible on the basis of disability, including blindness. The specified minimum percentage

would be 90 percent of the State's fiscal year 1995 Medicaid expenditures attributable to the disabled. States would calculate the minimum amounts excluding payments for emergency services to undocumented aliens.

During the first 8 quarters in which its Title XV plan is in effect, a State would be required to pay federally qualified health centers and rural health clinics rates based on 100 percent of reasonable costs.

A State would be prohibited from denying or excluding coverage on the basis of a preexisting condition. If a State contracted with a capitated organization or other entity and allowed the organization to impose preexisting condition exclusions, the State would be required to provide alternate coverage for any covered services denied as a result.

A State would be prohibited from contracting with a full risk capitated health care organization unless the organization met solvency standards established by the State for private health maintenance organizations. There would be a 3-year exemption for full risk organizations currently contracting with State Medicaid programs. An organization not at full risk would have to meet solvency standards established under the State's plan for medical assistance. States may establish other solvency standards for capitated health organizations that are controlled by one or more federally qualified health centers or rural health clinics. For these purposes, "control" means the possession, whether direct or indirect, of the power to direct the management and policies of a capitated health care organization through membership, board representation, or an ownership interest equal to or greater than 50.1 percent.

A State must provide that the amount of funds expended under Medicaid at rural health clinics and federally qualified health centers for eligible low-income individuals for a fiscal year is not less than 85 percent of expenditures under Title XIX for medical assistance in the State during fiscal year 1995 which were attributable to expenditures for medical assistance for rural health clinic services and federally qualified health center services.

Beginning with fiscal year 2001, a State may provide in its State plan for a lower percentage of expenditures than the minimum percentage of 85 percent, if the State determines to the satisfaction of the Secretary that: (1) the health care needs of low-income populations can be reasonably met without the set-aside percentage; (2) the performance goals established under section 1521 relating to such populations can be reasonably be met without the set-aside percentage; and (3) the health care needs of low-income individuals can reasonably be met without the level of expenditure for such services otherwise required under the set-aside.

Sec. 1503. Limitations on premiums and cost-sharing

For guaranteed populations and optional population groups for which umbrella supplemental funding is available, States cannot impose any premium, enrollment fee, or similar charge. For other populations, the State may impose a premium or enrollment fee if it is related to the individual's income and does not exceed 2 percent of the individual's gross income.

For guaranteed populations and optional populations for which umbrella supplemental funding is available, States may not impose any cost-sharing with respect to items and services unless the amount is nominal in amount. An amount is nominal if it does not exceed 6 percent of the amount otherwise payable, (or, if greater, 50 cents). For other populations, the State may not impose any cost-sharing with respect to items and services unless such cost sharing is pursuant to a public cost-sharing schedule and such cost-sharing is not in excess of the average cost-sharing imposed in the State for health care plans offered by health maintenance organizations.

For guaranteed populations and optional populations for which umbrella funding is available, additional cost-sharing could be imposed under the following conditions: (1) to discourage the inappropriate use of emergency medical services; (2) to encourage the use of primary and preventive care; and (3) to participate in employment training programs, drug or alcohol abuse treatments, and counseling programs. In these cases, the additional cost-sharing may not exceed the average cost-sharing imposed for health plans offered by health maintenance organizations in the State.

For other populations, additional cost-sharing could be imposed under the previously described conditions. In these cases, the additional cost-sharing may not exceed twice the average cost-sharing imposed for health plan offered by health maintenance organizations in the State. Finally, an individual who is eligible for benefits for items and services under the State plan may not be billed by the provider for such item or service, other than such amount of cost-sharing as is permitted under this section.

Sec. 1504. Description of process for developing capitation payment rates

If a State contracts with HMOs or similar entities on a risk basis for a package of services including at least inpatient hospital and physician care, the State's plan would have to describe (a) the use of actuarial science in projecting expenditures and utilization for enrollees and setting capitation payment rates; (b) required qualifications for participating organizations; and (c) a process for disseminating actuarial information to organizations on capitation rates, historical fee-for-service cost, and utilization. The State would also have to provide for public notice and an opportunity to comment on this information before each contract year; the notice would have to include the amounts of capitation payments made under the Medicaid plan in the preceding year and expected to be made in the coming year (unless exempt from disclosure under State law).

Sec. 1505. Preventing spousal impoverishment

Current Medicaid law includes rules known as "spousal impoverishment protection" for the treatment of income and resources of married couples when one of the spouses requires nursing home care and the other remains in the community. Section 1505 carries these rules over into Title XV to prevent impoverishment of the spouse remaining in the community.

The income eligibility rules would not permit income of community spouses to be used in determining the nursing home spouse's eligibility unless the income were actually made available to the institutionalized spouse. As in current law, after eligibility has been determined, States would be required to set a minimum monthly maintenance needs allowance for living expenses of the community spouse according to statutory limits. (Currently, this minimum is \$1,254 per month and the maximum is \$1,918 per month. These amounts may be increased depending on the amount of the community spouse's actual shelter costs and other factors.)

From a couple's combined resources, an amount would be protected for the community spouse. This amount would be the greater of one-half of the couple's resources at the time the institutionalized spouse entered the nursing home, up to a maximum, or a standard established by the State. (Currently, the State resource standard may be no lower than \$15,348 and no greater than \$76,740.)

Sec. 1506. Preventing family impoverishment

States would be prohibited from requiring an adult child or any other individual (other than the applicant or recipient of services or the applicant's or recipient's spouse) to contribute to the cost of nursing facility or other long-term care services. In addition, for such services, States could hold financially responsible only the applicant's or recipient's spouse, or the parent of a child who is under age 21 or is disabled. The bill would carry over current law policy regarding the imposition of liens on property.

Sec. 1507. State flexibility

Subject to the coverage and benefit guarantees in section 1501, including the guarantees for Medicare beneficiaries, each State would determine (1) the items and services for which medical assistance would be provided, the limits on them, and which providers could provide them; (2) differences, if any, in the medical assistance that would be provided in geographical areas of the State; (3) the extent to which amount, duration, or scope of services would be comparable among eligible individuals; and (4) the extent to which eligible individuals would have freedom of choice of providers. States would be permitted to specify coverage determinations in their State plans.

Title XV would not limit a State's ability to contract with managed care plans or individual providers on a capitated or other basis, to contract for case management or coordination services, or to set capitation rates on the basis of competition or negotiation.

Sec. 1508. Private rights of action

This section sets forth a process for administrative and judicial remedies under this Act. Each State would be required to provide an administrative procedure with a hearing for an individual who alleged a denial of eligibility for benefits or a denial of benefits guaranteed under the State plan, and for judicial review through a private right of action in a State court, with a right to petition the Supreme Court for review. There would be no State private right of action for a provider or health plan.

The Secretary could bring an action in Federal court against a State on behalf of an individual regarding the provision of benefits guaranteed under the State plan. However, the Secretary could not be sued for failure to bring an action against a State or with regard to any action brought against a State.

PART B—PAYMENTS TO STATES

Sec. 1511. Allotment of funds among States

(a) Allotments

Beginning with fiscal year 1997, the Secretary would compute each State's obligation and outlay allotment under the new program. (Obligations are binding agreements to make Federal payments, immediately or in the future. Outlays are actual payments to liquidate obligations.) For a fiscal year, obligations to any State would be limited to the sum of the State's base obligation allotment (subsection (c), below), any supplemental allotment for emergency health services to certain illegal aliens (subsection (f), below), any supplemental per beneficiary umbrella allotment (subsection (g), below), and any supplemental allotment for Indian health services (subsection (h), below). The sum of the base obligation allotments for all States could not exceed the aggregate limit on base obligation authority for a fiscal year. The aggregate limit would be defined as the base pool amount (the statutory amount available for medical assistance for each fiscal year) divided by a payout adjustment factor; the payout adjustment factor would be set at 0.950 for fiscal year 1997, 0.986 for fiscal year 1998, and 0.998 for each subsequent fiscal year.

A State would be permitted to carry over a particular year's unspent obligation allotment into the following year unless the State received a supplemental umbrella allotment in the particular year. No carryover would be permitted of supplemental allotments for services to illegal aliens or Indian health services. Any carryovers of base obligation allotments or changes in allotments due to election of an alternative growth formula (subsection (c) below) would not be included in the aggregate limit on base obligation authority.

A State's base obligation amount for fiscal year 1997 would be reduced by Title XIX obligations entered into for the State for the year. Fiscal year 1997 allotments to a State would not affect obligations for any prior fiscal year. The amount established to be obligated to a State for a quarter beginning during or after fiscal year 1997 would be treated as the amount obligated to the State as of the first day of the quarter.

The Federal government's obligations for payments under Title XV would be limited as stated above and subject to adjustment based on guaranteed eligibility and benefits only as provided under the provisions on supplemental umbrella allotments.

For each of the 50 States and District of Columbia, a fiscal year's base obligation allotment would be an amount that bears the same ratio to the State's base outlay allotment as the ratio of the aggregate limit on base obligation authority to the base pool amount for the year. For each of the Commonwealths and Territories, a fiscal year's base obligation allotment would be the base outlay allotment

for the year divided by the payout adjustment factor for the year. (These configurations are in recognition of the fact that once an obligation is entered into, an outlay must be made in the same year or in a subsequent year; outlays cannot be limited in the same way that obligations can be limited.) For any jurisdiction for fiscal year 1997, the obligation amount would be its base outlay allotment adjusted for Title XIX obligations for which the Federal government has not made payment to the jurisdiction, divided by .950 (the payout adjustment factor for fiscal year 1997). By November 1, 1996, the Secretary would be required to estimate the adjustment amounts for each State and publish them in the Federal Register. The total of the amounts must equal \$12 billion, the amount by which the fiscal year 1997 pool would be reduced to account for Title XIX obligations.

(b) Base pool of available funds

Allotments would be made from a fixed pool of available funds. For fiscal year 1997, the pool amount would be reduced to account for obligations incurred, but for which Federal payment has not been made, under Title XIX before the beginning of fiscal year 1997. The base pool amount for fiscal year 1997 would be \$103.4 billion (this represents outlay allotments to the States and the District of Columbia plus allotments to Commonwealths and Territories). The pool would be \$108.4 billion for fiscal year 1998, \$113.7 billion for fiscal year 1999, \$119.1 billion for fiscal year 2000, \$124.9 billion for fiscal year 2001, and \$130.9 billion for fiscal year 2002. For later years, the pool amount would be the previous year's amount increased by the lesser of 4.82 percent or the annual percentage increase in the gross domestic product for the 12-month period ending in June before the start of the year in question. The increase in the base pool amount over that for the preceding year would be designated the "national growth percentage" (NGP).

(c) State base outlay allotments

For fiscal year 1996, the base outlay allotment for each of the 50 States and the District of Columbia would be determined in accordance with a statutory table that shows the amount for each State. For fiscal year 1997 and later years, the outlay allotment would be based on a formula allocation from the fixed pool of total medical assistance funds.

For fiscal year 1997 and later years, each State's base outlay allotment from the pool would equal a needs-based amount times an adjustment factor, subject to certain floors and ceilings. The needs-based amount for a State would be the product of its aggregate need and its old Federal medical assistance percentage (FMAP) for the previous year. The adjustment factor would be a constant multiplier for all States used to ensure that floor and ceiling provisions, along with the allotments for Commonwealths and Territories, do not cause total allotments to exceed the pool amount.

Beginning in fiscal year 1998, a higher floor would apply for certain States based on the one-time increase in the State's allotment from fiscal year 1996 to fiscal year 1997. For a State whose fiscal year 1996-97 increase was greater than 95 percent of the fiscal

year 1997 NGP, the floor would be 90 percent of the NGP for the fiscal year.

A State's outlay allotment for a fiscal year would be limited to the product of the State's allotment for the preceding year and an applicable percent, generally 126.98 percent of the NGP for fiscal year 1996 and 133 percent of the NGP for subsequent fiscal years. However, for the 10 States with the lowest Federal spending per resident-in-poverty rates, the applicable percent would be 150 percent of the NGP for a fiscal year after fiscal year 1997. The Federal spending per resident-in-poverty rate would be the State's outlay allotment for the previous fiscal year divided by the average annual number of residents in the State with family incomes not over the poverty threshold as defined by the Office of Management and Budget.

For Louisiana, the outlay allotment for each of fiscal years 1997–2000 would be \$2.622 billion except that the amount would be increased by \$37,048,207 for fiscal year 1997. To receive the full amount, the State would have to spend at least \$355 million in State funds for medical assistance in a fiscal year before 2000 plus the percentage of difference between that minimum and the amount necessary to qualify for the full allotment. The State could apply to the Secretary for the allotment otherwise determined for a fiscal year if the State notified the Secretary by the preceding March 1 that it would be able to spend enough to qualify for the allotment. Nevada's allotment would be increased by \$90,000,000 for each of fiscal years 1997–1999.

To reduce variations in increases in outlay allotments over time, any State or the District of Columbia could elect an alternative growth rate formula. A portion of the State's allotment for fiscal year 1996 could be deferred and applied to increase its allotment for 1 or more subsequent years, so long as the total of the increases did not exceed the amount deferred previously. (Obligation allotments for the State would be adjusted accordingly.)

(d) State aggregate expenditure need determined

As stated above, a State's base outlay allotment would be based, in part, on its aggregate need. The State's aggregate need would be the product of four factors: program need; a health care cost index; projected inflation according to a consumer price index increase factor; and national average spending per resident-in-poverty. Program need would be based on a State's mix of population groups—individuals who are over age 60 but under 85, over 85, disabled, children, and others—and for those groups, the number of needy and the average per recipient expenditures. The health care cost index would be based on the annual average wages for hospital employees in the State. National average spending per resident in poverty would be computed for fiscal year 1997 using fiscal year 1994 data; for fiscal year 1998 and later years, the figure would be increased by the NGP.

(e) Publication of obligation and outlay allotments

The Secretary would publish preliminary allotments for each fiscal year by April 1 of the preceding fiscal year. The General Accounting Office (GAO) would report to Congress by May 15 on the

extent to which the allotments comply with statutory requirements. The Secretary would publish final allotments by July 1, taking into account the GAO analysis and explaining any changes from the preliminary allotments; the Secretary could not modify allotments thereafter. By August 1, GAO would report to Congress on the statutory compliance of the final allotments. Deadlines would be extended according to the date of enactment of Title XV.

(f) Supplemental allotment for certain health care services to certain aliens

Supplemental allotments for emergency health care services to certain aliens would go to the 15 States with the highest number of undocumented alien residents of all the States, based on estimates prepared by the Immigration and Naturalization Service. For an eligible State, the amount of the supplemental allotment would be based on the ratio of the number of undocumented aliens residing in the State to the number in all eligible States. Supplemental pool amounts would be \$500 million for fiscal year 1998, \$600 million for fiscal year 1999, \$700 million for fiscal year 2000, \$800 million for fiscal year 2001, and \$900 million for fiscal year 2002.

(g) Supplemental per beneficiary umbrella allotment for States with excess growth in certain population groups

The bill provides for supplemental umbrella allotments to be available to States that experience unanticipated growth in certain population groups, e.g., poor pregnant women, poor children, poor disabled individuals (only if the State has elected to use SSI standards for the disabled), poor elderly individuals, certain Medicare beneficiaries, and other poor adults who are guaranteed coverage under section 1501. Beginning with fiscal year 1997, a State's outlay allotment would be increased by an amount based on the excess number of individuals, the applicable per beneficiary amount, and the State's old Federal medical assistance percentage (*i.e.*, current law FMAP). The excess number of individuals would be equal to the amount by which the number of individuals in the population group for the fiscal year exceeds the number anticipated for the State in the fiscal year. The anticipated number would be the number of individuals in the group in the preceding year increased by a percentage increase factor related to the State's percentage growth factor (a measure of the increase in State outlays). The percentage increase factor for a fiscal year, if greater than zero, would be the percentage by which the State's growth factor exceeded the percentage increase in the consumer price index for all urban consumers during the 12-month period beginning with July before the beginning of the fiscal year. The per beneficiary amount for a supplemental allotment population group would be based on the State's expenditures for the group (excluding expenditures for disproportionate share hospital payments and payments for Medicare cost-sharing) for which Federal financial participation was provided.

To receive a supplemental umbrella allotment, a State would have to provide assurances that it would obligate the full amount of the allotment and any carryover from a previous year during the

fiscal year. Also, the State would be required to submit periodic reports to the Secretary on the numbers of individuals within each supplemental allotment population group, and assure the Secretary that it can collect such data. The amount of the supplemental umbrella allotment to a State would be reduced for a less-than-anticipated number of individuals in a population group.

(h) Allotment for medical assistance for services provided in Indian Health Service and related facilities

This subsection establishes a supplemental allotment pool for each of fiscal years 1996 through 2000 to provide medical assistance to Indians in eligible States. A State eligible for a supplemental allotment under this subsection would be a State with at least one Indian Health Service facility. Pool amounts increasing from \$89 million in fiscal year 1998 to \$111 million in fiscal year 2002 would be allocated among eligible States on the basis of each eligible State's share of Native American residents as estimated by the Secretary of the Interior.

Sec. 1512. Payments to States

Subject to the allotment limits, payments to States for medical assistance and medically related services would equal the State's spending for the services times the applicable FMAP. This would be the greater of the old FMAP, computed as under current law, or a new FMAP, (or, if less, the old FMAP plus 10 percentage points). The new FMAP would equal 100 percent minus the product of (a) 0.39 and (b) the ratio of the total taxable resources (TTR) ratio for the State to the aggregate expenditure need ratio for the State. The TTR ratio would be the ratio of the most recent 3-year average of the State's TTR, as determined by the Secretary of the Treasury, to the sum of the average TTRs for all States (for the District of Columbia, a per capita income ratio would be substituted). The aggregate expenditure need ratio would be the ratio of the State's aggregate expenditure need (as determined in computing the State's allotment; see above) to the sum of the aggregate expenditure needs for all States. The new FMAP could not be less than 40 percent or greater than 83 percent. The FMAP for Commonwealths and Territories would be 50 percent. The FMAP for services in Indian Health Service facilities (and for specified facilities of Indian tribes that are not Indian Health Service facilities) would continue to be 100 percent; in addition, no State matching would be required for services to unlawful aliens. For administrative services, the Federal matching percentage would generally be 50 percent, with enhanced matching for specified expenditures as under current law. Provisions of current Medicaid law relating to periodic payments to States and treatment of overpayments and disallowances would be retained.

Payments to States could be adjusted to reflect over-estimations and under-estimations of supplemental umbrella allotments.

For the Commonwealths and Territories, the old and new FMAPs would be 50 percent. Special rules would apply to determination of the FMAP for Alaska. The FMAP would be 100 percent for services provided by an Indian Health Service facility, an Indian health program operated by an Indian tribe or tribal organization, or an

urban Indian health program. No State match would be required for emergency services provided to unlawful aliens.

States would be permitted to use local funds to meet the non-Federal share of medical assistance up to 40 percent of the total non-Federal share. Inter-governmental fund transfers would be permitted and public funds could be considered as the State's share. The term "public funds" would include funds appropriated to the State or transferred from public agencies. Such funds could be Federal funds authorized by Federal law to be used to match other Federal funds.

The provisions of section 1903(w) regarding provider tax and donation restrictions as in effect on June 1, 1996 shall apply under this title in the same manner as they applied under Title XIX. However, beginning 2 years after the date of enactment of this title, the Secretary, taking into account the report submitted under section 1513(j)(2) may waive, upon application of a State, the requirements of section 1903(w) if the Secretary determines that the waiver would not financially undermine the program under this title and would not otherwise be abusive.

The section requires the Comptroller General to conduct a study to guide the Secretary's determinations. The study shall include the methods by which States provide for financing their share of expenditures under this title. The study also shall include an examination of the use of provider taxes and donations, as well as inter-governmental transfers. The report is due 2 years after the date of the enactment of this title.

Sec. 1513. Limitation on use of funds; disallowance

States could use Federal funds only to carry out the purposes of Title XV. Federal payments would not be made to a State for non-emergency services provided or ordered by providers excluded under the Maternal and Child Health or Social Services Block Grant or Medicare. Spending for medically related services could not exceed 5 percent of total spending under the State's plan. Spending for administration could not exceed the sum of \$20 million plus 10 percent of total expenditures. This limit would not apply to spending for quality assurance; the development and operation of the certification program for nursing facilities and intermediate care facilities for the mentally retarded; utilization review activities; inspection and oversight of providers; anti-fraud activities; independent evaluations; or activities needed to comply with reporting requirements. As under current law, Federal matching would not be available for services that would have been paid for by a private insurer but for a provision of the insurance contract making the insurer secondary to medical assistance. Payments for medical assistance to nonlawful aliens who are otherwise eligible for medical assistance would be limited to expenditures for emergency services not related to an organ transplant procedure. Payment could not be made for prescription drugs unless the manufacturer had entered into a master rebate agreement with the Secretary (see below) and was in compliance with current requirements section 8126 of Title 38, including those for a master agreement with the Secretary of Veterans Affairs.

No payment would be made for abortions or for coverage that includes abortions except in case of a pregnancy resulting from rape or incest, or in case of life endangerment of the mother. No payment would be made for coverage of any drug, product, or service furnished for assisting with death or suicide.

PART C—ESTABLISHMENT AND AMENDMENT OF STATE PLANS

Sec. 1521. Description of strategic objectives and performance goals

Each State would be required to include in its State plan a description of its strategic objectives and performance goals for providing health care services, and the manner in which the plan is designed to meet the objectives and goals. Goals and objectives related to rates of childhood immunizations and reductions in infant mortality and morbidity would be required. With regard to other objectives and goals, the State could consider factors such as priorities for providing assistance to low-income populations, priorities for general public health and health status for low-income populations, the State's financial resources and economic conditions, and the adequacy of the State's health care infrastructure. To the extent practicable, a State would be required to establish one or more performance goals for each strategic objective and describe how performance would be measured and compared against goals. Strategic objectives would be required to cover a period of at least 5 years and would have to be updated and revised at least every 3 years. Performance goals would have to be established for dates not more than 3 years apart.

Sec. 1522. Annual reports

By March 31, each State with a State plan in effect for the preceding fiscal year would be required to submit a report to the Secretary and the Congress on program activities and performance for the previous Federal fiscal year. Each report would be required to include: a summary of medical assistance expenditures and beneficiaries by eligibility category; statistics on the utilization of services, including summary statistics, for each category of eligible individuals, of items and services provided on a fee-for-service basis and a summary of data reported by capitated health care organizations; a report on achievement of performance goals including actions to be taken in case a goal was not met; a summary of program evaluations; a description of fraud and abuse and quality control activities; and a description of plan administration, including a description of the roles and responsibilities of State entities responsible for administering the program and organization charts for each, a description of any interstate compact entered into, and citations to State law and rules governing the State's activities under the program.

Sec. 1523. Periodic, independent evaluations

During fiscal year 1999 and at least every third year thereafter, each State would be required to provide an evaluation of the operation of its State plan, conducted by an entity that is responsible neither for submission of the State plan nor for administering any activity under the plan.

Sec. 1524. Description of process for State plan development

Each State plan would be required to include a description of the process under which the plan was developed consistent with section 1525.

Sec. 1525. Consultation in State plan development

Before submitting a plan or amendment to the Secretary, each State would be required to provide a public notice with a description of the plan or amendment, a means for the public to inspect or obtain a copy of the plan or amendment, and an opportunity for submittal and consideration of public comments. In addition, the State would be required to provide for consultation with one or more advisory committees established by the State.

An amendment to the State plan would be an amendment which makes a material and substantial change in eligibility or benefits.

Sec. 1526. Submittal and approval of State plans

Each State would be required to submit to the Secretary a plan that meets the requirements of Title XV. Unless the Secretary found that a plan was in substantial noncompliance with the requirements of Title XV, the plan would be approved and would be effective beginning with the date specified in the plan, but no earlier than 60 days after the plan is submitted.

States would have the option of submitting the State plans that they used under Title XIX (including a plan provided under 1115 waiver) so long as the plan met Title XV requirements including the guarantees under section 1501 and the funding provisions under section 1511.

Sec. 1527. Submittal and approval of plan amendments

A State would be permitted to submit an amendment to its State plan at any time. However, any amendment that would eliminate or restrict eligibility or benefits under the plan could not take effect unless the State certified that there was prior or contemporaneous public notice of the change, as provided under State law. Nor could it be effective for longer than a 60-day period unless the amendment had been transmitted to the Secretary before the end of the period. Any other amendment could not remain in effect after the end of a State fiscal year (or if later, the end of the 90-day period on which it becomes effective) unless the amendment had been transmitted to the Secretary. These requirements would not apply to an amendment submitted on a timely basis in response to an order of a court or the Secretary.

Sec. 1528. Process for State withdrawal from program

A State could rescind its plan and discontinue participation in the program at any time after providing 90 days prior notice to the public and to the Secretary. Such discontinuation would not apply to Federal payments to States for expenditures made for items and services furnished under the plan before the effective date of the discontinuation.

In the case of withdrawal other than at the end of a Federal fiscal year, the Secretary would prorate allotments.

Sec. 1529. Sanctions for noncompliance

The Secretary would be required to promptly review State plans and plan amendments to determine if they substantially comply with requirements. If the Secretary determined that a plan or plan amendment substantially violated the requirements and, within 30 days of submittal, provided written notice to the State, the Secretary would be required to issue an order specifying that the plan or amendment would not be effective at the end of the 30-day period (or 120 days in the case of the initial submission of the State plan). Before making such a determination, the Secretary would be required to consult with the State and consider any clarifications and additional information submitted. The Secretary would be required to explain and justify any determination inconsistent with any previous determination. A plan or amendment would be considered to substantially violate a requirement if a provision were material and substantial in nature and effect, and were inconsistent with an express requirement. Failure to meet a strategic objective or performance goal would not be considered a substantial violation. A State could appeal the Secretary's determination through administrative and judicial procedures.

Any order to withhold funds from a State would relate only to the portions of the State plan or amendment which substantially violated a requirement of Title XV. The Secretary could suspend withholding of funds during reconsideration or administrative and judicial review.

The Secretary would be required to provide for a process under which an individual could complain of a State's failure to comply with the requirements of Title XV or the State plan.

Sec. 1530. Secretarial authority

The Secretary would be permitted to negotiate a satisfactory resolution to any dispute concerning the approval of a plan or the compliance of a plan. The Secretary would be prohibited from delegating authority for approval of plans other than to the Administrator of the Health Care Financing Administration. The Administrator would be prohibited from making any further delegation of such authority. The Secretary would be required to administer the program only through a prospective formal rulemaking process, including issuing notices of proposed rule making, publishing proposed rules or modifications to rules in the Federal Register, and soliciting public comment.

PART D—PROGRAM INTEGRITY AND QUALITY

Sec. 1551. Use of audits to achieve fiscal integrity

Each State plan would be required to provide for an annual audit of the State's medical assistance expenditures in compliance with Chapter 75 of Title 31, United States Code. If the Secretary determined that a State's audit was performed in substantial violation of the Chapter 75 provision, the Secretary would be permitted to conduct a verification audit or require that the State do so. Within 30 days of completion of an audit or verification audit, the State would be required to provide a copy of the audit report to the Secretary along with the State's response to the auditor's rec-

ommendation. The State also would be required to make the audit report available for public inspection.

Each State would be required to maintain fiscal controls, accounting procedures, and data processing safeguards that are reasonably necessary to assure the fiscal integrity of the State's activities. The State's controls and procedures would be required to be generally consistent with generally accepted accounting principles as recognized by the Governmental Accounting Standards Board or the Comptroller General.

Each State plan would be required to provide that the records of any provider could be audited to ensure that proper payments were made under the plan.

Sec. 1552. Fraud Prevention Program

To detect fraud and abuse by beneficiaries, providers, and others, each State plan would be required to have a program that includes the following. Certain program contractors and providers would be required to disclose ownership and control information to State agencies in accordance with sections 1124 and 1124(a) of the Social Security Act. An entity (other than an individual practitioner or a group of practitioners) would be required to supply information on ownership, controlling interests, and conviction of certain offenses upon request by the Secretary or the State agency. A State could exclude a provider from participation in the State plan on its own initiative, and would be required to exclude any entity when required to do so by the Secretary pursuant to section 1128 or 1128A of the Act. Whenever a provider was terminated, suspended, sanctioned, or prohibited from participating under a State's plan, the State agency would be required to notify the Secretary and, in the case of a physician, the State medical licensing board. States would be required to provide information and access to information respecting sanctions taken against practitioners and providers by State licensing authorities.

Sec. 1553. Information concerning sanctions taken by State licensing authorities against health care practitioners and providers

As under current law, each State would be required to have in effect a system for reporting and providing access to information for use by the Secretary and other officials concerning licensing revocations and other sanctions taken against providers and practitioners by State licensing authorities, peer review organizations, or accreditation entities. A State would be required to report any adverse action taken, whether a provider had surrendered a license or left the State, any other loss of license, and any negative action taken by a reviewing authority. The State would be required to provide the Secretary with access to whatever documents the Secretary needed to determine the facts and circumstances concerning the actions taken. Such information would have to be provided under arrangements made by the Secretary, in a form the Secretary determined to be appropriate, to (1) provide for the Secretary's activities, and (2) provide information to other specified authorities in order to protect their programs and services.

The Secretary would be required to safeguard the confidentiality of information furnished. However, any party authorized to disclose

information would be permitted to do so. In implementing this section, the Secretary would be required to provide for maximum coordination of section 422 of the Health Care Quality Improvement Act of 1986.

Sec. 1554. State fraud control units

Each State would be required to provide for a State fraud control unit (FCU) unless the State demonstrated that such a unit would not be cost-effective because minimal fraud existed, and that beneficiaries would be protected from abuse and neglect without such a unit. The FCU would be required to be separate and distinct from the State agency responsible for the operation and administration of the State's medical assistance plan. It would have to be a part of the State Attorney General's office or coordinate with that office. It would be required to have statewide prosecutorial authority or the ability to refer to local prosecutors. The FCU would investigate and prosecute violations of State fraud laws, and review and prosecute cases involving neglect or abuse of beneficiaries in nursing homes and other facilities. It would be required to provide for the collection of overpayments it had discovered were made to health care providers. It would be required to employ auditors, attorneys, investigators, and other necessary personnel.

Sec. 1555. Recoveries from third parties and others

Each State would be required to ascertain the potential third party liability for payment of a beneficiary's medical claims and, where legal liability exists, seek reimbursement from the third party unless it would not be cost-effective to do so. States would be required to prohibit a provider from refusing to furnish a covered service to a beneficiary because of a third party's potential liability for the service, and from trying to collect payment from a beneficiary that exceeded payment that would be made under the plan. For violation of the collection provision, a State could provide for a payment reduction up to 3 times the amount sought to be collected.

A State would be required to prohibit any health insurer, when enrolling an individual or when making payments for benefits, from taking into account that the individual was eligible for or was provided medical assistance under the State's plan.

A State would be required to have laws in effect under which the State is considered to have acquired the rights of an individual to payments by a party that is liable for the individual's health care items and services. Each State would be required to provide for mandatory assignment of rights of payment for medical support and care to beneficiaries.

Each State would be required to have in effect laws relating to medical child support. Each State would have to prohibit an insurer from denying enrollment of a child because the child was born out of wedlock, was not claimed as a dependent on the parent's Federal income tax return, or did not reside with the parent or in the insurer's area. In a case in which a parent was required by a court or administrative order to provide health coverage for a child, and the parent was eligible for family health coverage, State laws would have to require the employer and insurer to per-

mit the parent to enroll the child upon application by either parent or by the State child support agency, and limit the circumstances under which the insurer could disenroll such a child. State laws would be required to (1) prohibit an insurer from imposing requirements on a State agency that has been assigned the rights of an individual that are different from requirements applicable to an agent of any other covered individual; (2) require an insurer, in the case of a child who has health coverage through the insurer of a noncustodial parent, to provide information to the custodial parent; (3) permit the custodial parent to submit claims for covered services without the approval of the noncustodial parent, and make payment on claims to the custodial parent, the provider, or the State agency; and (4) permit the State agency to garnish the employment income of, and require withholding amounts from State tax refunds to, any person who is required by court or administrative order to cover the medical costs of a child who is eligible for medical assistance, has received payment from a third party for the costs of the child's services, and has not used the payment to reimburse the appropriate party.

A State would be permitted to take appropriate action to adjust or recover from an individual or the individual's estate any amounts paid as medical assistance under a State plan. Such action could include the imposition of liens against the property or estate of an individual to the extent consistent with policies discussed above in section 1501.

Sec. 1556. Assignment of rights of payment

As a condition of eligibility for medical assistance under a State's plan, an individual would be required to assign to the State any rights to medical support and payment for medical care from any third party of the individual or any other person who is eligible and on whose behalf the individual has the legal authority to execute an assignment of such rights. An individual would be required to cooperate with the State agency in establishing paternity of a child born out of wedlock and in obtaining support and payments for the individual and child unless the individual was a pregnant woman or was found to have good cause for refusing to cooperate as determined by the State. An individual would be required to cooperate with the State in identifying and providing information to assist the State to pursue any liable third party unless the individual had good cause for refusing to cooperate as determined by the State. The State would be required to provide for entering into cooperative arrangements (including financial arrangements) with any appropriate agency of any State and with appropriate courts and law enforcement officials, to assist the agency or agencies administering the State plan with respect to the enforcement and collection of rights to support or payment that had been assigned.

Any amount collected by the State under an assignment would be retained by the State to reimburse it for payments made on behalf of an individual with respect to whom the assignment was executed (with appropriate reimbursement to the Federal government of its share of the payment). The remainder of such amount collected would be paid to the individual.

Sec. 1557. Quality assurance requirements for nursing facilities

OBRA 87 comprehensively revised Medicaid requirements for nursing homes participating in the program. These provisions, collectively referred to as nursing home reform law, have three major parts: (1) requirements that nursing homes must meet in order to be certified to participate in Medicaid, including requirements about assessments of residents, available services, nurse staffing, nurse aide training, and resident rights; (2) provisions establishing an annual survey and certification process that State survey agencies must use for determining whether nursing homes comply with the requirements for participation; and (3) provisions that expand the range of sanctions and penalties that States and the Secretary may impose against nursing homes found to be out of compliance with the requirements for participation.

With certain exceptions, the proposal would follow current law for purposes of establishing requirements for participating nursing facilities, the survey process, and the enforcement authority available to States and the Secretary. Changes include the following. The proposal would repeal provisions prohibiting facilities from admitting mentally ill and mentally retarded persons who had not first been determined by States as needing nursing facility services. States would be required to operate preadmission screening programs for mentally ill and mentally retarded persons admitted to nursing facilities to determine whether they required the level of care provided by the facilities, but would not be required to review such residents annually for the appropriate level of care needed. Residents of facilities would have the right to choose a personal attending physician, but States would not be precluded from requiring a resident to choose a personal attending physician who participates in a managed care network with which the State has a contract. Facilities would not be required to have written policies and procedures for advance directives. Under certain circumstances, States would be able to continue payments over a period of not more than 6 months to a noncompliant facility, while the facility takes actions to correct its deficiencies.

Sec. 1558. Other provisions promoting program integrity

State agencies responsible for surveying health care facilities or organizations would be required to make public, in readily available form and place, pertinent findings on the compliance of the facility or organization with the requirements of law. Persons or institutions providing services under the State's plan would be required to keep such records (including ledgers, books, and original evidence of costs) as are necessary to fully disclose the extent of the services provided, and to furnish information about payments claimed, as the State may from time to time request.

PART E—GENERAL PROVISIONS

Sec. 1571. Definitions

Medical assistance would be defined as including a list of services similar to those specified under current law, and, in addition, enabling services to increase accessibility to primary and preventive services. "Medicare cost sharing" would include Medicare pre-

miums, coinsurance, and deductibles. The definition of EPSDT services would be modified to eliminate mandatory coverage of services not covered under a State's plan. Family planning services and supplies would be changed to read pre-pregnancy family planning services and supplies. The bill would add "medically related services"—services reasonably related to, or in direct support of, the State's attainment of one or more of its strategic objectives and performance goals.

"Eligible low-income individual" would mean an individual who has been determined eligible by the State and whose family income does not exceed a percentage specified in the plan that is not greater than 275 percent of the poverty line. In determining income, States would be permitted to exclude costs incurred for medical care. In the case of a child receiving payments under a Title IV foster child or adoption assistance program, only the child's income would be counted in determinations of family income. Title XV would specifically continue "Katie Beckett" eligibility rules. That is, at the option of the State, family income limits would not apply to an individual 18 or younger, disabled under SSI, who requires an institutional level of care, and can be cared for outside an institution.

Definitions of child, pregnant woman, and poverty line would be the same as in current law.

Rural health clinics and federally qualified health centers (FQHCs) would have the same definitions as in Medicare law. FQHCs would include outpatient health programs or facilities operated by tribes or tribal organizations under the Indian Self-Determination Act or by an urban Indian organization receiving funds under Title V of the Indian Health Care Improvement Act.

Sec. 1572. Treatment of territories

The Secretary would retain the current law authority, with respect to medical assistance programs in jurisdictions other than the 50 States and the District of Columbia, to waive or modify any requirement other than a waiver of the Federal matching share of expenditures, the annual expenditure limit, or the requirement that payment may be made only with respect to amounts expended for certain care and services.

Sec. 1573. Description of treatment of Indian Health Service facilities

In a State in which there is at least one Indian Health Service facility, the State plan would have to describe (1) what provision, if any, has been made for payment of items and services furnished by the facilities, and (2) how medical assistance will be provided to eligible Indians, as determined by the State in consultation with appropriate Indian tribes and tribal organizations.

Sec. 1574. Application of certain general provisions

Sections of Title XI of the Social Security Act that relate to fraud and abuse would apply to States under Title XV in the same manner as they apply under Title XIX.

Sec. 1575. Optional master drug rebate agreements

No Federal funds would be available to a State for covered outpatient drugs unless the drug's manufacturer had entered into a master rebate agreement with the Secretary and is complying with the provisions of section 8126 of Title 38 of the United States Code, including entering into a master agreement with the Secretary of Veterans Affairs.

States would not be required to participate in the master rebate agreement. States would be permitted to enter into rebate agreements on their own. States could opt to cover drugs for which there was no rebate agreement in effect. If a State had a rebate agreement already in effect which provided for a minimum rebate equal to or greater than the minimum rebate that would be paid under the master agreement, then at the State's option the agreement would be considered to meet the requirements of the master rebate agreement and the State would be considered to have elected to participate in the master agreement.

Under the master agreement, a drug manufacturer would be required to provide a rebate to each State not later than 30 days after receipt of certain information from participating States. Not later than 60 days after the end of a rebate period, each State participating in the master rebate agreement would be required to report to each manufacturer, with a copy to the Secretary, information on the drugs for which the State made payment during the period. A manufacturer would be permitted to audit the State's information. Adjustments would be made as necessary.

Not later than 30 days after the end of a rebate period, each manufacturer subject to the master agreement would be required to report to the Secretary on the average manufacturer price (AMP) and the best price of each of the manufacturer's covered products. In addition, within 30 days of entering into the agreement, the manufacturer would have to report the AMP as of October 1, 1990. The Secretary would be permitted to verify the manufacturer's prices and impose a civil monetary penalty of up to \$10,000 for refusal of the Secretary's request for information. For failure to provide timely information, the penalty would be \$10,000 paid to the Treasury for each day information was not provided. After 90 days, the agreement would be suspended until the information was reported. For the provision of false information, a civil money penalty of up to \$100,000 could be imposed in addition to other penalties. Information disclosed by manufacturers or wholesalers would be confidential. The Secretary of Health and Human Services and the Secretary of Veterans Affairs, and a State agency or contractor would be prohibited from disclosing information in a form that discloses the identity of a specific manufacturer or wholesaler or their prices, except as the Secretary of Health and Human Services determines is necessary or to permit review by the Comptroller General and the Congressional Budget Office.

Unless terminated, a master rebate agreement would be effective for at least 1 year and automatically renewed for 1 year. The Secretary could terminate an agreement for violation of requirements or for good cause. A manufacturer could terminate participation for any reason. In case of termination, another agreement could not be entered into with that manufacturer for at least 1 calendar quar-

ter, unless the Secretary found good cause for earlier reinstatement.

The provision provides for a basic rebate and an additional rebate. The basic rebate would be based on the number of products paid for by the State during the period, and the greater of (1) the minimum rebate percentage, or (2) the difference between the AMP and the best price. The minimum rebate percentage would be 15.1 percent of the AMP. The best price would be the lowest price available from the manufacturer during the rebate period. The additional rebate amount would be based on the amount, if any, by which the AMP of a product exceeded the product's AMP as of July 1, 1990, increased by the increase in consumer price index for all urban consumers since September 1990.

For certain drugs, including a brand name drug that a physician has certified as "medically necessary," the minimum rebate amount would be 11 percent of the AMP. The Secretary may, upon request of a manufacturer, limit the rebate amounts of covered products of which most were dispensed to inpatients of nursing facilities.

A State that participated in the master rebate agreement would be permitted to subject a product to prior authorization controls that meet specified requirements, exclude or restrict coverage of specified drugs or classes of drugs that are updated periodically by the Secretary, establish formularies that meet specified requirements, and impose minimum and maximum quantities on prescriptions and refills.

A State would be permitted to operate a drug use review program under standards established by the State. The Secretary would be required to encourage each State to establish a point-of-sale electronic system for processing claims for covered outpatient drugs. The Secretary would be required to submit annual reports on the drug rebate program to the Senate Committee on Finance, the House Committee on Commerce, and the Senate Committee on Aging.

The requirements of the master rebate agreement would not apply to covered outpatient drugs dispensed by a capitated health care organization or a hospital or nursing facility that uses a formulary. Amounts paid by such entities could be included in the determination of best price.

If the plan of a State participating in the master rebate agreement included coverage of drugs that could be sold without a prescription (known as over-the-counter drugs), those drugs would be regarded as covered outpatient drugs for purposes of the State's participation in the agreement.

Section 1575(a)(4)(b) includes a provision to ensure that patients share the benefit of discounted pharmaceutical prices made available under section 340B of the Public Health Service Act. The provision requires the Office of Drug Pricing (ODP) to establish an allowable dispensing fee for such drugs. Such dispensing fee should be comparable to those provided for by government programs such as Medicaid and State pharmacy assistance programs. ODP may also consider an additional dispensing fee for blood clotting factors if and where ODP finds specific evidence of actual additional handling costs necessarily incurred for dispensing blood clotting factor.

Sec. 2004. State election; termination of current program; and transition

The Medicaid program and Title XIX of the Social Security Act would be repealed effective October 1, 1997, except that the repeal of the Vaccines for Children's program in section 1928 of the Act would be effective on enactment. Distribution of vaccines purchased and delivered to States before the date of enactment would not be affected; however, no vaccine could be purchased under section 1928 after that date. Services authorized under sections 1929 and 1930, home and community care for functionally disabled elderly individuals and community supported living arrangements services for the developmentally disabled, would be continued through fiscal year 1996.

The Secretary would be prohibited from entering into any obligation with a State under Title XIX for expenses incurred on or after the earlier of October 1, 1997, or the effective date of the State's plan under Title XV. A State that submitted claims for payment under Title XIX after the date of enactment would be deemed to have accepted the obligation limitation including the formula for computing the obligation. Otherwise, the Federal government would have no obligation to provide payment for Title XIX claims. Effective October 1, 1996, neither Title XIX nor Title XV would provide Federal entitlement for an individual (including any provider). No Federal payments would be made for Title XIX obligations unless claims were submitted by the State by April 1, 1997.

For any payment made under Title XIX before March 1, 1996, for which disallowance was not taken or not completed by that date, the Secretary would be required to discontinue the disallowance proceeding. If the disallowance had been taken as of the date of enactment, the Secretary would be required to rescind any effected payment reductions and return payments to the State.

No judicial or administrative decision imposed under Title XIX would have any application under Title XV. A State could seek abrogation or modification of any decisions after the State terminated its State plan under Title XIX. A cause of action regarding a State's establishment or maintenance of payment rates, or claim for reimbursement under Title XIX which was not final as of the date of enactment, could be brought or continued.

Prior legislation that (1) voids any determination that certain Michigan hospitals are institutions for mental diseases and (2) applies to the enrollment mix of medical assistance recipients in the Dayton Area Health Plan would be extended to October 1, 1997.

Section 1128(h)(1) of the Social Security Act, regarding anti-fraud provisions, would be amended to include Title XV.

Not later than 90 days after enactment, the Secretary would be required to submit technical and conforming amendment to the appropriate committees of Congress. Any legal reference to Title XIX would be deemed to be a reference to the Title as in effect on the day before enactment of Title XV.

Sec. 2005. Integration demonstration project

The Secretary would be authorized to waive Medicare and medical assistance requirements to allow States to conduct demonstration projects for individuals dually eligible for both programs. A

State could restrict the time period during which participants could disenroll from capitated programs, but could not require a dually eligible individual to participate in a project.

A project could not be approved unless the State showed that Federal expenditures would be exceeded by the expenditures that would have been made without the project. Any savings achieved under the project could be retained by the State to expand eligibility for low-income Medicare beneficiaries who were at risk of institutionalization and likely to qualify for Title XV benefits if institutionalized. Also, savings could be used to expand the scope of services under the project.

Demonstrations would be limited to 10 projects conducted for initial periods or 5 years and extended indefinitely if successful. With 90 days notice, the Secretary could terminate any demonstration project that was not in substantial compliance with the terms of approval. Applications from a State, or a coalition of States, would be submitted to the Secretary who would be required to approve or deny such applications within 90 days of receipt.

The Secretary would be required to establish quality standards for demonstration projects. The standards would have to include reporting requirements which contain a description of the project; analysis of beneficiary satisfaction; analysis of the quality of services; and a description of the savings to the Medicare and Title XV programs.

TITLE II, SUBTITLE B—OTHER PROVISIONS

PURPOSE AND SUMMARY

Subtitle B of Title II covers three provisions of H.R. 3507, the Personal Responsibility and Work Opportunity Act of 1996, which fall within the jurisdiction of the Committee on Commerce, particularly as they relate to the eligibility of aliens to Federal benefits and the Low Income Home Energy Assistance Program.

Part 1 of Subtitle B, Involvement of Commerce Committee in Federal Government Position Reductions, provides that the Committee on Commerce should be consulted regarding reductions in Federal Government positions when the reduction applies to a program within the jurisdiction of the Commerce Committee.

Part 2 of Subtitle B, Restricting Public Benefits for Aliens, addresses the eligibility of aliens for Federal public benefits.

Part 3 of Subtitle B, Energy Assistance, amends provisions of the Low Income Home Energy Assistance Act relating to determination of the excess shelter expense deduction under the Food Stamp Act.

BACKGROUND AND NEED FOR LEGISLATION

This legislation seeks to further streamline operation of this Nation's public assistance programs, while maintaining appropriate mechanisms for oversight of program modifications. Part 1 of Subtitle B provides authority for the Commerce Committee to be fully informed regarding agency or department actions taken to comply with legislative programs.

Part 2 of Subtitle B addresses the eligibility of aliens for Federal public benefits. Specifically, Part 2 includes the following provisions which would:

(A) deny to illegal immigrants all Federal benefits except: (1) emergency medical services under Medicaid; (2) immunizations; and (3) testing and treatment for communicable diseases that the Secretary of Health and Human Services has determined is needed to protect the public health;

(B) authorize States to determine the eligibility of legal aliens to Medicaid. Refugees, asylees, those who have lived and worked in the U.S. for 10 years, and veterans could not be denied coverage;

(C) provide that legal aliens could not be eligible for any Federal means-tested program for 5 years after entry into the U.S. except for refugees, asylees, and veterans; and

(D) require that the Attorney General, in consultation with the Secretary of Health and Human Services, to promulgate regulations to provide for a verification system to carry out these provisions.

The provisions contained in Part 2 are similar to provisions included in H.R. 4, the Personal Responsibility and Work Opportunity Act of 1995, which passed the House in the First Session and was vetoed by the President.

Part 3 of Subtitle B amends provisions of the Low Income Home Energy Assistance Act relating to determination of the excess shelter expense deduction under the Food Stamp Act. Under current law, section 2605(f) of the Low Income Home Energy Assistance Act of 1981 excludes home energy assistance benefits provided directly or indirectly to eligible households from the definition of income and resources for purposes of any Federal or State law. Paragraph (1) establishes the general rule, and paragraph (2) clarifies that Low Income Home Energy Assistance Program (LIHEAP) benefits received indirectly are treated as if they were received directly, ensuring they are excluded from the definition of income and resources for purposes of other Federal and State laws, and provides that LIHEAP benefits are to be treated as expended for purposes of determining excess shelter expense deductions under the Food Stamp Act of 1977.

The key phrase in section 2605(f) is “[n]otwithstanding any other provision of law unless enacted in express limitation of this paragraph” LIHEAP benefits—whether received by households directly or indirectly—are excluded from income and resources for purposes of “any Federal or State law.” The list of laws following the phrase “any Federal or State law” is illustrative only. For example, if the Food Stamp Act of 1977 were amended to provide that all LIHEAP benefits are considered income and resources for purposes of the Food Stamp Act, that would override the reference to “food stamps” in paragraph (1), since it would be an “express limitation of this paragraph.”

Both paragraph (2) and the phrase “provided directly to, or indirectly for the benefit of” in paragraph (1) in current law accomplish the same end: ensuring that benefits received indirectly by households are encompassed by the exclusion in section 2605(f). Otherwise, LIHEAP benefits received indirectly would be considered in-

come and resources for purposes of other Federal and State laws, and benefits received by households under other programs could be reduced. Indirect receipt of benefits is important in the context of LIHEAP because in many cases the benefits are paid directly to the utility on behalf of the household.

In addition to providing that indirect benefits are included in the general rule in paragraph (1), paragraph (2) treats LIHEAP benefits received as expended for purposes of determining excess shelter expense deductions under section 5(e) of the Food Stamp Act of 1977. Under section 5(e), the excess shelter expense deduction is only available to households whose expenditures exceed 50 percent of their monthly income. By treating all LIHEAP benefits as household expenditures, paragraph (2) could increase eligibility for the excess shelter expense deduction if households actually receive monthly LIHEAP benefits in excess of monthly energy costs. In that case the excess LIHEAP benefit would be treated as a household shelter expenditure and increase expenditures compared to costs. Under section 5(e) of the Food Stamp Act of 1977, only households whose expenditures exceed 50 percent of household income are eligible for the excess shelter expense deduction.

Part 3 of Subtitle B amends current law to provide that home energy assistance payments or allowances shall be considered income for purposes of the Food Stamp Program.

SECTION-BY-SECTION ANALYSIS OF THE LEGISLATION

TITLE II, SUBTITLE B—OTHER PROVISIONS

PART 1—INVOLVEMENT OF COMMERCE COMMITTEE IN FEDERAL
GOVERNMENT POSITION REDUCTIONS*Section 2101. Involvement of Commerce Committee in Federal Government position reductions*

Section 2101 provides that reports made by the Secretaries of certain agencies regarding determinations on reductions in Federal Government positions with respect to programs within the committee's jurisdiction shall be provided to the Committee on Commerce.

PART 2—RESTRICTING PUBLIC BENEFITS FOR ALIENS

Subpart A—Eligibility for Federal Benefits

Section 2211. Aliens who are not qualified aliens ineligible for Federal benefits

Section 2211 provides that an alien who is not a qualified alien is not eligible for any Federal public benefit with the following exceptions: (1) emergency medical services under Title XIX or Title XV; (2) public health assistance for immunizations; and (3) public health assistance for testing and treatment of a serious communicable disease to prevent the spread of the disease.

A Federal public benefit is defined as: (a) any grant, contract, loan, professional license, or commercial license provided by an agency, or appropriated by funds, of the United States and (b) any retirement, welfare, health, disability, or other similar benefit for which payments or assistance are provided by an agency of the U.S. (But only if such grant, contract, loan, license or program is within the jurisdiction of the Committee on Commerce). Such term does not apply to a contract, professional license, or commercial license for a nonimmigrant whose visa is related to employment or with respect to benefits for a work authorized nonimmigrant or an alien lawfully admitted for permanent residence who qualified for such benefits, and for whom the U.S. under a reciprocal treaty agreement is required to pay benefits.

Section 2212. Limited eligibility of qualified aliens for medical assistance

Section 2212 provides that a State is authorized to determine the eligibility of an alien who is a qualified alien for the program of medical assistance under Title XV or Title XIX of the Social Security Act. Time-limited exceptions are provided as follows: (1) an alien admitted as a refugee until 5 years after the date of the alien's entry; (2) an alien granted asylum until 5 years after the date of grant of asylum; and (3) an alien whose deportation is being withheld until 5 years after such withholding.

This section also provides that certain qualified aliens shall be eligible for benefits. Included are certain permanent resident aliens such as an alien who is lawfully admitted for permanent residence, who has worked 40 qualifying quarters of coverage (as defined under Title II of the Social Security Act or as defined in this sec-

tion), and who did not receive any Federal means-tested public benefit during any such quarter.

“Qualifying quarters of coverage” include: (1) all qualifying quarters of coverage worked by the parent of an alien (while the alien was under age 18) if the parent did not receive any Federal means-tested public benefit; and (2) all qualifying quarters worked by the spouse of an alien during marriage if the spouse did not receive any Federal means-tested public benefit, and the alien is still married to the spouse or the spouse is deceased. Also eligible is an alien who is lawfully residing in a State and is a veteran, on active duty in the Armed Forces, or is the spouse or unmarried dependent child of the veteran or active duty personnel.

Further, this section provides that an alien who is lawfully residing in the U.S. and is receiving benefits on the date of enactment of this Act shall continue to be eligible to receive such benefits until January 1, 1997.

Section 2213. Five-year limited eligibility of qualified alien for Federal means-tested public benefit

Section 2213 provides that an alien who enters the U.S. as a qualified alien on or after the date of enactment of this Act is not eligible for any Federal means-tested public benefit for a period of 5 years beginning on the date of the alien’s entry into the U.S. An exception is provided for the following: (1) an alien who is admitted as a refugee; (2) an alien who is granted asylum; (3) an alien whose deportation is being withheld; and (4) an alien who is lawfully residing in the U.S. and is a veteran, on active duty, or the spouse or dependent child of such an individual.

A Federal means-tested public benefit is defined as a Federal public benefit (defined above) in which the eligibility for benefits or the amount of benefits are determined on the basis of income, resources, or financial need. Such term does not include: (1) emergency medical assistance under Title XV or XIX of the Social Security Act; (2) public assistance for immunizations; or (3) public health assistance for testing or treatment of a serious communicable disease to prevent the spread of the disease.

Section 2214. Notification

Section 2214 requires each Federal agency that administers any of the programs under sections 2211, 2212, or 2213 to post information and provide general notification to the public and to program recipients of the changes regarding eligibility.

Subpart B—General Provisions

Section 2221. Definitions

Section 2221 provides that the terms in this part have the meaning given such terms in section 101(a) of the Immigration and Nationality Act, unless otherwise provided.

This section defines a qualified alien as an alien who, at the time the alien applies for, receives, or attempts to receive a Federal public benefit, is: (1) an alien lawfully admitted for permanent residence; (2) an alien who is granted asylum; (3) a refugee; (4) an alien who is paroled into the U.S. for a period of at least 1 year;

(5) an alien whose deportation is being withheld; or (6) an alien who is granted conditional entry.

Section 2222. Verification of eligibility for Federal public benefits

Section 2222 provides that not later than 18 months after enactment, the Attorney General, after consultation with the Secretary of Health and Human Services, shall promulgate regulations requiring verification that a person applying for a Federal public benefit is a qualified alien and is eligible to receive such benefit. Not later than 24 months after the date the regulations are adopted, a State that administers such a program shall have in effect a verification system that complies with the regulations. The section also authorizes such sums as necessary to carry out this section.

PART 3—ENERGY ASSISTANCE

Section 2131. Energy assistance

Section 2131 makes two changes to section 2605(f) of the Low Income Home Energy Assistance Act of 1981. First, the amendment strikes paragraph (2) from section 2605(f). Second, the amendment makes a conforming change to paragraph (1), to reflect the deletion of paragraph (2).

The administration, in its recommendations on welfare, also proposed deleting paragraph (2) of section 2605(f) and the conforming change to paragraph (1). In addition, the administration proposed striking the reference to “food stamps” in paragraph (1).

Since both paragraphs (1) and (2) provide that indirect LIHEAP benefits are excluded from the definition of income and resources under other Federal and State laws, deletion of paragraph (2) will not change the treatment of indirect LIHEAP benefits for purposes of the Food Stamp Act.

Deletion of paragraph (2) would have an impact on determination of the excess shelter expense deduction under section 5(e) of the Food Stamp Act of 1977 only if LIHEAP recipients receive prorated LIHEAP benefits in excess of home energy costs. According to the Energy Assistance Division at the U.S. Department of Health and Human Services, no LIHEAP recipients receive benefits in excess of home energy costs, so as a practical matter deletion of paragraph (2) would have no impact on LIHEAP benefits.

(2) ALTERNATIVE MINIMUM SET-ASIDES.—

(A) IN GENERAL.—Beginning with fiscal year 2001, a State may provide in its State plan (through an amendment to the plan) for a lower percentage of expenditures than the minimum percentages specified in paragraph (1) if the State determines to the satisfaction of the Secretary that—

(iii) the health care needs of eligible low-income individuals residing in medically underserved rural areas can reasonably be met without the level of expenditure for such services otherwise required and the performance goals established under section 1521 relating to such individuals can reasonably be met with such lower level of expenditures.

(B) PERIOD OF APPLICATION.—The determination under subparagraph (A) shall be made for such period as a State may request, but may not be made for a period of more than 3 consecutive Federal fiscal years (beginning with the first fiscal year for which the lower percentage is sought). A new determination must be made under such subparagraph for any subsequent period.

(2) *OTHER POPULATIONS.*—With respect to individuals not described in paragraph (1), the State may not impose any cost-sharing with respect to items and services unless such cost sharing is pursuant to a public cost-sharing schedule and such cost-sharing is not in excess of the average, nominal cost-sharing imposed in the State for health plans offered by health maintenance organizations (and similar organizations) for the same or similar items and services, as determined by the State insurance commissioner.

If the request is not part of an application for medical assistance under this title, the State may, at its option as a condition of providing the assessment, require payment of a fee not exceeding the reasonable expenses of providing and documenting the assessment. At the time of providing the copy of the assessment, the State shall include a notice indicating that the spouse will have a right to a fair hearing under subsection (e)(2).

(C) *the State determines that denial of eligibility would work an undue hardship.*

(4) *SEPARATE TREATMENT OF RESOURCES AFTER ELIGIBILITY FOR MEDICAL ASSISTANCE ESTABLISHED.*—*During the continuous period in which an institutionalized spouse is in an institution and after the month in which an institutionalized spouse is determined to be eligible for medical assistance under this title, no resources of the community spouse shall be deemed available to the institutionalized spouse.*

In subparagraph (C), the term "family member" only includes minor or dependent children, dependent parents, or dependent siblings of the institutionalized or community spouse who are residing with the community spouse.

(A) IN GENERAL.—Each State shall establish a minimum monthly maintenance needs allowance for each community spouse which, subject to subparagraph (B), is equal to or exceeds—

(i) 150 percent of $\frac{1}{12}$ of the poverty line applicable to a family unit of 2 members, plus

(6) TREATMENT OF INCURRED EXPENSES.—With respect to the post-eligibility treatment of income under this section, there shall be disregarded reparation payments made by the Federal Republic of Germany and, there shall be taken into account amounts for incurred expenses for medical or remedial care that are not subject to payment by a third party, including—

(A) medicare and other health insurance premiums, deductibles, or coinsurance, and

Any such hearing respecting the determination of the community spouse resource allowance shall be held within 30 days of the date of the request for the hearing.

(B) REVISION OF MINIMUM MONTHLY MAINTENANCE NEEDS ALLOWANCE.—If either such spouse establishes that the community spouse needs income, above the level otherwise provided by the minimum monthly maintenance needs allowance, due to exceptional circumstances resulting in significant financial duress, there shall be substituted, for the minimum monthly maintenance needs allowance in subsection (d)(3)(A)(i), an amount adequate to provide such additional income as is necessary.

(C) *REVISION OF COMMUNITY SPOUSE RESOURCE ALLOWANCE.*—If either such spouse establishes that the community spouse resource allowance (in relation to the amount of income generated by such an allowance) is inadequate to raise the community spouse's income to the minimum monthly maintenance needs allowance, there shall be substituted, for the community spouse resource allowance under subsection (f)(2), an amount adequate to provide such a minimum monthly maintenance needs allowance.

(f) *PERMITTING TRANSFER OF RESOURCES TO COMMUNITY SPOUSE.*—

exceeds

(B) the amount of the resources otherwise available to the community spouse (determined without regard to such an allowance).

(3) *TRANSFERS UNDER COURT ORDERS.*—If a court has entered an order against an institutionalized spouse for the support of the community spouse, any provisions under the plan relating to transfers or disposals of assets for less than fair market value shall not apply to amounts of resources transferred pursuant to such order for the support of the spouse or a family member (as defined in subsection (d)(1)).

(g) *INDEXING DOLLAR AMOUNTS.*—For services furnished during a calendar year after 1989, the dollar amounts specified in subsections (d)(3)(C), (f)(2)(A)(i), and (f)(2)(A)(ii)(II) shall be increased by the same percentage as the percentage increase in the consumer price index for all urban consumers (all items; U.S. city average) between September 1988 and the September before the calendar year involved.

(2) *VIOLATIONS IN ADMINISTRATION OF PLAN.*—If the Secretary determines, after reasonable notice and opportunity for a hearing for the State, that in the administration of a State plan there is a violation of guarantee of coverage and benefits under subsection (a) or (b) of section 1501, the Secretary shall provide the State with written notice of the determination and with an order to remedy such violation. Such an order shall become effective prospectively, as specified in the order, after the date of receipt of such written notice. Such an order may include the withholding of funds, consistent with subsection (g), for parts of the State plan affected by such violation, until the Secretary is satisfied that the violation has been corrected.

(3) *CONSULTATION WITH STATE.*—Before making a determination adverse to a State under this section, the Secretary shall—

(A) reasonably consult with the State involved,

(C) reasonably consider any such clarifications and information submitted.

the Secretary shall issue an order specifying that the plan or amendment, insofar as it is in substantial violation of such a requirement, shall not be effective, except as provided in subsection (d), beginning at the end of a period of not less than 30 days (or 120 days in the case of the initial submission of the State plan) specified in the order beginning on the date of the notice of the determination.

(B) *EXTENSION OF TIME PERIODS.*—The time periods specified in subparagraph (A) may be extended by written agreement of the Secretary and the State involved.

(2) *VIOLATIONS IN ADMINISTRATION OF PLAN.*—

(A) *IN GENERAL.*—If the Secretary determines, after reasonable notice and opportunity for a hearing for the State, that in the administration of a State plan there is a substantial violation of a requirement of this title, the Secretary shall provide the State with written notice of the determination and with an order to remedy such violation. Such an order shall become effective prospectively, as specified in the order, after the date of receipt of such written notice. Such an order may include the withholding of funds, consistent with subsection (g), for parts of the State plan affected by such violation, until the Secretary is satisfied that the violation has been corrected.

(B) *EFFECTIVENESS.*—If the Secretary issues an order under paragraph (1), the order shall become effective, except as provided in subsection (d), beginning at the end of a period (of not less than 30 days) specified in the order beginning on the date of the notice of the determination to the State.

(C) reasonably consider any such clarifications and information submitted.

(4) *JUSTIFICATION OF ANY INCONSISTENCIES IN DETERMINATIONS.*—If the Secretary makes a determination under this section that is, in whole or in part, inconsistent with any previous determination issued by the Secretary under this title, the Secretary shall include in the determination a detailed explanation and justification for any such difference.

(5) *SUBSTANTIAL VIOLATION DEFINED.*—For purposes of this title, a State plan (or amendment to such a plan) or the administration of the State plan is considered to “substantially violate” a requirement of this title if a provision of the plan or amendment (or an omission from the plan or amendment) or the administration of the plan—

(A) is material and substantial in nature and effect, and

(B) is inconsistent with an express requirement of this title.

A failure to meet a strategic objective or performance goal (as described in section 1521) shall not be considered to substantially violate a requirement of this title.

(6) *RELATION TO OTHER PROVISION.*—This subsection shall not apply to violation of a requirement of subsection (a) or (b) of section 1501.

(d) *STATE RESPONSE TO ORDERS.*—

(1) *STATE RESPONSE BY REVISING PLAN.*—

(A) *IN GENERAL.*—Insofar as an order under subsection (b)(1) or (c)(1) relates to a violation by a State plan or plan amendment, a State may respond (before the date the order becomes effective) to such an order by submitting a written revision of the State plan or plan amendment to comply with the requirements of this title.

(B) *REVIEW OF REVISION.*—In the case of submission of such a revision, the Secretary shall promptly review the submission and shall, in the case of an order under subsection (c)(1), withhold any action on the order during the period of such review.

(C) *SECRETARIAL RESPONSE.*—

(i) *ORDERS RELATING TO GUARANTEES.*—In the case of a revision submitted in response to an order under subsection (b)(1), the revision shall not be considered to have corrected the deficiency unless the Secretary determines and notifies the State that the State plan or amendment, as proposed to be revised complies with the requirements of subsections (a) and (b) of section

1501. If the Secretary determines that the revision does not correct the deficiency, the Secretary shall notify the State in writing of such determination and the State may respond by seeking reconsideration or a hearing under paragraph (2).

(ii) *OTHER ORDERS.*—In the case of a revision submitted in response to an order under subsection (c)(1), the revision shall be considered to have corrected the deficiency (and the order rescinded insofar as it relates to such deficiency) unless the Secretary determines and notifies the State in writing, within 15 days after the date the Secretary receives the revision, that the State plan or amendment, as proposed to be revised, still substantially violates a requirement of this title. In such case the State may respond by seeking reconsideration or a hearing under paragraph (2).

(D) *REVISION RETROACTIVE.*—If the revision provides for compliance (in the case of an order under subsection (b)(1)) or substantial compliance (in the case of an order under subsection (c)(1)), the revision may be treated, at the option of the State, as being effective either as of the effective date of the provision to which it relates or such later date as the State and Secretary may agree.

(2) *STATE RESPONSE BY SEEKING RECONSIDERATION OR AN ADMINISTRATIVE HEARING.*—A State may respond to an order under subsection (b) or (c) by filing a request with the Secretary for—

(A) a reconsideration of the determination, pursuant to subsection (e)(1), or

(B) a review of the determination through an administrative hearing, pursuant to subsection (e)(2).

In such case for an order under subsection (c), the order shall not take effect before the completion of the reconsideration or hearing.

(3) *STATE RESPONSE BY CORRECTIVE ACTION PLAN.*—

(A) *IN GENERAL.*—In the case of an order described in subsection (b)(2) or (c)(2) that relates to a violation in the administration of the State plan, a State may respond to such an order by submitting a corrective action plan with the Secretary to correct deficiencies in the administration of the plan which are the subject of the order.

(B) *REVIEW OF CORRECTIVE ACTION PLAN.*—In the case of a corrective action plan submitted in response to an order under subsection (c)(2), the Secretary shall withhold any action on the order for a period (not to exceed 30 days) during which the Secretary reviews the corrective action plan.

(C) *SECRETARIAL RESPONSE.*—

(i) *ORDERS RELATING TO GUARANTEES.*—In the case of a corrective action plan submitted in response to an order under subsection (b)(2), the plan shall not be considered to have corrected the deficiency unless the Secretary determines and notifies the State that the State's administration of the State plan, as proposed to be cor-

rected in the plan, will not violate a requirement of subsection (a) or (b) of section 1501. If the Secretary determines that the plan does not correct the deficiency, the Secretary shall notify the State in writing of such determination and the State may respond by seeking reconsideration or a hearing under paragraph (2).

(ii) *OTHER ORDERS.*—In the case of a corrective action plan submitted in response to an order under subsection (c)(2), the corrective action plan shall be considered to have corrected the deficiency (and the order rescinded insofar as it relates to such deficiency) unless the Secretary determines and notifies the State in writing, within 15 days after the date the Secretary receives the corrective action plan, that the State's administration of the State plan, as proposed to be corrected in the plan, will still substantially violate a requirement of this title. In such case the State may respond by seeking reconsideration or a hearing under paragraph (2).

(4) *STATE RESPONSE BY WITHDRAWAL OF PLAN AMENDMENT; FAILURE TO RESPOND.*—Insofar as an order relates to a violation in a plan amendment submitted, a State may respond to such an order by withdrawing the plan amendment and the State plan shall be treated as though the amendment had not been made.

(e) *ADMINISTRATIVE REVIEW AND HEARING.*—

(1) *RECONSIDERATION.*—Within 30 days after the date of receipt of a request under subsection (d)(2)(A), the Secretary shall notify the State of the time and place at which a hearing will be held for the purpose of reconsidering the Secretary's determination. The hearing shall be held not less than 20 days nor more than 60 days after the date notice of the hearing is furnished to the State, unless the Secretary and the State agree in writing to holding the hearing at another time. The Secretary shall affirm, modify, or reverse the original determination within 60 days of the conclusion of the hearing.

(2) *ADMINISTRATIVE HEARING.*—Within 30 days after the date of receipt of a request under subsection (d)(2)(B), an administrative law judge shall schedule a hearing for the purpose of reviewing the Secretary's determination. The hearing shall be held not less than 20 days nor more than 60 days after the date notice of the hearing is furnished to the State, unless the Secretary and the State agree in writing to holding the hearing at another time. The administrative law judge shall affirm, modify, or reverse the determination within 60 days of the conclusion of the hearing.

(f) *JUDICIAL REVIEW.*—

(1) *IN GENERAL.*—A State which is dissatisfied with a final determination made by the Secretary under subsection (e)(1) or a final determination of an administrative law judge under subsection (e)(2) may, within 60 days after it has been notified of such determination, file with the United States court of appeals for the circuit in which the State is located a petition for review of such determination. A copy of the petition shall be

forthwith transmitted by the clerk of the court to the Secretary and, in the case of a determination under subsection (e)(2), to the administrative law judge involved. The Secretary (or judge involved) thereupon shall file in the court the record of the proceedings on which the final determination was based, as provided in section 1502 of title 28, United States Code. Except as provided in section 1508, only the Secretary, in accordance with this title, may compel a State under Federal law to comply with the provisions of this title or a State plan, or otherwise enforce a provision of this title against a State, and no action may be filed under Federal law against a State in relation to the State's compliance, or failure to comply, with the provisions of this title or of a State plan except under section 1508 or by the Secretary as provided under this subsection.

(2) *STANDARD FOR REVIEW.*—The findings of fact by the Secretary or administrative law judge, if supported by substantial evidence, shall be conclusive, but the court, for good cause shown, may remand the case to the Secretary or judge to take further evidence, and the Secretary or judge may thereupon make new or modified findings of fact and may modify a previous determination, and shall certify to the court the transcript and record of the further proceedings. Such new or modified findings of fact shall likewise be conclusive if supported by substantial evidence.

(3) *JURISDICTION OF APPELLATE COURT.*—The court shall have jurisdiction to affirm the action of the Secretary or judge or to set it aside, in whole or in part. The judgment of the court shall be subject to review by the Supreme Court of the United States upon certiorari or certification as provided in section 1254 of title 28, United States Code.

(g) *WITHHOLDING OF FUNDS.*—

(1) *IN GENERAL.*—Any order under this section relating to the withholding of funds shall be effective not earlier than the effective date of the order and shall only relate to the portions of a State plan or administration thereof which violate a requirement of subsection (a) or (b) of section 1501 or substantially violate another requirement of this title. In the case of a failure to meet a set-aside requirement under section 1502(c), any withholding shall only apply to the extent of such failure.

(2) *SUSPENSION OF WITHHOLDING.*—The Secretary may suspend withholding of funds under paragraph (1) during the period reconsideration or administrative and judicial review is pending under subsection (e) or (f).

(3) *RESTORATION OF FUNDS.*—Any funds withheld under this subsection under an order shall be immediately restored to a State—

(A) to the extent and at the time the order is—

(i) modified or withdrawn by the Secretary upon reconsideration,

(ii) modified or reversed by an administrative law judge, or

(iii) set aside (in whole or in part) by an appellate court; or

(B) when the Secretary determines that the deficiency which was the basis for the order is corrected;

(C) when the Secretary determines that violation which was the basis for the order is resolved or the amendment which was the basis for the order is withdrawn; or

(D) at any time upon the initiative of the Secretary.

(h) **INDIVIDUAL COMPLAINT PROCESS.**—The Secretary shall provide for a process under which an individual may notify the Secretary concerning a State's failure to provide medical assistance as required under the State plan or otherwise comply with the requirements of this title or such plan, including any failure to comply with a requirement of subsection (a) or (b) of section 1501. If the Secretary finds that there is a pattern of complaints with respect to a State or that a particular failure or finding of noncompliance is egregious, the Secretary shall notify the chief executive officer of the State of such finding and shall notify the Congress if the State fails to respond to such notification within a reasonable period of time.

(2) **COOPERATION.**—The Secretary shall act in a cooperative manner with the States in carrying out this title. In the event of a dispute between a State and the Secretary, the Secretary shall, whenever practicable, engage in informal dispute resolution activities in lieu of formal enforcement or sanctions under section 1529.

(b) **LIMITATIONS ON DELEGATION OF DECISIONMAKING AUTHORITY.**—The Secretary may not delegate (other than to the Administrator of the Health Care Financing Administration) the authority to make determinations or reconsiderations respecting the approval of State plans (or amendments to such plans) or the compliance of a State plan (including its administration) with requirements of this title. Such Administrator may not further delegate such authority to any individual, including any regional official of such Administration.

SEC. 1554. STATE FRAUD CONTROL UNITS.

(a) **IN GENERAL.**—Each State plan shall provide for a State fraud control unit described in subsection (b) that effectively carries

out the functions and requirements described in such subsection, unless the State demonstrates to the satisfaction of the Secretary that the effective operation of such a unit in the State would not be cost-effective because minimal fraud exists in connection with the provision of covered services to eligible individuals under the plan, and that beneficiaries under the plan will be protected from abuse and neglect in connection with the provision of medical assistance under the plan without the existence of such a unit.

(b) *UNITS DESCRIBED.*—For purposes of this section, the term “State fraud control unit” means a single identifiable entity of the State government which meets the following requirements:

(1) *ORGANIZATION.*—The entity—

(A) is a unit of the office of the State Attorney General or of another department of State government which possesses statewide authority to prosecute individuals for criminal violations;

(B) is in a State the constitution of which does not provide for the criminal prosecution of individuals by a statewide authority and has formal procedures that—

(i) assure its referral of suspected criminal violations relating to the program under this title to the appropriate authority or authorities in the State for prosecution, and

(ii) assure its assistance of, and coordination with, such authority or authorities in such prosecutions; or

(C) has a formal working relationship with the office of the State Attorney General and has formal procedures (including procedures for its referral of suspected criminal violations to such office) which provide effective coordination of activities between the entity and such office with respect to the detection, investigation, and prosecution of suspected criminal violations relating to the program under this title.

(2) *INDEPENDENCE.*—The entity is separate and distinct from any State agency that has principal responsibilities for administering or supervising the administration of the State plan.

(3) *FUNCTION.*—The entity’s function is conducting a statewide program for the investigation and prosecution of violations of all applicable State laws regarding any and all aspects of fraud in connection with any aspect of the provision of medical assistance and the activities of providers of such assistance under the State plan.

(4) *REVIEW OF COMPLAINTS.*—The entity has procedures for reviewing complaints of the abuse and neglect of patients of health care facilities which receive payments under the State plan under this title, and, where appropriate, for acting upon such complaints under the criminal laws of the State or for referring them to other State agencies for action.

(5) *OVERPAYMENTS.*—

(A) *IN GENERAL.*—The entity provides for the collection, or referral for collection to a single State agency, of overpayments that are made under the State plan to health care providers and that are discovered by the entity in carrying out its activities.

(B) *TREATMENT OF CERTAIN OVERPAYMENTS.*—If an overpayment is the direct result of the failure of the provider (or the provider's billing agent) to adhere to a change in the State's billing instructions, the entity may recover the overpayment only if the entity demonstrates that the provider (or the provider's billing agent) received prior written or electronic notice of the change in the billing instructions before the submission of the claims on which the overpayment is based.

(6) *PERSONNEL.*—The entity employs such auditors, attorneys, investigators, and other necessary personnel and is organized in such a manner as is necessary to promote the effective and efficient conduct of the entity's activities.

SEC. 1555. RECOVERIES FROM THIRD PARTIES AND OTHERS.

(b) *BENEFICIARY PROTECTION.*—

(1) *IN GENERAL.*—Each State plan shall provide that in the case of a person furnishing services under the plan for which a third party may be liable for payment—

(A) the person may not seek to collect from the individual (or financially responsible relative) payment of an amount for the service more than could be collected under the plan in the absence of such third party liability, and

(B) may not refuse to furnish services to such an individual because of a third party's potential liability for payment for the service.

(2) *PENALTY.*—A State plan may provide for a reduction of any payment amount otherwise due with respect to a person who furnishes services under the plan in an amount equal to up to 3 times the amount of any payment sought to be collected by that person in violation of paragraph (1)(A).

(c) *GENERAL LIABILITY.*—The State shall prohibit any health insurer, including a group health plan as defined in section 607 of the Employee Retirement Income Security Act of 1974, a service benefit plan, or a health maintenance organization, in enrolling an individual or in making any payments for benefits to the individual or on the individual's behalf, from taking into account that the individual is eligible for or is provided medical assistance under a State plan for any State.

(d) *ACQUISITION OF RIGHTS OF BENEFICIARIES.*—To the extent that payment has been made under a State plan in any case where a third party has a legal liability to make payment for such assistance, the State shall have in effect laws under which, to the extent that payment has been made under the plan for health care items or services furnished to an individual, the State is considered to

have acquired the rights of such individual to payment by any other party for such health care items or services.

(e) *ASSIGNMENT OF MEDICAL SUPPORT RIGHTS.*—The State plan shall provide for mandatory assignment of rights of payment for medical support and other medical care owed to recipients in accordance with section 1556.

- (i) the child was born out of wedlock,
- (ii) the child is not claimed as a dependent on the parent's Federal income tax return, or
- (iii) the child does not reside with the parent or in the insurer's service area.

(B) In any case in which a parent is required by a court or administrative order to provide health coverage for a child and the parent is eligible for family health coverage through an insurer, a law that requires such insurer—

(i) to permit such parent to enroll under such family coverage any such child who is otherwise eligible for such coverage (without regard to any enrollment season restrictions);

(ii) if such a parent is enrolled but fails to make application to obtain coverage of such child, to enroll such child under such family coverage upon application by the child's other parent or by the State agency administering the program under this title or part D of title IV; and

(iii) not to disenroll, or eliminate coverage of, such a child unless the insurer is provided satisfactory written evidence that—

(I) such court or administrative order is no longer in effect, or

(II) the child is or will be enrolled in comparable health coverage through another insurer which will take effect not later than the effective date of such disenrollment.

(C) In any case in which a parent is required by a court or administrative order to provide health coverage for a child and the parent is eligible for family health coverage through an employer doing business in the State, a law that requires such employer—

(i) to permit such parent to enroll under such family coverage any such child who is otherwise eligible for such coverage (without regard to any enrollment season restrictions);

(ii) if such a parent is enrolled but fails to make application to obtain coverage of such child, to enroll such child under such family coverage upon application by the child's other parent or by the State agency

administering the program under this title or part D of title IV; and

(iii) not to disenroll (or eliminate coverage of) any such child unless—

(I) the employer is provided satisfactory written evidence that such court or administrative order is no longer in effect, or the child is or will be enrolled in comparable health coverage which will take effect not later than the effective date of such disenrollment, or

(II) the employer has eliminated family health coverage for all of its employees; and

(iv) to withhold from such employee's compensation the employee's share (if any) of premiums for health coverage (except that the amount so withheld may not exceed the maximum amount permitted to be withheld under section 303(b) of the Consumer Credit Protection Act), and to pay such share of premiums to the insurer, except that the Secretary may provide by regulation for appropriate circumstances under which an employer may withhold less than such employee's share of such premiums.

(D) A law that prohibits an insurer from imposing requirements on a State agency, which has been assigned the rights of an individual eligible for medical assistance under this title and covered for health benefits from the insurer, that are different from requirements applicable to an agent or assignee of any other individual so covered.

(E) A law that requires an insurer, in any case in which a child has health coverage through the insurer of a noncustodial parent—

(i) to provide such information to the custodial parent as may be necessary for the child to obtain benefits through such coverage,

(ii) to permit the custodial parent (or provider, with the custodial parent's approval) to submit claims for covered services without the approval of the non-custodial parent, and

(iii) to make payment on claims submitted in accordance with clause (ii) directly to such custodial parent, the provider, or the State agency.

(F) A law that permits the State agency under this title to garnish the wages, salary, or other employment income of, and requires withholding amounts from State tax refunds to, any person who—

(i) is required by court or administrative order to provide coverage of the costs of health services to a child who is eligible for medical assistance under this title,

(ii) has received payment from a third party for the costs of such services to such child, but

to the extent necessary to reimburse the State agency for expenditures for such costs under its plan under this title, but any claims for current or past-due child support shall take priority over any such claims for the costs of such services.

SEC. 1556. ASSIGNMENT OF RIGHTS OF PAYMENT.

(a) *IN GENERAL.*—For the purpose of assisting in the collection of medical support payments and other payments for medical care owed to recipients of medical assistance under the State plan, each State plan shall—

(1) provide that, as a condition of eligibility for medical assistance under the plan to an individual who has the legal capacity to execute an assignment for himself, the individual is required—

(A) to assign the State any rights, of the individual or of any other person who is eligible for medical assistance under the plan and on whose behalf the individual has the legal authority to execute an assignment of such rights, to support (specified as support for the purpose of medical care by a court or administrative order) and to payment for medical care from any third party,

(B) to cooperate with the State (i) in establishing the paternity of such person (referred to in subparagraph (A)) if the person is a child born out of wedlock, and (ii) in obtaining support and payments (described in subparagraph (A)) for himself and for such person, unless (in either case) the individual is a pregnant woman or the individual is found to have good cause for refusing to cooperate as determined by the State, and

(C) to cooperate with the State in identifying, and providing information to assist the State in pursuing, any third party who may be liable to pay for care and services available under the plan, unless such individual has good cause for refusing to cooperate as determined by the State; and

(2) provide for entering into cooperative arrangements, including financial arrangements, with any appropriate agency of any State (including, with respect to the enforcement and collection of rights of payment for medical care by or through a parent, with a State’s agency established or designated under section 454(3)) and with appropriate courts and law enforcement officials, to assist the agency or agencies administering the plan with respect to—

(A) the enforcement and collection of rights to support or payment assigned under this section, and

(B) any other matters of common concern.

(b) *USE OF AMOUNTS COLLECTED.*—Such part of any amount collected by the State under an assignment made under the provisions of this section shall be retained by the State as is necessary to reimburse it for medical assistance payments made on behalf of an individual with respect to whom such assignment was executed (with appropriate reimbursement of the Federal Government to the extent of its participation in the financing of such medical assistance), and the remainder of such amount collected shall be paid to such individual.

(C) is periodically reviewed and revised by such team after each assessment under paragraph (3).

(3) *RESIDENTS' ASSESSMENT.*—

(A) *REQUIREMENT.*—A nursing facility must conduct a comprehensive, accurate, standardized, reproducible assessment of each resident's functional capacity, which assessment—

(II) the State determines that a waiver of the requirement will not endanger the health or safety of individuals staying in the facility,

(III) the State finds that, for any such periods in which licensed nursing services are not available, a registered professional nurse or a physician is obligated to respond immediately to telephone calls from the facility,

(IV) the State agency granting a waiver of such requirements provides notice of the waiver to the State long-term care ombudsman (established under section 307(a)(12) of the Older Americans Act of 1965) and the protection and advocacy system in the State for the mentally ill and the mentally retarded, and

In granting or renewing a waiver, a State may require the facility to use other qualified, licensed personnel.

(D) RE-TRAINING REQUIRED.—For purposes of subparagraph (A), if, since an individual's most recent completion of a training and competency evaluation program, there has been a continuous period of 24 consecutive months during none of which the individual performed nursing or nursing-related services for monetary compensation, such

(B) provide for having a physician available to furnish necessary medical care in case of emergency; and

(C) maintain clinical records on all residents, which records include the plans of care (described in paragraph (2)) and the residents’ assessments (described in paragraph (3)), as well as the results of any pre-admission screening conducted under subsection (e)(7).

(ii) *FREE FROM RESTRAINTS.*—The right to be free from physical or mental abuse, corporal punishment, involuntary seclusion, and any physical or chemical restraints imposed for purposes of discipline or convenience and not required to treat the resident's medical symptoms. Restraints may only be imposed—

Clause (iii) shall not be construed as requiring the provision of a private room. A resident's exercise of a right to refuse transfer under clause (x) shall not affect the resident's eligibility or entitlement to medical assistance under this title or a State's entitlement to Federal medical assistance under this title with respect to services furnished to such a resident.

(C) INVESTIGATION OF ALLEGATIONS OF RESIDENT NEGLIGENCE AND ABUSE AND MISAPPROPRIATION OF RESIDENT PROPERTY.—*The State shall provide, through the agency responsible for surveys and certification of nursing facilities under this subsection, for a process for the receipt and timely review and investigation of allegations of neglect and abuse and misappropriation of resident property by a nurse aide of a resident in a nursing facility or by another individual used by the facility in providing services to such a resident. The State shall, after notice to the individual involved and a reasonable opportunity for a hearing for the individual to rebut allegations, make a finding as to the accuracy of the allegations. If the State finds that a nurse aide has neglected or abused a resident or misappropriated resident property in a facility, the State shall notify the nurse aide and the registry of such finding. If the State finds that any other individual used by the facility has neglected or abused a resident or misappropriated resident property in a facility, the State shall notify the appropriate licensure authority. (2) SURVEYS.—

(A) ANNUAL STANDARD SURVEY.—

(i) IN GENERAL.—*Each nursing facility shall be subject to a standard survey, to be conducted without any prior notice to the facility. Any individual who notifies (or causes to be notified) a nursing facility of the time or date on which such a survey is scheduled to be conducted is subject to a civil money penalty of not to exceed \$2,000. The provisions of section 1128A (other than subsections (a) and (b)) shall apply to a civil money penalty under the previous sentence in the same manner as such provisions apply to a penalty or proceeding under section 1128A(a). The Secretary shall re-*

(I) *IN GENERAL.*—Each nursing facility shall be subject to a standard survey not later than 15 months after the date of the previous standard survey conducted under this subparagraph. The statewide average interval between standard surveys of a nursing facility shall not exceed 12 months.

(II) *SPECIAL SURVEYS.*—If not otherwise conducted under subclause (I), a standard survey (or an abbreviated standard survey) may be conducted within 2 months of any change of ownership, administration, management of a nursing facility, or director of nursing in order to determine whether the change has resulted in any decline in the quality of care furnished in the facility.

(B) *EXTENDED SURVEYS.*—

(i) *IN GENERAL.*—Each nursing facility which is found, under a standard survey, to have provided substandard quality of care shall be subject to an extended survey. Any other facility may, at the Secretary's or State's discretion, be subject to such an extended survey (or a partial extended survey).

Such review shall include an expansion of the size of the sample of residents' assessments reviewed and a review of the staffing, of in-serv-

ice training, and, if appropriate, of contracts with consultants.

(i) *IN GENERAL.*—Surveys under this subsection shall be conducted by a multidisciplinary team of professionals (including a registered professional nurse).

(ii) *PROHIBITION OF CONFLICTS OF INTEREST.*—A State may not use as a member of a survey team under this subsection an individual who is serving (or has served within the previous 2 years) as a member of the staff of, or as a consultant to, the facility surveyed respecting compliance with the requirements of subsections (b), (c), and (d), or who has a personal or familial financial interest in the facility being surveyed.

(iii) *TRAINING.*—The Secretary shall provide for the comprehensive training of State and Federal surveyors in the conduct of standard and extended surveys under this subsection, including the auditing of resident assessments and plans of care. No individual shall serve as a member of a survey team unless the individual has successfully completed a training and testing program in survey and certification techniques that has been approved by the Secretary.

(3) *VALIDATION SURVEYS.*—

(A) *IN GENERAL.*—The Secretary shall conduct onsite surveys of a representative sample of nursing facilities in each State, within 2 months of the date of surveys conducted under paragraph (2) by the State, in a sufficient number to allow inferences about the adequacies of each State's surveys conducted under paragraph (2). In conducting such surveys, the Secretary shall use the same survey protocols as the State is required to use under paragraph (2). If the State has determined that an individual nursing facility meets the requirements of subsections (b), (c), and (d), but the Secretary determines that the facility does not meet such requirements, the Secretary's determination as to the facility's noncompliance with such requirements is binding and supersedes that of the State survey.

(B) *SCOPE.*—With respect to each State, the Secretary shall conduct surveys under subparagraph (A) each year with respect to at least 5 percent of the number of nursing facilities surveyed by the State in the year, but in no case less than 5 nursing facilities in the State.

(C) *REDUCTION IN ADMINISTRATIVE COSTS FOR SUBSTANDARD PERFORMANCE.*—If the Secretary finds, on the basis of such surveys, that a State has failed to perform surveys as required under paragraph (2) or that a State's survey and certification performance otherwise is not adequate, the Secretary may provide for the training of survey teams in the State and shall provide for a reduction of the payment otherwise made to the State under section 1512(a)(3)(C) with respect to a quarter equal to 33 percent multiplied by a fraction, the denominator of which is equal to the total number of residents in nursing facilities surveyed by the Secretary that quarter and the numerator of which is equal to the total number of residents in nursing facilities which were found pursuant to such surveys to be not in compliance with any of the requirements of subsections (b), (c), and (d). A State that is dissatisfied with the Secretary's findings under this subparagraph may obtain reconsideration and review of the findings under section 1116 in the same manner as a State may seek reconsideration and review under that section of the Secretary's determination under section 1116(a)(1).

(D) *SPECIAL SURVEYS OF COMPLIANCE.*—Where the Secretary has reason to question the compliance of a nursing facility with any of the requirements of subsections (b), (c), and (d), the Secretary may conduct a survey of the facility and, on the basis of that survey, make independent and binding determinations concerning the extent to which the nursing facility meets such requirements.

(4) *INVESTIGATION OF COMPLAINTS AND MONITORING NURSING FACILITY COMPLIANCE.*—Each State shall maintain procedures and adequate staff to—

(A) investigate complaints of violations of requirements by nursing facilities, and

(B) monitor, on-site, on a regular, as needed basis, a nursing facility's compliance with the requirements of subsections (b), (c), and (d), if—

(i) the facility has been found not to be in compliance with such requirements and is in the process of correcting deficiencies to achieve such compliance;

(ii) the facility was previously found not to be in compliance with such requirements, has corrected deficiencies to achieve such compliance, and verification of continued compliance is indicated; or

(iii) the State has reason to question the compliance of the facility with such requirements.

A State may maintain and utilize a specialized team (including an attorney, an auditor, and appropriate health care professionals) for the purpose of identifying, surveying, gathering and

preserving evidence, and carrying out appropriate enforcement actions against substandard nursing facilities.

(5) *DISCLOSURE OF RESULTS OF INSPECTIONS AND ACTIVITIES.*—

(A) *PUBLIC INFORMATION.*—Each State, and the Secretary, shall make available to the public—

(i) information respecting all surveys and certifications made respecting nursing facilities, including statements of deficiencies, within 14 calendar days after such information is made available to those facilities, and approved plans of correction,

(ii) copies of cost reports of such facilities filed under this title or under title XVIII,

(iii) copies of statements of ownership under section 1124, and

(iv) information disclosed under section 1126.

(B) *NOTICE TO OMBUDSMAN.*—Each State shall notify the State long-term care ombudsman (established under title III or VII of the Older Americans Act of 1965 in accordance with section 712 of the Act) of the State's findings of noncompliance with any of the requirements of subsections (b), (c), and (d), or of any adverse action taken against a nursing facility under paragraphs (1), (2), or (3) of subsection (h), with respect to a nursing facility in the State.

(C) *NOTICE TO PHYSICIANS AND NURSING FACILITY ADMINISTRATOR LICENSING BOARD.*—If a State finds that a nursing facility has provided substandard quality of care, the State shall notify—

(i) the attending physician of each resident with respect to which such finding is made, and

(ii) any State board responsible for the licensing of the nursing facility administrator of the facility.

(D) *ACCESS TO FRAUD CONTROL UNITS.*—Each State shall provide its State fraud and abuse control unit (established under section 1554) with access to all information of the State agency responsible for surveys and certifications under this subsection.

(h) *ENFORCEMENT PROCESS.*—

(1) *IN GENERAL.*—If a State finds, on the basis of a standard, extended, or partial extended survey under subsection (g)(2) or otherwise, that a nursing facility no longer meets a requirement of subsection (b), (c), or (d)—

(A) the State shall require the facility to correct the deficiency involved;

(B) if the State finds that the facility's deficiencies immediately jeopardize the health or safety of its residents, the State shall take immediate action to remove the jeopardy and correct the deficiencies through the remedy specified in paragraph (2)(A)(iii), or terminate the facility's participation under the State plan and may provide, in addition, for one or more of the other remedies described in paragraph (2); and

(C) if the State finds that the facility's deficiencies do not immediately jeopardize the health or safety of its residents, the State may—

(i) terminate the facility's participation under the State plan,

(ii) provide for one or more of the remedies described in paragraph (2), or

(iii) do both.

Nothing in this paragraph shall be construed as restricting the remedies available to a State to remedy a nursing facility's deficiencies. If a State finds that a nursing facility meets the requirements of subsections (b), (c), and (d), but, as of a previous period, did not meet such requirements, the State may provide for a civil money penalty under paragraph (2)(A)(ii) for the days in which it finds that the facility was not in compliance with such requirements.

(2) SPECIFIED REMEDIES.—

(A) LISTING.—*Except as provided in subparagraph (B), each State shall establish by law (whether statute or regulation) at least the following remedies:*

(i) Denial of payment under the State plan with respect to any individual admitted to the nursing facility involved after such notice to the public and to the facility as may be provided for by the State.

(ii) A civil money penalty assessed and collected, with interest, for each day in which the facility is or was out of compliance with a requirement of subsection (b), (c), or (d). Funds collected by a State as a result of imposition of such a penalty (or as a result of the imposition by the State of a civil money penalty for activities described in subsection (b)(3)(B)(ii)(I), (b)(3)(B)(ii)(II), or (g)(2)(A)(i)) shall be applied to the protection of the health or property of residents of nursing facilities that the State or the Secretary finds deficient, including payment for the costs of relocation of residents to other facilities, maintenance of operation of a facility pending correction of deficiencies or closure, and reimbursement of residents for personal funds lost.

(iii) The appointment of temporary management to oversee the operation of the facility and to assure the health and safety of the facility's residents, where there is a need for temporary management while—

(I) there is an orderly closure of the facility, or

(II) improvements are made in order to bring the facility into compliance with all the requirements of subsections (b), (c), and (d).

The temporary management under this clause shall not be terminated under subclause (II) until the State has determined that the facility has the management capability to ensure continued compliance with all the requirements of subsections (b), (c), and (d).

(iv) The authority, in the case of an emergency, to close the facility, to transfer residents in that facility to other facilities, or both.

The State also shall specify criteria, as to when and how each of such remedies is to be applied, the amounts of any fines, and the severity of each of these remedies, to be used in the imposition of such remedies. Such criteria shall be designed so as to minimize the time between the identification of violations and final imposition of the remedies and shall provide for the imposition of incrementally more severe fines for repeated or uncorrected deficiencies. In addition, the State may provide for other specified remedies, such as directed plans of correction.

(B) GUIDANCE AND ALTERNATIVE REMEDIES.—(i) *The Secretary shall provide through regulations guidance to States in establishing remedies under clauses (i) through (iv) of subparagraph (A).*

(ii) *A State may establish alternative remedies (other than termination of participation) other than those described in clauses (i) through (iv) of subparagraph (A), if the State demonstrates to the Secretary's satisfaction that the alternative remedies are as effective in deterring non-compliance and correcting deficiencies as those described in such subparagraph.*

(C) ASSURING PROMPT COMPLIANCE.—*If a nursing facility has not complied with any of the requirements of subsections (b), (c), and (d), within 3 months after the date the facility is found to be out of compliance with such requirements, the State shall impose the remedy described in subparagraph (A)(i) for all individuals who are admitted to the facility after such date.*

(D) REPEATED NONCOMPLIANCE.—*In the case of a nursing facility which, on 3 consecutive standard surveys conducted under subsection (g)(2), has been found to have provided substandard quality of care, the State shall (regardless of what other remedies are provided)—*

(i) *impose the remedy described in subparagraph (A)(i), and*

(ii) *monitor the facility under subsection (g)(4)(B), until the facility has demonstrated, to the satisfaction of the State, that it is in compliance with the requirements of subsections (b), (c), and (d), and that it will remain in compliance with such requirements.*

(E) FUNDING.—*The reasonable expenditures of a State to provide for temporary management and other expenses associated with implementing the remedies described in clauses (iii) and (iv) of subparagraph (A) shall be considered, for purposes of section 1512(a)(3)(C), to be necessary for the proper and efficient administration of the State plan.*

(F) INCENTIVES FOR HIGH QUALITY CARE.—*In addition to the remedies specified in this paragraph, a State may establish a program to reward, through public recognition, incentive payments, or both, nursing facilities that provide the highest quality care to residents who are entitled to medical assistance under this title. For purposes of section 1512(a)(3)(C), proper expenses incurred by a State in carry-*

ing out such a program shall be considered to be expenses necessary for the proper and efficient administration of the State plan.

(3) SECRETARIAL AUTHORITY.—

(A) FOR STATE NURSING FACILITIES.—With respect to a State nursing facility, the Secretary shall have the authority and duties of a State under this subsection, including the authority to impose remedies described in clauses (i), (ii), and (iii) of paragraph (2)(A). Nothing in this subparagraph shall be construed as restricting the remedies available to the Secretary to remedy a nursing facility's deficiencies.

(B) OTHER NURSING FACILITIES.—With respect to any other nursing facility in a State, if the Secretary finds that a nursing facility no longer meets a requirement of subsection (b), (c), (d), or (e), and further finds that the facility's deficiencies—

(i) immediately jeopardize the health or safety of its residents, the Secretary shall take immediate action to remove the jeopardy and correct the deficiencies through the remedy specified in subparagraph (C)(iii), or terminate the facility's participation under the State plan and may provide, in addition, for one or more of the other remedies described in subparagraph (C); or

(ii) do not immediately jeopardize the health or safety of its residents, the Secretary may impose any of the remedies described in subparagraph (C).

Nothing in this subparagraph shall be construed as restricting the remedies available to the Secretary to remedy a nursing facility's deficiencies. If the Secretary finds that a nursing facility meets such requirements but, as of a previous period, did not meet such requirements, the Secretary may provide for a civil money penalty under subparagraph (C)(ii) for the days on which he finds that the facility was not in compliance with such requirements.

(C) SPECIFIED REMEDIES.—The remedies specified in this subparagraph are as follows:

(i) DENIAL OF PAYMENT.—Denial of any further payments to the State in accordance with section 1529(f) for medical assistance furnished by the facility to all individuals in the facility or to individuals admitted to the facility after the effective date of the finding.

(ii) AUTHORITY WITH RESPECT TO CIVIL MONEY PENALTIES.—Imposition of a civil money penalty against the facility in an amount not to exceed \$10,000 for each day of noncompliance. The provisions of section 1128A (other than subsections (a) and (b)) shall apply to a civil money penalty under the previous sentence in the same manner as such provisions apply to a penalty or proceeding under section 1128A(a).

(iii) APPOINTMENT OF TEMPORARY MANAGEMENT.—Appointment of temporary management to oversee the operation of the facility and to assure the health and

safety of the facility's residents, where there is a need for temporary management while—

- (I) there is an orderly closure of the facility, or
- (II) improvements are made in order to bring the facility into compliance with all the requirements of subsections (b), (c), and (d).

The temporary management under this clause shall not be terminated under subclause (II) until the Secretary has determined that the facility has the management capability to ensure continued compliance with all the requirements of subsections (b), (c), and (d).

The Secretary shall specify criteria, as to when and how each of such remedies is to be applied, the amounts of any fines, and the severity of each of these remedies, to be used in the imposition of such remedies. Such criteria shall be designed so as to minimize the time between the identification of violations and final imposition of the remedies and shall provide for the imposition of incrementally more severe fines for repeated or uncorrected deficiencies. In addition, the Secretary may provide for other specified remedies, such as directed plans of correction.

(D) CONTINUATION OF PAYMENTS PENDING REMEDIATION.—The Secretary may continue payments, over a period of not longer than 6 months after the effective date of the findings, under this title with respect to a nursing facility not in compliance with a requirement of subsection (b), (c), or (d), if—

- (i) the State survey agency finds that it is more appropriate to take alternative action to assure compliance of the facility with the requirements than to terminate the certification of the facility,

- (ii) the State has submitted a plan and timetable for corrective action to the Secretary for approval and the Secretary approves the plan of corrective action, and

- (iii) the State agrees to repay to the Federal Government payments received under this subparagraph if the corrective action is not taken in accordance with the approved plan and timetable.

The Secretary shall establish guidelines for approval of corrective actions requested by States under this subparagraph.

(4) SPECIAL RULES REGARDING PAYMENTS TO FACILITIES.—

(A) CONTINUATION OF PAYMENTS PENDING REMEDIATION.—The State or the Secretary, as appropriate, may continue payments, over a period of not longer than 6 months after the effective date of the findings, under this title with respect to a nursing facility not in compliance with a requirement of subsection (b), (c), or (d). The State may continue such payments only if—

- (i) the State survey agency finds that it is more appropriate to take alternative action to assure compliance of the facility with the requirements than to terminate the certification of the facility,

(ii) the State has submitted a plan and timetable for corrective action to the Secretary for approval and the Secretary approves the plan of corrective action, and

(iii) the State agrees to repay to the Federal Government payments received under this subparagraph if the corrective action is not taken in accordance with the approved plan and timetable.

The Secretary shall establish guidelines for approval of corrective actions requested by States under this subparagraph.

(B) *EFFECTIVE PERIOD OF DENIAL OF PAYMENT.*—A finding to deny payment under this subsection shall terminate when the State or Secretary (as the case may be) finds that the facility is in substantial compliance with all the requirements of subsections (b), (c), and (d).

(5) *IMMEDIATE TERMINATION OF PARTICIPATION FOR FACILITY WHERE STATE OR SECRETARY FINDS NONCOMPLIANCE AND IMMEDIATE JEOPARDY.*—If either the State or the Secretary finds that a nursing facility has not met a requirement of subsection (b), (c), or (d), and finds that the failure immediately jeopardizes the health or safety of its residents, the State or the Secretary, respectively shall notify the other of such finding, and the State or the Secretary, respectively, shall take immediate action to remove the jeopardy and correct the deficiencies through the remedy specified in paragraph (2)(A)(iii) or (3)(C)(iii), or terminate the facility's participation under the State plan. If the facility's participation in the State plan is terminated by either the State or the Secretary, the State shall provide for the safe and orderly transfer of the residents eligible under the State plan consistent with the requirements of subsection (c)(2).

(6) *SPECIAL RULES WHERE STATE AND SECRETARY DO NOT AGREE ON FINDING OF NONCOMPLIANCE.*—

(A) *STATE FINDING OF NONCOMPLIANCE AND NO SECRETARIAL FINDING OF NONCOMPLIANCE.*—If the Secretary finds that a nursing facility has met all the requirements of subsections (b), (c), and (d), but a State finds that the facility has not met such requirements and the failure does not immediately jeopardize the health or safety of its residents, the State's findings shall control and the remedies imposed by the State shall be applied.

(B) *SECRETARIAL FINDING OF NONCOMPLIANCE AND NO STATE FINDING OF NONCOMPLIANCE.*—If the Secretary finds that a nursing facility has not met all the requirements of subsections (b), (c), and (d), and that the failure does not immediately jeopardize the health or safety of its residents, but the State has not made such a finding, the Secretary—

(i) may impose any remedies specified in paragraph (3)(C) with respect to the facility, and

(ii) shall (pending any termination by the Secretary) permit continuation of payments in accordance with paragraph (3)(D).

(7) *SPECIAL RULES FOR TIMING OF TERMINATION OF PARTICIPATION WHERE REMEDIES OVERLAP.*—If both the Secretary and

the State find that a nursing facility has not met all the requirements of subsections (b), (c), and (d), and neither finds that the failure immediately jeopardizes the health or safety of its residents—

(A)(i) if both find that the facility's participation under the State plan should be terminated, the State's timing of any termination shall control so long as the termination date does not occur later than 6 months after the date of the finding to terminate;

(ii) if the Secretary, but not the State, finds that the facility's participation under the State plan should be terminated, the Secretary shall (pending any termination by the Secretary) permit continuation of payments in accordance with paragraph (3)(D); or

(iii) if the State, but not the Secretary, finds that the facility's participation under the State plan should be terminated, the State's decision to terminate, and timing of such termination, shall control; and

(B)(i) if the Secretary or the State, but not both, establishes one or more remedies which are additional or alternative to the remedy of terminating the facility's participation under the State plan, such additional or alternative remedies shall also be applied, or

(ii) if both the Secretary and the State establish one or more remedies which are additional or alternative to the remedy of terminating the facility's participation under the State plan, only the additional or alternative remedies of the Secretary shall apply.

(8) CONSTRUCTION.—The remedies provided under this subsection are in addition to those otherwise available under Federal or State law and shall not be construed as limiting such other remedies, including any remedy available to an individual at common law. The remedies described in clauses (i), (iii), and (iv) of paragraph (2)(A) may be imposed during the pendency of any hearing. The provisions of this subsection shall apply to a nursing facility (or portion thereof) notwithstanding that the facility (or portion thereof) also is a skilled nursing facility for purposes of title XVIII.

(9) SHARING OF INFORMATION.—Notwithstanding any other provision of law, all information concerning nursing facilities required by this section to be filed with the Secretary or a State agency shall be made available by such facilities to Federal or State employees for purposes consistent with the effective administration of programs established under this title and title XVIII, including investigations by State fraud control units.

(i) CONSTRUCTION.—Where requirements or obligations under this section are identical to those provided under section 1819 of this Act, the fulfillment of those requirements or obligations under section 1819 shall be considered to be the fulfillment of the corresponding requirements or obligations under this section.

SEC. 1575. OPTIONAL MASTER DRUG REBATE AGREEMENTS.

(a) **REQUIREMENT FOR MANUFACTURER TO ENTER INTO AGREEMENT.**—

- (1) IN GENERAL.*—*Pursuant to section 1513(f), in order for payment to be made to a State under part B for medical assist-*

ance for covered outpatient drugs of a manufacturer, the manufacturer shall enter into and have in effect a master rebate agreement described in subsection (b) with the Secretary on behalf of States electing to participate in the agreement.

(2) *COVERAGE OF DRUGS NOT COVERED UNDER REBATE AGREEMENTS.*—Nothing in this section shall be construed to prohibit a State in its discretion from providing coverage under its State plan of a covered outpatient drug for which no rebate agreement is in effect under this section.

(3) *EFFECT ON EXISTING AGREEMENTS.*—If a State has a rebate agreement in effect with a manufacturer on the date of the enactment of this section which provides for a minimum aggregate rebate equal to or greater than the minimum aggregate rebate which would otherwise be paid under the master agreement under this section, at the option of the State—

(A) such agreement shall be considered to meet the requirements of the master rebate agreement, and

(B) the State shall be considered to have elected to participate in the master rebate agreement.

(4) *LIMITATION ON PRICES OF DRUGS PURCHASED BY COVERED ENTITIES.*—

(A) *AGREEMENT WITH SECRETARY.*—A manufacturer meets the requirements of this paragraph if the manufacturer has entered into an agreement with the Secretary that meets the requirements of section 340B of the Public Health Service Act with respect to covered outpatient drugs purchased by a covered entity on or after the first day of the first month that begins after the date of the enactment of title VI of the Veterans Health Care Act of 1992.

(B) *COVERED ENTITY DEFINED.*—In this subsection, the term “covered entity” means an entity described in subsection (a)(4) of section 340B of the Public Health Service Act if the entity furnishes the drugs to patients at a cost no greater than acquisition cost plus such dispensing fee as may be allowable as determined by the Office of Drug Pricing in the Public Health Service.

(C) *ESTABLISHMENT OF ALTERNATIVE MECHANISM TO ENSURE AGAINST DUPLICATE DISCOUNTS OR REBATES.*—If the Secretary does not establish a mechanism under section 340B(a)(5)(A) of the Public Health Service Act within 12 months of the date of the enactment of such section, the following requirements shall apply:

(i) Each covered entity shall inform the single State agency under this title when it is seeking reimbursement for medical assistance with respect to a unit of any covered outpatient drug which is subject to an agreement under section 340B(a) of such Act.

(ii) Each such single State agency shall provide a means by which a covered entity shall indicate on any drug reimbursement claims form (or format, where electronic claims management is used) that a unit of the drug that is the subject of the form is subject to an agreement under section 340B of such Act, and not

submit to any manufacturer a claim for a rebate payment under subsection (b) with respect to such a drug.

(D) *EFFECT OF SUBSEQUENT AMENDMENTS.*—In determining whether an agreement under subparagraph (A) meets the requirements of section 340B of the Public Health Service Act, the Secretary shall not take into account any amendments to such section that are enacted after the enactment of title VI of the Veterans Health Care Act of 1992.

(E) *DETERMINATION OF COMPLIANCE.*—A manufacturer is deemed to meet the requirements of this paragraph if the manufacturer establishes to the satisfaction of the Secretary that the manufacturer would comply (and has offered to comply) with the provisions of section 340B of the Public Health Service Act (as in effect immediately after the enactment title VI of the Veterans Health Care Act of 1992), and would have entered into an agreement under such section (as such section was in effect at such time), but for a legislative change in such section after such enactment.

(b) *TERMS OF REBATE AGREEMENT.*—

(1) *PERIODIC REBATES.*—The master rebate agreement under this section shall require the manufacturer to provide, to the State plan of each State participating in the agreement, a rebate for a rebate period in an amount specified in subsection (c) for covered outpatient drugs of the manufacturer dispensed after the effective date of the agreement, for which payment was made under the plan for such period. Such rebate shall be paid by the manufacturer not later than 30 days after the date of receipt of the information described in paragraph (2) for the period involved.

(2) *STATE PROVISION OF INFORMATION.*—

(A) *STATE RESPONSIBILITY.*—Each State participating in the master rebate agreement shall report to each manufacturer not later than 60 days after the end of each rebate period and in a form consistent with a standard reporting format established by the Secretary, information on the total number of units of each dosage form and strength and package size of each covered outpatient drug, for which payment was made under the State plan for the period, and shall promptly transmit a copy of such report to the Secretary.

(B) *AUDITS.*—A manufacturer may audit the information provided (or required to be provided) under subparagraph (A). Adjustments to rebates shall be made to the extent that information indicates that utilization was greater or less than the amount previously specified.

(3) *MANUFACTURER PROVISION OF PRICE INFORMATION.*—

(A) *IN GENERAL.*—Each manufacturer which is subject to the master rebate agreement under this section shall report to the Secretary—

(i) not later than 30 days after the last day of each rebate period under the agreement, on the average manufacturer price (as defined in subsection (i)(1)) and, for single source drugs and innovator multiple source drugs, the manufacturer's best price (as defined

in subsection (c)(1)(C)) for each covered outpatient drug for the rebate period under the agreement, and

(ii) not later than 30 days after the date of entering into an agreement under this section, on the average manufacturer price (as defined in subsection (i)(1)) as of October 1, 1990, for each of the manufacturer's covered outpatient drugs.

(B) VERIFICATION SURVEYS OF AVERAGE MANUFACTURER PRICE.—The Secretary may survey wholesalers and manufacturers that directly distribute their covered outpatient drugs, when necessary, to verify manufacturer prices reported under subparagraph (A). The Secretary may impose a civil monetary penalty in an amount not to exceed \$10,000 on a wholesaler, manufacturer, or direct seller, if the wholesaler, manufacturer, or direct seller of a covered outpatient drug refuses a request for information by the Secretary in connection with a survey under this subparagraph. The provisions of section 1128A (other than subsections (a) (with respect to amounts of penalties or additional assessments) and (b)) shall apply to a civil money penalty under this subparagraph in the same manner as such provisions apply to a penalty or proceeding under section 1128A(a).

(C) PENALTIES.—

(i) FAILURE TO PROVIDE TIMELY INFORMATION.—In the case of a manufacturer which is subject to the master rebate agreement that fails to provide information required under subparagraph (A) on a timely basis, the amount of the penalty shall be \$10,000 for each day in which such information has not been provided and such amount shall be paid to the Treasury. If such information is not reported within 90 days of the deadline imposed, the agreement shall be suspended for services furnished after the end of such 90-day period and until the date such information is reported (but in no case shall such suspension be for a period of less than 30 days).

(ii) FALSE INFORMATION.—Any manufacturer which is subject to the master rebate agreement, or a wholesaler or direct seller, that knowingly provides false information under subparagraph (A) or (B) is subject to a civil money penalty in an amount not to exceed \$100,000 for each item of false information. Any such civil money penalty shall be in addition to other penalties as may be prescribed by law. The provisions of section 1128A (other than subsections (a) and (b)) shall apply to a civil money penalty under this subparagraph in the same manner as such provisions apply to a penalty or proceeding under section 1128A(a).

(D) CONFIDENTIALITY OF INFORMATION.—Notwithstanding any other provision of law, information disclosed by manufacturers or wholesalers under this paragraph or under an agreement with the Secretary of Veterans Affairs

described in section 1513(f) is confidential and shall not be disclosed by the Secretary or the Secretary of Veterans Affairs or a State agency (or contractor therewith) in a form which discloses the identity of a specific manufacturer or wholesaler or the prices charged for drugs by such manufacturer or wholesaler, except—

(i) as the Secretary determines to be necessary to carry out this section,

(ii) to permit the Comptroller General to review the information provided, and

(iii) to permit the Director of the Congressional Budget Office to review the information provided.

(4) LENGTH OF AGREEMENT.—

(A) IN GENERAL.—The master rebate agreement under this section shall be effective for an initial period of not less than 1 year and shall be automatically renewed for a period of not less than 1 year unless terminated under subparagraph (B).

(B) TERMINATION.—

(i) BY THE SECRETARY.—The Secretary may provide for termination of the master rebate agreement with respect to a manufacturer for violation of the requirements of the agreement or other good cause shown. Such termination shall not be effective earlier than 60 days after the date of notice of such termination. The Secretary shall provide, upon request, a manufacturer with a hearing concerning such a termination, but such hearing shall not delay the effective date of the termination. Failure of a State to provide any advance notice of such a termination as required by regulation shall not affect the State's right to terminate coverage of the drugs affected by such termination as of the effective date of such termination.

(ii) BY A MANUFACTURER.—A manufacturer may terminate its participation in the master rebate agreement under this section for any reason. Any such termination shall not be effective until the calendar quarter beginning at least 60 days after the date the manufacturer provides notice to the Secretary.

(iii) EFFECTIVENESS OF TERMINATION.—Any termination under this subparagraph shall not affect rebates due under the agreement before the effective date of its termination.

(iv) NOTICE TO STATES.—In the case of a termination under this subparagraph, the Secretary shall provide notice of such termination to the States within not less than 30 days before the effective date of such termination.

(v) APPLICATION TO TERMINATIONS OF OTHER AGREEMENTS.—The provisions of this subparagraph shall apply to the terminations of master agreements described in section 8126(a) of title 38, United States Code.

(C) *DELAY BEFORE REENTRY.*—In the case of any rebate agreement with a manufacturer under this section which is terminated, another such agreement with the manufacturer (or a successor manufacturer) may not be entered into until a period of 1 calendar quarter has elapsed since the date of the termination, unless the Secretary finds good cause for an earlier reinstatement of such an agreement.

(5) *SETTLEMENT OF DISPUTES.*—

(A) *SECRETARY.*—The Secretary shall have the authority to resolve, settle, and compromise disputes regarding the amounts of rebates owed under this section and section 1927.

(B) *STATE.*—Each State, with respect to covered outpatient drugs paid for under the State plan, shall have authority, independent of the Secretary's authority under subparagraph (A), to resolve, settle, and compromise disputes regarding the amounts of rebates owed under this section. Any such action shall be deemed to comply with the requirements of this title, and such covered outpatient drugs shall be eligible for payment under the State plan under this title.

(C) *AMOUNT OF REBATE.*—The Secretary shall limit the amount of the rebate payable in any case in which the Secretary determines that, because of unusual circumstances or questionable data, the provisions of subsection (c) result in a rebate amount that is inequitable or otherwise inconsistent with the purposes of this section.

(c) *DETERMINATION OF AMOUNT OF REBATE.*—

(1) *BASIC REBATE FOR SINGLE SOURCE DRUGS AND INNOVATOR MULTIPLE SOURCE DRUGS.*—

(A) *IN GENERAL.*—Except as provided in paragraph (2), the amount of the rebate specified in this subsection with respect to a State participating in the master rebate agreement for a rebate period (as defined in subsection (i)(7)) with respect to each dosage form and strength of a single source drug or an innovator multiple source drug shall be equal to the product of—

(i) the total number of units of each dosage form and strength paid for under the State plan in the rebate period (as reported by the State); and

(ii) the greater of—

(I) the difference between the average manufacturer price and the best price (as defined in subparagraph (C)) for the dosage form and strength of the drug, or

(II) the minimum rebate percentage (specified in subparagraph (B)) of such average manufacturer price,

for the rebate period.

(B) *MINIMUM REBATE PERCENTAGE.*—For purposes of subparagraph (A)(ii)(II), the “minimum rebate percentage” is 15 percent.

(C) *BEST PRICE DEFINED.*—For purposes of this section—

(i) *IN GENERAL.*—The term “best price” means, with respect to a single source drug or innovator multiple source drug of a manufacturer, the lowest price available from the manufacturer during the rebate period to any wholesaler, retailer, provider, health maintenance organization, nonprofit entity, or governmental entity within the United States, excluding—

(I) any prices charged on or after October 1, 1992, to the Indian Health Service, the Department of Veterans Affairs, a State home receiving funds under section 1741 of title 38, United States Code, the Department of Defense, the Public Health Service, or a covered entity described in section 340B(a)(4) of the Public Health Service Act,

(II) any prices charged under the Federal Supply Schedule of the General Services Administration,

(III) any prices used under a State pharmaceutical assistance program, and

(IV) any depot prices and single award contract prices, as defined by the Secretary, of any agency of the Federal Government.

(ii) *SPECIAL RULES.*—The term “best price”—

(I) shall be inclusive of cash discounts, free goods that are contingent on any purchase requirement, volume discounts, and rebates (other than rebates under this section),

(II) shall be determined without regard to special packaging, labeling, or identifiers on the dosage form or product or package,

(III) shall not take into account prices that are merely nominal in amount, and

(IV) shall exclude rebates paid under this section or any other rebates paid to a State participating in the master rebate agreement.

(2) *ADDITIONAL REBATE FOR SINGLE SOURCE AND INNOVATOR MULTIPLE SOURCE DRUGS.*—

(A) *IN GENERAL.*—The amount of the rebate specified in this subsection with respect to a State participating in the master rebate agreement for a rebate period, with respect to each dosage form and strength of a single source drug or an innovator multiple source drug, shall be increased by an amount equal to the product of—

(i) the total number of units of such dosage form and strength dispensed after December 31, 1990, for which payment was made under the State plan for the rebate period; and

(ii) the amount (if any) by which—

(I) the average manufacturer price for the dosage form and strength of the drug for the period, exceeds

(II) the average manufacturer price for such dosage form and strength for the calendar quarter beginning July 1, 1990 (without regard to whether

or not the drug has been sold or transferred to an entity, including a division or subsidiary of the manufacturer, after the first day of such quarter), increased by the percentage by which the Consumer Price Index for All Urban Consumers (United States city average) for the month before the month in which the rebate period begins exceeds such index for September 1990.

(B) TREATMENT OF SUBSEQUENTLY APPROVED DRUGS.—

In the case of a covered outpatient drug approved by the Food and Drug Administration after October 1, 1990, clause (ii)(II) of subparagraph (A) shall be applied by substituting “the first full calendar quarter after the day on which the drug was first marketed” for “the calendar quarter beginning July 1, 1990” and “the month prior to the first month of the first full calendar quarter after the day on which the drug was first marketed” for “September 1990”.

(3) REBATE FOR OTHER DRUGS.—

(A) IN GENERAL.—The amount of the rebate paid to a State participating in the master rebate agreement for a rebate period with respect to each dosage form and strength of covered outpatient drugs (other than single source drugs and innovator multiple source drugs) shall be equal to the product of—

(i) the applicable percentage (as described in subparagraph (B)) of the average manufacturer price for the dosage form and strength for the rebate period, and

(ii) the total number of units of such dosage form and strength dispensed after December 31, 1990, for which payment was made under the State plan for the rebate period.

(B) APPLICABLE PERCENTAGE DEFINED.—For purposes of subparagraph (A)(i), the “applicable percentage” is 11 percent.

(4) LIMITATION ON AMOUNT OF REBATE TO AMOUNTS PAID FOR CERTAIN DRUGS.—

(A) IN GENERAL.—Upon request of the manufacturer of a covered outpatient drug, the Secretary shall limit, in accordance with subparagraph (B), the amount of the rebate under this subsection with respect to a dosage form and strength of such drug if the majority of the estimated number of units of such dosage form and strength that are subject to rebates under this section were dispensed to inpatients of nursing facilities.

(B) AMOUNT OF REBATE.—In the case of a covered outpatient drug subject to subparagraph (A), the amount of the rebate specified in this subsection for a rebate period, with respect to each dosage form and strength of such drug, shall not exceed the amount paid under the State plan with respect to such dosage form and strength of the drug in the rebate period (without consideration of any dispensing fees paid).

(5) *SUPPLEMENTAL REBATES PROHIBITED.*—No rebates shall be required to be paid by manufacturers with respect to covered outpatient drugs furnished to individuals in any State that provides for the collection of such rebates in excess of the rebate amount payable under this section.

(d) *LIMITATIONS ON COVERAGE OF DRUGS BY STATES PARTICIPATING IN MASTER AGREEMENT.*—

(1) *PERMISSIBLE RESTRICTIONS.*—A State participating in the master rebate agreement under this section may—

(A) subject to prior authorization under its State plan any covered outpatient drug so long as any such prior authorization program complies with the requirements of paragraph (5); and

(B) exclude or otherwise restrict coverage under its plan of a covered outpatient drug if—

(i) the drug is contained in the list referred to in paragraph (2);

(ii) the drug is subject to such restrictions pursuant to the master rebate agreement or any agreement described in subsection (a)(4); or

(iii) the State has excluded coverage of the drug from its formulary established in accordance with paragraph (4).

(2) *LIST OF DRUGS SUBJECT TO RESTRICTION.*—The following drugs or classes of drugs, or their medical uses, may be excluded from coverage or otherwise restricted by a State participating in the master rebate agreement:

(I) Barbiturates.

(J) Benzodiazepines.

(3) *ADDITIONS TO DRUG LISTINGS.*—The Secretary shall, by regulation, periodically update the list of drugs or classes of drugs described in paragraph (2), or their medical uses, which the Secretary has determined to be subject to clinical abuse or inappropriate use.

(4) *REQUIREMENTS FOR FORMULARIES.*—A State participating in the master rebate agreement may establish a formulary if the formulary meets the following requirements:

(A) *The formulary is developed by a committee consisting of physicians, pharmacists, and other appropriate individuals appointed by the Governor of the State.*

(B) *Except as provided in subparagraph (C), the formulary includes the covered outpatient drugs of any manufacturer which has entered into and complies with the agreement under subsection (a) (other than any drug excluded from coverage or otherwise restricted under paragraph (2)).*

(C) *A covered outpatient drug may be excluded with respect to the treatment of a specific disease or condition for an identified population (if any) only if, based on the drug's labeling (or, in the case of a drug the prescribed use of which is not approved under the Federal Food, Drug, and Cosmetic Act but is a medically accepted indication, based on information from the appropriate compendia described in subsection (i)(5)), the excluded drug does not have a significant, clinically meaningful therapeutic advantage in terms of safety, effectiveness, or clinical outcome of such treatment for such population over other drugs included in the formulary and there is a written explanation (available to the public) of the basis for the exclusion.*

(D) *The State plan permits coverage of a drug excluded from the formulary (other than any drug excluded from coverage or otherwise restricted under paragraph (2)) pursuant to a prior authorization program that is consistent with paragraph (5).*

(E) *The formulary meets such other requirements as the Secretary may impose in order to achieve program savings consistent with protecting the health of program beneficiaries.*

A prior authorization program established by a State under paragraph (5) is not a formulary subject to the requirements of this paragraph.

(5) **REQUIREMENTS OF PRIOR AUTHORIZATION PROGRAMS.**—*The State plan of a State participating in the master rebate agreement may require, as a condition of coverage or payment for a covered outpatient drug for which Federal financial participation is available in accordance with this section, the approval of the drug before its dispensing for any medically accepted indication (as defined in subsection (i)(5)) only if the system providing for such approval—*

(A) *provides response by telephone or other telecommunication device within 24 hours of a request for prior authorization, and*

(B) *except with respect to the drugs on the list referred to in paragraph (2), provides for the dispensing of at least a 72-hour supply of a covered outpatient prescription drug in an emergency situation (as defined by the Secretary).*

(6) **OTHER PERMISSIBLE RESTRICTIONS.**—*A State participating in the master rebate agreement may impose limitations, with respect to all such drugs in a therapeutic class, on the minimum or maximum quantities per prescription or on the number of refills, if such limitations are necessary to discourage*

waste, and may address instances of fraud or abuse by individuals in any manner authorized under this Act.

(e) *DRUG USE REVIEW.*—

(1) *IN GENERAL.*—A State participating in the master rebate agreement may provide for a drug use review program to educate physicians and pharmacists to identify and reduce the frequency of patterns of fraud, abuse, gross overuse, or inappropriate or medically unnecessary care, among physicians, pharmacists, and patients, or associated with specific drugs or groups of drugs, as well as potential and actual severe adverse reactions to drugs.

(2) *APPLICATION OF STATE STANDARDS.*—A State with a drug use review program under this subsection shall establish and operate the program under such standards as it may establish.

(f) *ELECTRONIC CLAIMS MANAGEMENT.*—In accordance with chapter 35 of title 44, United States Code (relating to coordination of Federal information policy), the Secretary shall encourage each State to establish, as its principal means of processing claims for covered outpatient drugs under its State plan, a point-of-sale electronic claims management system, for the purpose of performing online, real time eligibility verifications, claims data capture, adjudication of claims, and assisting pharmacists (and other authorized persons) in applying for and receiving payment.

(g) *ANNUAL REPORT.*—

(1) *IN GENERAL.*—Not later than May 1 of each year, the Secretary shall transmit to the Committee on Finance of the Senate, and the Committee on Commerce of the House of Representatives, a report on the operation of this section in the preceding fiscal year.

(2) *DETAILS.*—Each report shall include information on—

(A) ingredient costs paid under this title for single source drugs, multiple source drugs, and nonprescription covered outpatient drugs,

(B) the total value of rebates received and number of manufacturers providing such rebates,

(C) the effect of inflation on the value of rebates required under this section,

(D) trends in prices paid under this title for covered outpatient drugs, and

(h) *EXEMPTION FOR CAPITATED HEALTH CARE ORGANIZATIONS, HOSPITALS, AND CERTAIN NURSING FACILITIES.*—

(C) a nursing facility which receives payment under this title for health care services, including prescription drugs, on a capitated basis or which dispenses covered outpatient drugs using a drug formulary system.

(2) CONSTRUCTION IN DETERMINING BEST PRICE.—Nothing in paragraph (1) shall be construed as excluding amounts paid by the entities described in such paragraph for covered outpatient drugs from the determination of the best price (as defined in subsection (c)(1)(C)) for such drugs.

(i) DEFINITIONS.—In the section—

(1) AVERAGE MANUFACTURER PRICE.—The term “average manufacturer price” means, with respect to a covered outpatient drug of a manufacturer for a rebate period, the average price paid to the manufacturer for the drug in the United States by wholesalers for drugs distributed to the retail pharmacy class of trade, after deducting customary prompt pay discounts.

【(C) in the case of services furnished (during a period that does not exceed 14 continuous days in the case of an informal reciprocal arrangement or 90 continuous days (or such longer period as the Secretary may provide) in the case of an arrangement involving per diem or other fee-for-time compensation) by, or incident to the services of, one physician to the patients of another physician who submits the claim for such services, payment shall be made to the physician submitting the claim (as if the services were furnished by, or incident to, the physician's services), but only if the claim identifies (in a manner specified by the Secretary) the physician who furnished the services; and

be deemed to be eligible for financial aid or assistance for any month thereafter if such individual would have been eligible for financial aid or assistance for such month had the increase in monthly insurance benefits under title II resulting from enactment of Public Law 92-336 not been applicable to such individual.

¶The requirement of clause (A) of paragraph (37) with respect to a State plan may be waived by the Secretary if he finds that the State has exercised good faith in trying to meet such requirement. For purposes of this title, any child who meets the requirements of paragraph (1) or (2) of section 473(b) shall be deemed to be a dependent child as defined in section 406 and shall be deemed to be a recipient of aid to families with dependent children under part A of title IV in the State where such child resides. Notwithstanding paragraph (10)(B) or any other provision of this subsection, a State plan shall provide medical assistance with respect to an alien who is not lawfully admitted for permanent residence or otherwise permanently residing in the United States under color of law only in accordance with section 1903(v).

¶(b) The Secretary shall approve any plan which fulfills the conditions specified in subsection (a) of this section, except that he shall not approve any plan which imposes, as a condition of eligibility for medical assistance under the plan—

¶(1) an age requirement of more than 65 years; or

¶(2) any residence requirement which excludes any individual who resides in the State, regardless of whether or not the residence is maintained permanently or at a fixed address; or

¶(3) any citizenship requirement which excludes any citizen of the United States.

¶(c) Notwithstanding subsection (b), the Secretary shall not approve any State plan for medical assistance if—

¶(1) the State has in effect, under its plan established under part A of title IV, payment levels that are less than the payment levels in effect under such plan on May 1, 1988; or

¶(2) the State requires individuals described in subsection (1)(1) to apply for benefits under such part as a condition of applying for, or receiving, medical assistance under this title.

¶(d) If a State contracts with an entity which meets the requirements of section 1152, as determined by the Secretary, for the performance of the quality review functions described in subsection (a)(30)(C), or a utilization and quality control peer review organization having a contract with the Secretary under part B of title XI for the performance of medical or utilization review functions (including quality review functions described in subsection (a)(30)(C)) required under this title of a State plan with respect to specific services or providers (or services or providers in a geographic area of the State), such requirements shall be deemed to be met for those services or providers (or services or providers in that area) by delegation to such an entity or organization under the contract of the State's authority to conduct such review activities if the contract provides for the performance of activities not inconsistent with part B of title XI and provides for such assurances of satisfactory performance by such an entity or organization as the Secretary may prescribe.

[(e)(1)(A) Notwithstanding any other provision of this title, effective January 1, 1974, subject to subparagraph (B) each State plan approved under this title must provide that each family which was receiving aid pursuant to a plan of the State approved under part A of title IV in at least 3 of the 6 months immediately preceding the month in which such family became ineligible for such aid because of increased hours of, or increased income from, employment, shall, while a member of such family is employed, remain eligible for assistance under the plan approved under this title (as though the family was receiving aid under the plan approved under part A of title IV) for 4 calendar months beginning with the month in which such family became ineligible for aid under the plan approved under part A of title IV because of income and resources or hours of work limitations contained in such plan.

[(B) Subparagraph (A) shall not apply with respect to families that cease to be eligible for aid under part A of title IV during the period beginning on April 1, 1990, and ending on September 30, 1998. During such period, for provisions relating to extension of eligibility for medical assistance for certain families who have received aid pursuant to a State plan approved under part A of title IV and have earned income, see section 1925.

[(2)(A) In the case of an individual who is enrolled with a qualified health maintenance organization (as defined in title XIII of the Public Health Service Act or with an entity described in paragraph (2)(B)(iii), (2)(E), (2)(G), or (6) of section 1903(m) under a contract described in section 1903(m)(2)(A) or with an eligible organization with a contract under section 1876 and who would (but for this paragraph) lose eligibility for benefits under this title before the end of the minimum enrollment period (defined in subparagraph (B)), the State plan may provide, notwithstanding any other provision of this title, that the individual shall be deemed to continue to be eligible for such benefits until the end of such minimum period, but, except for benefits furnished under section 1905(a)(4)(C), only with respect to such benefits provided to the individual as an enrollee of such organization or entity.

[(B) For purposes of subparagraph (A), the term "minimum enrollment period" means, with respect to an individual's enrollment with an organization or entity under a State plan, a period, established by the State, of not more than six months beginning on the date the individual's enrollment with the organization or entity becomes effective.

[(3) At the option of the State, any individual who—

[(A) is 18 years of age or younger and qualifies as a disabled individual under section 1614(a);

[(B) with respect to whom there has been a determination by the State that—

[(i) the individual requires a level of care provided in a hospital, nursing facility, or intermediate care facility for the mentally retarded,

[(ii) it is appropriate to provide such care for the individual outside such an institution, and

[(iii) the estimated amount which would be expended for medical assistance for the individual for such care outside an institution is not greater than the estimated

amount which would otherwise be expended for medical assistance for the individual within an appropriate institution; and

[(C) if the individual were in a medical institution, would be eligible for medical assistance under the State plan under this title,

shall be deemed, for purposes of this title only, to be an individual with respect to whom a supplemental security income payment, or State supplemental payment, respectively, is being paid under title XVI.

[(4) A child born to a woman eligible for and receiving medical assistance under a State plan on the date of the child's birth shall be deemed to have applied for medical assistance and to have been found eligible for such assistance under such plan on the date of such birth and to remain eligible for such assistance for a period of one year so long as the child is a member of the woman's household and the woman remains (or would remain if pregnant) eligible for such assistance. During the period in which a child is deemed under the preceding sentence to be eligible for medical assistance, the medical assistance eligibility identification number of the mother shall also serve as the identification number of the child, and all claims shall be submitted and paid under such number (unless the State issues a separate identification number for the child before such period expires).

[(5) A woman who, while pregnant, is eligible for, has applied for, and has received medical assistance under the State plan, shall continue to be eligible under the plan, as though she were pregnant, for all pregnancy-related and postpartum medical assistance under the plan, through the end of the month in which the 60-day period (beginning on the last day of her pregnancy) ends.

[(6) In the case of a pregnant woman described in subsection (a)(10) who, because of a change in income of the family of which she is a member, would not otherwise continue to be described in such subsection, the woman shall be deemed to continue to be an individual described in subsection (a)(10)(A)(i)(IV) and subsection (l)(1)(A) without regard to such change of income through the end of the month in which the 60-day period (beginning on the last day of her pregnancy) ends. The preceding sentence shall not apply in the case of a woman who has been provided ambulatory prenatal care pursuant to section 1920 during a presumptive eligibility period and is then, in accordance with such section, determined to be ineligible for medical assistance under the State plan.

[(7) In the case of an infant or child described in subparagraph (B), (C), or (D) of subsection (l)(1) or paragraph (2) of section 1905(n)—

[(A) who is receiving inpatient services for which medical assistance is provided on the date the infant or child attains the maximum age with respect to which coverage is provided under the State plan for such individuals, and

[(B) who, but for attaining such age, would remain eligible for medical assistance under such subsection, the infant or child shall continue to be treated as an individual described in such respective provision until the end of the stay for which the inpatient services are furnished.

[(8) If an individual is determined to be a qualified medicare beneficiary (as defined in section 1905(p)(1)), such determination shall apply to services furnished after the end of the month in which the determination first occurs. For purposes of payment to a State under section 1903(a), such determination shall be considered to be valid for an individual for a period of 12 months, except that a State may provide for such determinations more frequently, but not more frequently than once every 6 months for an individual.

[(9)(A) At the option of the State, the plan may include as medical assistance respiratory care services for any individual who—

[(i) is medically dependent on a ventilator for life support at least six hours per day;

[(ii) has been so dependent for at least 30 consecutive days (or the maximum number of days authorized under the State plan, whichever is less) as an inpatient;

[(iii) but for the availability of respiratory care services, would require respiratory care as an inpatient in a hospital, nursing facility, or intermediate care facility for the mentally retarded and would be eligible to have payment made for such inpatient care under the State plan;

[(iv) has adequate social support services to be cared for at home; and

[(v) wishes to be cared for at home.

[(B) The requirements of subparagraph (A)(ii) may be satisfied by a continuous stay in one or more hospitals, nursing facilities, or intermediate care facilities for the mentally retarded.

[(C) For purposes of this paragraph, respiratory care services means services provided on a part-time basis in the home of the individual by a respiratory therapist or other health care professional trained in respiratory therapy (as determined by the State), payment for which is not otherwise included within other items and services furnished to such individual as medical assistance under the plan.

[(10)(A) The fact that an individual, child, or pregnant woman may be denied aid under part A of title IV pursuant to section 402(a)(43) shall not be construed as denying (or permitting a State to deny) medical assistance under this title to such individual, child, or woman who is eligible for assistance under this title on a basis other than the receipt of aid under such part.

[(B) If an individual, child, or pregnant woman is receiving aid under part A of title IV and such aid is terminated pursuant to section 402(a)(43), the State may not discontinue medical assistance under this title for the individual, child, or woman until the State has determined that the individual, child, or woman is not eligible for assistance under this title on a basis other than the receipt of aid under such part.

[(11)(A) In the case of an individual who is enrolled with a group health plan under section 1906 and who would (but for this paragraph) lose eligibility for benefits under this title before the end of the minimum enrollment period (defined in subparagraph (B)), the State plan may provide, notwithstanding any other provision of this title, that the individual shall be deemed to continue

to be eligible for such benefits until the end of such minimum period, but only with respect to such benefits provided to the individual as an enrollee of such plan.

[(B) For purposes of subparagraph (A), the term “minimum enrollment period” means, with respect to an individual’s enrollment with a group health plan, a period established by the State, of not more than 6 months beginning on the date the individual’s enrollment under the plan becomes effective.

[(f) Notwithstanding any other provision of this title, except as provided in subsection (e) and section 1619(b)(3) and section 1924, except with respect to qualified disabled and working individuals (described in section 1905(s)), and except with respect to qualified medicare beneficiaries, qualified severely impaired individuals, and individuals described in subsection (m)(1), no State not eligible to participate in the State plan program established under title XVI shall be required to provide medical assistance to any aged, blind, or disabled individual (within the meaning of title XVI) for any month unless such State would be (or would have been) required to provide medical assistance to such individual for such month had its plan for medical assistance approved under this title and in effect on January 1, 1972, been in effect in such month, except that for this purpose any such individual shall be deemed eligible for medical assistance under such State plan if (in addition to meeting such other requirements as are or may be imposed under the State plan) the income of any such individual as determined in accordance with section 1903(f) (after deducting any supplemental security income payment and State supplementary payment made with respect to such individual, and incurred expenses for medical care as recognized under State law regardless of whether such expenses are reimbursed under another public program of the State or political subdivision thereof) is not in excess of the standard for medical assistance established under the State plan as in effect on January 1, 1972. In States which provide medical assistance to individuals pursuant to paragraph (10)(C) of subsection (a) of this section, an individual who is eligible for medical assistance by reason of the requirements of this section concerning the deduction of incurred medical expenses from income shall be considered an individual eligible for medical assistance under paragraph (10)(A) of that subsection if that individual is, or is eligible to be (1) an individual with respect to whom there is payable a State supplementary payment on the basis of which similarly situated individuals are eligible to receive medical assistance equal in amount, duration, and scope to that provided to individuals eligible under paragraph (10)(A), or (2) an eligible individual or eligible spouse, as defined in title XVI, with respect to whom supplemental security income benefits are payable; otherwise that individual shall be considered to be an individual eligible for medical assistance under paragraph (10)(C) of that subsection. In States which do not provide medical assistance to individuals pursuant to paragraph (10)(C) of that subsection, an individual who is eligible for medical assistance by reason of the requirements of this section concerning the deduction of incurred medical expenses from income shall be considered an individual eligible for medical assistance under paragraph (10)(A) of that subsection.

[(g) In addition to any other sanction available to a State, a State may provide for a reduction of any payment amount otherwise due with respect to a person who furnishes services under the plan in an amount equal to up to three times the amount of any payment sought to be collected by that person in violation of subsection (a)(25)(C).

[(h) Nothing in this title (including subsections (a)(13) and (a)(30) of this section) shall be construed as authorizing the Secretary to limit the amount of payment that may be made under a plan under this title for home and community care.

[(i)(1) In addition to any other authority under State law, where a State determines that an intermediate care facility for the mentally retarded which is certified for participation under its plan no longer substantially meets the requirements for such a facility under this title and further determines that the facility's deficiencies—

[(A) immediately jeopardize the health and safety of its patients, the State shall provide for the termination of the facility's certification for participation under the plan and may provide, or

[(B) do not immediately jeopardize the health and safety of its patients, the State may, in lieu of providing for terminating the facility's certification for participation under the plan, provide

that no payment will be made under the State plan with respect to any individual admitted to such facility after a date specified by the State.

[(2) The State shall not make such a decision with respect to a facility until the facility has had a reasonable opportunity, following the initial determination that it no longer substantially meets the requirements for such a facility under this title, to correct its deficiencies, and, following this period, has been given reasonable notice and opportunity for a hearing.

[(3) The State's decision to deny payment may be made effective only after such notice to the public and to the facility as may be provided for by the State, and its effectiveness shall terminate (A) when the State finds that the facility is in substantial compliance (or is making good faith efforts to achieve substantial compliance) with the requirements for such a facility under this title, or (B) in the case described in paragraph (1)(B), with the end of the eleventh month following the month such decision is made effective, whichever occurs first. If a facility to which clause (B) of the previous sentence applies still fails to substantially meet the provisions of the respective section on the date specified in such clause, the State shall terminate such facility's certification for participation under the plan effective with the first day of the first month following the month specified in such clause.

[(j) Notwithstanding any other requirement of this title, the Secretary may waive or modify any requirement of this title with respect to the medical assistance program in American Samoa and the Northern Mariana Islands, other than a waiver of the Federal medical assistance percentage, the limitation in section 1108(c), or the requirement that payment may be made for medical assistance only with respect to amounts expended by American Samoa or the

Northern Mariana Islands for care and services described in paragraphs (1) through (25) of section 1905(a).

[(1)(1) Individuals described in this paragraph are—

[(A) women during pregnancy (and during the 60-day period beginning on the last day of the pregnancy),

[(B) infants under one year of age,

[(C) children children who have attained one year of age but have not attained 6 years of age, and

[(D) children born after September 30, 1983, who have attained 6 years of age but have not attained 19 years of age, who are not described in any of subclauses (I) through (III) of subsection (a)(10)(A)(i) and whose family income does not exceed the income level established by the State under paragraph (2) for a family size equal to the size of the family, including the woman, infant, or child.

[(2)(A)(i) For purposes of paragraph (1) with respect to individuals described in subparagraph (A) or (B) of that paragraph, the State shall establish an income level which is a percentage (not less than the percentage provided under clause (ii) and not more than 185 percent) of the income official poverty line (as defined by the Office of Management and Budget, and revised annually in accordance with section 673(2) of the Omnibus Budget Reconciliation Act of 1981) applicable to a family of the size involved.

[(ii) The percentage provided under this clause, with respect to eligibility for medical assistance on or after—

[(I) July 1, 1989, is 75 percent, or, if greater, the percentage provided under clause (iii), and

[(II) April 1, 1990, 133 percent, or, if greater, the percentage provided under clause (iv).

[(iii) In the case of a State which, as of the date of the enactment of this clause, has elected to provide, and provides, medical assistance to individuals described in this subsection or has enacted legislation authorizing, or appropriating funds, to provide such assistance to such individuals before July 1, 1989, the percentage provided under clause (ii)(I) shall not be less than—

[(I) the percentage specified by the State in an amendment to its State plan (whether approved or not) as of the date of the enactment of this clause, or

[(II) if no such percentage is specified as of the date of the enactment of this clause, the percentage established under the State's authorizing legislation or provided for under the State's appropriations;

but in no case shall this clause require the percentage provided under clause (ii)(I) to exceed 100 percent.

[(iv) In the case of a State which, as of the date of the enactment of this clause, has established under clause (i), or has enacted legislation authorizing, or appropriating funds, to provide for, a percentage (of the income official poverty line) that is greater than 133 percent, the percentage provided under clause (ii) for medical assistance on or after April 1, 1990, shall not be less than—

[(I) the percentage specified by the State in an amendment to its State plan (whether approved or not) as of the date of the enactment of this clause, or

[(II) if no such percentage is specified as of the date of the enactment of this clause, the percentage established under the State's authorizing legislation or provided for under the State's appropriations.

[(B) For purposes of paragraph (1) with respect to individuals described in subparagraph (C) of such paragraph, the State shall establish an income level which is equal to 133 percent of the income official poverty line described in subparagraph (A) applicable to a family of the size involved.

[(C) For purposes of paragraph (1) with respect to individuals described in subparagraph (D) of that paragraph, the State shall establish an income level which is equal to 100 percent of the income official poverty line described in subparagraph (A) applicable to a family of the size involved.

[(3) Notwithstanding subsection (a)(17), for individuals who are eligible for medical assistance because of subsection (a)(10)(A)(i)(IV), (a)(10)(A)(i)(VI), (a)(10)(A)(i)(VII), or (a)(10)(A)(ii)(IX)—

[(A) application of a resource standard shall be at the option of the State;

[(B) any resource standard or methodology that is applied with respect to an individual described in subparagraph (A) of paragraph (1) may not be more restrictive than the resource standard or methodology that is applied under title XVI;

[(C) any resource standard or methodology that is applied with respect to an individual described in subparagraph (B), (C), or (D) of paragraph (1) may not be more restrictive than the corresponding methodology that is applied under the State plan under part A of title IV;

[(D) the income standard to be applied is the appropriate income standard established under paragraph (2); and

[(E) family income shall be determined in accordance with the methodology employed under the State plan under part A or E of title IV (except to the extent such methodology is inconsistent with clause (D) of subsection (a)(17)), and costs incurred for medical care or for any other type of remedial care shall not be taken into account.

Any different treatment provided under this paragraph for such individuals shall not, because of subsection (a)(17), require or permit such treatment for other individuals.

[(4)(A) In the case of any State which is providing medical assistance to its residents under a waiver granted under section 1115, the Secretary shall require the State to provide medical assistance for pregnant women and infants under age 1 described in subsection (a)(10)(A)(i)(IV) and for children described in subsection (a)(10)(A)(i)(VI) or subsection (a)(10)(A)(i)(VII) in the same manner as the State would be required to provide such assistance for such individuals if the State had in effect a plan approved under this title.

[(B) In the case of a State which is not one of the 50 States or the District of Columbia, the State need not meet the requirement of subsection (a)(10)(A)(i)(IV) (a)(10)(A)(i)(VI), or (a)(10)(A)(i)(VII) and, for purposes of paragraph (2)(A), the State

may substitute for the percentage provided under clause (ii) of such paragraph any percentage.

[(m)(1) Individuals described in this paragraph are individuals—

[(A) who are 65 years of age or older or are disabled individuals (as determined under section 1614(a)(3)),

[(B) whose income (as determined under section 1612 for purposes of the supplemental security income program, except as provided in paragraph (2)(C)) does not exceed an income level established by the State consistent with paragraph (2)(A), and

[(C) whose resources (as determined under section 1613 for purposes of the supplemental security income program) do not exceed (except as provided in paragraph (2)(B)) the maximum amount of resources that an individual may have and obtain benefits under that program.

[(2)(A) The income level established under paragraph (1)(B) may not exceed a percentage (not more than 100 percent) of the official poverty line (as defined by the Office of Management and Budget, and revised annually in accordance with section 673(2) of the Omnibus Budget Reconciliation Act of 1981) applicable to a family of the size involved.

[(B) In the case of a State that provides medical assistance to individuals not described in subsection (a)(10)(A) and at the State's option, the State may use under paragraph (1)(C) such resource level (which is higher than the level described in that paragraph) as may be applicable with respect to individuals described in paragraph (1)(A) who are not described in subsection (a)(10)(A).

[(C) The provisions of section 1905(p)(2)(D) shall apply to determinations of income under this subsection in the same manner as they apply to determinations of income under section 1905(p).

[(3) Notwithstanding subsection (a)(17), for individuals described in paragraph (1) who are covered under the State plan by virtue of subsection (a)(10)(A)(ii)(X)—

[(A) the income standard to be applied is the income standard described in paragraph (1)(B), and

[(B) except as provided in section 1612(b)(4)(B)(ii), costs incurred for medical care or for any other type of remedial care shall not be taken into account in determining income.

Any different treatment provided under this paragraph for such individuals shall not, because of subsection (a)(17), require or permit such treatment for other individuals.

[(4) Notwithstanding subsection (a)(17), for qualified medicare beneficiaries described in section 1905(p)(1)—

[(A) the income standard to be applied is the income standard described in section 1905(p)(1)(B), and

[(B) except as provided in section 1612(b)(4)(B)(ii), costs incurred for medical care or for any other type of remedial care shall not be taken into account in determining income.

Any different treatment provided under this paragraph for such individuals shall not, because of subsection (a)(17), require or permit such treatment for other individuals.

[(n) In the case of medical assistance furnished under this title for medicare cost-sharing respecting the furnishing of a service or

item to a qualified medicare beneficiary, the State plan may provide payment in an amount with respect to the service or item that results in the sum of such payment amount and any amount of payment made under title XVIII with respect to the service or item exceeding the amount that is otherwise payable under the State plan for the item or service for eligible individuals who are not qualified medicare beneficiaries.

[(o) Notwithstanding any provision of subsection (a) to the contrary, a State plan under this title shall provide that any supplemental security income benefits paid by reason of subparagraph (E) or (G) of section 1611(e)(1) to an individual who—

[(1) is eligible for medical assistance under the plan, and

[(2) is in a hospital, skilled nursing facility, or intermediate care facility at the time such benefits are paid, will be disregarded for purposes of determining the amount of any post-eligibility contribution by the individual to the cost of the care and services provided by the hospital, skilled nursing facility, or intermediate care facility.

[(p)(1) In addition to any other authority, a State may exclude any individual or entity for purposes of participating under the State plan under this title for any reason for which the Secretary could exclude the individual or entity from participation in a program under title XVIII under section 1128, 1128A, or 1866(b)(2).

[(2) In order for a State to receive payments for medical assistance under section 1903(a), with respect to payments the State makes to a health maintenance organization (as defined in section 1903(m)) or to an entity furnishing services under a waiver approved under section 1915(b)(1), the State must provide that it will exclude from participation, as such an organization or entity, any organization or entity that—

[(A) could be excluded under section 1128(b)(8) (relating to owners and managing employees who have been convicted of certain crimes or received other sanctions),

[(B) has, directly or indirectly, a substantial contractual relationship (as defined by the Secretary) with an individual or entity that is described in section 1128(b)(8)(B), or

[(C) employs or contracts with any individual or entity that is excluded from participation under this title under section 1128 or 1128A for the provision of health care, utilization review, medical social work, or administrative services or employs or contracts with any entity for the provision (directly or indirectly) through such an excluded individual or entity of such services.

[(3) As used in this subsection, the term “exclude” includes the refusal to enter into or renew a participation agreement or the termination of such an agreement.

[(q)(1)(A) In order to meet the requirement of subsection (a)(50), the State plan must provide that, in the case of an institutionalized individual or couple described in subparagraph (B), in determining the amount of the individual’s or couple’s income to be applied monthly to payment for the cost of care in an institution, there shall be deducted from the monthly income (in addition to other allowances otherwise provided under the State plan) a monthly personal needs allowance—

[(i) which is reasonable in amount for clothing and other personal needs of the individual (or couple) while in an institution, and

[(ii) which is not less (and may be greater) than the minimum monthly personal needs allowance described in paragraph (2).

[(B) In this subsection, the term “institutionalized individual or couple” means an individual or married couple—

[(i) who is an inpatient (or who are inpatients) in a medical institution or nursing facility for which payments are made under this title throughout a month, and

[(ii) who is or are determined to be eligible for medical assistance under the State plan.

[(2) The minimum monthly personal needs allowance described in this paragraph is \$30 for an institutionalized individual and \$60 for an institutionalized couple (if both are aged, blind, or disabled, and their incomes are considered available to each other in determining eligibility).

[(r)(1) For purposes of sections 1902(a)(17) and 1924(d)(1)(D) and for purposes of a waiver under section 1915, with respect to the post-eligibility treatment of income of individuals who are institutionalized or receiving home or community-based services under such a waiver there shall be disregarded reparation payments made by the Federal Republic of Germany and, there shall be taken into account amounts for incurred expenses for medical or remedial care that are not subject to payment by a third party, including—

[(i) medicare and other health insurance premiums, deductibles, or coinsurance, and

[(ii) necessary medical or remedial care recognized under State law but not covered under the State plan under this title, subject to reasonable limits the State may establish on the amount of these expenses.

[(2)(A) The methodology to be employed in determining income and resource eligibility for individuals under subsection (a)(10)(A)(i)(III), (a)(10)(A)(i)(IV), (a)(10)(A)(i)(VI), (a)(10)(A)(i)(VII), (a)(10)(A)(ii), (a)(10)(C)(i)(III), or (f) or under section 1905(p) may be less restrictive, and shall be no more restrictive, than the methodology—

[(i) in the case of groups consisting of aged, blind, or disabled individuals, under the supplemental security income program under title XVI, or

[(ii) in the case of other groups, under the State plan most closely categorically related.

[(B) For purposes of this subsection and subsection (a)(10), methodology is considered to be “no more restrictive” if, using the methodology, additional individuals may be eligible for medical assistance and no individuals who are otherwise eligible are made ineligible for such assistance.

[(s) In order to meet the requirements of subsection (a)(55), the State plan must provide that payments to hospitals under the plan for inpatient hospital services furnished to infants who have not attained the age of 1 year, and to children who have not at-

tained the age of 6 years and who receive such services in a disproportionate share hospital described in section 1923(b)(1), shall—

[(1) if made on a prospective basis (whether per diem, per case, or otherwise) provide for an outlier adjustment in payment amounts for medically necessary inpatient hospital services involving exceptionally high costs or exceptionally long lengths of stay,

[(2) not be limited by the imposition of day limits with respect to the delivery of such services to such individuals, and

[(3) not be limited by the imposition of dollar limits (other than such limits resulting from prospective payments as adjusted pursuant to paragraph (1)) with respect to the delivery of such services to any such individual who has not attained their first birthday (or in the case of such an individual who is an inpatient on his first birthday until such individual is discharged).

[(t) Nothing in this title (including sections 1903(a) and 1905(a)) shall be construed as authorizing the Secretary to deny or limit payments to a State for expenditures, for medical assistance for items or services, attributable to taxes of general applicability imposed with respect to the provision of such items or services.

[(u)(1) Individuals described in this paragraph are individuals—

[(A) who are entitled to elect COBRA continuation coverage (as defined in paragraph (3)),

[(B) whose income (as determined under section 1612 for purposes of the supplemental security income program) does not exceed 100 percent of the official poverty line (as defined by the Office of Management and Budget, and revised annually in accordance with section 673(2) of the Omnibus Budget Reconciliation Act of 1981) applicable to a family of the size involved,

[(C) whose resources (as determined under section 1613 for purposes of the supplemental security income program) do not exceed twice the maximum amount of resources that an individual may have and obtain benefits under that program, and

[(D) with respect to whose enrollment for COBRA continuation coverage the State has determined that the savings in expenditures under this title resulting from such enrollment is likely to exceed the amount of payments for COBRA premiums made.

[(2) For purposes of subsection (a)(10)(F) and this subsection, the term “COBRA premiums” means the applicable premium imposed with respect to COBRA continuation coverage.

[(3) In this subsection, the term “COBRA continuation coverage” means coverage under a group health plan provided by an employer with 75 or more employees provided pursuant to title XXII of the Public Health Service Act, section 4980B of the Internal Revenue Code of 1986, or title VI of the Employee Retirement Income Security Act of 1974.

[(4) Notwithstanding subsection (a)(17), for individuals described in paragraph (1) who are covered under the State plan by virtue of subsection (a)(10)(A)(ii)(XI)—

[(A) the income standard to be applied is the income standard described in paragraph (1)(B), and

[(B) except as provided in section 1612(b)(4)(B)(ii), costs incurred for medical care or for any other type of remedial care shall not be taken into account in determining income.

Any different treatment provided under this paragraph for such individuals shall not, because of subsection (a)(10)(B) or (a)(17), require or permit such treatment for other individuals.

[(v)(1) A State plan may provide for the making of determinations of disability or blindness for the purpose of determining eligibility for medical assistance under the State plan by the single State agency or its designee, and make medical assistance available to individuals whom it finds to be blind or disabled and who are determined otherwise eligible for such assistance during the period of time prior to which a final determination of disability or blindness is made by the Social Security Administration with respect to such an individual. In making such determinations, the State must apply the definitions of disability and blindness found in section 1614(a) of the Social Security Act.

[(w)(1) For purposes of subsection (a)(57) and sections 1903(m)(1)(A) and 1919(c)(2)(E), the requirement of this subsection is that a provider or organization (as the case may be) maintain written policies and procedures with respect to all adult individuals receiving medical care by or through the provider or organization—

[(A) to provide written information to each such individual concerning—

[(i) an individual's rights under State law (whether statutory or as recognized by the courts of the State) to make decisions concerning such medical care, including the right to accept or refuse medical or surgical treatment and the right to formulate advance directives (as defined in paragraph (3)), and

[(ii) the provider's or organization's written policies respecting the implementation of such rights;

[(B) to document in the individual's medical record whether or not the individual has executed an advance directive;

[(C) not to condition the provision of care or otherwise discriminate against an individual based on whether or not the individual has executed an advance directive;

[(D) to ensure compliance with requirements of State law (whether statutory or as recognized by the courts of the State) respecting advance directives; and

[(E) to provide (individually or with others) for education for staff and the community on issues concerning advance directives.

Subparagraph (C) shall not be construed as requiring the provision of care which conflicts with an advance directive.

[(2) The written information described in paragraph (1)(A) shall be provided to an adult individual—

[(A) in the case of a hospital, at the time of the individual's admission as an inpatient,

[(B) in the case of a nursing facility, at the time of the individual's admission as a resident,

[(C) in the case of a provider of home health care or personal care services, in advance of the individual coming under the care of the provider,

[(D) in the case of a hospice program, at the time of initial receipt of hospice care by the individual from the program, and

[(E) in the case of a health maintenance organization, at the time of enrollment of the individual with the organization.

[(3) Nothing in this section shall be construed to prohibit the application of a State law which allows for an objection on the basis of conscience for any health care provider or any agent of such provider which as a matter of conscience cannot implement an advance directive.

[(4) In this subsection, the term “advance directive” means a written instruction, such as a living will or durable power of attorney for health care, recognized under State law (whether statutory or as recognized by the courts of the State) and relating to the provision of such care when the individual is incapacitated.

[(x) The Secretary shall establish a system, for implementation by not later than July 1, 1991, which provides for a unique identifier for each physician who furnishes services for which payment may be made under a State plan approved under this title.

[(y)(1) In addition to any other authority under State law, where a State determines that a psychiatric hospital which is certified for participation under its plan no longer meets the requirements for a psychiatric hospital (referred to in section 1905(h)) and further finds that the hospital’s deficiencies—

[(A) immediately jeopardize the health and safety of its patients, the State shall terminate the hospital’s participation under the State plan; or

[(B) do not immediately jeopardize the health and safety of its patients, the State may terminate the hospital’s participation under the State plan, or provide that no payment will be made under the State plan with respect to any individual admitted to such hospital after the effective date of the finding, or both.

[(2) Except as provided in paragraph (3), if a psychiatric hospital described in paragraph (1)(B) has not complied with the requirements for a psychiatric hospital under this title—

[(A) within 3 months after the date the hospital is found to be out of compliance with such requirements, the State shall provide that no payment will be made under the State plan with respect to any individual admitted to such hospital after the end of such 3-month period, or

[(B) within 6 months after the date the hospital is found to be out of compliance with such requirements, no Federal financial participation shall be provided under section 1903(a) with respect to further services provided in the hospital until the State finds that the hospital is in compliance with the requirements of this title.

[(3) The Secretary may continue payments, over a period of not longer than 6 months from the date the hospital is found to be out of compliance with such requirements, if—

[(A) the State finds that it is more appropriate to take alternative action to assure compliance of the hospital with the

requirements than to terminate the certification of the hospital,

[(B) the State has submitted a plan and timetable for corrective action to the Secretary for approval and the Secretary approves the plan of corrective action, and

[(C) the State agrees to repay to the Federal Government payments received under this paragraph if the corrective action is not taken in accordance with the approved plan and timetable.

[(C) whose resources (as determined under the State plan under this title with respect to disabled individuals) do not exceed the maximum amount of resources a disabled individual described in subsection (a)(10)(A)(i) may have and obtain medical assistance under the plan.

[(1) an amount equal to the Federal medical assistance percentage (as defined in section 1905(b), subject to subsections (g) and (j) of this section and subsection 1923(f) of the total amount expended during such quarter as medical assistance under the State plan; plus

[(2)(A) an amount equal to 75 per centum of so much of the sums expended during such quarter (as found necessary by the Secretary for the proper and efficient administration of the State plan) as are attributable to compensation or training of skilled professional medical personnel, and staff directly sup-

[(B) notwithstanding paragraph (1) or subparagraph (A), with respect to amounts expended for nursing aide training and competency evaluation programs, and competency evaluation programs, described in section 1919(e)(1) (including the costs for nurse aides to complete such competency evaluation programs), regardless of whether the programs are provided in or outside nursing facilities or of the skill of the personnel involved in such programs, an amount equal to 50 percent (or, for calendar quarters beginning on or after July 1, 1988, and before October 1, 1990, the lesser of 90 percent or the Federal medical assistance percentage plus 25 percentage points) of so much of the sums expended during such quarter (as found necessary by the Secretary for the proper and efficient administration of the State plan) as are attributable to such programs; plus

[(C) an amount equal to 75 percent of so much of the sums expended during such quarter (as found necessary by the Secretary for the proper and efficient administration of the State plan) as are attributable to preadmission screening and resident review activities conducted by the State under section 1919(e)(7); plus

[(i) fiscal year 1991, an amount equal to 90 percent,

[(ii) fiscal year 1992, an amount equal to 85 percent,

[(iii) fiscal year 1993, an amount equal to 80 percent,

and

[(iv) fiscal year 1994 and thereafter, an amount equal to 75 percent,

[(3) an amount equal to—

[(A)(i) 90 per centum of so much of the sums expended during such quarter as are attributable to the design, development, or installation of such mechanized claims processing and information retrieval systems as the Secretary determines are likely to provide more efficient, economical, and effective administration of the plan and to be compatible with the claims processing and information retrieval systems utilized in the administration of title XVIII, including the State's share of the cost of installing such a system to be used jointly in the administration of such State's plan and the plan of any other State approved under this title, and

[(ii) 90 per centum of so much of the sums expended during any such quarter in the fiscal year ending June 30, 1972, or the fiscal year ending June 30, 1973, as are attributable to the design, development, or installation of cost determination systems for State-owned general hospitals (except that the total amount paid to all States

under this clause for either such fiscal year shall not exceed \$150,000), and

[(B) 75 per centum of so much of the sums expended during such quarter as are attributable to the operation of systems (whether such systems are operated directly by the State or by another person under a contract with the State) of the type described in subparagraph (A)(i) (whether or not designed, developed, or installed with assistance under such subparagraph) which are approved by the Secretary and which include provision for prompt written notice to each individual who is furnished services covered by the plan, or to each individual in a sample group of individuals who are furnished such services, of the specific services (other than confidential services) so covered, the name of the person or persons furnishing the services, the date or dates on which the services were furnished, and the amount of the payment or payments made under the plan on account of the services; and

[(C) 75 per centum of the sums expended with respect to costs incurred during such quarter (as found necessary by the Secretary for the proper and efficient administration of the State plan) as are attributable to the performance of medical and utilization review or quality review by a utilization and quality control peer review organization or by an entity which meets the requirements of section 1152, as determined by the Secretary, under a contract entered into under section 1902(d); and

[(D) 75 percent of so much of the sums expended by the State plan during a quarter in 1991, 1992, or 1993, as the Secretary determines is attributable to the statewide adoption of a drug use review program which conforms to the requirements of section 1927(g); plus

[(4) an amount equal to 100 percent of the sums expended during the quarter which are attributable to the costs of the implementation and operation of the immigration status verification system described in section 1137(d); plus

[(5) an amount equal to 90 per centum of the sums expended during such quarter which are attributable to the offering, arranging, and furnishing (directly or on a contract basis) of family planning services and supplies;

[(6) subject to subsection (b)(3), an amount equal to—

[(A) 90 per centum of the sums expended during such a quarter within the twelve-quarter period beginning with the first quarter in which a payment is made to the State pursuant to this paragraph, and

[(B) 75 per centum of the sums expended during each succeeding calendar quarter, with respect to costs incurred during such quarter (as found necessary by the Secretary for the elimination of fraud in the provision and administration of medical assistance provided under the State plan) which are attributable to the establishment and operation of (including the training of personnel employed by) a State medicaid fraud control unit (described in subsection (q)); plus

[(7) subject to section 1919(g)(3)(B), an amount equal to 50 per centum of the remainder of the amounts expended during such quarter as found necessary by the Secretary for the proper and efficient administration of the State plan.

[(b)(1) Notwithstanding the preceding provisions of this section, the amount determined under subsection (a)(1) for any State for any quarter beginning after December 31, 1969, shall not take into account any amounts expended as medical assistance with respect to individuals aged 65 or over and disabled individuals entitled to hospital insurance benefits under title XVIII which would not have been so expended if the individuals involved had been enrolled in the insurance program established by part B of title XVIII, other than amounts expended under provisions of the plan of such State required by section 1902(a)(34).

[(2) For limitation on Federal participation for capital expenditures which are out of conformity with a comprehensive plan of a State or areawide planning agency, see section 1122.

[(3) The amount of funds which the Secretary is otherwise obligated to pay a State during a quarter under subsection (a)(6) may not exceed the higher of—

[(A) \$125,000, or

[(B) one-quarter of 1 per centum of the sums expended by the Federal, State, and local governments during the previous quarter in carrying out the State's plan under this title.

[(c) Nothing in this title shall be construed as prohibiting or restricting, or authorizing the Secretary to prohibit or restrict, payment under subsection (a) for medical assistance for covered services furnished to a child with a disability because such services are included in the child's individualized education program established pursuant to part B of the Individuals with Disabilities Education Act or furnished to an infant or toddler with a disability because such services are included in the child's individualized family service plan adopted pursuant to part H of such Act.

[(d)(1) Prior to the beginning of each quarter, the Secretary shall estimate the amount to which a State will be entitled under subsections (a) and (b) for such quarter, such estimates to be based on (A) a report filed by the State containing its estimate of the total sum to be expended in such quarter in accordance with the provisions of such subsections, and stating the amount appropriated or made available by the State and its political subdivisions for such expenditures in such quarter, and if such amount is less than the State's proportionate share of the total sum of such estimated expenditures, the source or sources from which the difference is expected to be derived, and (B) such other investigation as the Secretary may find necessary.

[(2)(A) The Secretary shall then pay to the State, in such installments as he may determine, the amount so estimated, reduced or increased to the extent of any overpayment or underpayment which the Secretary determines was made under this section to such State for any prior quarter and with respect to which adjustment has not already been made under this subsection.

[(B) Expenditures for which payments were made to the State under subsection (a) shall be treated as an overpayment to the extent that the State or local agency administering such plan has

been reimbursed for such expenditures by a third party pursuant to the provisions of its plan in compliance with section 1902(a)(25).

[(C) For purposes of this subsection, when an overpayment is discovered, which was made by a State to a person or other entity, the State shall have a period of 60 days in which to recover or attempt to recover such overpayment before adjustment is made in the Federal payment to such State on account of such overpayment. Except as otherwise provided in subparagraph (D), the adjustment in the Federal payment shall be made at the end of the 60 days, whether or not recovery was made.

[(D) In any case where the State is unable to recover a debt which represents an overpayment (or any portion thereof) made to a person or other entity on account of such debt having been discharged in bankruptcy or otherwise being uncollectable, no adjustment shall be made in the Federal payment to such State on account of such overpayment (or portion thereof).

[(3) The pro rata share to which the United States is equitably entitled, as determined by the Secretary, of the net amount recovered during any quarter by the State or any political subdivision thereof with respect to medical assistance furnished under the State plan shall be considered an overpayment to be adjusted under this subsection.

[(4) Upon the making of any estimate by the Secretary under this subsection, any appropriations available for payments under this section shall be deemed obligated.

[(5) In any case in which the Secretary estimates that there has been an overpayment under this section to a State on the basis of a claim by such State that has been disallowed by the Secretary under section 1116(d), and such State disputes such disallowance, the amount of the Federal payment in controversy shall, at the option of the State, be retained by such State or recovered by the Secretary pending a final determination with respect to such payment amount. If such final determination is to the effect that any amount was properly disallowed, and the State chose to retain payment of the amount in controversy, the Secretary shall offset, from any subsequent payments made to such State under this title, an amount equal to the proper amount of the disallowance plus interest on such amount disallowed for the period beginning on the date such amount was disallowed and ending on the date of such final determination at a rate (determined by the Secretary) based on the average of the bond equivalent of the weekly 90-day treasury bill auction rates during such period.

[(6)(A) Each State (as defined in subsection (w)(7)(D)) shall include, in the first report submitted under paragraph (1) after the end of each fiscal year, information related to—

[(i) provider-related donations made to the State or units of local government during such fiscal year, and

[(ii) health care related taxes collected by the State or such units during such fiscal year.

[(B) Each State shall include, in the first report submitted under paragraph (1) after the end of each fiscal year, information related to the total amount of payment adjustments made, and the amount of payment adjustments made to individual providers (by provider), under section 1923(c) during such fiscal year.

[(e) A State plan approved under this title may include, as a cost with respect to hospital services under the plan under this title, periodic expenditures made to reflect transitional allowances established with respect to a hospital closure or conversion under section 1884.

[(f)(1)(A) Except as provided in paragraph (4), payment under the preceding provisions of this section shall not be made with respect to any amount expended as medical assistance in a calendar quarter, in any State, for any member of a family the annual income of which exceeds the applicable income limitation determined under this paragraph.

[(B)(i) Except as provided in clause (ii) of this subparagraph, the applicable income limitation with respect to any family is the amount determined, in accordance with standards prescribed by the Secretary, to be equivalent to 133 $\frac{1}{3}$ percent of the highest amount which would ordinarily be paid to a family of the same size without any income or resources, in the form of money payments, under the plan of the State approved under part A of title IV of this Act.

[(ii) If the Secretary finds that the operation of a uniform maximum limits payments to families of more than one size, he may adjust the amount otherwise determined under clause (i) to take account of families of different sizes.

[(C) The total amount of any applicable income limitation determined under subparagraph (B) shall, if it is not a multiple of \$100 or such other amount as the Secretary may prescribe, be rounded to the next higher multiple of \$100 or such other amount, as the case may be.

[(2)(A) In computing a family's income for purposes of paragraph (1), there shall be excluded any costs (whether in the form of insurance premiums or otherwise and regardless of whether such costs are reimbursed under another public program of the State or political subdivision thereof) incurred by such family for medical care or for any other type of remedial care recognized under State law or, (B) notwithstanding section 1916 at State option, an amount paid by such family, at the family's option, to the State, provided that the amount, when combined with costs incurred in prior months, is sufficient when excluded from the family's income to reduce such family's income below the applicable income limitation described in paragraph (1). The amount of State expenditures for which medical assistance is available under subsection (a)(1) will be reduced by amounts paid to the State pursuant to this subparagraph..

[(3) For purposes of paragraph (1)(B), in the case of a family consisting of only one individual, the "highest amount which would ordinarily be paid" to such family under the State's plan approved under part A of title IV of this Act shall be the amount determined by the State agency (on the basis of reasonable relationship to the amounts payable under such plan to families consisting of two or more persons) to be the amount of the aid which would ordinarily be payable under such plan to a family (without any income or resources) consisting of one person if such plan provided for aid to such a family.

[(4) The limitations on payment imposed by the preceding provisions of this subsection shall not apply with respect to any amount expended by a State as medical assistance for any individual described in section 1902(a)(10)(A)(i)(III), 1902(a)(10)(A)(i)(IV), 1902(a)(10)(A)(i)(V), 1902(a)(10)(A)(i)(VI), 1902(a)(10)(A)(i)(VII), 1902(a)(10)(A)(ii)(IX), 1902(a)(10)(A)(ii)(X), or 1905(p)(1) or for any individual—

[(A) who is receiving aid or assistance under any plan of the State approved under title I, X, XIV or XVI, or part A of title IV, or with respect to whom supplemental security income benefits are being paid under title XVI, or

[(B) who is not receiving such aid or assistance, and with respect to whom such benefits are not being paid, but (i) is eligible to receive such aid or assistance, or to have such benefits paid with respect to him, or (ii) would be eligible to receive such aid or assistance, or to have such benefits paid with respect to him if he were not in a medical institution, or

[(C) with respect to whom there is being paid, or who is eligible, or would be eligible if he were not in a medical institution, to have paid with respect to him, a State supplementary payment and is eligible for medical assistance equal in amount, duration, and scope to the medical assistance made available to individuals described in section 1902(a)(10)(A), but only if the income of such individual (as determined under section 1612, but without regard to subsection (b) thereof) does not exceed 300 percent of the supplemental security income benefit rate established by section 1611(b)(1),

at the time of the provision of the medical assistance giving rise to such expenditure.

[(g)(1) Subject to paragraph (3), with respect to amounts paid for the following services furnished under the State plan after June 30, 1973 (other than services furnished pursuant to a contract with a health maintenance organization as defined in section 1876 or which is a qualified health maintenance organization (as defined in section 1310(d) of the Public Health Service Act)), the Federal medical assistance percentage shall be decreased as follows: After an individual has received inpatient hospital services or services in an intermediate care facility for the mentally retarded for 60 days or inpatient mental hospital services for 90 days (whether or not such days are consecutive), during any fiscal year, the Federal medical assistance percentage with respect to amounts paid for any such care furnished thereafter to such individual shall be decreased by a per centum thereof (determined under paragraph (5)) unless the State agency responsible for the administration of the plan makes a showing satisfactory to the Secretary that, with respect to each calendar quarter for which the State submits a request for payment at the full Federal medical assistance percentage for amounts paid for inpatient hospital services or services in an intermediate care facility for the mentally retarded furnished beyond 60 days (or inpatient mental hospital services furnished beyond 90 days), such State has an effective program of medical review of the care of patients in mental hospitals and intermediate care facilities for the mentally retarded pursuant to paragraphs (26) and (31) of section 1902(a) whereby the professional management of each case is re-

viewed and evaluated at least annually by independent professional review teams. In determining the number of days on which an individual has received services described in this subsection, there shall not be counted any days with respect to which such individual is entitled to have payments made (in whole or in part) on his behalf under section 1812.

[(2) The Secretary shall, as part of his validation procedures under this subsection, conduct timely sample onsite surveys of private and public institutions in which recipients of medical assistance may receive care and services under a State plan approved under this title, and his findings with respect to such surveys (as well as the showings of the State agency required under this subsection) shall be made available for public inspection.

[(3)(A) No reduction in the Federal medical assistance percentage of a State otherwise required to be imposed under this subsection shall take effect—

[(i) if such reduction is due to the State's unsatisfactory or invalid showing made with respect to a calendar quarter beginning before January 1, 1977;

[(ii) before January 1, 1978;

[(iii) unless a notice of such reduction has been provided to the State at least 30 days before the date such reduction takes effect; or

[(iv) due to the State's unsatisfactory or invalid showing made with respect to a calendar quarter beginning after September 30, 1977, unless notice of such reduction has been provided to the State no later than the first day of the fourth calendar quarter following the calendar quarter with respect to which such showing was made.

[(B) The Secretary shall waive application of any reduction in the Federal medical assistance percentage of a State otherwise required to be imposed under paragraph (1) because a showing by the State, made under such paragraph with respect to a calendar quarter ending after January 1, 1977, and before January 1, 1978, is determined to be either unsatisfactory under such paragraph or invalid under paragraph (2), if the Secretary determines that the State's showing made under paragraph (1) with respect to any calendar quarter ending on or before December 31, 1978, is satisfactory under such paragraph and is valid under paragraph (2).

[(4)(A) The Secretary may not find the showing of a State, with respect to a calendar quarter under paragraph (1), to be satisfactory if the showing is submitted to the Secretary later than the 30th day after the last day of the calendar quarter, unless the State demonstrates to the satisfaction of the Secretary good cause for not meeting such deadline.

[(B) The Secretary shall find a showing of a State, with respect to a calendar quarter under paragraph (1), to be satisfactory under such paragraph with respect to the requirement that the State conduct annual onsite inspections in mental hospitals and intermediate care facilities for the mentally retarded under paragraphs (26) and (31) of section 1902(a), if the showing demonstrates that the State has conducted such an onsite inspection during the 12-month period ending on the last date of the calendar quarter—

[(i) in each of not less than 98 per centum of the number of such hospitals and facilities requiring such inspection, and

[(ii) in every such hospital or facility which has 200 or more beds,

and that, with respect to such hospitals and facilities not inspected within such period, the State has exercised good faith and due diligence in attempting to conduct such inspection, or if the State demonstrates to the satisfaction of the Secretary that it would have made such a showing but for failings of a technical nature only.

[(5) In the case of a State's unsatisfactory or invalid showing made with respect to a type of facility or institutional services in a calendar quarter, the per centum amount of the reduction of the State's Federal medical assistance percentage for that type of services under paragraph (1) is equal to $33\frac{1}{3}$ per centum multiplied by a fraction, the denominator of which is equal to the total number of patients receiving that type of services in that quarter under the State plan in facilities or institutions for which a showing was required to be made under this subsection, and the numerator of which is equal to the number of such patients receiving such type of services in that quarter in those facilities or institutions for which a satisfactory and valid showing was not made for that calendar quarter.

[(6)(A) Recertifications required under section 1902(a)(44) shall be conducted at least every 60 days in the case of inpatient hospital services.

[(B) Such recertifications in the case of services in an intermediate care facility for the mentally retarded shall be conducted at least—

[(i) 60 days after the date of the initial certification,

[(ii) 180 days after the date of the initial certification,

[(iii) 12 months after the date of the initial certification,

[(iv) 18 months after the date of the initial certification,

[(v) 24 months after the date of the initial certification,

and

[(vi) every 12 months thereafter.

[(C) For purposes of determining compliance with the schedule established by this paragraph, a recertification shall be considered to have been done on a timely basis if it was performed not later than 10 days after the date the recertification was otherwise required and the State establishes good cause why the physician or other person making such recertification did not meet such schedule.

[(i) Payment under the preceding provisions of this section shall not be made—

[(1) for organ transplant procedures unless the State plan provides for written standards respecting the coverage of such procedures and unless such standards provide that—

[(A) similarly situated individuals are treated alike;

and

[(B) any restriction, on the facilities or practitioners which may provide such procedures, is consistent with the accessibility of high quality care to individuals eligible for the procedures under the State plan; or

[(2) with respect to any amount expended for an item or service (other than an emergency item or service, not including items or services furnished in an emergency room of a hospital) furnished—

[(A) under the plan by any individual or entity during any period when the individual or entity is excluded from participation under title V, XVIII, or XX or under this title pursuant to section 1128, 1128A, 1156, or 1842(j)(2), or

[(B) at the medical direction or on the prescription of a physician, during the period when such physician is excluded from participation under title V, XVIII, or XX or under this title pursuant to section 1128, 1128A, 1156, or 1842(j)(2) and when the person furnishing such item or service knew or had reason to know of the exclusion (after a reasonable time period after reasonable notice has been furnished to the person).

[(3) with respect to any amount expended for inpatient hospital services furnished under the plan (other than amounts attributable to the special situation of a hospital which serves a disproportionate number of low income patients with special needs) to the extent that such amount exceeds the hospital's customary charges with respect to such services or (if such services are furnished under the plan by a public institution free of charge or at nominal charges to the public) exceeds an amount determined on the basis of those items (specified in regulations prescribed by the Secretary) included in the determination of such payment which the Secretary finds will provide fair compensation to such institution for such services; or

[(4) with respect to any amount expended for care or services furnished under the plan by a hospital unless such hospital has in effect a utilization review plan which meets the requirements imposed by section 1861(k) for purposes of title XVIII; and if such hospital has in effect such a utilization review plan for purposes of title XVIII, such plan shall serve as the plan required by this subsection (with the same standards and procedures and the same review committee or group) as a condition of payment under this title; the Secretary is authorized to waive the requirements of this paragraph if the State agency demonstrates to his satisfaction that it has in operation utilization review procedures which are superior in their effectiveness to the procedures required under section 1861(k); or

[(5) with respect to any amount expended for any drug product for which payment may not be made under part B of title XVIII because of section 1862(c); or

[(6) with respect to any amount expended for inpatient hospital tests (other than in emergency situations) not specifically ordered by the attending physician or other responsible practitioner; or

[(7) with respect to any amount expended for clinical diagnostic laboratory tests performed by a physician, independent laboratory, or hospital, to the extent such amount exceeds the amount that would be recognized under section 1833(h) for such tests performed for an individual enrolled under part B of title XVIII; or

[(8) with respect to any amount expended for medical assistance (A) for nursing facility services to reimburse (or otherwise compensate) a nursing facility for payment of a civil money penalty imposed under section 1919(h) or (B) for home and community care to reimburse (or otherwise compensate) a provider of such care for payment of a civil money penalty imposed under this title or title XI or for legal expenses in defense of an exclusion or civil money penalty under this title or title XI if there is no reasonable legal ground for the provider's case; or

[(9) with respect to any amount of medical assistance for pregnant women and children described in section 1902(a)(10)(A)(ii)(IX), if the State has in effect, under its plan established under part A of title IV, payment levels that are less than the payment levels in effect under such plan on July 1, 1987;

[(10)(A) with respect to covered outpatient drugs unless there is a rebate agreement in effect under section 1927 with respect to such drugs or unless section 1927(a)(3) applies, and

[(B) with respect to any amount expended for an innovator multiple source drug (as defined in section 1927(k)) dispensed on or after July 1, 1991, if, under applicable State law, a less expensive multiple source drug could have been dispensed, but only to the extent that such amount exceeds the upper payment limit for such multiple source drug;

[(11) with respect to any amount expended for physicians' services furnished on or after the first day of the first quarter beginning more than 60 days after the date of establishment of the physician identifier system under section 1902(x), unless the claim for the services includes the unique physician identifier provided under such system;

[(12) with respect to any amount expended for physicians' services furnished by a physician on or after January 1, 1992, to—

[(A) a child under 21 years of age, unless the physician—

[(i) is certified in family practice or pediatrics by the medical specialty board recognized by the American Board of Medical Specialties for family practice or pediatrics,

[(ii) is employed by, or affiliated with, a Federally-qualified health center (as defined in section 1905(l)(2)(B)),

[(iii) holds admitting privileges at a hospital participating in a State plan approved under this title,

[(iv) is a member of the National Health Service Corps,

[(v) documents a current, formal, consultation and referral arrangement with a pediatrician or family practitioner who has the certification described in clause (i) for purposes of specialized treatment and admission to a hospital, or

[(vi) has been certified by the Secretary as qualified to provide physicians' services to a child under 21 years of age; or

[(B) to a pregnant woman (or during the 60 day period beginning on the date of termination of the pregnancy) unless the physician—

[(i) is certified in family practice or obstetrics by the medical specialty board recognized by the American Board of Medical Specialties for family practice or obstetrics,

[(ii) is employed by, or affiliated with, a Federally-qualified health center (as defined in section 1905(l)(2)(B)),

[(iii) holds admitting privileges at a hospital participating in a State plan approved under this title,

[(iv) is a member of the National Health Service Corps,

[(v) documents a current, formal, consultation and referral arrangement with an obstetrician or family practitioner who has the certification described in clause (i) for purposes of specialized treatment and admission to a hospital, or

[(vi) has been certified by the Secretary as qualified to provide physicians' services to pregnant women; or

[(13) with respect to any amount expended to reimburse (or otherwise compensate) a nursing facility for payment of legal expenses associated with any action initiated by the facility that is dismissed on the basis that no reasonable legal ground existed for the institution of such action;

[(14) with respect to any amount expended on administrative costs to carry out the program under section 1928; or

[(15) with respect to any amount expended for a single-antigen vaccine and its administration in any case in which the administration of a combined-antigen vaccine was medically appropriate (as determined by the Secretary).

Nothing in paragraph (1) shall be construed as permitting a State to provide services under its plan under this title that are not reasonable in amount, duration, and scope to achieve their purpose.

[(j) Notwithstanding the preceding provisions of this section, the amount determined under subsection (a)(1) for any State for any quarter shall be adjusted in accordance with section 1914.

[(k) The Secretary is authorized to provide at the request of any State (and without cost to such State) such technical and actuarial assistance as may be necessary to assist such State to contract with any health maintenance organization which meets the requirements of subsection (m) of this section for the purpose of providing medical care and services to individuals who are entitled to medical assistance under this title.

[(m)(1)(A) The term "health maintenance organization" means a public or private organization, organized under the laws of any State, which meets the requirement of section 1902(w) is a qualified health maintenance organization (as defined in section 1310(d)

of the Public Health Service Act) or which meets the requirement of section 1902(a) and—

[(i) makes services it provides to individuals eligible for benefits under this title accessible to such individuals, within the area served by the organization, to the same extent as such services are made accessible to individuals (eligible for medical assistance under the State plan) not enrolled with the organization, and

[(ii) has made adequate provision against the risk of insolvency, which provision is satisfactory to the State and which assures that individuals eligible for benefits under this title are in no case held liable for debts of the organization in case of the organization's insolvency.

[(B) The duties and functions of the Secretary, insofar as they involve making determinations as to whether an organization is a health maintenance organization within the meaning of subparagraph (A), shall be integrated with the administration of section 1312 (a) and (b) of the Public Health Service Act.

[(2)(A) Except as provided in subparagraphs (B), (C), and (G), no payment shall be made under this title to a State with respect to expenditures incurred by it for payment (determined under a prepaid capitation basis or under any other risk basis) for services provided by any entity (including a health insuring organization) which is responsible for the provision (directly or through arrangements with providers of services) of inpatient hospital services and any other service described in paragraph (2), (3), (4), (5), or (7) of section 1905(a) or for the provision of any three or more of the services described in such paragraphs unless—

[(i) the Secretary has determined that the entity is a health maintenance organization as defined in paragraph (1);

[(ii) less than 75 percent of the membership of the entity which is enrolled on a prepaid basis consists of individuals who (I) are insured for benefits under part B of title XVIII or for benefits under both parts A and B of such title, or (II) are eligible to receive benefits under this title;

[(iii) such services are provided for the benefit of individuals eligible for benefits under this title in accordance with a contract between the State and the entity under which prepaid payments to the entity are made on an actuarially sound basis and under which the Secretary must provide prior approval for contracts providing for expenditures in excess of \$100,000;

[(iv) such contract provides that the Secretary and the State (or any person or organization designated by either) shall have the right to audit and inspect any books and records of the entity (and of any subcontractor) that pertain (I) to the ability of the entity to bear the risk of potential financial losses, or (II) to services performed or determinations of amounts payable under the contract;

[(v) such contract provides that in the entity's enrollment, reenrollment, or disenrollment of individuals who are eligible for benefits under this title and eligible to enroll, reenroll, or disenroll with the entity pursuant to the contract, the entity will not discriminate among such individuals on the basis of their health status or requirements for health care services;

[(vi) such contract (I) except as provided under subparagraph (F), permits individuals who have elected under the plan to enroll with the entity for provision of such benefits to terminate such enrollment without cause as of the beginning of the first calendar month following a full calendar month after the request is made for such termination, and (II) provides for notification of each such individual, at the time of the individual's enrollment, of such right to terminate such enrollment;

[(vii) such contract provides that, in the case of medically necessary services which were provided (I) to an individual enrolled with the entity under the contract and entitled to benefits with respect to such services under the State's plan and (II) other than through the organization because the services were immediately required due to an unforeseen illness, injury, or condition, either the entity or the State provides for reimbursement with respect to those services,

[(viii) such contract provides for disclosure of information in accordance with section 1124 and paragraph (4) of this subsection;

[(ix) such contract provides, in the case of an entity that has entered into a contract for the provision of services of such center with a federally qualified health center, that (I) rates of prepayment from the State are adjusted to reflect fully the rates of payment specified in section 1902(a)(13)(E), and (II) at the election of such center payments made by the entity to such a center for services described in 1905(a)(2)(C) are made at the rates of payment specified in section 1902(a)(13)(E);

[(x) any physician incentive plan that it operates meets the requirements described in section 1876(i)(8); and

[(xi) such contract provides for maintenance of sufficient patient encounter data to identify the physician who delivers services to patients.

[(B) Subparagraph (A) except with respect to clause (ix) of subparagraph (A), does not apply with respect to payments under this title to a State with respect to expenditures incurred by it for payment for services provided by an entity which—

[(i)(I) received a grant of at least \$100,000 in the fiscal year ending June 30, 1976, under section 329(d)(1)(A) or 330(d)(1) of the Public Health Service Act, and for the period beginning July 1, 1976, and ending on the expiration of the period for which payments are to be made under this title has been the recipient of a grant under either such section; and

[(II) provides to its enrollees, on a prepaid capitation risk basis or on any other risk basis, all of the services and benefits described in paragraphs (1), (2), (3), (4)(C), and (5) of section 1905(a) and, to the extent required by section 1902(a)(10)(D) to be provided under a State plan for medical assistance, the services and benefits described in paragraph (7) of section 1905(a); or

[(ii) is a nonprofit primary health care entity located in a rural area (as defined by the Appalachian Regional Commission)—

【(I) which received in the fiscal year ending June 30, 1976, at least \$100,000 (by grant, subgrant, or subcontract) under the Appalachian Regional Development Act of 1965, and

【(II) for the period beginning July 1, 1976, and ending on the expiration of the period for which payments are to be made under this title either has been the recipient of a grant, subgrant, or subcontract under such Act or has provided services under a contract (initially entered into during a year in which the entity was the recipient of such a grant, subgrant, or subcontract) with a State agency under this title on a prepaid capitation risk basis or on any other risk basis; or

【(iii) which has contracted with the single State agency for the provision of services (but not including inpatient hospital services) to persons eligible under this title on a prepaid risk basis prior to 1970.

【(C) Subparagraph (A)(ii) shall not apply with respect to payments under this title to a State with respect to expenditures incurred by it for payment for services by an entity during the three-year period beginning on the date of enactment of this subsection or beginning on the date the entity qualifies as a health maintenance organization (as determined by the Secretary), whichever occurs later, but only if the entity demonstrates to the satisfaction of the Secretary by the submission of plans for each year of such three-year period that it is making continuous efforts and progress toward achieving compliance with subparagraph (A)(ii).

【(D) In the case of a health maintenance organization that is a public entity, the Secretary may modify or waive the requirement described in subparagraph (A)(ii) but only if the Secretary determines that the organization has taken and is taking reasonable efforts to enroll individuals who are not entitled to benefits under the State plan approved under this title or under title XVIII.

【(E) In the case of a health maintenance organization that—

【(i) is a nonprofit organization with at least 25,000 members,

【(ii) is and has been a qualified health maintenance organization (as defined in section 1310(d) of the Public Health Service Act) for a period of at least four years,

【(iii) provides basic health services through members of the staff of the organization,

【(iv) is located in an area designated as medically underserved under section 1302(7) of the Public Health Service Act, and

【(v) previously received a waiver of the requirement described in subparagraph (A)(ii) under section 1115,

the Secretary may modify or waive the requirement described in subparagraph (A)(ii) but only if the Secretary determines that special circumstances warrant such modification or waiver and that the organization has taken and is taking reasonable efforts to enroll individuals who are not entitled to benefits under the State plan approved under this title or under title XVIII.

【(F) In the case of—

[(i) a contract with an entity described in subparagraph (E) or (G), with a qualified health maintenance organization (as defined in section 1310(d) of the Public Health Service Act) which meets the requirement of subparagraph (A)(ii), or or with an eligible organization with a contract under section 1876 which meets the requirement of subparagraph (A)(ii), or

[(ii) a program pursuant to an undertaking described in paragraph (6) in which at least 25 percent of the membership enrolled on a prepaid basis are individuals who (I) are not insured for benefits under part B of title XVIII or eligible for benefits under this title, and (II) (in the case of such individuals whose prepayments are made in whole or in part by any government entity) had the opportunity at the time of enrollment in the program to elect other coverage of health care costs that would have been paid in whole or in part by any governmental entity,

a State plan may restrict the period in which requests for termination of enrollment without cause under subparagraph (A)(vi)(I) are permitted to the first month of each period of enrollment, each such period of enrollment not to exceed six months in duration, but only if the State provides notification, at least twice per year, to individuals enrolled with such entity or organization of the right to terminate such enrollment and the restriction on the exercise of this right. Such restriction shall not apply to requests for termination of enrollment for cause.

[(G) In the case of an entity which is receiving (and has received during the previous two years) a grant of at least \$100,000 under section 329(d)(1)(A) or 330(d)(1) of the Public Health Service Act or is receiving (and has received during the previous two years) at least \$100,000 (by grant, subgrant, or subcontract) under the Appalachian Regional Development Act of 1965, clauses (i) and (ii) of subparagraph (A) shall not apply.

[(H) In the case of an individual who—

[(i) in a month is eligible for benefits under this title and enrolled with a health maintenance organization with a contract under this paragraph,

[(ii) in the next month (or in the next 2 months) is not eligible for such benefits, but

[(iii) in the succeeding month is again eligible for such benefits,

the State plan, subject to subparagraph (A)(vi), may enroll the individual for that succeeding month with the health maintenance organization described in clause (i) if the organization continues to have a contract under this paragraph with the State.

[(4)(A) Each health maintenance organization which is not a qualified health maintenance organization (as defined in section 1310(d) of the Public Health Service Act) must report to the State and, upon request, to the Secretary, the Inspector General of the Department of Health and Human Services, and the Comptroller General a description of transactions between the organization and a party in interest (as defined in section 1318(b) of such Act), including the following transactions:

[(i) Any sale or exchange, or leasing of any property between the organization and such a party.

[(ii) Any furnishing for consideration of goods, services (including management services), or facilities between the organization and such a party, but not including salaries paid to employees for services provided in the normal course of their employment.

[(iii) Any lending of money or other extension of credit between the organization and such a party.

The State or Secretary may require that information reported respecting an organization which controls, or is controlled by, or is under common control with, another entity be in the form of a consolidated financial statement for the organization and such entity.

[(B) Each organization shall make the information reported pursuant to subparagraph (A) available to its enrollees upon reasonable request.

[(5)(A) If the Secretary determines that an entity with a contract under this subsection—

[(i) fails substantially to provide medically necessary items and services that are required (under law or under the contract) to be provided to an individual covered under the contract, if the failure has adversely affected (or has substantial likelihood of adversely affecting) the individual;

[(ii) imposes premiums on individuals enrolled under this subsection in excess of the premiums permitted under this title;

[(iii) acts to discriminate among individuals in violation of the provision of paragraph (2)(A)(v), including expulsion or refusal to re-enroll an individual or engaging in any practice that would reasonably be expected to have the effect of denying or discouraging enrollment (except as permitted by this subsection) by eligible individuals with the organization whose medical condition or history indicates a need for substantial future medical services;

[(iv) misrepresents or falsifies information that is furnished—

[(I) to the Secretary or the State under this subsection, or

[(II) to an individual or to any other entity under this subsection, or

[(v) fails to comply with the requirements of section 1876(i)(8),

the Secretary may provide, in addition to any other remedies available under law, for any of the remedies described in subparagraph (B).

[(B) The remedies described in this subparagraph are—

[(i) civil money penalties of not more than \$25,000 for each determination under subparagraph (A), or, with respect to a determination under clause (iii) or (iv)(I) of such subparagraph, of not more than \$100,000 for each such determination, plus, with respect to a determination under subparagraph (A)(ii), double the excess amount charged in violation of such subparagraph (and the excess amount charged shall be deducted from the penalty and returned to the individual concerned), and plus, with respect to a determination under sub-

paragraph (A)(iii), \$15,000 for each individual not enrolled as a result of a practice described in such subparagraph, or

[(ii) denial of payment to the State for medical assistance furnished under the contract under this subsection for individuals enrolled after the date the Secretary notifies the organization of a determination under subparagraph (A) and until the Secretary is satisfied that the basis for such determination has been corrected and is not likely to recur.

The provisions of section 1128A (other than subsections (a) and (b)) shall apply to a civil money penalty under clause (i) in the same manner as such provisions apply to a penalty or proceeding under section 1128A(a).

[(6)(A) For purposes of this subsection and section 1902(e)(2)(A), in the case of the State of New Jersey, the term “contract” shall be deemed to include an undertaking by the State agency, in the State plan under this title, to operate a program meeting all requirements of this subsection.

[(B) The undertaking described in subparagraph (A) must provide—

[(i) for the establishment of a separate entity responsible for the operation of a program meeting the requirements of this subsection, which entity may be a subdivision of the State agency administering the State plan under this title;

[(ii) for separate accounting for the funds used to operate such program;

[(iii) for setting the capitation rates and any other payment rates for services provided in accordance with this subsection using a methodology satisfactory to the Secretary designed to ensure that total Federal matching payments under this title for such services will be lower than the matching payments that would be made for the same services, if provided under the State plan on a fee for service basis to an actuarially equivalent population; and

[(iv) that the State agency will contract, for purposes of meeting the requirement under section 1902(a)(30)(C), with an organization or entity that under section 1154 reviews services provided by an eligible organization pursuant to a contract under section 1876 for the purpose of determining whether the quality of services meets professionally recognized standards of health care.

[(C) The undertaking described in subparagraph (A) shall be subject to approval (and annual re-approval) by the Secretary in the same manner as a contract under this subsection.

[(D) The undertaking described in subparagraph (A) shall not be eligible for a waiver under section 1915(b).

[(o) Notwithstanding the preceding provisions of this section, no payment shall be made to a State under the preceding provisions of this section for expenditures for medical assistance provided for an individual under its State plan approved under this title to the extent that a private insurer (as defined by the Secretary by regulation and including a group health plan (as defined in section 607(1) of the Employee Retirement Income Security Act of 1974)), a service benefit plan, and a health maintenance organization) would have been obligated to provide such assistance but

for a provision of its insurance contract which has the effect of limiting or excluding such obligation because the individual is eligible for or is provided medical assistance under the plan.

[(p)(1) When a political subdivision of a State makes, for the State of which it is a political subdivision, or one State makes, for another State, the enforcement and collection of rights of support or payment assigned under section 1912, pursuant to a cooperative arrangement under such section (either within or outside of such State), there shall be paid to such political subdivision or such other State from amounts which would otherwise represent the Federal share of payments for medical assistance provided to the eligible individuals on whose behalf such enforcement and collection was made, an amount equal to 15 percent of any amount collected which is attributable to such rights of support or payment.

[(2) Where more than one jurisdiction is involved in such enforcement or collection, the amount of the incentive payment determined under paragraph (1) shall be allocated among the jurisdictions in a manner to be prescribed by the Secretary.

[(q) For the purposes of this section, the term "State medicaid fraud control unit" means a single identifiable entity of the State government which the Secretary certifies (and annually recertifies) as meeting the following requirements:

[(1) The entity (A) is a unit of the office of the State Attorney General or of another department of State government which possesses statewide authority to prosecute individuals for criminal violations, (B) is in a State the constitution of which does not provide for the criminal prosecution of individuals by a statewide authority and has formal procedures, approved by the Secretary, that (i) assure its referral of suspected criminal violations relating to the program under this title to the appropriate authority or authorities in the State for prosecution and (ii) assure its assistance of, and coordination with, such authority or authorities in such prosecutions, or (C) has a formal working relationship with the office of the State Attorney General and has formal procedures (including procedures for its referral of suspected criminal violations to such office) which are approved by the Secretary and which provide effective coordination of activities between the entity and such office with respect to the detection, investigation, and prosecution of suspected criminal violations relating to the program under this title.

[(2) The entity is separate and distinct from the single State agency that administers or supervises the administration of the State plan under this title.

[(3) The entity's function is conducting a statewide program for the investigation and prosecution of violations of all applicable State laws regarding any and all aspects of fraud in connection with any aspect of the provision of medical assistance and the activities of providers of such assistance under the State plan under this title.

[(4) The entity has procedures for reviewing complaints of the abuse and neglect of patients of health care facilities which receive payments under the State plan under this title, and, where appropriate, for acting upon such complaints under the

criminal laws of the State or for referring them to other State agencies for action.

[(5) The entity provides for the collection, or referral for collection to a single State agency, of overpayments that are made under the State plan to health care facilities and that are discovered by the entity in carrying out its activities.

[(6) The entity employs such auditors, attorneys, investigators, and other necessary personnel and is organized in such a manner as is necessary to promote the effective and efficient conduct of the entity's activities.

[(7) The entity submits to the Secretary an application and annual reports containing such information as the Secretary determines, by regulation, to be necessary to determine whether the entity meets the other requirements of this subsection.

[(r)(1)(A) In order to receive payments under paragraphs (2)(A) and (7) of subsection (a) without being subject to per centum reductions set forth in subparagraph (C) of this paragraph, a State must provide that mechanized claims processing and information retrieval systems of the type described in subsection (a)(3)(B) and detailed in an advance planning document approved by the Secretary are operational on or before the deadline established under subparagraph (B).

[(B) The deadline for operation of such systems for a State is September 30, 1985.

[(C) If a State fails to meet the deadline established under subparagraph (B), the per centums specified in paragraphs (2)(A) and (7) of subsection (a) with respect to that State shall each be reduced by 5 percentage points for the first two quarters beginning on or after such deadline, and shall be further reduced by an additional 5 percentage points after each period consisting of two quarters during which the Secretary determines the State fails to meet the requirements of subparagraph (A); except that—

[(i) neither such per centum may be reduced by more than 25 percentage points by reason of this paragraph; and

[(ii) no reduction shall be made under this paragraph for any quarter following the quarter during which such State meets the requirements of subparagraph (A).

[(2)(A) In order to receive payments under paragraphs (2)(A) and (7) of subsection (a) without being subject to the per centum reductions set forth in subparagraph (C) of this paragraph, a State must have its mechanized claims processing and information retrieval systems, of the type required to be operational under paragraph (1), initially approved by the Secretary in accordance with paragraph (5)(A) on or before the deadline established under subparagraph (B).

[(B) The deadline for approval of such systems for a State is the last day of the fourth quarter that begins after the date on which the Secretary determines that such systems became operational as required under paragraph (1).

[(C) If a State fails to meet the deadline established under subparagraph (B), the per centums specified in paragraphs (2)(A) and (7) of subsection (a) with respect to that State shall each be reduced by 5 percentage points for the first two quarters beginning

after such deadline, and shall be further reduced by an additional 5 percentage points at the end of each period consisting of two quarters during which the State fails to meet the requirements of subparagraph (A); except that—

【(i) neither such per centum may be reduced by more than 25 percentage points by reason of this paragraph, and

【(ii) no reduction shall be made under this paragraph for any quarter following the quarter during which such State's systems are approved by the Secretary as provided in subparagraph (A).

【(D) Any State's systems which are approved by the Secretary for purposes of subsection (a)(3)(B) on or before the date of the enactment of this subsection shall be deemed to be initially approved for purposes of this subsection.

【(3)(A) When a State's systems are initially approved, the 75 per centum Federal matching provided in subsection (a)(3)(B) shall become effective with respect to such systems, retroactive to the first quarter beginning after the date on which such systems became operational as required under paragraph (1), except as provided in subparagraph (B).

【(B) In the case of any State which was subject to a per centum reduction under paragraph (2), the per centum specified in subsection (a)(3)(B) shall be reduced by 5 percentage points for the first two quarters beginning after the deadline established under paragraph (2)(B), and shall be further reduced by an additional 5 percentage points at the end of each period consisting of two quarters beginning after such deadline and before the date on which such systems are initially approved, except that no reduction shall be made under this paragraph for any quarter following the quarter during which the State's systems are initially approved by the Secretary.

【(4)(A) The Secretary shall review all approved systems not less often than once every three years, and shall reapprove or disapprove any such systems. Systems which fail to meet the current performance standards, system requirements, and any other conditions for approval developed by the Secretary under paragraph (6) shall be disapproved. Any State having systems which are so disapproved shall be subject to a per centum reduction under subparagraph (B). The Secretary shall make the determination of reapproval or disapproval and so notify the States not later than the end of the first quarter following the review period. Reviews may, at the Secretary's discretion, constitute reviews of the entire system or of only those standards, systems requirements, and other conditions which have demonstrated weakness in previous reviews.

【(B) If the Secretary disapproves a State's systems under subparagraph (A), the Secretary shall, with respect to such State for quarters beginning after the determination of disapproval and before the first quarter beginning after such systems are reapproved, reduce the per centum specified in subsection (a)(3)(B) to a per centum of not less than 50 per centum and not more than 70 per centum as the Secretary determines to be appropriate and commensurate with the nature of noncompliance by such State; except that such per centum may not be reduced by more than 10 percentage points in any 4-quarter period by reason of this subparagraph. No

State shall be subject to a per centum reduction under this paragraph (i) before the fifth quarter beginning after such State's systems were initially approved, or (ii) on the basis of a review conducted before October 1, 1981.

[(C) The Secretary may retroactively waive a per centum reduction imposed under subparagraph (B), if the Secretary determines that the State's systems meet all current performance standards and other requirements for reapproval and that such action would improve the administration of the State's plan under this title, except that no such waiver may extend beyond the four quarters immediately prior to the quarter in which the State's systems are reapproved.

[(5)(A) In order to be initially approved by the Secretary, mechanized claims processing and information retrieval systems must be of the type described in subsection (a)(3)(B) and must meet the following requirements:

[(i) The systems must be capable of developing provider, physician, and patient profiles which are sufficient to provide specific information as to the use of covered types of services and items, including prescribed drugs.

[(ii) The State must provide that information on probable fraud or abuse which is obtained from, or developed by, the systems, is made available to the State's medicaid fraud control unit (if any) certified under subsection (q) of this section.

[(iii) The systems must meet all performance standards and other requirements for initial approval developed by the Secretary under paragraph (6).

[(B) In order to be reapproved by the Secretary, mechanized claims processing and information retrieval systems must meet the requirements of subparagraphs (A)(i) and (A)(ii) and performance standards and other requirements for reapproval developed by the Secretary under paragraph (6).

[(6) The Secretary, with respect to State systems, shall—

[(A) develop performance standards, system requirements, and other conditions for approval for use in initially approving such State systems, and shall further develop written approval procedures for conducting reviews for initial approval, including specific criteria for assessing systems in operation to insure that all such performance standards and other requirements are met;

[(B) by not later than October 1, 1980, develop an initial set of performance standards, system requirements, and other conditions for reapproval for use in reapproving or disapproving State systems, and shall further develop written reapproval procedures for conducting reviews for reapproval, including specific criteria for reassessing systems operations over a period of at least six months during each fiscal year to insure that all such performance standards and other requirements are met on a continuous basis;

[(C) provide that reviews for reapproval, conducted before October 1, 1981, shall be for the purpose of developing a systems performance data base and assisting States to improve their systems, and that no per centum reduction shall be made under paragraph (4) on the basis of such a review;

[(D) insure that review procedures, performance standards, and other requirements developed under subparagraph (B) are sufficiently flexible to allow for differing administrative needs among the States, and that such procedures, standards, and requirements are of a nature which will permit their use by the States for self-evaluation;

[(E) notify all States of proposed procedures, standards, and other requirements at least one quarter prior to the fiscal year in which such procedures, standards, and other requirements will be used for conducting reviews for reapproval;

[(F) periodically update the systems performance standards, system requirements, review criteria, objectives, regulations, and guides as the Secretary shall from time to time deem appropriate;

[(G) provide technical assistance to States in the development and improvement of the systems so as to continually improve the capacity of such systems to effectively detect cases of fraud or abuse;

[(H) for the purpose of insuring compatibility between the State systems and the systems utilized in the administration of title XVIII—

[(i) develop a uniform identification coding system (to the extent feasible) for providers, other persons receiving payments under the State plans (approved under this title) or under title XVIII, and beneficiaries of medical services under such plans or title;

[(ii) provide liaison between States and carriers and intermediaries having agreements under title XVIII to facilitate timely exchange of appropriate data; and

[(iii) improve the exchange of data between the States and the Secretary with respect to providers and other persons who have been terminated, suspended, or otherwise sanctioned under a State plan (approved under this title) or under title XVIII;

[(I) develop and disseminate clear definitions of those types of reasonable costs relating to State systems which are reimbursable under the provisions of subsection (a)(3) of this section; and

[(J) develop and disseminate performance standards for assessing the State's third party collection efforts in accordance with section 1902(a)(25)(A)(ii).

[(7)(A) The Secretary shall waive the provisions of this subsection with respect to initial operation and approval of mechanized claims processing and information retrieval systems with respect to any State which—

[(i) had a 1976 population (as reported by the Bureau of the Census) of less than 1,000,000 and which made total expenditures (including Federal reimbursement) for which Federal financial participation is authorized under this title of less than \$100,000,000 in fiscal year 1976 (as reported by such State for such year), or

[(ii) is a Commonwealth, or territory or possession, of the United States,

if such State reasonably demonstrates, and the Secretary does not formally disagree, that the application of such provisions would not significantly improve the efficiency of the administration of such State's plan under this title.

[(B) If the Secretary determines that the application of the provisions described in subparagraph (A) to a State would significantly improve the efficiency of the administration of the State's plan under this title, the Secretary may withdraw the State's waiver under subparagraph (A) and, in such case, the Secretary shall impose a timetable for such State with respect to compliance with the provisions of this subsection and the imposition of per centum reductions. Such timetable shall be comparable to the timetable established under this subsection as to the amount of time allowed such State to comply and the timing of per centum reductions.

[(8)(A) The per centum reductions provided for under this subsection shall not apply to a State for any quarter with respect to which the Secretary determines that such State is unable to comply with the relevant requirements of this subsection—

[(i) for good cause (but such a waiver may not be for a period in excess of 2 quarters), or

[(ii) due to circumstances beyond the control of such State.

[(B) If the Secretary determines under subparagraph (A) that such a reduction will not apply to a State, the Secretary shall report to the Congress on the basis for each such determination and on the modification of all time limitations and deadlines as described in subparagraph (C).

[(C) For purposes of determining all time limitations and deadlines imposed under this subsection, any time period during which a State was found under subparagraph (A)(ii) to be unable to comply with requirements of this subsection due to circumstances beyond its control shall not be taken into account, and the Secretary shall modify all such time limitations and deadlines with respect to such State accordingly.

[(s) Notwithstanding the preceding provisions of this section, no payment shall be made to a State under this section for expenditures for medical assistance under the State plan consisting of a designated health service (as defined in subsection (h)(6) of section 1877) furnished to an individual on the basis of a referral that would result in the denial of payment for the service under title XVIII if such title provided for coverage of such service to the same extent and under the same terms and conditions as under the State plan, and subsections (f) and (g)(5) of such section shall apply to a provider of such a designated health service for which payment may be made under this title in the same manner as such subsections apply to a provider of such a service for which payment may be made under such title.

[(u)(1)(A) Notwithstanding subsection (a)(1), if the ratio of a State's erroneous excess payments for medical assistance (as defined in subparagraph (D)) to its total expenditures for medical assistance under the State plan approved under this title exceeds 0.03, for the period consisting of the third and fourth quarters of fiscal year 1983, or for any full fiscal year thereafter, then the Secretary shall make no payment for such period or fiscal year with

respect to so much of such erroneous excess payments as exceeds such allowable error rate of 0.03.

[(B) The Secretary may waive, in certain limited cases, all or part of the reduction required under subparagraph (A) with respect to any State if such State is unable to reach the allowable error rate for a period or fiscal year despite a good faith effort by such State.

[(C) In estimating the amount to be paid to a State under subsection (d), the Secretary shall take into consideration the limitation on Federal financial participation imposed by subparagraph (A) and shall reduce the estimate he makes under subsection (d)(1), for purposes of payment to the State under subsection (d)(3), in light of any expected erroneous excess payments for medical assistance (estimated in accordance with such criteria, including sampling procedures, as he may prescribe and subject to subsequent adjustment, if necessary, under subsection (d)(2)).

[(D)(i) For purposes of this subsection, the term “erroneous excess payments for medical assistance” means the total of—

[(I) payments under the State plan with respect to ineligible individuals and families, and

[(II) overpayments on behalf of eligible individuals and families by reason of error in determining the amount of expenditures for medical care required of an individual or family as a condition of eligibility.

[(ii) In determining the amount of erroneous excess payments for medical assistance to an ineligible individual or family under clause (i)(I), if such ineligibility is the result of an error in determining the amount of the resources of such individual or family, the amount of the erroneous excess payment shall be the smaller of (I) the amount of the payment with respect to such individual or family, or (II) the difference between the actual amount of such resources and the allowable resource level established under the State plan.

[(iii) In determining the amount of erroneous excess payments for medical assistance to an individual or family under clause (i)(II), the amount of the erroneous excess payment shall be the smaller of (I) the amount of the payment on behalf of the individual or family, or (II) the difference between the actual amount incurred for medical care by the individual or family and the amount which should have been incurred in order to establish eligibility for medical assistance.

[(iv) In determining the amount of erroneous excess payments, there shall not be included any error resulting from a failure of an individual to cooperate or give correct information with respect to third-party liability as required under section 1912(a)(1)(C) or 402(a)(26)(C) or with respect to payments made in violation of section 1906.

[(v) In determining the amount of erroneous excess payments, there shall not be included any erroneous payments made for ambulatory prenatal care provided during a presumptive eligibility period (as defined in section 1920(b)(1)).

[(E) For purposes of subparagraph (D), there shall be excluded, in determining both erroneous excess payments for medical assistance and total expenditures for medical assistance—

[(i) payments with respect to any individual whose eligibility therefor was determined exclusively by the Secretary under an agreement pursuant to section 1634 and such other classes of individuals as the Secretary may by regulation prescribe whose eligibility was determined in part under such an agreement; and

[(ii) payments made as the result of a technical error.

[(2) The State agency administering the plan approved under this title shall, at such times and in such form as the Secretary may specify, provide information on the rates of erroneous excess payments made (or expected, with respect to future periods specified by the Secretary) in connection with its administration of such plan, together with any other data he requests that are reasonably necessary for him to carry out the provisions of this subsection.

[(3)(A) If a State fails to cooperate with the Secretary in providing information necessary to carry out this subsection, the Secretary, directly or through contractual or such other arrangements as he may find appropriate, shall establish the error rates for that State on the basis of the best data reasonably available to him and in accordance with such techniques for sampling and estimating as he finds appropriate.

[(B) In any case in which it is necessary for the Secretary to exercise his authority under subparagraph (A) to determine a State's error rates for a fiscal year, the amount that would otherwise be payable to such State under this title for quarters in such year shall be reduced by the costs incurred by the Secretary in making (directly or otherwise) such determination.

[(4) This subsection shall not apply with respect to Puerto Rico, Guam, the Virgin Islands, the Northern Mariana Islands, or American Samoa.

[(v)(1) Notwithstanding the preceding provisions of this section, except as provided in paragraph (2), no payment may be made to a State under this section for medical assistance furnished to an alien who is not lawfully admitted for permanent residence or otherwise permanently residing in the United States under color of law.

[(2) Payment shall be made under this section for care and services that are furnished to an alien described in paragraph (1) only if—

[(A) such care and services are necessary for the treatment of an emergency medical condition of the alien,

[(B) such alien otherwise meets the eligibility requirements for medical assistance under the State plan approved under this title (other than the requirement of the receipt of aid or assistance under title IV, supplemental security income benefits under title XVI, or a State supplementary payment), and

[(C) such care and services are not related to an organ transplant procedure.

[(3) For purposes of this subsection, the term "emergency medical condition" means a medical condition (including emergency labor and delivery) manifesting itself by acute symptoms of sufficient severity (including severe pain) such that the absence of im-

mediate medical attention could reasonably be expected to result in—

- [(A) placing the patient's health in serious jeopardy,
- [(B) serious impairment to bodily functions, or
- [(C) serious dysfunction of any bodily organ or part.

[(w)(1)(A) Notwithstanding the previous provisions of this section, for purposes of determining the amount to be paid to a State (as defined in paragraph (7)(D)) under subsection (a)(1) for quarters in any fiscal year, the total amount expended during such fiscal year as medical assistance under the State plan (as determined without regard to this subsection) shall be reduced by the sum of any revenues received by the State (or by a unit of local government in the State) during the fiscal year—

[(i) from provider-related donations (as defined in paragraph (2)(A)), other than—

[(I) bona fide provider-related donations (as defined in paragraph (2)(B)), and

[(II) donations described in paragraph (2)(C);

[(ii) from health care related taxes (as defined in paragraph (3)(A)), other than broad-based health care related taxes (as defined in paragraph (3)(B));

[(iii) from a broad-based health care related tax, if there is in effect a hold harmless provision (described in paragraph (4)) with respect to the tax; or

[(iv) only with respect to State fiscal years (or portions thereof) occurring on or after January 1, 1992, and before October 1, 1995, from broad-based health care related taxes to the extent the amount of such taxes collected exceeds the limit established under paragraph (5).

[(B) Notwithstanding the previous provisions of this section, for purposes of determining the amount to be paid to a State under subsection (a)(7) for all quarters in a Federal fiscal year (beginning with fiscal year 1993), the total amount expended during the fiscal year for administrative expenditures under the State plan (as determined without regard to this subsection) shall be reduced by the sum of any revenues received by the State (or by a unit of local government in the State) during such quarters from donations described in paragraph (2)(C), to the extent the amount of such donations exceeds 10 percent of the amounts expended under the State plan under this title during the fiscal year for purposes described in paragraphs (2), (3), (4), (6), and (7) of subsection (a).

[(C)(i) Except as otherwise provided in clause (ii), subparagraph (A)(i) shall apply to donations received on or after January 1, 1992.

[(ii) Subject to the limits described in clause (iii) and subparagraph (E), subparagraph (A)(i) shall not apply to donations received before the effective date specified in subparagraph (F) if such donations are received under programs in effect or as described in State plan amendments or related documents submitted to the Secretary by September 30, 1991, and applicable to State fiscal year 1992, as demonstrated by State plan amendments, written agreements, State budget documentation, or other documentary evidence in existence on that date.

[(iii) In applying clause (ii) in the case of donations received in State fiscal year 1993, the maximum amount of such donations to which such clause may be applied may not exceed the total amount of such donations received in the corresponding period in State fiscal year 1992 (or not later than 5 days after the last day of the corresponding period).

[(D)(i) Except as otherwise provided in clause (ii), subparagraphs (A)(ii) and (A)(iii) shall apply to taxes received on or after January 1, 1992.

[(ii) Subparagraphs (A)(ii) and (A)(iii) shall not apply to impermissible taxes (as defined in clause (iii)) received before the effective date specified in subparagraph (F) to the extent the taxes (including the tax rate or base) were in effect, or the legislation or regulations imposing such taxes were enacted or adopted, as of November 22, 1991.

[(iii) In this subparagraph and subparagraph (E), the term “impermissible tax” means a health care related tax for which a reduction may be made under clause (ii) or (iii) of subparagraph (A).

[(E)(i) In no case may the total amount of donations and taxes permitted under the exception provided in subparagraphs (C)(ii) and (D)(ii) for the portion of State fiscal year 1992 occurring during calendar year 1992 exceed the limit under paragraph (5) minus the total amount of broad-based health care related taxes received in the portion of that fiscal year.

[(ii) In no case may the total amount of donations and taxes permitted under the exception provided in subparagraphs (C)(ii) and (D)(ii) for State fiscal year 1993 exceed the limit under paragraph (5) minus the total amount of broad-based health care related taxes received in that fiscal year.

[(F) In this paragraph in the case of a State—

[(i) except as provided in clause (iii), with a State fiscal year beginning on or before July 1, the effective date is October 1, 1992,

[(ii) except as provided in clause (iii), with a State fiscal year that begins after July 1, the effective date is January 1, 1993, or

[(iii) with a State legislature which is not scheduled to have a regular legislative session in 1992, with a State legislature which is not scheduled to have a regular legislative session in 1993, or with a provider-specific tax enacted on November 4, 1991, the effective date is July 1, 1993.

[(2)(A) In this subsection (except as provided in paragraph (6)), the term “provider-related donation” means any donation or other voluntary payment (whether in cash or in kind) made (directly or indirectly) to a State or unit of local government by—

[(i) a health care provider (as defined in paragraph (7)(B)),

[(ii) an entity related to a health care provider (as defined in paragraph (7)(C)), or

[(iii) an entity providing goods or services under the State plan for which payment is made to the State under paragraph (2), (3), (4), (6), or (7) of subsection (a).

[(B) For purposes of paragraph (1)(A)(i)(I), the term “bona fide provider-related donation” means a provider-related donation that has no direct or indirect relationship (as determined by the Sec-

retary) to payments made under this title to that provider, to providers furnishing the same class of items and services as that provider, or to any related entity, as established by the State to the satisfaction of the Secretary. The Secretary may by regulation specify types of provider-related donations described in the previous sentence that will be considered to be bona fide provider-related donations.

[(C) For purposes of paragraph (1)(A)(i)(II), donations described in this subparagraph are funds expended by a hospital, clinic, or similar entity for the direct cost (including costs of training and of preparing and distributing outreach materials) of State or local agency personnel who are stationed at the hospital, clinic, or entity to determine the eligibility of individuals for medical assistance under this title and to provide outreach services to eligible or potentially eligible individuals.

[(3)(A) In this subsection (except as provided in paragraph (6)), the term “health care related tax” means a tax (as defined in paragraph (7)(F)) that—

[(i) is related to health care items or services, or to the provision of, the authority to provide, or payment for, such items or services, or

[(ii) is not limited to such items or services but provides for treatment of individuals or entities that are providing or paying for such items or services that is different from the treatment provided to other individuals or entities.

In applying clause (i), a tax is considered to relate to health care items or services if at least 85 percent of the burden of such tax falls on health care providers.

[(B) In this subsection, the term “broad-based health care related tax” means a health care related tax which is imposed with respect to a class of health care items or services (as described in paragraph (7)(A)) or with respect to providers of such items or services and which, except as provided in subparagraphs (D) and (E)—

[(i) is imposed at least with respect to all items or services in the class furnished by all non-Federal, nonpublic providers in the State (or, in the case of a tax imposed by a unit of local government, the area over which the unit has jurisdiction) or is imposed with respect to all non-Federal, nonpublic providers in the class; and

[(ii) is imposed uniformly (in accordance with subparagraph (C)).

[(C)(i) Subject to clause (ii), for purposes of subparagraph (B)(ii), a tax is considered to be imposed uniformly if—

[(I) in the case of a tax consisting of a licensing fee or similar tax on a class of health care items or services (or providers of such items or services), the amount of the tax imposed is the same for every provider providing items or services within the class;

[(II) in the case of a tax consisting of a licensing fee or similar tax imposed on a class of health care items or services (or providers of such services) on the basis of the number of beds (licensed or otherwise) of the provider, the amount of the tax is the same for each bed of each provider of such items or services in the class;

[(III) in the case of a tax based on revenues or receipts with respect to a class of items or services (or providers of items or services) the tax is imposed at a uniform rate for all items and services (or providers of such items or services) in the class on all the gross revenues or receipts, or net operating revenues, relating to the provision of all such items or services (or all such providers) in the State (or, in the case of a tax imposed by a unit of local government within the State, in the area over which the unit has jurisdiction); or

[(IV) in the case of any other tax, the State establishes to the satisfaction of the Secretary that the tax is imposed uniformly.

[(ii) Subject to subparagraphs (D) and (E), a tax imposed with respect to a class of health care items and services is not considered to be imposed uniformly if the tax provides for any credits, exclusions, or deductions which have as their purpose or effect the return to providers of all or a portion of the tax paid in a manner that is inconsistent with subclauses (I) and (II) of subparagraph (E)(ii) or provides for a hold harmless provision described in paragraph (4).

[(D) A tax imposed with respect to a class of health care items and services is considered to be imposed uniformly—

[(i) notwithstanding that the tax is not imposed with respect to items or services (or the providers thereof) for which payment is made under a State plan under this title or title XVIII, or

[(ii) in the case of a tax described in subparagraph (C)(i)(III), notwithstanding that the tax provides for exclusion (in whole or in part) of revenues or receipts from a State plan under this title or title XVIII.

[(E)(i) A State may submit an application to the Secretary requesting that the Secretary treat a tax as a broad-based health care related tax, notwithstanding that the tax does not apply to all health care items or services in class (or all providers of such items and services), provides for a credit, deduction, or exclusion, is not applied uniformly, or otherwise does not meet the requirements of subparagraph (B) or (C). Permissible waivers may include exemptions for rural or sole-community providers.

[(ii) The Secretary shall approve such an application if the State establishes to the satisfaction of the Secretary that—

[(I) the net impact of the tax and associated expenditures under this title as proposed by the State is generally redistributive in nature, and

[(II) the amount of the tax is not directly correlated to payments under this title for items or services with respect to which the tax is imposed.

The Secretary shall by regulation specify types of credits, exclusions, and deductions that will be considered to meet the requirements of this subparagraph.

[(4) For purposes of paragraph (1)(A)(iii), there is in effect a hold harmless provision with respect to a broad-based health care related tax imposed with respect to a class of items or services if the Secretary determines that any of the following applies:

[(A) The State or other unit of government imposing the tax provides (directly or indirectly) for a payment (other than under this title) to taxpayers and the amount of such payment is positively correlated either to the amount of such tax or to the difference between the amount of the tax and the amount of payment under the State plan.

[(B) All or any portion of the payment made under this title to the taxpayer varies based only upon the amount of the total tax paid.

[(C) The State or other unit of government imposing the tax provides (directly or indirectly) for any payment, offset, or waiver that guarantees to hold taxpayers harmless for any portion of the costs of the tax.

The provisions of this paragraph shall not prevent use of the tax to reimburse health care providers in a class for expenditures under this title nor preclude States from relying on such reimbursement to justify or explain the tax in the legislative process.

[(5)(A) For purposes of this subsection, the limit under this subparagraph with respect to a State is an amount equal to 25 percent (or, if greater, the State base percentage, as defined in subparagraph (B)) of the non-Federal share of the total amount expended under the State plan during a State fiscal year (or portion thereof), as it would be determined pursuant to paragraph (1)(A) without regard to paragraph (1)(A)(iv).

[(B)(i) In subparagraph (A), the term "State base percentage" means, with respect to a State, an amount (expressed as a percentage) equal to—

[(I) the total of the amount of health care related taxes (whether or not broad-based) and the amount of provider-related donations (whether or not bona fide) projected to be collected (in accordance with clause (ii)) during State fiscal year 1992, divided by

[(II) the non-Federal share of the total amount estimated to be expended under the State plan during such State fiscal year.

[(ii) For purposes of clause (i)(I), in the case of a tax that is not in effect throughout State fiscal year 1992 or the rate (or base) of which is increased during such fiscal year, the Secretary shall project the amount to be collected during such fiscal year as if the tax (or increase) were in effect during the entire State fiscal year.

[(C)(i) The total amount of health care related taxes under subparagraph (B)(i)(I) shall be determined by the Secretary based on only those taxes (including the tax rate or base) which were in effect, or for which legislation or regulations imposing such taxes were enacted or adopted, as of November 22, 1991.

[(ii) The amount of provider-related donations under subparagraph (B)(i)(I) shall be determined by the Secretary based on programs in effect on September 30, 1991, and applicable to State fiscal year 1992, as demonstrated by State plan amendments, written agreements, State budget documentation, or other documentary evidence in existence on that date.

[(iii) The amount of expenditures described in subparagraph (B)(i)(II) shall be determined by the Secretary based on the best data available as of the date of the enactment of this subsection.

[(6)(A) Notwithstanding the provisions of this subsection, the Secretary may not restrict States' use of funds where such funds are derived from State or local taxes (or funds appropriated to State university teaching hospitals) transferred from or certified by units of government within a State as the non-Federal share of expenditures under this title, regardless of whether the unit of government is also a health care provider, except as provided in section 1902(a)(2), unless the transferred funds are derived by the unit of government from donations or taxes that would not otherwise be recognized as the non-Federal share under this section.

[(B) For purposes of this subsection, funds the use of which the Secretary may not restrict under subparagraph (A) shall not be considered to be a provider-related donation or a health care related tax.

[(7) For purposes of this subsection:

[(A) Each of the following shall be considered a separate class of health care items and services:

[(i) Inpatient hospital services.

[(ii) Outpatient hospital services.

[(iii) Nursing facility services (other than services of intermediate care facilities for the mentally retarded).

[(iv) Services of intermediate care facilities for the mentally retarded.

[(v) Physicians' services.

[(vi) Home health care services.

[(vii) Outpatient prescription drugs.

[(viii) Services of health maintenance organizations (and other organizations with contracts under section 1903(m)).

[(ix) Such other classification of health care items and services consistent with this subparagraph as the Secretary may establish by regulation.

[(B) The term "health care provider" means an individual or person that receives payments for the provision of health care items or services.

[(C) An entity is considered to be "related" to a health care provider if the entity—

[(i) is an organization, association, corporation or partnership formed by or on behalf of health care providers;

[(ii) is a person with an ownership or control interest (as defined in section 1124(a)(3)) in the provider;

[(iii) is the employee, spouse, parent, child, or sibling of the provider (or of a person described in clause (ii)); or

[(iv) has a similar, close relationship (as defined in regulations) to the provider.

[(D) The term "State" means only the 50 States and the District of Columbia but does not include any State whose entire program under this title is operated under a waiver granted under section 1115.

[(E) The "State fiscal year" means, with respect to a specified year, a State fiscal year ending in that specified year.

[(F) The term "tax" includes any licensing fee, assessment, or other mandatory payment, but does not include payment of a criminal or civil fine or penalty (other than a fine or penalty

imposed in lieu of or instead of a fee, assessment, or other mandatory payment).

[(G) The term “unit of local government” means, with respect to a State, a city, county, special purpose district, or other governmental unit in the State.

【OPERATION OF STATE PLANS

【SEC. 1904. If the Secretary, after reasonable notice and opportunity for hearing to the State agency administering or supervising the administration of the State plan approved under this title, finds—

【(1) that the plan has been so changed that it no longer complies with the provisions of section 1902; or

【(2) that in the administration of the plan there is a failure to comply substantially with any such provision;

the Secretary shall notify such State agency that further payments will not be made to the State (or, in his discretion, that payments will be limited to categories under or parts of the State plan not affected by such failure), until the Secretary is satisfied that there will no longer be any such failure to comply. Until he is so satisfied he shall make no further payments to such State (or shall limit payments to categories under or parts of the State plan not affected by such failure).

[(b) The term "Federal medical assistance percentage" for any State shall be 100 per centum less the State percentage; and the State percentage shall be that percentage which bears the same ratio to 45 per centum as the square of the per capita income of such State bears to the square of the per capita income of the continental United States (including Alaska) and Hawaii; except that

[(c) For definition of the term "nursing facility", see section 1919(a).

[(d) The term "intermediate care facility for the mentally retarded" means an institution (or distinct part thereof) for the mentally retarded or persons with related conditions if—

[(1) the primary purpose of such institution (or distinct part thereof) is to provide health or rehabilitative services for mentally retarded individuals and the institution meets such standards as may be prescribed by the Secretary;

[(3) in the case of a public institution, the State or political subdivision responsible for the operation of such institution has agreed that the non-Federal expenditures in any calendar quarter prior to January 1, 1975, with respect to services furnished to patients in such institution (or distinct part thereof) in the State will not, because of payments made under this title, be reduced below the average amount expended for such services in such institution in the four quarters immediately preceding the quarter in which the State in which such institution is located elected to make such services available under its plan approved under this title.

[(e) In the case of any State the State plan of which (as approved under this title)—

[(1) does not provide for the payment of services (other than services covered under section 1902(a)(12)) provided by an optometrist; but

[(2) at a prior period did provide for the payment of services referred to in paragraph (1);

the term "physicians' services" (as used in subsection (a)(5)) shall include services of the type which an optometrist is legally authorized to perform where the State plan specifically provides that the term "physicians' services", as employed in such plan, includes services of the type which an optometrist is legally authorized to perform, and shall be reimbursed whether furnished by a physician or an optometrist.

[(f) For purposes of this title, the term "nursing facility services" means services which are or were required to be given an in-

[(A) inpatient services which are provided in an institution (or distinct part thereof) which is a psychiatric hospital as defined in section 1861(f) or in another inpatient setting that the Secretary has specified in regulations;

[(B) inpatient services which, in the case of any individual (i) involve active treatment which meets such standards as may be prescribed in regulations by the Secretary, and (ii) a team, consisting of physicians and other personnel qualified to make determinations with respect to mental health conditions and the treatment thereof, has determined are necessary on an inpatient basis and can reasonably be expected to improve the condition, by reason of which such services are necessary, to the extent that eventually such services will no longer be necessary; and

[(C) inpatient services which, in the case of any individual, are provided prior to (i) the date such individual attains age 21, or (ii) in the case of an individual who was receiving such services in the period immediately preceding the date on which he attained age 21, (I) the date such individual no longer requires such services, or (II) if earlier, the date such individual attains age 22;

[(2) Such term does not include services provided during any calendar quarter under the State plan of any State if the total amount of the funds expended, during such quarter, by the State (and the political subdivisions thereof) from non-Federal funds for inpatient services included under paragraph (1), and for active psychiatric care and treatment provided on an outpatient basis for eligible mentally ill children, is less than the average quarterly amount of the funds expended, during the 4-quarter period ending December 31, 1971, by the State (and the political subdivisions thereof) from non-Federal funds for such services.

[(k) Increased supplemental security income benefits payable pursuant to section 211 of Public Law 93-66 shall not be considered supplemental security income benefits payable under title XVI.

and includes an outpatient health program or facility operated by a tribe or tribal organization under the Indian Self-Determination Act (Public Law 93-638) or by an urban Indian organization receiving funds under title V of the Indian Health Care Improvement Act for the provision of primary health services. In applying clause (ii), the Secretary may waive any requirement referred to in such clause for up to 2 years for good cause shown.

[(m)(1) Subject to paragraph (2), the term “qualified family member” means an individual (other than a qualified pregnant woman or child, as defined in subsection (n)) who is a member of a family that would be receiving aid under the State plan under part A of title IV pursuant to section 407 if the State had not exercised the option under section 407(b)(2)(B)(i).

[(2) No individual shall be a qualified family member for any period after September 30, 1998.

[(n) The term “qualified pregnant woman or child” means—

[(o)(1)(A) Subject to subparagraph (B), the term “hospice care” means the care described in section 1861(dd)(1) furnished by a hospice program (as defined in section 1861(dd)(2)) to a terminally ill individual who has voluntarily elected (in accordance with paragraph (2)) to have payment made for hospice care instead of having payment made for certain benefits described in section 1812(d)(2)(A) and for which payment may otherwise be made under title XVIII and intermediate care facility services under the plan. For purposes of such election, hospice care may be provided to an individual while such individual is a resident of a skilled nursing facility or intermediate care facility, but the only payment made under the State plan shall be for the hospice care.

[(B) For purposes of this title, with respect to the definition of hospice program under section 1861(dd)(2), the Secretary may allow an agency or organization to make the assurance under subparagraph (A)(iii) of such section without taking into account any individual who is afflicted with acquired immune deficiency syndrome (AIDS).

[(2) An individual’s voluntary election under this subsection —

[(A) shall be made in accordance with procedures that are established by the State and that are consistent with the procedures established under section 1812(d)(2);

[(B) shall be for such a period or periods (which need not be the same periods described in section 1812(d)(1)) as the State may establish; and

[(C) may be revoked at any time without a showing of cause and may be modified so as to change the hospice program with respect to which a previous election was made.

[(3) In the case of an individual—

[(A) who is residing in a nursing facility or intermediate care facility for the mentally retarded and is receiving medical assistance for services in such facility under the plan,

[(B) who is entitled to benefits under part A of title XVIII and has elected, under section 1812(d), to receive hospice care under such part, and

[(C) with respect to whom the hospice program under such title and the nursing facility or intermediate care facility for the mentally retarded have entered into a written agreement under which the program takes full responsibility for the professional management of the individual's hospice care and the facility agrees to provide room and board to the individual, instead of any payment otherwise made under the plan with respect to the facility's services, the State shall provide for payment to the hospice program of an amount equal to the additional amount described in section 1902(a)(13)(D) and, if the individual is an individual described in section 1902(a)(10)(A), shall provide for payment of any coinsurance amounts imposed under section 1813(a)(4).

[(p)(1) The term "qualified medicare beneficiary" means an individual—

[(A) who is entitled to hospital insurance benefits under part A of title XVIII (including an individual entitled to such benefits pursuant to an enrollment under section 1818, but not including an individual entitled to such benefits only pursuant to an enrollment under section 1818A),

[(B) whose income (as determined under section 1612 for purposes of the supplemental security income program, except as provided in paragraph (2)(D)) does not exceed an income level established by the State consistent with paragraph (2), and

[(C) whose resources (as determined under section 1613 for purposes of the supplemental security income program) do not exceed twice the maximum amount of resources that an individual may have and obtain benefits under that program.

[(2)(A) The income level established under paragraph (1)(B) shall be at least the percent provided under subparagraph (B) (but not more than 100 percent) of the official poverty line (as defined by the Office of Management and Budget, and revised annually in accordance with section 673(2) of the Omnibus Budget Reconciliation Act of 1981) applicable to a family of the size involved.

[(B) Except as provided in subparagraph (C), the percent provided under this clause, with respect to eligibility for medical assistance on or after—

[(i) January 1, 1989, is 85 percent,

[(ii) January 1, 1990, is 90 percent, and

[(iii) January 1, 1991, is 100 percent.

[(C) In the case of a State which has elected treatment under section 1902(f) and which, as of January 1, 1987, used an income standard for individuals age 65 or older which was more restrictive than the income standard established under the supplemental security income program under title XVI, the percent provided under subparagraph (B), with respect to eligibility for medical assistance on or after—

[(i) January 1, 1989, is 80 percent,

[(ii) January 1, 1990, is 85 percent,

[(iii) January 1, 1991, is 95 percent, and

[(iv) January 1, 1992, is 100 percent.

[(D)(i) In determining under this subsection the income of an individual who is entitled to monthly insurance benefits under title II for a transition month (as defined in clause (ii)) in a year, such income shall not include any amounts attributable to an increase in the level of monthly insurance benefits payable under such title which have occurred pursuant to section 215(i) for benefits payable for months beginning with December of the previous year.

[(ii) For purposes of clause (i), the term “transition month” means each month in a year through the month following the month in which the annual revision of the official poverty line, referred to in subparagraph (A), is published.

[(3) The term “medicare cost-sharing” means the following costs incurred with respect to a qualified medicare beneficiary, without regard to whether the costs incurred were for items and services for which medical assistance is otherwise available under the plan:

[(A)(i) premiums under section 1818 or 1818A, and

[(ii) premiums under section 1839,

[(B) Coinsurance under title XVIII (including coinsurance described in section 1813).

[(C) Deductibles established under title XVIII (including those described in section 1813 and section 1833(b)).

[(D) The difference between the amount that is paid under section 1833(a) and the amount that would be paid under such section if any reference to “80 percent” therein were deemed a reference to “100 percent”.

Such term also may include, at the option of a State, premiums for enrollment of a qualified medicare beneficiary with an eligible organization under section 1876.

[(4) Notwithstanding any other provision of this title, in the case of a State (other than the 50 States and the District of Columbia)—

[(A) the requirement stated in section 1902(a)(10)(E) shall be optional, and

[(B) for purposes of paragraph (2), the State may substitute for the percent provided under subparagraph (B) of such paragraph or 1902(a)(10)(E)(iii) any percent.

In the case of any State which is providing medical assistance to its residents under a waiver granted under section 1115, the Secretary shall require the State to meet the requirement of section 1902(a)(10)(E) in the same manner as the State would be required to meet such requirement if the State had in effect a plan approved under this title.

[(q) The term “qualified severely impaired individual” means an individual under age 65—

[(1) who for the month preceding the first month to which this subsection applies to such individual—

[(A) received (i) a payment of supplemental security income benefits under section 1611(b) on the basis of blindness or disability, (ii) a supplementary payment under section 1616 of this Act or under section 212 of Public Law 93-66 on such basis, (iii) a payment of monthly benefits

under section 1619(a), or (iv) a supplementary payment under section 1616(c)(3), and

[(B) was eligible for medical assistance under the State plan approved under this title; and

[(2) with respect to whom the Commissioner of Social Security determines that—

[(A) the individual continues to be blind or continues to have the disabling physical or mental impairment on the basis of which he was found to be under a disability and, except for his earnings, continues to meet all non-disability-related requirements for eligibility for benefits under title XVI,

[(B) the income of such individual would not, except for his earnings, be equal to or in excess of the amount which would cause him to be ineligible for payments under section 1611(b) (if he were otherwise eligible for such payments),

[(C) the lack of eligibility for benefits under this title would seriously inhibit his ability to continue or obtain employment, and

[(D) the individual's earnings are not sufficient to allow him to provide for himself a reasonable equivalent of the benefits under title XVI (including any federally administered State supplementary payments), this title, and publicly funded attendant care services (including personal care assistance) that would be available to him in the absence of such earnings.

In the case of an individual who is eligible for medical assistance pursuant to section 1619(b) in June, 1987, the individual shall be a qualified severely impaired individual for so long as such individual meets the requirements of paragraph (2).

[(r) The term "early and periodic screening, diagnostic, and treatment services" means the following items and services:

[(1) Screening services—

[(A) which are provided—

[(i) at intervals which meet reasonable standards of medical and dental practice, as determined by the State after consultation with recognized medical and dental organizations involved in child health care and, with respect to immunizations under subparagraph (B)(iii), in accordance with the schedule referred to in section 1928(c)(2)(B)(i) for pediatric vaccines, and

[(ii) at such other intervals, indicated as medically necessary, to determine the existence of certain physical or mental illnesses or conditions; and

[(B) which shall at a minimum include—

[(i) a comprehensive health and developmental history (including assessment of both physical and mental health development),

[(ii) a comprehensive unclothed physical exam,

[(iii) appropriate immunizations (according to the schedule referred to in section 1928(c)(2)(B)(i) for pediatric vaccines) according to age and health history,

[(iv) laboratory tests (including lead blood level assessment appropriate for age and risk factors), and

[(v) health education (including anticipatory guidance).

[(2) Vision services—

[(A) which are provided—

[(i) at intervals which meet reasonable standards of medical practice, as determined by the State after consultation with recognized medical organizations involved in child health care, and

[(ii) at such other intervals, indicated as medically necessary, to determine the existence of a suspected illness or condition; and

[(B) which shall at a minimum include diagnosis and treatment for defects in vision, including eyeglasses.

[(3) Dental services—

[(A) which are provided—

[(i) at intervals which meet reasonable standards of dental practice, as determined by the State after consultation with recognized dental organizations involved in child health care, and

[(ii) at such other intervals, indicated as medically necessary, to determine the existence of a suspected illness or condition; and

[(B) which shall at a minimum include relief of pain and infections, restoration of teeth, and maintenance of dental health.

[(4) Hearing services—

[(A) which are provided—

[(i) at intervals which meet reasonable standards of medical practice, as determined by the State after consultation with recognized medical organizations involved in child health care, and

[(ii) at such other intervals, indicated as medically necessary, to determine the existence of a suspected illness or condition; and

[(B) which shall at a minimum include diagnosis and treatment for defects in hearing, including hearing aids.

[(5) Such other necessary health care, diagnostic services, treatment, and other measures described in section 1905(a) to correct or ameliorate defects and physical and mental illnesses and conditions discovered by the screening services, whether or not such services are covered under the State plan.

Nothing in this title shall be construed as limiting providers of early and periodic screening, diagnostic, and treatment services to providers who are qualified to provide all of the items and services described in the previous sentence or as preventing a provider that is qualified under the plan to furnish one or more (but not all) of such items or services from being qualified to provide such items and services as part of early and periodic screening, diagnostic, and treatment services. The Secretary shall, not later than July 1, 1990, and every 12 months thereafter, develop and set annual participation goals for each State for participation of individuals who

are covered under the State plan under this title in early and periodic screening, diagnostic, and treatment services.

[(s) The term “qualified disabled and working individual” means an individual—

[(1) who is entitled to enroll for hospital insurance benefits under part A of title XVIII under section 1818A (as added by 6012 of the Omnibus Budget Reconciliation Act of 1989);

[(2) whose income (as determined under section 1612 for purposes of the supplemental security income program) does not exceed 200 percent of the official poverty line (as defined by the Office of Management and Budget and revised annually in accordance with section 673(2) of the Omnibus Budget Reconciliation Act of 1981) applicable to a family of the size involved;

[(3) whose resources (as determined under section 1613 for purposes of the supplemental security income program) do not exceed twice the maximum amount of resources that an individual or a couple (in the case of an individual with a spouse) may have and obtain benefits for supplemental security income benefits under title XVI; and

[(4) who is not otherwise eligible for medical assistance under this title.

[ENROLLMENT OF INDIVIDUALS UNDER GROUP HEALTH PLANS

[SEC. 1906. (a) For purposes of section 1902(a)(25)(G) and subject to subsection (d), each State plan—

[(1) shall implement guidelines established by the Secretary, consistent with subsection (b), to identify those cases in which enrollment of an individual otherwise entitled to medical assistance under this title in a group health plan (in which the individual is otherwise eligible to be enrolled) is cost-effective (as defined in subsection (e)(2));

[(2) shall require, in case of an individual so identified and as a condition of the individual being or remaining eligible for medical assistance under this title and subject to subsection (b)(2), notwithstanding any other provision of this title, that the individual (or in the case of a child, the child’s parent) apply for enrollment in the group health plan; and

[(3) in the case of such enrollment (except as provided in subsection (c)(1)(B)), shall provide for payment of all enrollee premiums for such enrollment and all deductibles, coinsurance, and other cost-sharing obligations for items and services otherwise covered under the State plan under this title (exceeding the amount otherwise permitted under section 1916), and shall treat coverage under the group health plan as a third party liability (under section 1902(a)(25)).

[(b)(1) In establishing guidelines under subsection (a)(1), the Secretary shall take into account that an individual may only be eligible to enroll in group health plans at limited times and only if other individuals (not entitled to medical assistance under the plan) are also enrolled in the plan simultaneously.

[(2) If a parent of a child fails to enroll the child in a group health plan in accordance with subsection (a)(2), such failure shall not affect the child’s eligibility for benefits under this title.

[(c)(1)(A) In the case of payments of premiums, deductibles, coinsurance, and other cost-sharing obligations under this section shall be considered, for purposes of section 1903(a), to be payments for medical assistance.

[(B) If all members of a family are not eligible for medical assistance under this title and enrollment of the members so eligible in a group health plan is not possible without also enrolling members not so eligible—

[(i) payment of premiums for enrollment of such other members shall be treated as payments for medical assistance for eligible individuals, if it would be cost-effective (taking into account payment of all such premiums), but

[(ii) payment of deductibles, coinsurance, and other cost-sharing obligations for such other members shall not be treated as payments for medical assistance for eligible individuals.

[(2) The fact that an individual is enrolled in a group health plan under this section shall not change the individual's eligibility for benefits under the State plan, except insofar as section 1902(a)(25) provides that payment for such benefits shall first be made by such plan.

[(d)(1) In the case of any State which is providing medical assistance to its residents under a waiver granted under section 1115, the Secretary shall require the State to meet the requirements of this section in the same manner as the State would be required to meet such requirement if the State had in effect a plan approved under this title.

[(2) This section, and section 1902(a)(25)(G), shall only apply to a State that is one of the 50 States or the District of Columbia.

[(e) In this section:

[(1) The term "group health plan" has the meaning given such term in section 5000(b)(1) of the Internal Revenue Code of 1986, and includes the provision of continuation coverage by such a plan pursuant to title XXII of the Public Health Service Act, section 4980B of the Internal Revenue Code of 1986, or title VI of the Employee Retirement Income Security Act of 1974.

[(2) The term "cost-effective" means, as established by the Secretary, that the reduction in expenditures under this title with respect to an individual who is enrolled in a group health plan is likely to be greater than the additional expenditures for premiums and cost-sharing required under this section with respect to such enrollment.

【OBSERVANCE OF RELIGIOUS BELIEFS

【SEC. 1907. Nothing in this title shall be construed to require any State which has a plan approved under this title to compel any person to undergo any medical screening, examination, diagnosis, or treatment or to accept any other health care or services provided under such plan for any purpose (other than for the purpose of discovering and preventing the spread of infection or contagious disease or for the purpose of protecting environmental health), if such person objects (or, in case such person is a child, his parent or guardian objects) thereto on religious grounds.

【STATE PROGRAMS FOR LICENSING OF ADMINISTRATORS OF NURSING HOMES

【SEC. 1908. (a) For purposes of section 1902(a)(29), a “State program for the licensing of administrators of nursing homes” is a program which provides that no nursing home within the State may operate except under the supervision of an administrator licensed in the manner provided in this section.

【(b) Licensing of nursing home administrators shall be carried out by the agency of the State responsible for licensing under the healing arts licensing act of the State, or, in the absence of such act or such an agency, a board representative of the professions and institutions concerned with care of chronically ill and infirm aged patients and established to carry out the purposes of this section.

【(c) It shall be the function and duty of such agency or board to—

【(1) develop, impose, and enforce standards which must be met by individuals in order to receive a license as a nursing home administrator, which standards shall be designed to insure that nursing home administrators will be individuals who are of good character and are otherwise suitable, and who, by training or experience in the field of institutional administration, are qualified to serve as nursing home administrators;

【(2) develop and apply appropriate techniques, including examinations and investigations, for determining whether an individual meets such standards;

【(3) issue licenses to individuals determined, after the application of such techniques, to meet such standards, and revoke or suspend licenses previously issued by the board in any case where the individual holding any such license is determined substantially to have failed to conform to the requirements of such standards;

【(4) establish and carry out procedures designed to insure that individuals licensed as nursing home administrators will, during any period that they serve as such, comply with the requirements of such standards;

【(5) receive, investigate, and take appropriate action with respect to, any charge or complaint filed with the board to the effect that any individual licensed as a nursing home administrator has failed to comply with the requirements of such standards; and

【(6) conduct a continuing study and investigation of nursing homes and administrators of nursing homes within the State with a view to the improvement of the standards imposed for the licensing of such administrators and of procedures and methods for the enforcement of such standards with respect to administrators of nursing homes who have been licensed as such.

【(d) No State shall be considered to have failed to comply with the provisions of section 1902(a)(29) because the agency or board of such State (established pursuant to subsection (b)) shall have granted any waiver, with respect to any individual who, during all of the three calendar years immediately preceding the calendar

year in which the requirements prescribed in section 1902(a)(29) are first met by the State, has served as a nursing home administrator, of any of the standards developed, imposed, and enforced by such agency or board pursuant to subsection (c).

[(e) As used in this section, the term—

[(1) “nursing home” means any institution or facility defined as such for licensing purposes under State law, or, if State law does not employ the term nursing home, the equivalent term or terms as determined by the Secretary, but does not include a Christian Science sanatorium operated, or listed and certified, by the First Church of Christ, Scientist, Boston, Massachusetts; and

[(2) “nursing home administrator” means any individual who is charged with the general administration of a nursing home whether or not such individual has an ownership interest in such home and whether or not his functions and duties are shared with one or more other individuals.

[REQUIRED LAWS RELATING TO MEDICAL CHILD SUPPORT

[SEC. 1908. (a) IN GENERAL.—The laws relating to medical child support, which a State is required to have in effect under section 1902(a)(60), are as follows:

[(1) A law that prohibits an insurer from denying enrollment of a child under the health coverage of the child’s parent on the ground that—

[(A) the child was born out of wedlock,

[(B) the child is not claimed as a dependent on the parent’s Federal income tax return, or

[(C) the child does not reside with the parent or in the insurer’s service area.

[(2) In any case in which a parent is required by a court or administrative order to provide health coverage for a child and the parent is eligible for family health coverage through an insurer, a law that requires such insurer—

[(A) to permit such parent to enroll under such family coverage any such child who is otherwise eligible for such coverage (without regard to any enrollment season restrictions);

[(B) if such a parent is enrolled but fails to make application to obtain coverage of such child, to enroll such child under such family coverage upon application by the child’s other parent or by the State agency administering the program under this title or part D of title IV; and

[(C) not to disenroll (or eliminate coverage of) such a child unless the insurer is provided satisfactory written evidence that—

[(i) such court or administrative order is no longer in effect, or

[(ii) the child is or will be enrolled in comparable health coverage through another insurer which will take effect not later than the effective date of such disenrollment.

[(3) In any case in which a parent is required by a court or administrative order to provide health coverage for a child

and the parent is eligible for family health coverage through an employer doing business in the State, a law that requires such employer—

[(A) to permit such parent to enroll under such family coverage any such child who is otherwise eligible for such coverage (without regard to any enrollment season restrictions);

[(B) if such a parent is enrolled but fails to make application to obtain coverage of such child, to enroll such child under such family coverage upon application by the child's other parent or by the State agency administering the program under this title or part D of title IV; and

[(C) not to disenroll (or eliminate coverage of) any such child unless—

[(i) the employer is provided satisfactory written evidence that—

[(I) such court or administrative order is no longer in effect, or

[(II) the child is or will be enrolled in comparable health coverage which will take effect not later than the effective date of such disenrollment, or

[(ii) the employer has eliminated family health coverage for all of its employees; and

[(D) to withhold from such employee's compensation the employee's share (if any) of premiums for health coverage (except that the amount so withheld may not exceed the maximum amount permitted to be withheld under section 303(b) of the Consumer Credit Protection Act), and to pay such share of premiums to the insurer, except that the Secretary may provide by regulation for appropriate circumstances under which an employer may withhold less than such employee's share of such premiums.

[(4) A law that prohibits an insurer from imposing requirements on a State agency, which has been assigned the rights of an individual eligible for medical assistance under this title and covered for health benefits from the insurer, that are different from requirements applicable to an agent or assignee of any other individual so covered.

[(5) A law that requires an insurer, in any case in which a child has health coverage through the insurer of a noncustodial parent—

[(A) to provide such information to the custodial parent as may be necessary for the child to obtain benefits through such coverage;

[(B) to permit the custodial parent (or provider, with the custodial parent's approval) to submit claims for covered services without the approval of the noncustodial parent; and

[(C) to make payment on claims submitted in accordance with subparagraph (B) directly to such custodial parent, the provider, or the State agency.

[(6) A law that permits the State agency under this title to garnish the wages, salary, or other employment income of,

and requires withholding amounts from State tax refunds to, any person who—

[(A) is required by court or administrative order to provide coverage of the costs of health services to a child who is eligible for medical assistance under this title,

[(B) has received payment from a third party for the costs of such services to such child, but

[(C) has not used such payments to reimburse, as appropriate, either the other parent or guardian of such child or the provider of such services,

to the extent necessary to reimburse the State agency for expenditures for such costs under its plan under this title, but any claims for current or past-due child support shall take priority over any such claims for the costs of such services.

[(b) DEFINITION.—For purposes of this section, the term “insurer” includes a group health plan, as defined in section 607(1) of the Employee Retirement Income Security Act of 1974, a health maintenance organization, and an entity offering a service benefit plan.

[CERTIFICATION AND APPROVAL OF OF RURAL HEALTH CLINICS AND INTERMEDIATE CARE FACILITIES FOR THE MENTALLY RETARDED

[SEC. 1910. (a)(1) Whenever the Secretary certifies a facility in a State to be qualified as a rural health clinic under title XVIII, such facility shall be deemed to meet the standards for certification as a rural health clinic for purposes of providing rural health clinic services under this title.

[(2) The Secretary shall notify the State agency administering the medical assistance plan of his approval or disapproval of any facility in that State which has applied for certification by him as a qualified rural health clinic.

[(b)(1) The Secretary may cancel approval of any intermediate care facility for the mentally retarded at any time if he finds on the basis of a determination made by him as provided in section 1902(a)(33)(B) that a facility fails to meet the requirements contained in section 1902(a)(31) or section 1905(d), or if he finds grounds for termination of his agreement with the facility pursuant to section 1866(b). In that event the Secretary shall notify the State agency and the intermediate care facility for the mentally retarded that approval of eligibility of the facility to participate in the programs established by this title and title XVIII shall be terminated at a time specified by the Secretary. The approval of eligibility of any such facility to participate in such programs may not be reinstated unless the Secretary finds that the reason for termination has been removed and there is reasonable assurance that it will not recur.

[(2) Any intermediate care facility for the mentally retarded which is dissatisfied with a determination by the Secretary that it no longer qualifies as a intermediate care facility for the mentally retarded for purposes of this title, shall be entitled to a hearing by the Secretary to the same extent as is provided in section 205(b) and to judicial review of the Secretary’s final decision after such hearing as is provided in section 205(g), except that, in so applying such sections and in applying section 205(1) thereto, any reference

therein to the Commissioner of Social Security or the Social Security Administration shall be considered a reference to the Secretary or the Department of Health and Human Services, respectively. Any agreement between such facility and the State agency shall remain in effect until the period for filing a request for a hearing has expired or, if a request has been filed, until a decision has been made by the Secretary; except that the agreement shall not be extended if the Secretary makes a written determination, specifying the reasons therefor, that the continuation of provider status constitutes an immediate and serious threat to the health and safety of patients, and the Secretary certifies that the facility has been notified of its deficiencies and has failed to correct them.

【INDIAN HEALTH SERVICE FACILITIES

【SEC. 1911. (a) A facility of the Indian Health Service (including a hospital, nursing facility, or any other type of facility which provides services of a type otherwise covered under the State plan), whether operated by such Service or by an Indian tribe or tribal organization (as those terms are defined in section 4 of the Indian Health Care Improvement Act), shall be eligible for reimbursement for medical assistance provided under a State plan if and for so long as it meets all of the conditions and requirements which are applicable generally to such facilities under this title.

【(b) Notwithstanding subsection (a), a facility of the Indian Health Service (including a hospital, nursing facility, or any other type of facility which provides services of a type otherwise covered under the State plan) which does not meet all of the conditions and requirements of this title which are applicable generally to such facility, but which submits to the Secretary within six months after the date of the enactment of this section an acceptable plan for achieving compliance with such conditions and requirements, shall be deemed to meet such conditions and requirements (and to be eligible for reimbursement under this title), without regard to the extent of its actual compliance with such conditions and requirements, during the first twelve months after the month in which such plan is submitted.

【(c) The Secretary is authorized to enter into agreements with the State agency for the purpose of reimbursing such agency for health care and services provided in Indian Health Service facilities to Indians who are eligible for medical assistance under the State plan.

【ASSIGNMENT OF RIGHTS OF PAYMENT

【SEC. 1912. (a) For the purpose of assisting in the collection of medical support payments and other payments for medical care owed to recipients of medical assistance under the State plan approved under this title, a State plan for medical assistance shall—

【(1) provide that, as a condition of eligibility for medical assistance under the State plan to an individual who has the legal capacity to execute an assignment for himself, the individual is required—

【(A) to assign the State any rights, of the individual or of any other person who is eligible for medical assistance under this title and on whose behalf the individual

has the legal authority to execute an assignment of such rights, to support (specified as support for the purpose of medical care by a court or administrative order) and to payment for medical care from any third party;

[(B) to cooperate with the State (i) in establishing the paternity of such person (referred to in subparagraph (A)) if the person is a child born out of wedlock, and (ii) in obtaining support and payments (described in subparagraph (A)) for himself and for such person, unless (in either case) the individual is described in section 1902(l)(1)(A) or the individual is found to have good cause for refusing to cooperate as determined by the State agency in accordance with standards prescribed by the Secretary, which standards shall take into consideration the best interests of the individuals involved; and

[(C) to cooperate with the State in identifying, and providing information to assist the State in pursuing, any third party who may be liable to pay for care and services available under the plan, unless such individual has good cause for refusing to cooperate as determined by the State agency in accordance with standards prescribed by the Secretary, which standards shall take into consideration the best interests of the individuals involved; and

[(2) provide for entering into cooperative arrangements (including financial arrangements), with any appropriate agency of any State (including, with respect to the enforcement and collection of rights of payment for medical care by or through a parent, with a State's agency established or designated under section 454(3)) and with appropriate courts and law enforcement officials, to assist the agency or agencies administering the State plan with respect to (A) the enforcement and collection of rights to support or payment assigned under this section and (B) any other matters of common concern.

[(b) Such part of any amount collected by the State under an assignment made under the provisions of this section shall be retained by the State as is necessary to reimburse it for medical assistance payments made on behalf of an individual with respect to whom such assignment was executed (with appropriate reimbursement of the Federal Government to the extent of its participation in the financing of such medical assistance), and the remainder of such amount collected shall be paid to such individual.

[HOSPITAL PROVIDERS OF NURSING FACILITY SERVICES

[SEC. 1913. (a) Notwithstanding any other provision of this title, payment may be made, in accordance with this section, under a State plan approved under this title for nursing facility services furnished by a hospital which has in effect an agreement under section 1883 and which, with respect to the provision of such services, meets the requirements of subsections (b) through (d) of section 1919.

[(b)(1) Except as provided in paragraph (3), payment to any such hospital, for any nursing facility services furnished pursuant to subsection (a), shall be at a rate equal to the average rate per patient-day paid for routine services during the previous calendar

year under the State plan to nursing facilities, respectively, located in the State in which the hospital is located. The reasonable cost of ancillary services shall be determined in the same manner as the reasonable cost of ancillary services provided for inpatient hospital services.

[(2) With respect to any period for which a hospital has an agreement under section 1883, in order to allocate routine costs between hospital and long-term care services, the total reimbursement for routine services due from all classes of long-term care patients (including title XVIII, title XIX, and private pay patients) shall be subtracted from the hospital total routine costs before calculations are made to determine reimbursement for routine hospital services under the State plan.

[(3) Payment to all such hospitals, for any nursing facility services furnished pursuant to subsection (a), may be made at a payment rate established by the State in accordance with the requirements of section 1902(a)(13)(A).

[WITHHOLDING OF FEDERAL SHARE OF PAYMENTS FOR CERTAIN
MEDICARE PROVIDERS

[SEC. 1914. (a) The Secretary may adjust, in accordance with this section, the Federal matching payment to a State with respect to expenditures for medical assistance for care or services furnished in any quarter by—

[(1) an institution (A) which has or previously had in effect an agreement with the Secretary under section 1866; and (B)(i) from which the Secretary has been unable to recover overpayments made under title XVIII, or (ii) from which the Secretary has been unable to collect the information necessary to enable him to determine the amount (if any) of the overpayments made to such institution under title XVIII; and

[(2) any person (A) who (i) has previously accepted payment on the basis of an assignment under section 1842(b)(3)(B)(ii), and (ii) during the annual period immediately preceding such quarter submitted no claims for payment under title XVIII, or submitted claims for payment under title XVIII which aggregated less than the amount of overpayments made to him, and (B)(i) from whom the Secretary has been unable to recover overpayments received in violation of the terms of such assignment, or (ii) from whom the Secretary has been unable to collect the information necessary to enable him to determine the amount (if any) of the overpayments made to such person under title XVIII.

[(b) The Secretary may (subject to the remaining provisions of this section) reduce payment to a State under this title for any quarter by an amount equal to the lesser of the Federal matching share of payments to any institution or person specified in subsection (a), or the total overpayments to such institution or person under title XVIII, and may require the State to reduce its payment to such institution or person by such amount.

[(c) The Secretary shall not make any adjustment in the payment to a State, nor require any adjustment in the payment to an institution or person, pursuant to subsection (b) until after he has

provided adequate notice (which shall be not less than 60 days) to the State agency and the institution or person.

[(d) The Secretary shall by regulation provide procedures for implementation of this section, which procedures shall (1) determine the amount of the Federal payment to which the institution or person would otherwise be entitled under this section which shall be treated as a setoff against overpayments under title XVIII, and (2) assure the restoration to the institution or person of amounts withheld under this section which are ultimately determined to be in excess of overpayments under title XVIII and to which the institution or person would otherwise be entitled under this title.

[(e) The Secretary shall restore to the trust funds established under sections 1817 and 1841, as appropriate, amounts recovered under this section as setoffs against overpayments under title XVIII.

[(f) Notwithstanding any other provision of this title, an institution or person shall not be entitled to recover from any State any amount in payment for medical care and services under this title which is withheld by the State agency pursuant to an order by the Secretary under subsection (b).

[PROVISIONS RESPECTING INAPPLICABILITY AND WAIVER OF CERTAIN
REQUIREMENTS OF THIS TITLE

[SEC. 1915. (a) A State shall not be deemed to be out of compliance with the requirements of paragraphs (1), (10), or (23) of section 1902(a) solely by reason of the fact that the State (or any political subdivision thereof)—

[(1) has entered into—

[(A) a contract with an organization which has agreed to provide care and services in addition to those offered under the State plan to individuals eligible for medical assistance who reside in the geographic area served by such organization and who elect to obtain such care and services from such organization, or by reason of the fact that the plan provides for payment for rural health clinic services only if those services are provided by a rural health clinic; or

[(B) arrangements through a competitive bidding process or otherwise for the purchase of laboratory services referred to in section 1905(a)(3) or medical devices if the Secretary has found that—

[(i) adequate services or devices will be available under such arrangements, and

[(ii) any such laboratory services will be provided only through laboratories—

[(I) which meet the applicable requirements of section 1861(e)(9) or paragraphs (15) and (16) of section 1861(s), and such additional requirements as the Secretary may require, and

[(II) no more than 75 percent of whose charges for such services are for services provided to individuals who are entitled to benefits under

this title or under part A or part B of title XVIII;
or

[(2) restricts for a reasonable period of time the provider or providers from which an individual (eligible for medical assistance for items or services under the State plan) can receive such items or services, if—

[(A) the State has found, after notice and opportunity for a hearing (in accordance with procedures established by the State), that the individual has utilized such items or services at a frequency or amount not medically necessary (as determined in accordance with utilization guidelines established by the State), and

[(B) under such restriction, individuals eligible for medical assistance for such services have reasonable access (taking into account geographic location and reasonable travel time) to such services of adequate quality.

[(b) The Secretary, to the extent he finds it to be cost-effective and efficient and not inconsistent with the purposes of this title, may waive such requirements of section 1902 (other than subsection (s)) (other than sections 1902(a)(13)(E) and 1902(a)(10)(A) insofar as it requires provision of the care and services described in section 1905(a)(2)(C)) as may be necessary for a State—

[(1) to implement a primary care case-management system or a specialty physician services arrangement which restricts the provider from (or through) whom an individual (eligible for medical assistance under this title) can obtain medical care services (other than in emergency circumstances), if such restriction does not substantially impair access to such services of adequate quality where medically necessary,

[(2) to allow a locality to act as a central broker in assisting individuals (eligible for medical assistance under this title) in selecting among competing health care plans, if such restriction does not substantially impair access to services of adequate quality where medically necessary,

[(3) to share (through provision of additional services) with recipients of medical assistance under the State plan cost savings resulting from use by the recipient of more cost-effective medical care, and

[(4) to restrict the provider from (or through) whom an individual (eligible for medical assistance under this title) can obtain services (other than in emergency circumstances) to providers or practitioners who undertake to provide such services and who meet, accept, and comply with the reimbursement, quality, and utilization standards under the State plan, which standards shall be consistent with the requirements of section 1923 and are consistent with access, quality, and efficient and economic provision of covered care and services, if such restriction does not discriminate among classes of providers on grounds unrelated to their demonstrated effectiveness and efficiency in providing those services and if providers under such restriction are paid on a timely basis in the same manner as health care practitioners must be paid under section 1902(a)(37)(A).

No waiver under this subsection may restrict the choice of the individual in receiving services under section 1905(a)(4)(C).

[(c)(1) The Secretary may by waiver provide that a State plan approved under this title may include as “medical assistance” under such plan payment for part or all of the cost of home or community-based services (other than room and board) approved by the Secretary which are provided pursuant to a written plan of care to individuals with respect to whom there has been a determination that but for the provision of such services the individuals would require the level of care provided in a hospital or a nursing facility or intermediate care facility for the mentally retarded the cost of which could be reimbursed under the State plan. For purposes of this subsection, the term “room and board” shall not include an amount established under a method determined by the State to reflect the portion of costs of rent and food attributable to an unrelated personal caregiver who is residing in the same household with an individual who, but for the assistance of such caregiver, would require admission to a hospital, nursing facility, or intermediate care facility for the mentally retarded.

[(2) A waiver shall not be granted under this subsection unless the State provides assurances satisfactory to the Secretary that—

[(A) necessary safeguards (including adequate standards for provider participation) have been taken to protect the health and welfare of individuals provided services under the waiver and to assure financial accountability for funds expended with respect to such services;

[(B) the State will provide, with respect to individuals who—

[(i) are entitled to medical assistance for inpatient hospital services, nursing facility services, or services in an intermediate care facility for the mentally retarded under the State plan,

[(ii) may require such services, and

[(iii) may be eligible for such home or community-based care under such waiver, for an evaluation of the need for inpatient hospital services, nursing facility services, or services in an intermediate care facility for the mentally retarded;

[(C) such individuals who are determined to be likely to require the level of care provided in a hospital, nursing facility, or intermediate care facility for the mentally retarded are informed of the feasible alternatives, if available under the waiver, at the choice of such individuals, to the provision of inpatient hospital services, nursing facility services, or services in an intermediate care facility for the mentally retarded;

[(D) under such waiver the average per capita expenditure estimated by the State in any fiscal year for medical assistance provided with respect to such individuals does not exceed 100 percent of the average per capita expenditure that the State reasonably estimates would have been made in that fiscal year for expenditures under the State plan for such individuals if the waiver had not been granted; and

[(E) the State will provide to the Secretary annually, consistent with a data collection plan designed by the Secretary,

information on the impact of the waiver granted under this subsection on the type and amount of medical assistance provided under the State plan and on the health and welfare of recipients.

[(3) A waiver granted under this subsection may include a waiver of the requirements of section 1902(a)(1) (relating to statewideness), section 1902(a)(10)(B) (relating to comparability), and section 1902(a)(10)(C)(i)(III) (relating to income and resource rules applicable in the community). A waiver under this subsection shall be for an initial term of three years and, upon the request of a State, shall be extended for additional five-year periods unless the Secretary determines that for the previous waiver period the assurances provided under paragraph (2) have not been met. A waiver may provide, with respect to post-eligibility treatment of income of all individuals receiving services under that waiver, that the maximum amount of the individual's income which may be disregarded for any month for the maintenance needs of the individual may be an amount greater than the maximum allowed for that purpose under regulations in effect on July 1, 1985.

[(4) A waiver granted under this subsection may, consistent with paragraph (2)—

[(A) limit the individuals provided benefits under such waiver to individuals with respect to whom the State has determined that there is a reasonable expectation that the amount of medical assistance provided with respect to the individual under such waiver will not exceed the amount of such medical assistance provided for such individual if the waiver did not apply, and

[(B) provide medical assistance to individuals (to the extent consistent with written plans of care, which are subject to the approval of the State) for case management services, homemaker/home health aide services and personal care services, adult day health services, habilitation services, respite care, and such other services requested by the State as the Secretary may approve and for day treatment or other partial hospitalization services, psychosocial rehabilitation services, and clinic services (whether or not furnished in a facility) for individuals with chronic mental illness.

Except as provided under paragraph (2)(D), the Secretary may not restrict the number of hours or days of respite care in any period which a State may provide under a waiver under this subsection.

[(5) For purposes of paragraph (4)(B), the term "habilitation services", with respect to individuals who receive such services after discharge from a nursing facility or intermediate care facility for the mentally retarded—

[(A) means services designed to assist individuals in acquiring, retaining, and improving the self-help, socialization, and adaptive skills necessary to reside successfully in home and community based settings; and

[(B) includes (except as provided in subparagraph (C)) prevocational, educational, and supported employment services; but

[(C) does not include—

[(i) special education and related services (as defined in section 602(16) and (17) of the Education of the Handicapped Act (20 U.S.C. 1401(16), (17)) which otherwise are available to the individual through a local educational agency; and

[(ii) vocational rehabilitation services which otherwise are available to the individual through a program funded under section 110 of the Rehabilitation Act of 1973 (29 U.S.C. 730).

[(6) The Secretary may not require, as a condition of approval of a waiver under this section under paragraph (2)(D), that the actual total expenditures for home and community-based services under the waiver (and a claim for Federal financial participation in expenditures for the services) cannot exceed the approved estimates for these services. The Secretary may not deny Federal financial payment with respect to services under such a waiver on the ground that, in order to comply with paragraph (2)(D), a State has failed to comply with such a requirement.

[(7)(A) In making estimates under paragraph (2)(D) in the case of a waiver that applies only to individuals with a particular illness or condition who are inpatients in, or who would require the level of care provided in, hospitals, nursing facilities, or intermediate care facilities for the mentally retarded, the State may determine the average per capita expenditure that would have been made in a fiscal year for those individuals under the State plan separately from the expenditures for other individuals who are inpatients in, or who would require the level of care provided in, those respective facilities.

[(B) In making estimates under paragraph (2)(D) in the case of a waiver that applies only to individuals with developmental disabilities who are inpatients in a nursing facility and whom the State has determined, on the basis of an evaluation under paragraph (2)(B), to need the level of services provided by an intermediate care facility for the mentally retarded, the State may determine the average per capita expenditures that would have been made in a fiscal year for those individuals under the State plan on the basis of the average per capita expenditures under the State plan for services to individuals who are inpatients in an intermediate care facility for the mentally retarded, without regard to the availability of beds for such inpatients.

[(C) In making estimates under paragraph (2)(D) in the case of a waiver to the extent that it applies to individuals with mental retardation or a related condition who are resident in an intermediate care facility for the mentally retarded the participation of which under the State plan is terminated, the State may determine the average per capita expenditures that would have been made in a fiscal year for those individuals without regard to any such termination.

[(8) The State agency administering the plan under this title may, whenever appropriate, enter into cooperative arrangements with the State agency responsible for administering the program for children with special health care needs under title V in order to assure improved access to coordinated services to meet the needs of such children.

[(9) In the case of any waiver under this subsection which contains a limit on the number of individuals who shall receive home or community-based services, the State may substitute additional individuals to receive such services to replace any individuals who die or become ineligible for services under the State plan.

[(10) The Secretary shall not limit to fewer than 200 the number of individuals in the State who may receive home and community-based services under a waiver under this subsection.

[(d)(1) Subject to paragraph (2), the Secretary shall grant a waiver to provide that a State plan approved under this title shall include as "medical assistance" under such plan payment for part or all of the cost of home or community-based services (other than room and board) which are provided pursuant to a written plan of care to individuals 65 years of age or older with respect to whom there has been a determination that but for the provision of such services the individuals would be likely to require the level of care provided in a skilled nursing facility or intermediate care facility the cost of which could be reimbursed under the State plan. For purposes of this subsection, the term "room and board" shall not include an amount established under a method determined by the State to reflect the portion of costs of rent and food attributable to an unrelated personal caregiver who is residing in the same household with an individual who, but for the assistance of such caregiver, would require admission to a hospital, nursing facility, or intermediate care facility for the mentally retarded.

[(2) A waiver shall not be granted under this subsection unless the State provides assurances satisfactory to the Secretary that—

[(A) necessary safeguards (including adequate standards for provider participation) have been taken to protect the health and welfare of individuals provided services under the waiver and to assure financial accountability for funds expended with respect to such services;

[(B) with respect to individuals 65 years of age or older who—

[(i) are entitled to medical assistance for skilled nursing or intermediate care facility services under the State plan,

[(ii) may require such services, and

[(iii) may be eligible for such home or community-based services under such waiver, the State will provide for an evaluation of the need for such skilled nursing facility or intermediate care facility services; and

[(C) such individuals who are determined to be likely to require the level of care provided in a skilled nursing facility or intermediate care facility are informed of the feasible alternatives to the provision of skilled nursing facility or intermediate care facility services, which such individuals may choose if available under the waiver.

Each State with a waiver under this subsection shall provide to the Secretary annually, consistent with a reasonable data collection plan designed by the Secretary, information on the impact of the waiver granted under this subsection on the type and amount of

medical assistance provided under the State plan and on the health and welfare of recipients.

[(3) A waiver granted under this subsection may include a waiver of the requirements of section 1902(a)(1) (relating to statewideness), section 1902(a)(10)(B) (relating to comparability), and section 1902(a)(10)(C)(i)(III) (relating to income and resource rules applicable in the community). Subject to a termination by the State (with notice to the Secretary) at any time, a waiver under this subsection shall be for an initial term of 3 years and, upon the request of a State, shall be extended for additional 5-year periods unless the Secretary determines that for the previous waiver period the assurances provided under paragraph (2) have not been met. A waiver may provide, with respect to post-eligibility treatment of income of all individuals receiving services under the waiver, that the maximum amount of the individual's income which may be disregarded for any month is equal to the amount that may be allowed for that purpose under a waiver under subsection (c).

[(4) A waiver under this subsection may, consistent with paragraph (2), provide medical assistance to individuals for case management services, homemaker/home health aide services and personal care services, adult day health services, respite care, and other medical and social services that can contribute to the health and well-being of individuals and their ability to reside in a community-based care setting.

[(5)(A) In the case of a State having a waiver approved under this subsection, notwithstanding any other provision of section 1903 to the contrary, the total amount expended by the State for medical assistance with respect to skilled nursing facility services, intermediate care facility services, and home and community-based services under the State plan for individuals 65 years of age or older during a waiver year under this subsection may not exceed the projected amount determined under subparagraph (B).

[(B) For purposes of subparagraph (A), the projected amount under this subparagraph is the sum of the following:

[(i) The aggregate amount of the State's medical assistance under this title for skilled nursing facility services and intermediate care facility services furnished to individuals who have attained the age of 65 for the base year increased by a percentage which is equal to the lesser of 7 percent times the number of years (rounded to the nearest quarter of a year) beginning after the base year and ending at the end of the waiver year involved or the sum of—

[(I) the percentage increase (based on an appropriate market-basket index representing the costs of elements of such services) between the beginning of the base year and the beginning of the waiver year involved, plus

[(II) the percentage increase between the beginning of the base year and the beginning of the waiver year involved in the number of residents in the State who have attained the age of 65, plus

[(III) 2 percent for each year (rounded to the nearest quarter of a year) beginning after the base year and ending at the end of the waiver year.

[(ii) The aggregate amount of the State's medical assistance under this title for home and community-based services for individuals who have attained the age of 65 for the base year increased by a percentage which is equal to the lesser of 7 percent times the number of years (rounded to the nearest quarter of a year) beginning after the base year and ending at the end of the waiver year involved or the sum of—

[(I) the percentage increase (based on an appropriate market-basket index representing the costs of elements of such services) between the beginning of the base year and the beginning of the waiver year involved, plus

[(II) the percentage increase between the beginning of the base year and the beginning of the waiver year involved in the number of residents in the State who have attained the age of 65, plus

[(III) 2 percent for each year (rounded to the nearest quarter of a year) beginning after the base year and ending at the end of the waiver year.

[(iii) The Secretary shall develop and promulgate by regulation (by not later than October 1, 1989)—

[(I) a method, based on an index of appropriately weighted indicators of changes in the wages and prices of the mix of goods and services which comprise both skilled nursing facility services and intermediate care facility services (regardless of the source of payment for such services), for projecting the percentage increase for purposes of clause (i)(I);

[(II) a method, based on an index of appropriately weighted indicators of changes in the wages and prices of the mix of goods and services which comprise home and community-based services (regardless of the source of payment for such services), for projecting the percentage increase for purposes of clause (ii)(I); and

[(III) a method for projecting, on a State specific basis, the percentage increase in the number of residents in each State who are over 65 years of age for any period.

The Secretary shall develop (by not later than October 1, 1989) a method for projecting, on a State-specific basis, the percentage increase in the number of residents in each State who are over 75 years of age for any period. Effective on and after the date the Secretary promulgates the regulation under clause (iii), any reference in this subparagraph to the "lesser of 7 percent" shall be deemed to be a reference to the "greater of 7 percent".

[(iv) If there is enacted after December 22, 1987, an Act which amends this title whose provisions become effective on or after such date and which results in an increase in the aggregate amount of medical assistance under this title for nursing facility services and home and community-based services for individuals who have attained the age of 65 years, the Secretary, at the request of a State with a waiver under this subsection for a waiver year or years and in close consultation with the State, shall adjust the projected amount computed under this subparagraph for the waiver year or years to take into account such increase.

[(C) In this paragraph:

[(i) The term “home and community-based services” includes services described in sections 1905(a)(7) and 1905(a)(8), services described in subsection (c)(4)(B), services described in paragraph (4), and personal care services.

[(ii)(I) Subject to subclause (II), the term “base year” means the most recent year (ending before the date of the enactment of this subsection) for which actual final expenditures under this title have been reported to, and accepted by, the Secretary.

[(II) For purposes of subparagraph (C), in the case of a State that does not report expenditures on the basis of the age categories described in such subparagraph for a year ending before the date of the enactment of this subsection, the term “base year” means fiscal year 1989.

[(iii) The term “intermediate care facility services” does not include services furnished in an institution certified in accordance with section 1905(d).

[(6)(A) A determination by the Secretary to deny a request for a waiver (or extension of waiver) under this subsection shall be subject to review to the extent provided under section 1116(b).

[(B) Notwithstanding any other provision of this Act, if the Secretary denies a request of the State for an extension of a waiver under this subsection, any waiver under this subsection in effect on the date such request is made shall remain in effect for a period of not less than 90 days after the date on which the Secretary denies such request (or, if the State seeks review of such determination in accordance with subparagraph (A), the date on which a final determination is made with respect to such review).

[(e)(1)(A) Subject to paragraph (2), the Secretary shall grant a waiver to provide that a State plan approved under this title shall include as “medical assistance” under such plan payment for part or all of the cost of nursing care, respite care, physicians’ services, prescribed drugs, medical devices and supplies, transportation services, and such other services requested by the State as the Secretary may approve which are provided pursuant to a written plan of care to a child described in subparagraph (B) with respect to whom there has been a determination that but for the provision of such services the infants would be likely to require the level of care provided in a hospital or nursing facility the cost of which could be reimbursed under the State plan.

[(B) Children described in this subparagraph are individuals under 5 years of age who—

[(i) at the time of birth were infected with (or tested positively for) the etiologic agent for acquired immune deficiency syndrome (AIDS),

[(ii) have such syndrome, or

[(iii) at the time of birth were dependent on heroin, cocaine, or phencyclidine,

and with respect to whom adoption or foster care assistance is (or will be) made available under part E of title IV.

[(2) A waiver shall not be granted under this subsection unless the State provides assurances satisfactory to the Secretary that—

[(A) necessary safeguards (including adequate standards for provider participation) have been taken to protect the

health and welfare of individuals provided services under the waiver and to assure financial accountability for funds expended with respect to such services;

[(B) under such waiver the average per capita expenditure estimated by the State in any fiscal year for medical assistance provided with respect to such individuals does not exceed 100 percent of the average per capita expenditure that the State reasonably estimates would have been made in that fiscal year for expenditures under the State plan for such individuals if the waiver had not been granted; and

[(C) the State will provide to the Secretary annually, consistent with a data collection plan designed by the Secretary, information on the impact of the waiver granted under this subsection on the type and amount of medical assistance provided under the State plan and on the health and welfare of recipients.

[(3) A waiver granted under this subsection may include a waiver of the requirements of section 1902(a)(1) (relating to statewideness) and section 1902(a)(10)(B) (relating to comparability). A waiver under this subsection shall be for an initial term of 3 years and, upon the request of a State, shall be extended for additional five-year periods unless the Secretary determines that for the previous waiver period the assurances provided under paragraph (2) have not been met.

[(4) The provisions of paragraph (6) of subsection (d) shall apply to this subsection in the same manner as it applies to subsection (d).

[(f)(1) The Secretary shall monitor the implementation of waivers granted under this section to assure that the requirements for such waiver are being met and shall, after notice and opportunity for a hearing, terminate any such waiver where he finds non-compliance has occurred.

[(2) A request to the Secretary from a State for approval of a proposed State plan or plan amendment or a waiver of a requirement of this title submitted by the State pursuant to a provision of this title shall be deemed granted unless the Secretary, within 90 days after the date of its submission to the Secretary, either denies such request in writing or informs the State agency in writing with respect to any additional information which is needed in order to make a final determination with respect to the request. After the date the Secretary receives such additional information, the request shall be deemed granted unless the Secretary, within 90 days of such date, denies such request.

[(g)(1) A State may provide, as medical assistance, case management services under the plan without regard to the requirements of section 1902(a)(1) and section 1902(a)(10)(B). The provision of case management services under this subsection shall not restrict the choice of the individual to receive medical assistance in violation of section 1902(a)(23). A State may limit the provision of case management services under this subsection to individuals with acquired immune deficiency syndrome (AIDS), or with AIDS-related conditions, or with either, or to individuals described in section 1902(z)(1)(A) and a State may limit the provision of case management services under this subsection to individuals with chronic

mental illness. The State may limit the case managers available with respect to case management services for eligible individuals with developmental disabilities or with chronic mental illness in order to ensure that the case managers for such individuals are capable of ensuring that such individuals receive needed services.

[(2) For purposes of this subsection, the term “case management services” means services which will assist individuals eligible under the plan in gaining access to needed medical, social, educational, and other services.

[(h) No waiver under this section (other than a waiver under subsection (c), (d), or (e)) may extend over a period of longer than two years unless the State requests continuation of such waiver, and such request shall be deemed granted unless the Secretary, within 90 days after the date of its submission to the Secretary, either denies such request in writing or informs the State agency in writing with respect to any additional information which is needed in order to make a final determination with respect to the request. After the date the Secretary receives such additional information, the request shall be deemed granted unless the Secretary, within 90 day of such date, denies such request.

[USE OF ENROLLMENT FEES, PREMIUMS, DEDUCTIONS, COST SHARING, AND SIMILAR CHARGES

[SEC. 1916. (a) The State plan shall provide that in the case of individuals described in subparagraph (A) or (E)(i) of section 1902(a)(10) who are eligible under the plan—

[(1) no enrollment fee, premium, or similar charge will be imposed under the plan (except for a premium imposed under subsection (c));

[(2) no deduction, cost sharing or similar charge will be imposed under the plan with respect to—

[(A) services furnished to individuals under 18 years of age (and, at the option of the State, individuals under 21, 20, or 19 years of age, or any reasonable category of individuals 18 years of age or over),

[(B) services furnished to pregnant women, if such services relate to the pregnancy or to any other medical condition which may complicate the pregnancy (or, at the option of the State, any services furnished to pregnant women),

[(C) services furnished to any individual who is an inpatient in a hospital, nursing facility, intermediate care facility for the mentally retarded, or other medical institution, if such individual is required, as a condition of receiving services in such institution under the State plan, to spend for costs of medical care all but a minimal amount of his income required for personal needs,

[(D) emergency services (as defined by the Secretary), family planning services and supplies described in section 1905(a)(4)(C), or services furnished to such an individual by a health maintenance organization (as defined in section 1903(m)) in which he is enrolled, or

[(E) services furnished to an individual who is receiving hospice care (as defined in section 1905(o)); and

[(3) any deduction, cost sharing, or similar charge imposed under the plan with respect to other such individuals or other care and services will be nominal in amount (as determined by the Secretary in regulations which shall, if the definition of “nominal” under the regulations in effect on July 1, 1982 is changed, take into account the level of cash assistance provided in such State and such other criteria as the Secretary determines to be appropriate); except that a deduction, cost-sharing, or similar charge of up to twice the nominal amount established for outpatient services may be imposed by a State under a waiver granted by the Secretary for services received at a hospital emergency room if the services are not emergency services (referred to in paragraph (2)(D)) and the State has established to the satisfaction of the Secretary that individuals eligible for services under the plan have actually available and accessible to them alternative sources of nonemergency, outpatient services.

[(b) The State plan shall provide that in the case of individuals other than those described in subparagraph (A) or (E) of section 1902(a)(10) who are eligible under the plan—

[(1) there may be imposed an enrollment fee, premium, or similar charge, which (as determined in accordance with standards prescribed by the Secretary) is related to the individual’s income,

[(2) no deduction, cost sharing, or similar charge will be imposed under the plan with respect to—

[(A) services furnished to individuals under 18 years of age (and, at the option of the State, individuals under 21, 20, or 19 years of age, or any reasonable category of individuals 18 years of age or over),

[(B) services furnished to pregnant women, if such services relate to the pregnancy or to any other medical condition which may complicate the pregnancy (or, at the option of the State, any services furnished to pregnant women),

[(C) services furnished to any individual who is an inpatient in a hospital, nursing facility, intermediate care facility for the mentally retarded, or other medical institution, if such individual is required, as a condition of receiving services in such institution under the State plan, to spend for costs of medical care all but a minimal amount of his income required for personal needs,

[(D) emergency services (as defined by the Secretary), family planning services and supplies described in section 1905(a)(4)(C), or (at the option of the State) services furnished to such an individual by a health maintenance organization (as defined in section 1903(m)) in which he is enrolled, or

[(E) services furnished to an individual who is receiving hospice care (as defined in section 1905(o)); and

[(3) any deduction, cost sharing, or similar charge imposed under the plan with respect to other such individuals or other care and services will be nominal in amount (as determined by the Secretary in regulations which shall, if the definition of

“nominal” under the regulations in effect on July 1, 1982 is changed, take into account the level of cash assistance provided in such State and such other criteria as the Secretary determines to be appropriate); except that a deduction, cost-sharing, or similar charge of up to twice the nominal amount established for outpatient services may be imposed by a State under a waiver granted by the Secretary for services received at a hospital emergency room if the services are not emergency services (referred to in paragraph (2)(D)) and the State has established to the satisfaction of the Secretary that individuals eligible for services under the plan have actually available and accessible to them alternative sources of nonemergency, outpatient services.

[(c)(1) The State plan of a State may at the option of the State provide for imposing a monthly premium (in an amount that does not exceed the limit established under paragraph (2)) with respect to an individual described in subparagraph (A) or (B) of section 1902(l)(1) who is receiving medical assistance on the basis of section 1902(a)(10)(A)(ii)(IX) and whose family income (as determined in accordance with the methodology specified in section 1902(l)(3)) equals or exceeds 150 percent of the income official poverty line (as defined by the Office of Management and Budget, and revised annually in accordance with section 673(2) of the Omnibus Budget Reconciliation Act of 1981) applicable to a family of the size involved.

[(2) In no case may the amount of any premium imposed under paragraph (1) exceed 10 percent of the amount by which the family income (less expenses for the care of a dependent child) of an individual exceeds 150 percent of the line described in paragraph (1).

[(3) A State shall not require prepayment of a premium imposed pursuant to paragraph (1) and shall not terminate eligibility of an individual for medical assistance under this title on the basis of failure to pay any such premium until such failure continues for a period of not less than 60 days. The State may waive payment of any such premium in any case where the State determines that requiring such payment would create an undue hardship.

[(4) A State may permit State or local funds available under other programs to be used for payment of a premium imposed under paragraph (1). Payment of a premium with such funds shall not be counted as income to the individual with respect to whom such payment is made.

[(d) With respect to a qualified disabled and working individual described in section 1905(s) whose income (as determined under paragraph (3) of that section) exceeds 150 percent of the official poverty line referred to in that paragraph, the State plan of a State may provide for the charging of a premium (expressed as a percentage of the medicare cost-sharing described in section 1905(p)(3)(A)(i) provided with respect to the individual) according to a sliding scale under which such percentage increases from 0 percent to 100 percent, in reasonable increments (as determined by the Secretary), as the individual's income increases from 150 percent of such poverty line to 200 percent of such poverty line.

[(e) The State plan shall require that no provider participating under the State plan may deny care or services to an individual eligible for such care or services under the plan on account of such individual's inability to pay a deduction, cost sharing, or similar charge. The requirements of this subsection shall not extinguish the liability of the individual to whom the care or services were furnished for payment of the deduction, cost sharing, or similar charge.

[(f) No deduction, cost sharing, or similar charge may be imposed under any waiver authority of the Secretary, except as provided in subsections (a)(3) and (b)(3), unless such waiver is for a demonstration project which the Secretary finds after public notice and opportunity for comment—

[(1) will test a unique and previously untested use of copayments,

[(2) is limited to a period of not more than two years,

[(3) will provide benefits to recipients of medical assistance which can reasonably be expected to be equivalent to the risks to the recipients,

[(4) is based on a reasonable hypothesis which the demonstration is designed to test in a methodologically sound manner, including the use of control groups of similar recipients of medical assistance in the area, and

[(5) is voluntary, or makes provision for assumption of liability for preventable damage to the health of recipients of medical assistance resulting from involuntary participation.

[LIENS, ADJUSTMENTS AND RECOVERIES, AND TRANSFERS OF ASSETS

[SEC. 1917. (a)(1) No lien may be imposed against the property of any individual prior to his death on account of medical assistance paid or to be paid on his behalf under the State plan, except—

[(A) pursuant to the judgment of a court on account of benefits incorrectly paid on behalf of such individual, or

[(B) in the case of the real property of an individual—

[(i) who is an inpatient in a nursing facility, intermediate care facility for the mentally retarded, or other medical institution, if such individual is required, as a condition of receiving services in such institution under the State plan, to spend for costs of medical care all but a minimal amount of his income required for personal needs, and

[(ii) with respect to whom the State determines, after notice and opportunity for a hearing (in accordance with procedures established by the State), that he cannot reasonably be expected to be discharged from the medical institution and to return home, except as provided in paragraph (2).

[(2) No lien may be imposed under paragraph (1)(B) on such individual's home if—

[(A) the spouse of such individual,

[(B) such individual's child who is under age 21, or (with respect to States eligible to participate in the State program established under title XVI) is blind or permanently and totally disabled, or (with respect to States which are not eligible to

participate in such program) is blind or disabled as defined in section 1614, or

[(C) a sibling of such individual (who has an equity interest in such home and who was residing in such individual's home for a period of at least one year immediately before the date of the individual's admission to the medical institution), is lawfully residing in such home.

[(3) Any lien imposed with respect to an individual pursuant to paragraph (1)(B) shall dissolve upon that individual's discharge from the medical institution and return home.

[(b)(1) No adjustment or recovery of any medical assistance correctly paid on behalf of an individual under the State plan may be made, except that the State shall seek adjustment or recovery of any medical assistance correctly paid on behalf of an individual under the State plan in the case of the following individuals:

[(A) In the case of an individual described in subsection (a)(1)(B), the State shall seek adjustment or recovery from the individual's estate or upon sale of the property subject to a lien imposed on account of medical assistance paid on behalf of the individual.

[(B) In the case of an individual who was 55 years of age or older when the individual received such medical assistance, the State shall seek adjustment or recovery from the individual's estate, but only for medical assistance consisting of—

[(i) nursing facility services, home and community-based services, and related hospital and prescription drug services, or

[(ii) at the option of the State, any items or services under the State plan.

[(C)(i) In the case of an individual who has received (or is entitled to receive) benefits under a long-term care insurance policy in connection with which assets or resources are disregarded in the manner described in clause (ii), except as provided in such clause, the State shall seek adjustment or recovery from the individual's estate on account of medical assistance paid on behalf of the individual for nursing facility and other long-term care services.

[(ii) Clause (i) shall not apply in the case of an individual who received medical assistance under a State plan of a State which had a State plan amendment approved as of May 14, 1993, which provided for the disregard of any assets or resources—

[(I) to the extent that payments are made under a long-term care insurance policy; or

[(II) because an individual has received (or is entitled to receive) benefits under a long-term care insurance policy.

[(2) Any adjustment or recovery under paragraph (1) may be made only after the death of the individual's surviving spouse, if any, and only at a time—

[(A) when he has no surviving child who is under age 21, or (with respect to States eligible to participate in the State program established under title XVI) is blind or permanently and totally disabled, or (with respect to States which are not

eligible to participate in such program) is blind or disabled as defined in section 1614; and

[(B) in the case of a lien on an individual's home under subsection (a)(1)(B), when—

[(i) no sibling of the individual (who was residing in the individual's home for a period of at least one year immediately before the date of the individual's admission to the medical institution), and

[(ii) no son or daughter of the individual (who was residing in the individual's home for a period of at least two years immediately before the date of the individual's admission to the medical institution, and who establishes to the satisfaction of the State that he or she provided care to such individual which permitted such individual to reside at home rather than in an institution),

is lawfully residing in such home who has lawfully resided in such home on a continuous basis since the date of the individual's admission to the medical institution.

[(3) The State agency shall establish procedures (in accordance with standards specified by the Secretary) under which the agency shall waive the application of this subsection (other than paragraph (1)(C)) if such application would work an undue hardship as determined on the basis of criteria established by the Secretary.

[(4) For purposes of this subsection, the term "estate", with respect to a deceased individual—

[(A) shall include all real and personal property and other assets included within the individual's estate, as defined for purposes of State probate law; and

[(B) may include, at the option of the State (and shall include, in the case of an individual to whom paragraph (1)(C)(i) applies), any other real and personal property and other assets in which the individual had any legal title or interest at the time of death (to the extent of such interest), including such assets conveyed to a survivor, heir, or assign of the deceased individual through joint tenancy, tenancy in common, survivorship, life estate, living trust, or other arrangement.

[(c)(1)(A) In order to meet the requirements of this subsection for purposes of section 1902(a)(18), the State plan must provide that if an institutionalized individual or the spouse of such an individual (or, at the option of a State, a noninstitutionalized individual or the spouse of such an individual) disposes of assets for less than fair market value on or after the look-back date specified in subparagraph (B)(i), the individual is ineligible for medical assistance for services described in subparagraph (C)(i) (or, in the case of a noninstitutionalized individual, for the services described in subparagraph (C)(ii)) during the period beginning on the date specified in subparagraph (D) and equal to the number of months specified in subparagraph (E).

[(B)(i) The look-back date specified in this subparagraph is a date that is 36 months (or, in the case of payments from a trust or portions of a trust that are treated as assets disposed of by the individual pursuant to paragraph (3)(A)(iii) or (3)(B)(ii) of subsection (d), 60 months) before the date specified in clause (ii).

[(ii) The date specified in this clause, with respect to—

[(I) an institutionalized individual is the first date as of which the individual both is an institutionalized individual and has applied for medical assistance under the State plan, or

[(II) a noninstitutionalized individual is the date on which the individual applies for medical assistance under the State plan or, if later, the date on which the individual disposes of assets for less than fair market value.

[(C)(i) The services described in this subparagraph with respect to an institutionalized individual are the following:

[(I) Nursing facility services.

[(II) A level of care in any institution equivalent to that of nursing facility services.

[(III) Home or community-based services furnished under a waiver granted under subsection (c) or (d) of section 1915.

[(ii) The services described in this subparagraph with respect to a noninstitutionalized individual are services (not including any services described in clause (i)) that are described in paragraph (7), (22), or (24) of section 1905(a), and, at the option of a State, other long-term care services for which medical assistance is otherwise available under the State plan to individuals requiring long-term care.

[(D) The date specified in this subparagraph is the first day of the first month during or after which assets have been transferred for less than fair market value and which does not occur in any other periods of ineligibility under this subsection.

[(E)(i) With respect to an institutionalized individual, the number of months of ineligibility under this subparagraph for an individual shall be equal to—

[(I) the total, cumulative uncompensated value of all assets transferred by the individual (or individual's spouse) on or after the look-back date specified in subparagraph (B)(i), divided by

[(II) the average monthly cost to a private patient of nursing facility services in the State (or, at the option of the State, in the community in which the individual is institutionalized) at the time of application.

[(ii) With respect to a noninstitutionalized individual, the number of months of ineligibility under this subparagraph for an individual shall not be greater than a number equal to—

[(I) the total, cumulative uncompensated value of all assets transferred by the individual (or individual's spouse) on or after the look-back date specified in subparagraph (B)(i), divided by

[(II) the average monthly cost to a private patient of nursing facility services in the State (or, at the option of the State, in the community in which the individual is institutionalized) at the time of application.

[(iii) The number of months of ineligibility otherwise determined under clause (i) or (ii) with respect to the disposal of an asset shall be reduced—

[(I) in the case of periods of ineligibility determined under clause (i), by the number of months of ineligibility applicable to the individual under clause (ii) as a result of such disposal, and

[(II) in the case of periods of ineligibility determined under clause (ii), by the number of months of ineligibility applicable to the individual under clause (i) as a result of such disposal.

[(2) An individual shall not be ineligible for medical assistance by reason of paragraph (1) to the extent that—

[(A) the assets transferred were a home and title to the home was transferred to—

[(i) the spouse of such individual;

[(ii) a child of such individual who (I) is under age 21, or (II) (with respect to States eligible to participate in the State program established under title XVI) is blind or permanently and totally disabled, or (with respect to States which are not eligible to participate in such program) is blind or disabled as defined in section 1614;

[(iii) a sibling of such individual who has an equity interest in such home and who was residing in such individual's home for a period of at least one year immediately before the date the individual becomes an institutionalized individual; or

[(iv) a son or daughter of such individual (other than a child described in clause (ii)) who was residing in such individual's home for a period of at least two years immediately before the date the individual becomes an institutionalized individual, and who (as determined by the State) provided care to such individual which permitted such individual to reside at home rather than in such an institution or facility;

[(B) the assets—

[(i) were transferred to the individual's spouse or to another for the sole benefit of the individual's spouse,

[(ii) were transferred from the individual's spouse to another for the sole benefit of the individual's spouse,

[(iii) were transferred to, or to a trust (including a trust described in subsection (d)(4)) established solely for the benefit of, the individual's child described in subparagraph (A)(ii)(II), or

[(iv) were transferred to a trust (including a trust described in subsection (d)(4)) established solely for the benefit of an individual under 65 years of age who is disabled (as defined in section 1614(a)(3));

[(C) a satisfactory showing is made to the State (in accordance with regulations promulgated by the Secretary) that (i) the individual intended to dispose of the assets either at fair market value, or for other valuable consideration, (ii) the assets were transferred exclusively for a purpose other than to qualify for medical assistance, or (iii) all assets transferred for less than fair market value have been returned to the individual; or

[(D) the State determines, under procedures established by the State (in accordance with standards specified by the Secretary), that the denial of eligibility would work an undue hardship as determined on the basis of criteria established by the Secretary;

[(3) For purposes of this subsection, in the case of an asset held by an individual in common with another person or persons in a joint tenancy, tenancy in common, or similar arrangement, the asset (or the affected portion of such asset) shall be considered to be transferred by such individual when any action is taken, either by such individual or by any other person, that reduces or eliminates such individual's ownership or control of such asset.

[(4) A State (including a State which has elected treatment under section 1902(f)) may not provide for any period of ineligibility for an individual due to transfer of resources for less than fair market value except in accordance with this subsection. In the case of a transfer by the spouse of an individual which results in a period of ineligibility for medical assistance under a State plan for such individual, a State shall, using a reasonable methodology (as specified by the Secretary), apportion such period of ineligibility (or any portion of such period) among the individual and the individual's spouse if the spouse otherwise becomes eligible for medical assistance under the State plan.

[(5) In this subsection, the term "resources" has the meaning given such term in section 1613, without regard to the exclusion described in subsection (a)(1) thereof.

[(d)(1) For purposes of determining an individual's eligibility for, or amount of, benefits under a State plan under this title, subject to paragraph (4), the rules specified in paragraph (3) shall apply to a trust established by such individual.

[(2)(A) For purposes of this subsection, an individual shall be considered to have established a trust if assets of the individual were used to form all or part of the corpus of the trust and if any of the following individuals established such trust other than by will:

[(i) The individual.

[(ii) The individual's spouse.

[(iii) A person, including a court or administrative body, with legal authority to act in place of or on behalf of the individual or the individual's spouse.

[(iv) A person, including any court or administrative body, acting at the direction or upon the request of the individual or the individual's spouse.

[(B) In the case of a trust the corpus of which includes assets of an individual (as determined under subparagraph (A)) and assets of any other person or persons, the provisions of this subsection shall apply to the portion of the trust attributable to the assets of the individual.

[(C) Subject to paragraph (4), this subsection shall apply without regard to—

[(i) the purposes for which a trust is established,

[(ii) whether the trustees have or exercise any discretion under the trust,

[(iii) any restrictions on when or whether distributions may be made from the trust, or

[(iv) any restrictions on the use of distributions from the trust.

[(3)(A) In the case of a revocable trust—

[(i) the corpus of the trust shall be considered resources available to the individual,

[(ii) payments from the trust to or for the benefit of the individual shall be considered income of the individual, and

[(iii) any other payments from the trust shall be considered assets disposed of by the individual for purposes of subsection (c).

[(B) In the case of an irrevocable trust—

[(i) if there are any circumstances under which payment from the trust could be made to or for the benefit of the individual, the portion of the corpus from which, or the income on the corpus from which, payment to the individual could be made shall be considered resources available to the individual, and payments from that portion of the corpus or income—

[(I) to or for the benefit of the individual, shall be considered income of the individual, and

[(II) for any other purpose, shall be considered a transfer of assets by the individual subject to subsection (c); and

(ii) any portion of the trust from which, or any income on the corpus from which, no payment could under any circumstances be made to the individual shall be considered, as of the date of establishment of the trust (or, if later, the date on which payment to the individual was foreclosed) to be assets disposed of by the individual for purposes of subsection (c), and the value of the trust shall be determined for purposes of such subsection by including the amount of any payments made from such portion of the trust after such date.

[(4) This subsection shall not apply to any of the following trusts:

[(A) A trust containing the assets of an individual under age 65 who is disabled (as defined in section 1614(a)(3)) and which is established for the benefit of such individual by a parent, grandparent, legal guardian of the individual, or a court if the State will receive all amounts remaining in the trust upon the death of such individual up to an amount equal to the total medical assistance paid on behalf of the individual under a State plan under this title.

[(B) A trust established in a State for the benefit of an individual if—

[(i) the trust is composed only of pension, Social Security, and other income to the individual (and accumulated income in the trust),

[(ii) the State will receive all amounts remaining in the trust upon the death of such individual up to an amount equal to the total medical assistance paid on behalf of the individual under a State plan under this title, and

[(iii) the State makes medical assistance available to individuals described in section 1902(a)(10)(A)(ii)(V), but does not make such assistance available to individuals for nursing facility services under section 1902(a)(10)(C).

[(C) A trust containing the assets of an individual who is disabled (as defined in section 1614(a)(3)) that meets the following conditions:

[(i) The trust is established and managed by a non-profit association.

[(ii) A separate account is maintained for each beneficiary of the trust, but, for purposes of investment and management of funds, the trust pools these accounts.

[(iii) Accounts in the trust are established solely for the benefit of individuals who are disabled (as defined in section 1614(a)(3)) by the parent, grandparent, or legal guardian of such individuals, by such individuals, or by a court.

[(iv) To the extent that amounts remaining in the beneficiary's account upon the death of the beneficiary are not retained by the trust, the trust pays to the State from such remaining amounts in the account an amount equal to the total amount of medical assistance paid on behalf of the beneficiary under the State plan under this title.

[(5) The State agency shall establish procedures (in accordance with standards specified by the Secretary) under which the agency waives the application of this subsection with respect to an individual if the individual establishes that such application would work an undue hardship on the individual as determined on the basis of criteria established by the Secretary.

[(6) The term "trust" includes any legal instrument or device that is similar to a trust but includes an annuity only to such extent and in such manner as the Secretary specifies.

[(e) In this section, the following definitions shall apply:

[(1) The term "assets", with respect to an individual, includes all income and resources of the individual and of the individual's spouse, including any income or resources which the individual or such individual's spouse is entitled to but does not receive because of action—

[(A) by the individual or such individual's spouse,

[(B) by a person, including a court or administrative body, with legal authority to act in place of or on behalf of the individual or such individual's spouse, or

[(4) The term "noninstitutionalized individual" means an individual receiving any of the services specified in subsection (c)(1)(C)(ii).

[(5) The term "resources" has the meaning given such term in section 1613, without regard (in the case of an institu-

tionalized individual) to the exclusion described in subsection (a)(1) of such section.

[(C) FREQUENCY.—

[(i) IN GENERAL.—Such an assessment must be conducted—

[(ii) is mentally retarded (as defined in subsection (e)(7)(G)(ii)) unless the State mental retardation or developmental disability authority has determined prior

to admission that, because of the physical and mental condition of the individual, the individual requires the level of services provided by a nursing facility, and, if the individual requires such level of services, whether the individual requires specialized services for mental retardation.

[(1) SPECIFICATION AND REVIEW OF NURSE AIDE TRAINING AND COMPETENCY EVALUATION PROGRAMS AND OF NURSE AIDE COMPETENCY EVALUATION PROGRAMS.—The State must—

[(A) by not later than January 1, 1989, specify those training and competency evaluation programs, and those competency evaluation programs, that the State approves for purposes of subsection (b)(5) and that meet the requirements established under subsection (f)(2), and

[(B) by not later than January 1, 1990, provide for the review and reapproval of such programs, at a frequency and using a methodology consistent with the requirements established under subsection (f)(2)(A)(iii).

The failure of the Secretary to establish requirements under subsection (f)(2) shall not relieve any State of its responsibility under this paragraph.

[(2) NURSE AIDE REGISTRY.—

[(A) IN GENERAL.—By not later than January 1, 1989, the State shall establish and maintain a registry of all individuals who have satisfactorily completed a nurse aide training and competency evaluation program, or a nurse aide competency evaluation program, approved under paragraph (1) in the State, or any individual described in subsection (f)(2)(B)(ii) or in subparagraph (B), (C), or (D) of section 6901(b)(4) of the Omnibus Budget Reconciliation Act of 1989.

[(B) INFORMATION IN REGISTRY.—The registry under subparagraph (A) shall provide (in accordance with regulations of the Secretary) for the inclusion of specific documented findings by a State under subsection (g)(1)(C) of resident neglect or abuse or misappropriation of resident property involving an individual listed in the registry, as well as any brief statement of the individual disputing the findings. The State shall make available to the public information in the registry. In the case of inquiries to the registry concerning an individual listed in the registry, any information disclosed concerning such a finding shall also include disclosure of any such statement in the registry relating to the finding or a clear and accurate summary of such a statement.

[(C) Prohibition against charges.—A State may not impose any charges on a nurse aide relating to the registry established and maintained under subparagraph (A).

[(3) STATE APPEALS PROCESS FOR TRANSFERS AND DISCHARGES.—The State, for transfers and discharges from nursing facilities effected on or after October 1, 1989, must provide for a fair mechanism, meeting the guidelines established under subsection (f)(3), for hearing appeals on transfers and discharges of residents of such facilities; but the failure of the Secretary to establish such guidelines under such subsection shall not relieve any State of its responsibility under this paragraph.

[(4) NURSING FACILITY ADMINISTRATOR STANDARDS.—By not later than July 1, 1989, the State must have implemented and enforced the nursing facility administrator standards developed under subsection (f)(4) respecting the qualification of administrators of nursing facilities.

[(5) SPECIFICATION OF RESIDENT ASSESSMENT INSTRUMENT.—Effective July 1, 1990, the State shall specify the instrument to be used by nursing facilities in the State in complying with the requirement of subsection (b)(3)(A)(iii). Such instrument shall be—

[(A) one of the instruments designated under subsection (f)(6)(B), or

[(B) an instrument which the Secretary has approved as being consistent with the minimum data set of core elements, common definitions, and utilization guidelines specified by the Secretary under subsection (f)(6)(A).

[(6) NOTICE OF MEDICAID RIGHTS.—Each State, as a condition of approval of its plan under this title, effective April 1, 1988, must develop (and periodically update) a written notice of the rights and obligations of residents of nursing facilities (and spouses of such residents) under this title.

[(7) STATE REQUIREMENTS FOR PREADMISSION SCREENING AND RESIDENT REVIEW.—

[(A) PREADMISSION SCREENING.—

[(i) IN GENERAL.—Effective January 1, 1989, the State must have in effect a preadmission screening program, for making determinations (using any criteria developed under subsection (f)(8)) described in subsection (b)(3)(F) for mentally ill and mentally retarded individuals (as defined in subparagraph (G)) who are admitted to nursing facilities on or after January 1, 1989. The failure of the Secretary to develop minimum criteria under subsection (f)(8) shall not relieve any State of its responsibility to have a preadmission screening program under this subparagraph or to perform resident reviews under subparagraph (B).

[(ii) CLARIFICATION WITH RESPECT TO CERTAIN READMISSIONS.—The preadmission screening program under clause (i) need not provide for determinations in the case of the readmission to a nursing facility of an individual who, after being admitted to the nursing facility, was transferred for care in a hospital.

[(iii) EXCEPTION FOR CERTAIN HOSPITAL DISCHARGES.—The preadmission screening program under clause (i) shall not apply to the admission to a nursing facility of an individual—

[(I) who is admitted to the facility directly from a hospital after receiving acute inpatient care at the hospital,

[(II) who requires nursing facility services for the condition for which the individual received care in the hospital, and

[(III) whose attending physician has certified, before admission to the facility, that the individual is likely to require less than 30 days of nursing facility services.

[(B) STATE REQUIREMENT FOR ANNUAL RESIDENT REVIEW.—

[(i) FOR MENTALLY ILL RESIDENTS.—As of April 1, 1990, in the case of each resident of a nursing facility who is mentally ill, the State mental health authority must review and determine (using any criteria developed under subsection (f)(8) and based on an independent physical and mental evaluation performed by a person or entity other than the State mental health authority)—

[(I) whether or not the resident, because of the resident's physical and mental condition, requires the level of services provided by a nursing facility or requires the level of services of an inpatient psychiatric hospital for individuals under age 21 (as described in section 1905(h)) or of an institution for mental diseases providing medical assistance to individuals 65 years of age or older; and

[(II) whether or not the resident requires specialized services for mental illness.

[(ii) FOR MENTALLY RETARDED RESIDENTS.—As of April 1, 1990, in the case of each resident of a nursing facility who is mentally retarded, the State mental retardation or developmental disability authority must review and determine (using any criteria developed under subsection (f)(8)—

[(I) whether or not the resident, because of the resident's physical and mental condition, requires the level of services provided by a nursing facility or requires the level of services of an intermediate care facility described under section 1905(d); and

[(II) whether or not the resident requires specialized services for mental retardation.

[(iii) FREQUENCY OF REVIEWS.—

[(I) ANNUAL.—Except as provided in subclauses (II) and (III), the reviews and determinations under clauses (i) and (ii) must be conducted with respect to each mentally ill or mentally retarded resident not less often than annually.

[(II) PREADMISSION REVIEW CASES.—In the case of a resident subject to a preadmission review under subsection (b)(3)(F), the review and determination under clause (i) or (ii) need not be done until the resident has resided in the nursing facility for 1 year.

[(III) INITIAL REVIEW.—The reviews and determinations under clauses (i) and (ii) must first

be conducted (for each resident not subject to preadmission review under subsection (b)(3)(F)) by not later than April 1, 1990.

[(iv) PROHIBITION OF DELEGATION.—A State mental health authority, a State mental retardation or developmental disability authority, and a State may not delegate (by subcontract or otherwise) their responsibilities under this subparagraph to a nursing facility (or to an entity that has a direct or indirect affiliation or relationship with such a facility).

[(C) RESPONSE TO PREADMISSION SCREENING AND RESIDENT REVIEW.—As of April 1, 1990, the State must meet the following requirements:

[(i) LONG-TERM RESIDENTS NOT REQUIRING NURSING FACILITY SERVICES, BUT REQUIRING SPECIALIZED SERVICES.—In the case of a resident who is determined, under subparagraph (B), not to require the level of services provided by a nursing facility, but to require specialized services for mental illness or mental retardation, and who has continuously resided in a nursing facility for at least 30 months before the date of the determination, the State must, in consultation with the resident's family or legal representative and care-givers—

[(I) inform the resident of the institutional and noninstitutional alternatives covered under the State plan for the resident,

[(II) offer the resident the choice of remaining in the facility or of receiving covered services in an alternative appropriate institutional or non-institutional setting,

[(III) clarify the effect on eligibility for services under the State plan if the resident chooses to leave the facility (including its effect on readmission to the facility), and

[(IV) regardless of the resident's choice, provide for (or arrange for the provision of) such specialized services for the mental illness or mental retardation.

A State shall not be denied payment under this title for nursing facility services for a resident described in this clause because the resident does not require the level of services provided by such a facility, if the resident chooses to remain in such a facility.

[(ii) OTHER RESIDENTS NOT REQUIRING NURSING FACILITY SERVICES, BUT REQUIRING SPECIALIZED SERVICES.—In the case of a resident who is determined, under subparagraph (B), not to require the level of services provided by a nursing facility, but to require specialized services for mental illness or mental retardation, and who has not continuously resided in a nursing facility for at least 30 months before the date of the determination, the State must, in consultation

with the resident's family or legal representative and care-givers—

【(I) arrange for the safe and orderly discharge of the resident from the facility, consistent with the requirements of subsection (c)(2),

【(II) prepare and orient the resident for such discharge, and

【(III) provide for (or arrange for the provision of) such specialized services for the mental illness or mental retardation.

【(iii) RESIDENTS NOT REQUIRING NURSING FACILITY SERVICES AND NOT REQUIRING SPECIALIZED SERVICES.—In the case of a resident who is determined, under subparagraph (B), not to require the level of services provided by a nursing facility and not to require specialized services for mental illness or mental retardation, the State must—

【(I) arrange for the safe and orderly discharge of the resident from the facility, consistent with the requirements of subsection (c)(2), and

【(II) prepare and orient the resident for such discharge.

【(iv) ANNUAL REPORT.—Each State shall report to the Secretary annually concerning the number and disposition of residents described in each of clauses (ii) and (iii).

【(D) DENIAL OF PAYMENT.—

【(i) FOR FAILURE TO CONDUCT PREADMISSION SCREENING OR ANNUAL REVIEW.—No payment may be made under section 1903(a) with respect to nursing facility services furnished to an individual for whom a determination is required under subsection (b)(3)(F) or subparagraph (B) but for whom the determination is not made.

【(ii) FOR CERTAIN RESIDENTS NOT REQUIRING NURSING FACILITY LEVEL OF SERVICES.—No payment may be made under section 1903(a) with respect to nursing facility services furnished to an individual (other than an individual described in subparagraph (C)(i)) who does not require the level of services provided by a nursing facility.

【(E) PERMITTING ALTERNATIVE DISPOSITION PLANS.—With respect to residents of a nursing facility who are mentally retarded or mentally ill and who are determined under subparagraph (B) not to require the level of services of such a facility, but who require specialized services for mental illness or mental retardation, a State and the nursing facility shall be considered to be in compliance with the requirements of subparagraphs (A) through (C) of this paragraph if, before April 1, 1989, the State and the Secretary have entered into an agreement relating to the disposition of such residents of the facility and the State is in compliance with such agreement. Such an agreement may provide for the disposition of the residents after the

date specified in subparagraph (C). The State may revise such an agreement, subject to the approval of the Secretary, before October 1, 1991, but only if, under the revised agreement, all residents subject to the agreement who do not require the level of services of such a facility are discharged from the facility by not later than April 1, 1994.

[(F) APPEALS PROCEDURES.—Each State, as a condition of approval of its plan under this title, effective January 1, 1989, must have in effect an appeals process for individuals adversely affected by determinations under subparagraph (A) or (B).

[(G) DEFINITIONS.—In this paragraph and in subsection (b)(3)(F):

[(i) An individual is considered to be “mentally ill” if the individual has a serious mental illness (as defined by the Secretary in consultation with the National Institute of Mental Health) and does not have a primary diagnosis of dementia (including Alzheimer’s disease or a related disorder) or a diagnosis (other than a primary diagnosis) of dementia and a primary diagnosis that is not a serious mental illness.

[(ii) An individual is considered to be “mentally retarded” if the individual is mentally retarded or a person with a related condition (as described in section 1905(d)).

[(iii) The term “specialized services” has the meaning given such term by the Secretary in regulations, but does not include, in the case of a resident of a nursing facility, services within the scope of services which the facility must provide or arrange for its residents under subsection (b)(4).

[(f) RESPONSIBILITIES OF SECRETARY RELATING TO NURSING FACILITY REQUIREMENTS.—

[(1) GENERAL RESPONSIBILITY.—It is the duty and responsibility of the Secretary to assure that requirements which govern the provision of care in nursing facilities under State plans approved under this title, and the enforcement of such requirements, are adequate to protect the health, safety, welfare, and rights of residents and to promote the effective and efficient use of public moneys.

[(2) REQUIREMENTS FOR NURSE AIDE TRAINING AND COMPETENCY EVALUATION PROGRAMS AND FOR NURSE AIDE COMPETENCY EVALUATION PROGRAMS.—

[(A) IN GENERAL.—For purposes of subsections (b)(5) and (e)(1)(A), the Secretary shall establish, by not later than September 1, 1988—

[(i) requirements for the approval of nurse aide training and competency evaluation programs, including requirements relating to (I) the areas to be covered in such a program (including at least basic nursing skills, personal care skills, recognition of mental health and social service needs, care of cognitively impaired residents, basic restorative services, and resi-

dents' rights) and content of the curriculum, (II) minimum hours of initial and ongoing training and retraining (including not less than 75 hours in the case of initial training), (III) qualifications of instructors, and (IV) procedures for determination of competency;

[(ii) requirements for the approval of nurse aide competency evaluation programs, including requirement relating to the areas to be covered in such a program, including at least basic nursing skills, personal care skills, recognition of mental health and social service needs, care of cognitively impaired residents, basic restorative services, and residents' rights, and procedures for determination of competency;

[(iii) requirements respecting the minimum frequency and methodology to be used by a State in reviewing such programs' compliance with the requirements for such programs; and

[(iv) requirements, under both such programs, that—

[(I) provide procedures for determining competency that permit a nurse aide, at the nurse aide's option, to establish competency through procedures or methods other than the passing of a written examination and to have the competency evaluation conducted at the nursing facility at which the aide is (or will be) employed (unless the facility is described in subparagraph (B)(iii)(I)),

[(II) prohibit the imposition on a nurse aide who is employed by (or who has received an offer of employment from) a facility on the date on which the aide begins either such program of any charges (including any charges for textbooks and other required course materials and any charges for the competency evaluation) for either such program, and

[(III) in the case of a nurse aide not described in subclause (II) who is employed by (or who has received an offer of employment from) a facility not later than 12 months after completing either such program, the State shall provide for the reimbursement of costs incurred in completing such program on a prorata basis during the period in which the nurse aide is so employed.

[(B) APPROVAL OF CERTAIN PROGRAMS.—Such requirements—

[(i) may permit approval of programs offered by or in facilities, as well as outside facilities (including employee organizations), and of programs in effect on the date of the enactment of this section;

[(ii) shall permit a State to find that an individual who has completed (before July 1, 1989) a nurse aide training and competency evaluation program shall be deemed to have completed such a program approved under subsection (b)(5) if the State determines that, at

the time the program was offered, the program met the requirements for approval under such paragraph; and

[(iii) shall prohibit approval of such a program—
 [(I) offered by or in a nursing facility which, within the previous 2 years—

[(a) has operated under a waiver under subsection (b)(4)(C)(ii) that was granted on the basis of a demonstration that the facility is unable to provide the nursing care required under subsection (b)(4)(C)(i) for a period in excess of 48 hours during a week;

[(b) has been subject to an extended (or partial extended) survey under section 1819(g)(2)(B)(i) or subsection (g)(2)(B)(i); or

[(c) has been assessed a civil money penalty described in section 1819(h)(2)(B)(ii) or subsection (h)(2)(A)(ii) of not less than \$5,000, or has been subject to a remedy described in subsection (h)(1)(B)(i), clauses (i), (iii), or (iv) of subsection (h)(2)(A), clauses (i) or (iii) of section 1819(h)(2)(B), or section 1819(h)(4), or

[(II) offered by or in a nursing facility unless the State makes the determination, upon an individual's completion of the program, that the individual is competent to provide nursing and nursing-related services in nursing facilities.

A State may not delegate (through subcontract or otherwise) its responsibility under clause (iii)(II) to the nursing facility.

[(3) FEDERAL GUIDELINES FOR STATE APPEALS PROCESS FOR TRANSFERS AND DISCHARGES.—For purposes of subsections (c)(2)(B)(iii) and (e)(3), by not later than October 1, 1988, the Secretary shall establish guidelines for minimum standards which State appeals processes under subsection (e)(3) must meet to provide a fair mechanism for hearing appeals on transfers and discharges of residents from nursing facilities.

[(4) SECRETARIAL STANDARDS QUALIFICATION OF ADMINISTRATORS.—For purposes of subsections (d)(1)(C) and (e)(4), the Secretary shall develop, by not later than March 1, 1988, standards to be applied in assuring the qualifications of administrators of nursing facilities.

[(5) CRITERIA FOR ADMINISTRATION.—The Secretary shall establish criteria for assessing a nursing facility's compliance with the requirement of subsection (d)(1) with respect to—

[(A) its governing body and management,

[(B) agreements with hospitals regarding transfers of residents to and from the hospitals and to and from other nursing facilities,

[(C) disaster preparedness,

[(D) direction of medical care by a physician,

[(E) laboratory and radiological services,

[(F) clinical records, and

[(G) resident and advocate participation.

[(6) SPECIFICATION OF RESIDENT ASSESSMENT DATA SET AND INSTRUMENTS.—The Secretary shall—

[(A) not later than January 1, 1989, specify a minimum data set of core elements and common definitions for use by nursing facilities in conducting the assessments required under subsection (b)(3), and establish guidelines for utilization of the data set; and

[(B) by not later than April 1, 1990, designate one or more instruments which are consistent with the specification made under subparagraph (A) and which a State may specify under subsection (e)(5)(A) for use by nursing facilities in complying with the requirements of subsection (b)(3)(A)(iii).

[(7) LIST OF ITEMS AND SERVICES FURNISHED IN NURSING FACILITIES NOT CHARGEABLE TO THE PERSONAL FUNDS OF A RESIDENT.—

[(A) REGULATIONS REQUIRED.—Pursuant to the requirement of section 21(b) of the Medicare-Medicaid Anti-Fraud and Abuse Amendments of 1977, the Secretary shall issue regulations, on or before the first day of the seventh month to begin after the date of enactment of this section, that define those costs which may be charged to the personal funds of residents in nursing facilities who are individuals receiving medical assistance with respect to nursing facility services under this title and those costs which are to be included in the payment amount under this title for nursing facility services.

[(B) RULE IF FAILURE TO PUBLISH REGULATIONS.—If the Secretary does not issue the regulations under subparagraph (A) on or before the date required in that subparagraph, in the case of a resident of a nursing facility who is eligible to receive benefits for nursing facility services under this title, for purposes of section 1902(a)(28)(B), the Secretary shall be deemed to have promulgated regulations under this paragraph which provide that the costs which may not be charged to the personal funds of such resident (and for which payment is considered to be made under this title) include, at a minimum, the costs for routine personal hygiene items and services furnished by the facility.

[(8) FEDERAL MINIMUM CRITERIA AND MONITORING FOR PREADMISSION SCREENING AND RESIDENT REVIEW.—

[(A) MINIMUM CRITERIA.—The Secretary shall develop, by not later than October 1, 1988, minimum criteria for States to use in making determinations under subsections (b)(3)(F) and (e)(7)(B) and in permitting individuals adversely affected to appeal such determinations, and shall notify the States of such criteria.

[(B) MONITORING COMPLIANCE.—The Secretary shall review, in a sufficient number of cases to allow reasonable inferences, each State's compliance with the requirements of subsection (e)(7)(C)(ii) (relating to discharge and placement for active treatment of certain residents).

[(9) CRITERIA FOR MONITORING STATE WAIVERS.—The Secretary shall develop, by not later than October 1, 1988, criteria and procedures for monitoring State performances in granting waivers pursuant to subsection (b)(4)(C)(ii).

[(g) SURVEY AND CERTIFICATION PROCESS.—

[(1) STATE AND FEDERAL RESPONSIBILITY.—

[(A) IN GENERAL.—Under each State plan under this title, the State shall be responsible for certifying, in accordance with surveys conducted under paragraph (2), the compliance of nursing facilities (other than facilities of the State) with the requirements of subsections (b), (c), and (d). The Secretary shall be responsible for certifying, in accordance with surveys conducted under paragraph (2), the compliance of State nursing facilities with the requirements of such subsections.

[(B) EDUCATIONAL PROGRAM.—Each State shall conduct periodic educational programs for the staff and residents (and their representatives) of nursing facilities in order to present current regulations, procedures, and policies under this section.

[(C) INVESTIGATION OF ALLEGATIONS OF RESIDENT NEGLECT AND ABUSE AND MISAPPROPRIATION OF RESIDENT PROPERTY.—The State shall provide, through the agency responsible for surveys and certification of nursing facilities under this subsection, for a process for the receipt and timely review and investigation of allegations of neglect and abuse and misappropriation of resident property by a nurse aide of a resident in a nursing facility or by another individual used by the facility in providing services to such a resident. The State shall, after notice to the individual involved and a reasonable opportunity for a hearing for the individual to rebut allegations, make a finding as to the accuracy of the allegations. If the State finds that a nurse aide has neglected or abused a resident or misappropriated resident property in a facility, the State shall notify the nurse aide and the registry of such finding. If the State finds that any other individual used by the facility has neglected or abused a resident or misappropriated resident property in a facility, the State shall notify the appropriate licensure authority. A State shall not make a finding that an individual has neglected a resident if the individual demonstrates that such neglect was caused by factors beyond the control of the individual.

[(D) CONSTRUCTION.—The failure of the Secretary to issue regulations to carry out this subsection shall not relieve a State of its responsibility under this subsection.

[(2) SURVEYS.—

[(A) ANNUAL STANDARD SURVEY.—

[(i) IN GENERAL.—Each nursing facility shall be subject to a standard survey, to be conducted without any prior notice to the facility. Any individual who notifies (or causes to be notified) a nursing facility of the time or date on which such a survey is scheduled to be conducted is subject to a civil money penalty of not

to exceed \$2,000. The provisions of section 1128A (other than subsections (a) and (b)) shall apply to a civil money penalty under the previous sentence in the same manner as such provisions apply to a penalty or proceeding under section 1128A(a). The Secretary shall review each State's procedures for scheduling and conduct of standard surveys to assure that the State has taken all reasonable steps to avoid giving notice of such a survey through the scheduling procedures and the conduct of the surveys themselves.

[(ii) CONTENTS.—Each standard survey shall include, for a case-mix stratified sample of residents—

[(I) a survey of the quality of care furnished, as measured by indicators of medical, nursing, and rehabilitative care, dietary and nutrition services, activities and social participation, and sanitation, infection control, and the physical environment,

[(II) written plans of care provided under subsection (b)(2) and an audit of the residents' assessments under subsection (b)(3) to determine the accuracy of such assessments and the adequacy of such plans of care, and

[(III) a review of compliance with residents' rights under subsection (c).

[(iii) FREQUENCY.—

[(I) IN GENERAL.—Each nursing facility shall be subject to a standard survey not later than 15 months after the date of the previous standard survey conducted under this subparagraph. The statewide average interval between standard surveys of a nursing facility shall not exceed 12 months.

[(II) SPECIAL SURVEYS.—If not otherwise conducted under subclause (I), a standard survey (or an abbreviated standard survey) may be conducted within 2 months of any change of ownership, administration, management of a nursing facility, or director of nursing in order to determine whether the change has resulted in any decline in the quality of care furnished in the facility.

[(B) EXTENDED SURVEYS.—

[(i) IN GENERAL.—Each nursing facility which is found, under a standard survey, to have provided substandard quality of care shall be subject to an extended survey. Any other facility may, at the Secretary's or State's discretion, be subject to such an extended survey (or a partial extended survey).

[(ii) TIMING.—The extended survey shall be conducted immediately after the standard survey (or, if not practicable, not later than 2 weeks after the date of completion of the standard survey).

[(iii) CONTENTS.—In such an extended survey, the survey team shall review and identify the policies and

procedures which produced such substandard quality of care and shall determine whether the facility has complied with all the requirements described in subsections (b), (c), and (d). Such review shall include an expansion of the size of the sample of residents' assessments reviewed and a review of the staffing, of in-service training, and, if appropriate, of contracts with consultants.

[(iv) CONSTRUCTION.—Nothing in this paragraph shall be construed as requiring an extended or partial extended survey as a prerequisite to imposing a sanction against a facility under subsection (h) on the basis of findings in a standard survey.

[(C) SURVEY PROTOCOL.—Standard and extended surveys shall be conducted—

[(i) based upon a protocol which the Secretary has developed, tested, and validated by not later than January 1, 1990, and

[(ii) by individuals, of a survey team, who meet such minimum qualifications as the Secretary establishes by not later than such date.

The failure of the Secretary to develop, test, or validate such protocols or to establish such minimum qualifications shall not relieve any State of its responsibility (or the Secretary of the Secretary's responsibility) to conduct surveys under this subsection.

[(D) CONSISTENCY OF SURVEYS.—Each State shall implement programs to measure and reduce inconsistency in the application of survey results among surveyors.

[(E) SURVEY TEAMS.—

[(i) IN GENERAL.—Surveys under this subsection shall be conducted by a multidisciplinary team of professionals (including a registered professional nurse).

[(ii) PROHIBITION OF CONFLICTS OF INTEREST.—A State may not use as a member of a survey team under this subsection an individual who is serving (or has served within the previous 2 years) as a member of the staff of, or as a consultant to, the facility surveyed respecting compliance with the requirements of subsections (b), (c), and (d), or who has a personal or familial financial interest in the facility being surveyed.

[(iii) TRAINING.—The Secretary shall provide for the comprehensive training of State and Federal surveyors in the conduct of standard and extended surveys under this subsection, including the auditing of resident assessments and plans of care. No individual shall serve as a member of a survey team unless the individual has successfully completed a training and testing program in survey and certification techniques that has been approved by the Secretary.

[(3) VALIDATION SURVEYS.—

[(A) IN GENERAL.—The Secretary shall conduct onsite surveys of a representative sample of nursing facilities in

each State, within 2 months of the date of surveys conducted under paragraph (2) by the State, in a sufficient number to allow inferences about the adequacies of each State's surveys conducted under paragraph (2). In conducting such surveys, the Secretary shall use the same survey protocols as the State is required to use under paragraph (2). If the State has determined that an individual nursing facility meets the requirements of subsections (b), (c), and (d), but the Secretary determines that the facility does not meet such requirements, the Secretary's determination as to the facility's noncompliance with such requirements is binding and supersedes that of the State survey.

[(B) SCOPE.—With respect to each State, the Secretary shall conduct surveys under subparagraph (A) each year with respect to at least 5 percent of the number of nursing facilities surveyed by the State in the year, but in no case less than 5 nursing facilities in the State.

[(C) REDUCTION IN ADMINISTRATIVE COSTS FOR SUBSTANDARD PERFORMANCE.—If the Secretary finds, on the basis of such surveys, that a State has failed to perform surveys as required under paragraph (2) or that a State's survey and certification performance otherwise is not adequate, the Secretary may provide for the training of survey teams in the State and shall provide for a reduction of the payment otherwise made to the State under section 1903(a)(2)(D) with respect to a quarter equal to 33 percent multiplied by a fraction, the denominator of which is equal to the total number of residents in nursing facilities surveyed by the Secretary that quarter and the numerator of which is equal to the total number of residents in nursing facilities which were found pursuant to such surveys to be not in compliance with any of the requirements of subsections (b), (c), and (d). A State that is dissatisfied with the Secretary's findings under this subparagraph may obtain reconsideration and review of the findings under section 1116 in the same manner as a State may seek reconsideration and review under that section of the Secretary's determination under section 1116(a)(1).

[(D) SPECIAL SURVEYS OF COMPLIANCE.—Where the Secretary has reason to question the compliance of a nursing facility with any of the requirements of subsections (b), (c), and (d), the Secretary may conduct a survey of the facility and, on the basis of that survey, make independent and binding determinations concerning the extent to which the nursing facility meets such requirements.

[(4) INVESTIGATION OF COMPLAINTS AND MONITORING NURSING FACILITY COMPLIANCE.—Each State shall maintain procedures and adequate staff to—

[(A) investigate complaints of violations of requirements by nursing facilities, and

[(B) monitor, on-site, on a regular, as needed basis, a nursing facility's compliance with the requirements of subsections (b), (c), and (d), if—

[(i) the facility has been found not to be in compliance with such requirements and is in the process of correcting deficiencies to achieve such compliance;

[(ii) the facility was previously found not to be in compliance with such requirements, has corrected deficiencies to achieve such compliance, and verification of continued compliance is indicated; or

[(iii) the State has reason to question the compliance of the facility with such requirements.

A State may maintain and utilize a specialized team (including an attorney, an auditor, and appropriate health care professionals) for the purpose of identifying, surveying, gathering and preserving evidence, and carrying out appropriate enforcement actions against substandard nursing facilities.

[(5) DISCLOSURE OF RESULTS OF INSPECTIONS AND ACTIVITIES.—

[(A) PUBLIC INFORMATION.—Each State, and the Secretary, shall make available to the public—

[(i) information respecting all surveys and certifications made respecting nursing facilities, including statements of deficiencies, within 14 calendar days after such information is made available to those facilities, and approved plans of correction,

[(ii) copies of cost reports of such facilities filed under this title or under title XVIII,

[(iii) copies of statements of ownership under section 1124, and

[(iv) information disclosed under section 1126.

[(B) NOTICE TO OMBUDSMAN.—Each State shall notify the State long-term care ombudsman (established under title III or VII of the Older Americans Act of 1965 in accordance with section 712 of the Act) of the State's findings of noncompliance with any of the requirements of subsections (b), (c), and (d), or of any adverse action taken against a nursing facility under paragraphs (1), (2), or (3) of subsection (h), with respect to a nursing facility in the State.

[(C) NOTICE TO PHYSICIANS AND NURSING FACILITY ADMINISTRATOR LICENSING BOARD.—If a State finds that a nursing facility has provided substandard quality of care, the State shall notify—

[(i) the attending physician of each resident with respect to which such finding is made, and

[(ii) any State board responsible for the licensing of the nursing facility administrator of the facility.

[(D) ACCESS TO FRAUD CONTROL UNITS.—Each State shall provide its State medicaid fraud and abuse control unit (established under section 1903(q)) with access to all information of the State agency responsible for surveys and certifications under this subsection.

[(h) ENFORCEMENT PROCESS.—

[(1) IN GENERAL.—If a State finds, on the basis of a standard, extended, or partial extended survey under subsection (g)(2) or otherwise, that a nursing facility no longer meets a re-

quirement of subsection (b), (c), or (d), and further finds that the facility's deficiencies—

【(A) immediately jeopardize the health or safety of its residents, the State shall take immediate action to remove the jeopardy and correct the deficiencies through the remedy specified in paragraph (2)(A)(iii), or terminate the facility's participation under the State plan and may provide, in addition, for one or more of the other remedies described in paragraph (2); or

【(B) do not immediately jeopardize the health or safety of its residents, the State may—

【(i) terminate the facility's participation under the State plan,

【(ii) provide for one or more of the remedies described in paragraph (2), or

【(iii) do both.

Nothing in this paragraph shall be construed as restricting the remedies available to a State to remedy a nursing facility's deficiencies. If a State finds that a nursing facility meets the requirements of subsections (b), (c), and (d), but, as of a previous period, did not meet such requirements, the State may provide for a civil money penalty under paragraph (2)(A)(ii) for the days in which it finds that the facility was not in compliance with such requirements.

【(2) SPECIFIED REMEDIES.—

【(A) LISTING.—Except as provided in subparagraph (B)(ii), each State shall establish by law (whether statute or regulation) at least the following remedies:

【(i) Denial of payment under the State plan with respect to any individual admitted to the nursing facility involved after such notice to the public and to the facility as may be provided for by the State.

【(ii) A civil money penalty assessed and collected, with interest, for each day in which the facility is or was out of compliance with a requirement of subsection (b), (c), or (d). Funds collected by a State as a result of imposition of such a penalty (or as a result of the imposition by the State of a civil money penalty for activities described in subsections (b)(3)(B)(ii)(I), (b)(3)(B)(ii)(II), or (g)(2)(A)(i)) shall be applied to the protection of the health or property of residents of nursing facilities that the State or the Secretary finds deficient, including payment for the costs of relocation of residents to other facilities, maintenance of operation of a facility pending correction of deficiencies or closure, and reimbursement of residents for personal funds lost.

【(iii) The appointment of temporary management to oversee the operation of the facility and to assure the health and safety of the facility's residents, where there is a need for temporary management while—

【(I) there is an orderly closure of the facility,

or

【(II) improvements are made in order to bring the facility into compliance with all the requirements of subsections (b), (c), and (d).

The temporary management under this clause shall not be terminated under subclause (II) until the State has determined that the facility has the management capability to ensure continued compliance with all the requirements of subsections (b), (c), and (d).

【(iv) The authority, in the case of an emergency, to close the facility, to transfer residents in that facility to other facilities, or both.

The State also shall specify criteria, as to when and how each of such remedies is to be applied, the amounts of any fines, and the severity of each of these remedies, to be used in the imposition of such remedies. Such criteria shall be designed so as to minimize the time between the identification of violations and final imposition of the remedies and shall provide for the imposition of incrementally more severe fines for repeated or uncorrected deficiencies. In addition, the State may provide for other specified remedies, such as directed plans of correction.

【(B) DEADLINE AND GUIDANCE.—(i) Except as provided in clause (ii), as a condition for approval of a State plan for calendar quarters beginning on or after October 1, 1989, each State shall establish the remedies described in clauses (i) through (iv) of subparagraph (A) by not later than October 1, 1989. The Secretary shall provide, through regulations by not later than October 1, 1988, guidance to States in establishing such remedies; but the failure of the Secretary to provide such guidance shall not relieve a State of the responsibility for establishing such remedies.

【(ii) A State may establish alternative remedies (other than termination of participation) other than those described in clauses (i) through (iv) of subparagraph (A), if the State demonstrates to the Secretary's satisfaction that the alternative remedies are as effective in deterring non-compliance and correcting deficiencies as those described in subparagraph (A).

【(C) ASSURING PROMPT COMPLIANCE.—If a nursing facility has not complied with any of the requirements of subsections (b), (c), and (d), within 3 months after the date the facility is found to be out of compliance with such requirements, the State shall impose the remedy described in subparagraph (A)(i) for all individuals who are admitted to the facility after such date.

【(D) REPEATED NONCOMPLIANCE.—In the case of a nursing facility which, on 3 consecutive standard surveys conducted under subsection (g)(2), has been found to have provided substandard quality of care, the State shall (regardless of what other remedies are provided)—

【(i) impose the remedy described in subparagraph (A)(i), and

【(ii) monitor the facility under subsection (g)(4)(B),

until the facility has demonstrated, to the satisfaction of the State, that it is in compliance with the requirements of subsections (b), (c), and (d), and that it will remain in compliance with such requirements.

[(E) FUNDING.—The reasonable expenditures of a State to provide for temporary management and other expenses associated with implementing the remedies described in clauses (iii) and (iv) of subparagraph (A) shall be considered, for purposes of section 1903(a)(7), to be necessary for the proper and efficient administration of the State plan.

[(F) INCENTIVES FOR HIGH QUALITY CARE.—In addition to the remedies specified in this paragraph, a State may establish a program to reward, through public recognition, incentive payments, or both, nursing facilities that provide the highest quality care to residents who are entitled to medical assistance under this title. For purposes of section 1903(a)(7), proper expenses incurred by a State in carrying out such a program shall be considered to be expenses necessary for the proper and efficient administration of the State plan under this title.

[(3) SECRETARIAL AUTHORITY.—

[(A) FOR STATE NURSING FACILITIES.—With respect to a State nursing facility, the Secretary shall have the authority and duties of a State under this subsection, including the authority to impose remedies described in clauses (i), (ii), and (iii) of paragraph (2)(A).

[(B) OTHER NURSING FACILITIES.—With respect to any other nursing facility in a State, if the Secretary finds that a nursing facility no longer meets a requirement of subsection (b), (c), (d), or (e), and further finds that the facility's deficiencies—

[(i) immediately jeopardize the health or safety of its residents, the Secretary shall take immediate action to remove the jeopardy and correct the deficiencies through the remedy specified in subparagraph (C)(iii), or terminate the facility's participation under the State plan and may provide, in addition, for one or more of the other remedies described in subparagraph (C); or

[(ii) do not immediately jeopardize the health or safety of its residents, the Secretary may impose any of the remedies described in subparagraph (C).

Nothing in this subparagraph shall be construed as restricting the remedies available to the Secretary to remedy a nursing facility's deficiencies. If the Secretary finds that a nursing facility meets such requirements but, as of a previous period, did not meet such requirements, the Secretary may provide for a civil money penalty under subparagraph (C)(ii) for the days on which he finds that the facility was not in compliance with such requirements.

[(C) SPECIFIED REMEDIES.—The Secretary may take the following actions with respect to a finding that a facility has not met an applicable requirement:

[(i) DENIAL OF PAYMENT.—The Secretary may deny any further payments to the State for medical assistance furnished by the facility to all individuals in the facility or to individuals admitted to the facility after the effective date of the finding.

[(ii) AUTHORITY WITH RESPECT TO CIVIL MONEY PENALTIES.—The Secretary may impose a civil money penalty in an amount not to exceed \$10,000 for each day of noncompliance. The provisions of section 1128A (other than subsections (a) and (b)) shall apply to a civil money penalty under the previous sentence in the same manner as such provisions apply to a penalty or proceeding under section 1128A(a).

[(iii) APPOINTMENT OF TEMPORARY MANAGEMENT.—In consultation with the State, the Secretary may appoint temporary management to oversee the operation of the facility and to assure the health and safety of the facility's residents, where there is a need for temporary management while—

[(I) there is an orderly closure of the facility,

or

[(II) improvements are made in order to bring the facility into compliance with all the requirements of subsections (b), (c), and (d).

The temporary management under this clause shall not be terminated under subclause (II) until the Secretary has determined that the facility has the management capability to ensure continued compliance with all the requirements of subsections (b), (c), and (d).

The Secretary shall specify criteria, as to when and how each of such remedies is to be applied, the amounts of any fines, and the severity of each of these remedies, to be used in the imposition of such remedies. Such criteria shall be designed so as to minimize the time between the identification of violations and final imposition of the remedies and shall provide for the imposition of incrementally more severe fines for repeated or uncorrected deficiencies. In addition, the Secretary may provide for other specified remedies, such as directed plans of correction.

[(D) CONTINUATION OF PAYMENTS PENDING REMEDIATION.—The Secretary may continue payments, over a period of not longer than 6 months after the effective date of the findings, under this title with respect to a nursing facility not in compliance with a requirement of subsection (b), (c), or (d), if—

[(i) the State survey agency finds that it is more appropriate to take alternative action to assure compliance of the facility with the requirements than to terminate the certification of the facility,

[(ii) the State has submitted a plan and timetable for corrective action to the Secretary for approval and the Secretary approves the plan of corrective action, and

[(iii) the State agrees to repay to the Federal Government payments received under this subparagraph if the corrective action is not taken in accordance with the approved plan and timetable.

The Secretary shall establish guidelines for approval of corrective actions requested by States under this subparagraph.

[(4) EFFECTIVE PERIOD OF DENIAL OF PAYMENT.—A finding to deny payment under this subsection shall terminate when the State or Secretary (or both, as the case may be) finds that the facility is in substantial compliance with all the requirements of subsections (b), (c), and (d).

[(5) IMMEDIATE TERMINATION OF PARTICIPATION FOR FACILITY WHERE STATE OR SECRETARY FINDS NONCOMPLIANCE AND IMMEDIATE JEOPARDY.—If either the State or the Secretary finds that a nursing facility has not met a requirement of subsection (b), (c), or (d), and finds that the failure immediately jeopardizes the health or safety of its residents, the State or the Secretary, respectively shall notify the other of such finding, and the State or the Secretary, respectively, shall take immediate action to remove the jeopardy and correct the deficiencies through the remedy specified in paragraph (2)(A)(iii) or (3)(C)(iii), or terminate the facility's participation under the State plan. If the facility's participation in the State plan is terminated by either the State or the Secretary, the State shall provide for the safe and orderly transfer of the residents eligible under the State plan consistent with the requirements of subsection (c)(2).

[(6) SPECIAL RULES WHERE STATE AND SECRETARY DO NOT AGREE ON FINDING OF NONCOMPLIANCE.—

[(A) STATE FINDING OF NONCOMPLIANCE AND NO SECRETARIAL FINDING OF NONCOMPLIANCE.—If the Secretary finds that a nursing facility has met all the requirements of subsections (b), (c), and (d), but a State finds that the facility has not met such requirements and the failure does not immediately jeopardize the health or safety of its residents, the State's findings shall control and the remedies imposed by the State shall be applied.

[(B) SECRETARIAL FINDING OF NONCOMPLIANCE AND NO STATE FINDING OF NONCOMPLIANCE.—If the Secretary finds that a nursing facility has not met all the requirements of subsections (b), (c), and (d), and that the failure does not immediately jeopardize the health or safety of its residents, but the State has not made such a finding, the Secretary—

[(i) may impose any remedies specified in paragraph (3)(C) with respect to the facility, and

[(ii) shall (pending any termination by the Secretary) permit continuation of payments in accordance with paragraph (3)(D).

[(7) SPECIAL RULES FOR TIMING OF TERMINATION OF PARTICIPATION WHERE REMEDIES OVERLAP.—If both the Secretary and the State find that a nursing facility has not met all the requirements of subsections (b), (c), and (d), and neither finds

that the failure immediately jeopardizes the health or safety of its residents—

[(A)(i) if both find that the facility's participation under the State plan should be terminated, the State's timing of any termination shall control so long as the termination date does not occur later than 6 months after the date of the finding to terminate;

[(ii) if the Secretary, but not the State, finds that the facility's participation under the State plan should be terminated, the Secretary shall (pending any termination by the Secretary) permit continuation of payments in accordance with paragraph (3)(D); or

[(iii) if the State, but not the Secretary, finds that the facility's participation under the State plan should be terminated, the State's decision to terminate, and timing of such termination, shall control; and

[(B)(i) if the Secretary or the State, but not both, establishes one or more remedies which are additional or alternative to the remedy of terminating the facility's participation under the State plan, such additional or alternative remedies shall also be applied, or

[(ii) if both the Secretary and the State establish one or more remedies which are additional or alternative to the remedy of terminating the facility's participation under the State plan, only the additional or alternative remedies of the Secretary shall apply.

[(8) CONSTRUCTION.—The remedies provided under this subsection are in addition to those otherwise available under State or Federal law and shall not be construed as limiting such other remedies, including any remedy available to an individual at common law. The remedies described in clauses (i), (iii), and (iv) of paragraph (2)(A) may be imposed during the pendency of any hearing. The provisions of this subsection shall apply to a nursing facility (or portion thereof) notwithstanding that the facility (or portion thereof) also is a skilled nursing facility for purposes of title XVIII.

[(9) SHARING OF INFORMATION.—Notwithstanding any other provision of law, all information concerning nursing facilities required by this section to be filed with the Secretary or a State agency shall be made available by such facilities to Federal or State employees for purposes consistent with the effective administration of programs established under this title and title XVIII, including investigations by State medicaid fraud control units.

[(i) CONSTRUCTION.—Where requirements or obligations under this section are identical to those provided under section 1819 of this Act, the fulfillment of those requirements or obligations under section 1819 shall be considered to be the fulfillment of the corresponding requirements or obligations under this section.

[(1) INFORMATION REPORTING SYSTEM.—The State must have in effect a system of reporting the following information with respect to formal proceedings (as defined by the Secretary in regulations) concluded against a health care practitioner or entity by any authority of the State (or of a political subdivision thereof) responsible for the licensing of health care practitioners (or any peer review organization or private accreditation entity reviewing the services provided by health care practitioners) or entities:

[(A) Any adverse action taken by such licensing authority as a result of the proceeding, including any revocation or suspension of a license (and the length of any such suspension), reprimand, censure, or probation.

[(b) FORM OF INFORMATION.—The information described in subsection (a)(1) shall be provided to the Secretary (or to an appropriate private or public agency, under suitable arrangements made by the Secretary with respect to receipt, storage, protection of confidentiality, and dissemination of information) in such a form and manner as the Secretary determines to be appropriate in order to provide for activities of the Secretary under this Act and in order to provide, directly or through suitable arrangements made by the Secretary, information—

**【CORRECTION AND REDUCTION PLANS FOR INTERMEDIATE CARE
FACILITIES FOR THE MENTALLY RETARDED**

【SEC. 1922. (a) If the Secretary finds that an intermediate care facility for the mentally retarded has substantial deficiencies which do not pose an immediate threat to the health and safety of residents (including failure to provide active treatment), the State may elect, subject to the limitations in this section, to—

【(1) submit, within the number of days specified by the Secretary in regulations which apply to submission of compliance plans with respect to deficiencies of such type, a written plan of correction which details the extent of the facility's current compliance with the standards promulgated by the Secretary, including all deficiencies identified during a validation survey, and which provides for a timetable for completion of necessary steps to correct all staffing deficiencies within 6 months, and a timetable for rectifying all physical plant deficiencies within 6 months; or

【(2) submit, within a time period consisting of the number of days specified for submissions under paragraph (1) plus 35 days, a written plan for permanently reducing the number of certified beds, within a maximum of 36 months, in order to permit any noncomplying buildings (or distinct parts thereof) to be vacated and any staffing deficiencies to be corrected (hereinafter in this section referred to as a "reduction plan").

【(b) As conditions of approval of any reduction plan submitted pursuant to subsection (a)(2), the State must—

【(1) provide for a hearing to be held at the affected facility at least 35 days prior to submission of the reduction plan, with reasonable notice thereof to the staff and residents of the facility, responsible members of the residents' families, and the general public;

【(2) demonstrate that the State has successfully provided home and community services similar to the services proposed to be provided under the reduction plan for similar individuals eligible for medical assistance; and

【(3) provide assurances that the requirements of subsection (c) shall be met with respect to the reduction plan.

【(c) The reduction plan must—

【(1) identify the number and service needs of existing facility residents to be provided home or community services and the timetable for providing such services, in 6 month intervals, within the 36-month period;

【(2) describe the methods to be used to select such residents for home and community services and to develop the alternative home and community services to meet their needs effectively;

【(3) describe the necessary safeguards that will be applied to protect the health and welfare of the former residents of the facility who are to receive home or community services, including adequate standards for consumer and provider participation and assurances that applicable State licensure and applicable State and Federal certification requirements will be met in providing such home or community services;

[(4) provide that residents of the affected facility who are eligible for medical assistance while in the facility shall, at their option, be placed in another setting (or another part of the affected facility) so as to retain their eligibility for medical assistance;

[(5) specify the actions which will be taken to protect the health and safety of, and to provide active treatment for, the residents who remain in the affected facility while the reduction plan is in effect;

[(6) provide that the ratio of qualified staff to residents at the affected facility (or the part thereof) which is subject to the reduction plan will be the higher of—

[(A) the ratio which the Secretary determines is necessary in order to assure the health and safety of the residents of such facility (or part thereof); or

[(B) the ratio which was in effect at the time that the finding of substantial deficiencies (referred to in subsection (a)) was made; and

[(7) provide for the protection of the interests of employees affected by actions under the reduction plan, including—

[(A) arrangements to preserve employee rights and benefits;

[(B) training and retraining of such employees where necessary;

[(C) redeployment of such employees to community settings under the reduction plan; and

[(D) making maximum efforts to guarantee the employment of such employees (but this requirement shall not be construed to guarantee the employment of any employee).

[(d)(1) The Secretary must provide for a period of not less than 30 days after the submission of a reduction plan by a State, during which comments on such reduction plan may be submitted to the Secretary, before the Secretary approves or disapproves such reduction plan.

[(2) If the Secretary approves more than 15 reduction plans under this section in any fiscal year, any reduction plans approved in addition to the first 15 such plans approved, must be for a facility (or part thereof) for which the costs of correcting the substantial deficiencies (referred to in subsection (a)) are \$2,000,000 or greater (as demonstrated by the State to the satisfaction of the Secretary).

[(e)(1) If the Secretary, at the conclusion of the 6-month plan of correction described in subsection (a)(1), determines that the State has substantially failed to correct the deficiencies described in subsection (a), the Secretary may terminate the facility's provider agreement in accordance with the provisions of section 1910(b).

[(2) In the case of a reduction plan described in subsection (a)(2), if the Secretary determines, at the conclusion of the initial 6-month period or any 6-month interval thereafter, that the State has substantially failed to meet the requirements of subsection (c), the Secretary shall—

[(A) terminate the facility's provider agreement in accordance with the provisions of section 1910(b); or

[(B) if the State has failed to meet such requirements despite good faith efforts, disallow, for purposes of Federal financial participation, an amount equal to 5 percent of the cost of care for all eligible individuals in the facility for each month for which the State fails to meet such requirements.

[(f) The provisions of this section shall apply only to plans of correction and reduction plans approved by the Secretary by January 1, 1990.

**[ADJUSTMENT IN PAYMENT FOR INPATIENT HOSPITAL SERVICES
FURNISHED BY DISPROPORTIONATE SHARE HOSPITALS**

[SEC. 1923. (a) IMPLEMENTATION OF REQUIREMENT.—

[(1) A State plan under this title shall not be considered to meet the requirement of section 1902(a)(13)(A) (insofar as it requires payments to hospitals to take into account the situation of hospitals which serve a disproportionate number of low income patients with special needs), as of July 1, 1988, unless the State has submitted to the Secretary, by not later than such date, an amendment to such plan that—

[(A) specifically defines the hospitals so described (and includes in such definition any disproportionate share hospital described in subsection (b)(1) which meets the requirements of subsection (d)), and

[(B) provides, effective for inpatient hospital services provided not later than July 1, 1988, for an appropriate increase in the rate or amount of payment for such services provided by such hospitals, consistent with subsection (c).

[(2)(A) In order to be considered to have met such requirement of section 1902(a)(13)(A) as of July 1, 1989, the State must submit to the Secretary by not later than April 1, 1989, the State plan amendment described in paragraph (1), consistent with subsection (c), effective for inpatient hospital services provided on or after July 1, 1989.

[(B) In order to be considered to have met such requirement of section 1902(a)(13)(A) as of July 1, 1990, the State must submit to the Secretary by not later than April 1, 1990, the State plan amendment described in paragraph (1), consistent with subsections (c) and (f), effective for inpatient hospital services provided on or after July 1, 1990.

[(C) If a State plan under this title provides for payments for inpatient hospital services on a prospective basis (whether per diem, per case, or otherwise), in order for the plan to be considered to have met such requirement of section 1902(a)(13)(A) as of July 1, 1989, the State must submit to the Secretary by not later than April 1, 1989, a State plan amendment that provides, in the case of hospitals defined by the State as disproportionate share hospitals under paragraph (1)(A), for an outlier adjustment in payment amounts for medically necessary inpatient hospital services provided on or after July 1, 1989, involving exceptionally high costs or exceptionally long lengths of stay for individuals under one year of age.

[(3) The Secretary shall, not later than 90 days after the date a State submits an amendment under this subsection, review each such amendment for compliance with such require-

ment and by such date shall approve or disapprove each such amendment. If the Secretary disapproves such an amendment, the State shall immediately submit a revised amendment which meets such requirement.

[(4) The requirement of this subsection may not be waived under section 1915(b)(4).

[(b) HOSPITALS DEEMED DISPROPORTIONATE SHARE.—

[(1) For purposes of subsection (a)(1), a hospital which meets the requirements of subsection (d) is deemed to be a disproportionate share hospital if—

[(A) the hospital's medicaid inpatient utilization rate (as defined in paragraph (2)) is at least one standard deviation above the mean medicaid inpatient utilization rate for hospitals receiving medicaid payments in the State; or

[(B) the hospital's low-income utilization rate (as defined in paragraph (3)) exceeds 25 percent.

[(2) For purposes of paragraph (1)(A), the term "medicaid inpatient utilization rate" means, for a hospital, a fraction (expressed as a percentage), the numerator of which is the hospital's number of inpatient days attributable to patients who (for such days) were eligible for medical assistance under a State plan approved under this title in a period, and the denominator of which is the total number of the hospital's inpatient days in that period. In this paragraph, the term "inpatient day" includes each day in which an individual (including a newborn) is an inpatient in the hospital, whether or not the individual is in a specialized ward and whether or not the individual remains in the hospital for lack of suitable placement elsewhere.

[(3) For purposes of paragraph (1)(B), the term "low-income utilization rate" means, for a hospital, the sum of—

[(A) the fraction (expressed as a percentage)—

[(i) the numerator of which is the sum (for a period) of (I) the total revenues paid the hospital for patient services under a State plan under this title and (II) the amount of the cash subsidies for patient services received directly from State and local governments, and

[(ii) the denominator of which is the total amount of revenues of the hospital for patient services (including the amount of such cash subsidies) in the period; and

[(B) a fraction (expressed as a percentage)—

[(i) the numerator of which is the total amount of the hospital's charges for inpatient hospital services which are attributable to charity care in a period, less the portion of any cash subsidies described in clause (i)(II) of subparagraph (A) in the period reasonably attributable to inpatient hospital services, and

[(ii) the denominator of which is the total amount of the hospital's charges for inpatient hospital services in the hospital in the period.

The numerator under subparagraph (B)(i) shall not include contractual allowances and discounts (other than for indigent

patients not eligible for medical assistance under a State plan approved under this title).

[(4) The Secretary may not restrict a State's authority to designate hospitals as disproportionate share hospitals under this section. The previous sentence shall not be construed to affect the authority of the Secretary to reduce payments pursuant to section 1903(w)(1)(A)(iii) if the Secretary determines that, as a result of such designations, there is in effect a hold harmless provision described in section 1903(w)(4).

[(c) PAYMENT ADJUSTMENT.—Subject to subsections (f) and (g), in order to be consistent with this subsection, a payment adjustment for a disproportionate share hospital must either—

[(1) be in an amount equal to at least the product of (A) the amount paid under the State plan to the hospital for operating costs for inpatient hospital services (of the kind described in section 1886(a)(4)), and (B) the hospital's disproportionate share adjustment percentage (established under section 1886(d)(5)(F)(iv));

[(2) provide for a minimum specified additional payment amount (or increased percentage payment) and (without regard to whether the hospital is described in subparagraph (A) or (B) of subsection (b)(1)) for an increase in such a payment amount (or percentage payment) in proportion to the percentage by which the hospital's medicaid utilization rate (as defined in subsection (b)(2)) exceeds one standard deviation above the mean medicaid inpatient utilization rate for hospitals receiving medicaid payments in the State or the hospital's low-income utilization rate (as defined in paragraph (b)(3)); or

[(3) provide for a minimum specified additional payment amount (or increased percentage payment) that varies according to type of hospital under a methodology that—

[(A) applies equally to all hospitals of each type; and

[(B) results in an adjustment for each type of hospital that is reasonably related to the costs, volume, or proportion of services provided to patients eligible for medical assistance under a State plan approved under this title or to low-income patients.

except that, for purposes of paragraphs (1)(B) and (2)(A) of subsection (a), the payment adjustment for a disproportionate share hospital is consistent with this subsection if the appropriate increase in the rate or amount of payment is equal to at least one-third of the increase otherwise applicable under this subsection (in the case of such paragraph (1)(B)) and at least two-thirds of such increase (in the case of such paragraph (2)(A)). In the case of a hospital described in subsection (d)(2)(A)(i) (relating to children's hospitals), in computing the hospital's disproportionate share adjustment percentage for purposes of paragraph (1)(B) of this subsection, the disproportionate patient percentage (defined in section 1886(d)(5)(F)(vi)) shall be computed by substituting for the fraction described in subclause (I) of such section the fraction described in subclause (II) of that section. If a State elects in a State plan amendment under subsection (a) to provide the payment adjustment described in paragraph (2), the State must include in the amend-

ment a detailed description of the specific methodology to be used in determining the specified additional payment amount (or increased percentage payment) to be made to each hospital qualifying for such a payment adjustment and must publish at least annually the name of each hospital qualifying for such a payment adjustment and the amount of such payment adjustment made for each such hospital.

[(d) REQUIREMENTS TO QUALIFY AS DISPROPORTIONATE SHARE HOSPITAL.—

[(1) Except as provided in paragraph (2), no hospital may be defined or deemed as a disproportionate share hospital under a State plan under this title or under subsection (b) of this section unless the hospital has at least 2 obstetricians who have staff privileges at the hospital and who have agreed to provide obstetric services to individuals who are entitled to medical assistance for such services under such State plan.

[(2)(A) Paragraph (1) shall not apply to a hospital—

[(i) the inpatients of which are predominantly individuals under 18 years of age; or

[(ii) which does not offer nonemergency obstetric services to the general population as of the date of the enactment of this Act.

[(B) In the case of a hospital located in a rural area (as defined for purposes of section 1886), in paragraph (1) the term “obstetrician” includes any physician with staff privileges at the hospital to perform nonemergency obstetric procedures.

[(3) No hospital may be defined or deemed as a disproportionate share hospital under a State plan under this title or under subsection (b) or (e) of this section unless the hospital has a medicaid inpatient utilization rate (as defined in subsection (b)(2)) of not less than 1 percent.

[(e) SPECIAL RULE.—(1) A State plan shall be considered to meet the requirement of section 1902(a)(13)(A) (insofar as it requires payments to hospitals to take into account the situation of hospitals which serve a disproportionate number of low income patients with special needs) without regard to the requirement of subsection (a) if (A)(i) the plan provided for payment adjustments based on a pooling arrangement involving a majority of the hospitals participating under the plan for disproportionate share hospitals as of January 1, 1984, or (ii) the plan as of January 1, 1987, provided for payment adjustments based on a statewide pooling arrangement involving all acute care hospitals and the arrangement provides for reimbursement of the total amount of uncompensated care provided by each participating hospital, (B) the aggregate amount of the payment adjustments under the plan for such hospitals is not less than the aggregate amount of such adjustments otherwise required to be made under such subsection, and (C) the plan meets the requirement of subsection (d)(3) and such payment adjustments are made consistent with the last sentence of subsection (c).

[(2) In the case of a State that used a health insuring organization before January 1, 1986, to administer a portion of its plan on a state-wide basis, beginning on July 1, 1988—

[(A) the requirements of subsections (b) and (c) (other than the last sentence of subsection (c)) shall not apply if the aggregate amount of the payment adjustments under the plan for disproportionate share hospitals (as defined under the State plan) is not less than the aggregate amount of payment adjustments otherwise required to be made if such subsections applied,

[(B) subsection (d)(2)(B) shall apply to hospitals located in urban areas, as well as in rural areas,

[(C) subsection (d)(3) shall apply, and

[(D) subsection (g) shall apply.

[(f) DENIAL OF FEDERAL FINANCIAL PARTICIPATION FOR PAYMENTS IN EXCESS OF CERTAIN LIMITS.—

[(1) IN GENERAL.—

[(A) APPLICATION OF STATE-SPECIFIC LIMITS.—Except as provided in subparagraph (D), payment under section 1903(a) shall not be made with respect to any payment adjustment made under this section for hospitals in a State (as defined in paragraph (4)(B)) for quarters—

[(i) in fiscal year 1992 (beginning on or after January 1, 1992), unless—

[(I) the payment adjustments are made—

[(a) in accordance with the State plan in effect or amendments submitted to the Secretary by September 30, 1991,

[(b) in accordance with the State plan in effect or amendments submitted to the Secretary by November 26, 1991, or modification thereof, if the amendment designates only disproportionate share hospitals with a medicaid or low-income utilization percentage at or above the Statewide arithmetic mean, or

[(c) in accordance with a payment methodology which was established and in effect as of September 30, 1991, or in accordance with legislation or regulations enacted or adopted as of such date; or

[(II) the payment adjustments are the minimum adjustments required in order to meet the requirements of subsection (c)(1); or

[(ii) in a subsequent fiscal year, to the extent that the total of such payment adjustments exceeds the State disproportionate share hospital (in this subsection referred to as “DSH”) allotment for the year (as specified in paragraph (2)).

[(B) NATIONAL DSH PAYMENT LIMIT.—The national DSH payment limit for a fiscal year is equal to 12 percent of the total amount of expenditures under State plans under this title for medical assistance during the fiscal year.

[(C) PUBLICATION OF STATE DSH ALLOTMENTS AND NATIONAL DSH PAYMENT LIMIT.—Before the beginning of each fiscal year (beginning with fiscal year 1993), the Secretary

shall, consistent with section 1903(d), estimate and publish—

[(i) the national DSH payment limit for the fiscal year, and

[(ii) the State DSH allotment for each State for the year .

[(D) CONDITIONAL EXCEPTION FOR CERTAIN STATES.—

Subject to subparagraph (E), beginning with payments for quarters beginning on or after January 1, 1996, and at the option of a State, subparagraph (A) shall not apply in the case of a State which defines a hospital as a disproportionate share hospital under subsection (a)(1) only if the hospital meets any of the following requirements:

[(i) The hospital's medicaid inpatient utilization rate (as defined in subsection (b)(2)) is at or above the mean medicaid inpatient utilization rate for all hospitals in the State.

[(ii) The hospital's low-income utilization rate (as defined in subsection (b)(3)) is at or above the mean low-income utilization rate for all hospitals in the State.

[(iii) The number of inpatient days of the hospital attributable to patients who (for such days) were eligible for medical assistance under the State plan is equal to at least 1 percent of the total number of such days for all hospitals in the State.

[(iv) The hospital meets such alternative requirements as the Secretary may establish by regulation, taking into account the special circumstances of children's hospitals, hospitals located in rural areas, and sole community hospitals.

[(E) CONDITION FOR OPTION.—The option specified in subparagraph (D) shall not apply for payments for a quarter beginning before the date of enactment of legislation establishing a limit on payment adjustments under this section which would apply in the case of a state exercising such option.

[(2) DETERMINATION OF STATE DSH ALLOTMENTS.—

[(A) IN GENERAL.—Subject to subparagraph (B), the State DSH allotment for a fiscal year is equal to the State DSH allotment for the previous fiscal year (or, for fiscal year 1993, the State base allotment as defined in paragraph (4)(C)), increased by—

[(i) the State growth factor (as defined in paragraph (4)(E)) for the fiscal year, and

[(ii) the State supplemental amount for the fiscal year (as determined under paragraph (3)).

[(B) EXCEPTIONS.—

[(i) LIMIT TO 12 PERCENT OR BASE ALLOTMENT.—A State DSH allotment under subparagraph (A) for a fiscal year shall not exceed 12 percent of the total amount of expenditures under the State plan for medical assistance during the fiscal year, except that, in the case of a high DSH State (as defined in paragraph

(4)(A)), the State DSH allotment shall equal the State based allotment.

【(ii) EXCEPTION FOR MINIMUM REQUIRED ADJUSTMENT.—No State DSH allotment shall be less than the minimum amount of payment adjustments the State is required to make in the fiscal year to meet the requirements of subsection (c)(1).

【(3) STATE SUPPLEMENTAL AMOUNTS.—The Secretary shall determine a supplemental amount for each State that is not a high DSH State for a fiscal year as follows:

【(A) DETERMINATION OF REDISTRIBUTION POOL.—The Secretary shall subtract from the national DSH payment limit (specified in paragraph (1)(B)) for the fiscal year the following:

【(i) the total of the State base allotments for high DSH States;

【(ii) the total of State DSH allotments for the previous fiscal year (or, in the case of fiscal year 1993, the total of State base allotments) for all States other than high DSH States;

【(iii) the total of the State growth amounts for all States other than high DSH States for the fiscal year; and

【(iv) the total additions to State DSH allotments the Secretary estimates will be attributable to paragraph (2)(B)(ii).

【(B) DISTRIBUTION OF POOL BASED ON TOTAL MEDICAID EXPENDITURES FOR MEDICAL ASSISTANCE.—The supplemental amount for a State for a fiscal year is equal to the lesser of—

【(i) the product of the amount determined under subparagraph (A) and the ratio of—

【(I) the total amount of expenditures made under the State plan under this title for medical assistance during the fiscal year, to

【(II) the total amount of expenditures made under the State plans under this title for medical assistance during the fiscal year for all States which are not high DSH States in the fiscal year, or

【(ii) the amount that would raise the State DSH allotment to the maximum permitted under paragraph (2)(B).

【(4) DEFINITIONS.—In this subsection:

【(A) HIGH DSH STATE.—The term “high DSH State” means, for a fiscal year, a State for which the State base allotment exceeds 12 percent of the total amount of expenditures made under the State plan under this title for medical assistance during the fiscal year;

【(B) STATE.—The term “State” means only the 50 States and the District of Columbia but does not include any State whose entire program under this title is operated under a waiver granted under section 1115.

[(C) STATE BASE ALLOTMENT.—The term “State base allotment” means, with respect to a State, the greater of—

[(i) the total amount of payment adjustments made under subsection (c) under the State plan during fiscal year 1992 (excluding any such payment adjustments for which a reduction may be made under paragraph (1)(A)(i)), or

[(ii) \$1,000,000.

The amount under clause (i) shall be determined by the Secretary and shall include only payment adjustments described in paragraph (1)(A)(i)(I).

[(D) STATE GROWTH AMOUNT.—The term “State growth amount” means, with respect to a State for a fiscal year, the lesser of—

[(i) the product of the State growth factor and the State DSH payment limit for the previous fiscal year, or

[(ii) the amount by which 12 percent of the total amount of expenditures made under the State plan under this title for medical assistance during the fiscal year exceeds the State DSH allotment for the previous fiscal year.

[(E) STATE GROWTH FACTOR.—The term “State growth factor” means, for a State for a fiscal year, the percentage by which the expenditures described in section 1903(a) in the State in the fiscal year exceed such expenditures in the previous fiscal year.

[(g) LIMIT ON AMOUNT OF PAYMENT TO HOSPITAL.—

[(1) AMOUNT OF ADJUSTMENT SUBJECT TO UNCOMPENSATED COSTS.—

[(A) IN GENERAL.—A payment adjustment during a fiscal year shall not be considered to be consistent with subsection (c) with respect to a hospital if the payment adjustment exceeds the costs incurred during the year of furnishing hospital services (as determined by the Secretary and net of payments under this title, other than under this section, and by uninsured patients) by the hospital to individuals who either are eligible for medical assistance under the State plan or have no health insurance (or other source of third party coverage) for services provided during the year. For purposes of the preceding sentence, payments made to a hospital for services provided to indigent patients made by a State or a unit of local government within a State shall not be considered to be a source of third party payment.

[(B) LIMIT TO PUBLIC HOSPITALS DURING TRANSITION PERIOD.—With respect to payment adjustments during a State fiscal year that begins before January 1, 1995, subparagraph (A) shall apply only to hospitals owned or operated by a State (or by an instrumentality or a unit of government within a State).

[(C) MODIFICATIONS FOR PRIVATE HOSPITALS.—With respect to hospitals that are not owned or operated by a State (or by an instrumentality or a unit of government

within a State), the Secretary may make such modifications to the manner in which the limitation on payment adjustments is applied to such hospitals as the Secretary considers appropriate.

[(2) ADDITIONAL AMOUNT DURING TRANSITION PERIOD FOR CERTAIN HOSPITALS WITH HIGH DISPROPORTIONATE SHARE.—

[(A) IN GENERAL.—In the case of a hospital with high disproportionate share (as defined in subparagraph (B)), a payment adjustment during a State fiscal year that begins before January 1, 1995, shall be considered consistent with subsection (c) if the payment adjustment does not exceed 200 percent of the costs of furnishing hospital services described in paragraph (1)(A) during the year, but only if the Governor of the State certifies to the satisfaction of the Secretary that the hospital's applicable minimum amount is used for health services during the year. In determining the amount that is used for such services during a year, there shall be excluded any amounts received under the Public Health Service Act, title V, title XVIII, or from third party payors (not including the State plan under this title) that are used for providing such services during the year.

[(B) HOSPITALS WITH HIGH DISPROPORTIONATE SHARE DEFINED.—In subparagraph (A), a hospital is a "hospital with high disproportionate share" if—

[(i) the hospital is owned or operated by a State (or by an instrumentality or a unit of government within a State); and

[(ii) the hospital—

[(I) meets the requirement described in subsection (b)(1)(A), or

[(II) has the largest number of inpatient days attributable to individuals entitled to benefits under the State plan of any hospital in such State for the previous State fiscal year.

[(C) APPLICABLE MINIMUM AMOUNT DEFINED.—In subparagraph (A), the "applicable minimum amount" for a hospital for a fiscal year is equal to the difference between the amount of the hospital's payment adjustment for the fiscal year and the costs to the hospital of furnishing hospital services described in paragraph (1)(A) during the fiscal year.

[TREATMENT OF INCOME AND RESOURCES FOR CERTAIN INSTITUTIONALIZED SPOUSES

[SEC. 1924. (a) SPECIAL TREATMENT FOR INSTITUTIONALIZED SPOUSES.—

[(1) SUPERSEDES OTHER PROVISIONS.—In determining the eligibility for medical assistance of an institutionalized spouse (as defined in subsection (h)(1)), the provisions of this section supersede any other provision of this title (including sections 1902(a)(17) and 1902(f)) which is inconsistent with them.

[(2) NO COMPARABLE TREATMENT REQUIRED.—Any different treatment provided under this section for institutionalized

spouses shall not, by reason of paragraph (10) or (17) of section 1902(a), require such treatment for other individuals.

[(3) DOES NOT AFFECT CERTAIN DETERMINATIONS.—Except as this section specifically provides, this section does not apply to—

[(A) the determination of what constitutes income or resources, or

[(B) the methodology and standards for determining and evaluating income and resources.

[(4) APPLICATION IN CERTAIN STATES AND TERRITORIES.—

[(A) APPLICATION IN STATES OPERATING UNDER DEMONSTRATION PROJECTS.—In the case of any State which is providing medical assistance to its residents under a waiver granted under section 1115, the Secretary shall require the State to meet the requirements of this section in the same manner as the State would be required to meet such requirement if the State had in effect a plan approved under this title.

[(B) NO APPLICATION IN COMMONWEALTHS AND TERRITORIES.—This section shall only apply to a State that is one of the 50 States or the District of Columbia.

[(5) APPLICATION TO INDIVIDUALS RECEIVING SERVICES FROM ORGANIZATIONS RECEIVING CERTAIN WAIVERS.—This section applies to individuals receiving institutional or noninstitutional services from any organization receiving a frail elderly demonstration project waiver under section 9412(b) of the Omnibus Budget Reconciliation Act of 1986 or a waiver under section 603(c) of the Social Security Amendments of 1983.

[(b) RULES FOR TREATMENT OF INCOME.—

[(1) SEPARATE TREATMENT OF INCOME.—During any month in which an institutionalized spouse is in the institution, except as provided in paragraph (2), no income of the community spouse shall be deemed available to the institutionalized spouse.

[(2) ATTRIBUTION OF INCOME.—In determining the income of an institutionalized spouse or community spouse for purposes of the post-eligibility income determination described in subsection (d), except as otherwise provided in this section and regardless of any State laws relating to community property or the division of marital property, the following rules apply:

[(A) NON-TRUST PROPERTY.—Subject to subparagraphs (C) and (D), in the case of income not from a trust, unless the instrument providing the income otherwise specifically provides—

[(i) if payment of income is made solely in the name of the institutionalized spouse or the community spouse, the income shall be considered available only to that respective spouse;

[(ii) if payment of income is made in the names of the institutionalized spouse and the community spouse, one-half of the income shall be considered available to each of them; and

[(iii) if payment of income is made in the names of the institutionalized spouse or the community spouse, or both, and to another person or persons, the income shall be considered available to each spouse in proportion to the spouse's interest (or, if payment is made with respect to both spouses and no such interest is specified, one-half of the joint interest shall be considered available to each spouse).

[(B) TRUST PROPERTY.—In the case of a trust—

[(i) except as provided in clause (ii), income shall be attributed in accordance with the provisions of this title (including sections 1902(a)(17) and 1917(d), and

[(ii) income shall be considered available to each spouse as provided in the trust, or, in the absence of a specific provision in the trust—

[(I) if payment of income is made solely to the institutionalized spouse or the community spouse, the income shall be considered available only to that respective spouse;

[(II) if payment of income is made to both the institutionalized spouse and the community spouse, one-half of the income shall be considered available to each of them; and

[(III) if payment of income is made to the institutionalized spouse or the community spouse, or both, and to another person or persons, the income shall be considered available to each spouse in proportion to the spouse's interest (or, if payment is made with respect to both spouses and no such interest is specified, one-half of the joint interest shall be considered available to each spouse).

[(C) PROPERTY WITH NO INSTRUMENT.—In the case of income not from a trust in which there is no instrument establishing ownership, subject to subparagraph (D), one-half of the income shall be considered to be available to the institutionalized spouse and one-half to the community spouse.

[(D) REBUTTING OWNERSHIP.—The rules of subparagraphs (A) and (C) are superseded to the extent that an institutionalized spouse can establish, by a preponderance of the evidence, that the ownership interests in income are other than as provided under such subparagraphs.

[(c) RULES FOR TREATMENT OF RESOURCES.—

[(1) COMPUTATION OF SPOUSAL SHARE AT TIME OF INSTITUTIONALIZATION.—

[(A) TOTAL JOINT RESOURCES.—There shall be computed (as of the beginning of the first continuous period of institutionalization (beginning on or after September 30, 1989) of the institutionalized spouse)—

[(i) the total value of the resources to the extent either the institutionalized spouse or the community spouse has an ownership interest, and

[(ii) a spousal share which is equal to $\frac{1}{2}$ of such total value.

[(B) ASSESSMENT.—At the request of an institutionalized spouse or community spouse, at the beginning of the first continuous period of institutionalization (beginning on or after September 30, 1989) of the institutionalized spouse and upon the receipt of relevant documentation of resources, the State shall promptly assess and document the total value described in subparagraph (A)(i) and shall provide a copy of such assessment and documentation to each spouse and shall retain a copy of the assessment for use under this section. If the request is not part of an application for medical assistance under this title, the State may, at its option as a condition of providing the assessment, require payment of a fee not exceeding the reasonable expenses of providing and documenting the assessment. At the time of providing the copy of the assessment, the State shall include a notice indicating that the spouse will have a right to a fair hearing under subsection (e)(2).

[(2) ATTRIBUTION OF RESOURCES AT TIME OF INITIAL ELIGIBILITY DETERMINATION.—In determining the resources of an institutionalized spouse at the time of application for benefits under this title, regardless of any State laws relating to community property or the division of marital property—

[(A) except as provided in subparagraph (B), all the resources held by either the institutionalized spouse, community spouse, or both, shall be considered to be available to the institutionalized spouse, and

[(B) resources shall be considered to be available to an institutionalized spouse, but only to the extent that the amount of such resources exceeds the amount computed under subsection (f)(2)(A) (as of the time of application for benefits).

[(3) ASSIGNMENT OF SUPPORT RIGHTS.—The institutionalized spouse shall not be ineligible by reason of resources determined under paragraph (2) to be available for the cost of care where—

[(A) the institutionalized spouse has assigned to the State any rights to support from the community spouse;

[(B) the institutionalized spouse lacks the ability to execute an assignment due to physical or mental impairment but the State has the right to bring a support proceeding against a community spouse without such assignment; or

[(C) the State determines that denial of eligibility would work an undue hardship.

[(4) SEPARATE TREATMENT OF RESOURCES AFTER ELIGIBILITY FOR BENEFITS ESTABLISHED.—During the continuous period in which an institutionalized spouse is in an institution and after the month in which an institutionalized spouse is determined to be eligible for benefits under this title, no resources of the community spouse shall be deemed available to the institutionalized spouse.

[(5) RESOURCES DEFINED.—In this section, the term “resources” does not include—

[(A) resources excluded under subsection (a) or (d) of section 1613, and

[(B) resources that would be excluded under section 1613(a)(2)(A) but for the limitation on total value described in such section.

[(d) PROTECTING INCOME FOR COMMUNITY SPOUSE.—

[(1) ALLOWANCES TO BE OFFSET FROM INCOME OF INSTITUTIONALIZED SPOUSE.—After an institutionalized spouse is determined or redetermined to be eligible for medical assistance, in determining the amount of the spouse’s income that is to be applied monthly to payment for the costs of care in the institution, there shall be deducted from the spouse’s monthly income the following amounts in the following order:

[(A) A personal needs allowance (described in section 1902(q)(1)), in an amount not less than the amount specified in section 1902(q)(2).

[(B) A community spouse monthly income allowance (as defined in paragraph (2)), but only to the extent income of the institutionalized spouse is made available to (or for the benefit of) the community spouse.

[(C) A family allowance, for each family member, equal to at least $\frac{1}{3}$ of the amount by which the amount described in paragraph (3)(A)(i) exceeds the amount of the monthly income of that family member.

[(D) Amounts for incurred expenses for medical or remedial care for the institutionalized spouse (as provided under section 1902(r)).

In subparagraph (C), the term “family member” only includes minor or dependent children, dependent parents, or dependent siblings of the institutionalized or community spouse who are residing with the community spouse.

[(2) COMMUNITY SPOUSE MONTHLY INCOME ALLOWANCE DEFINED.—In this section (except as provided in paragraph (5)), the “community spouse monthly income allowance” for a community spouse is an amount by which—

[(A) except as provided in subsection (e), the minimum monthly maintenance needs allowance (established under and in accordance with paragraph (3)) for the spouse, exceeds

[(B) the amount of monthly income otherwise available to the community spouse (determined without regard to such an allowance).

[(3) ESTABLISHMENT OF MINIMUM MONTHLY MAINTENANCE NEEDS ALLOWANCE.—

[(A) IN GENERAL.—Each State shall establish a minimum monthly maintenance needs allowance for each community spouse which, subject to subparagraph (C), is equal to or exceeds—

[(i) the applicable percent (described in subparagraph (B)) of $\frac{1}{12}$ of the income official poverty line (defined by the Office of Management and Budget and re-

vised annually in accordance with section 673(2)) for a family unit of 2 members; plus

[(ii) an excess shelter allowance (as defined in paragraph (4)).

A revision of the official poverty line referred to in clause (i) shall apply to medical assistance furnished during and after the second calendar quarter that begins after the date of publication of the revision.

[(B) APPLICABLE PERCENT.—For purposes of subparagraph (A)(i), the “applicable percent” described in this paragraph, effective as of—

[(i) September 30, 1989, is 122 percent,

[(ii) July 1, 1991, is 133 percent, and

[(iii) July 1, 1992, is 150 percent.

[(C) CAP ON MINIMUM MONTHLY MAINTENANCE NEEDS ALLOWANCE.—The minimum monthly maintenance needs allowance established under subparagraph (A) may not exceed \$1,500 (subject to adjustment under subsections (e) and (g)).

[(4) EXCESS SHELTER ALLOWANCE DEFINED.—In paragraph (3)(A)(ii), the term “excess shelter allowance” means, for a community spouse, the amount by which the sum of—

[(A) the spouse’s expenses for rent or mortgage payment (including principal and interest), taxes and insurance and, in the case of a condominium or cooperative, required maintenance charge, for the community spouse’s principal residence, and

[(B) the standard utility allowance (used by the State under section 5(e) of the Food Stamp Act of 1977) or, if the State does not use such an allowance, the spouse’s actual utility expenses,

exceeds 30 percent of the amount described in paragraph (3)(A)(i), except that, in the case of a condominium or cooperative, for which a maintenance charge is included under subparagraph (A), any allowance under subparagraph (B) shall be reduced to the extent the maintenance charge includes utility expenses.

[(5) COURT ORDERED SUPPORT.—If a court has entered an order against an institutionalized spouse for monthly income for the support of the community spouse, the community spouse monthly income allowance for the spouse shall be not less than the amount of the monthly income so ordered.

[(e) NOTICE AND FAIR HEARING.—

[(1) NOTICE.—Upon—

[(A) a determination of eligibility for medical assistance of an institutionalized spouse, or

[(B) a request by either the institutionalized spouse, or the community spouse, or a representative acting on behalf of either spouse,

each State shall notify both spouses (in the case described in subparagraph (A)) or the spouse making the request (in the case described in subparagraph (B)) of the amount of the community spouse monthly income allowance (described in subsection (d)(1)(B)), of the amount of any family allowances (de-

scribed in subsection (d)(1)(C)), of the method for computing the amount of the community spouse resources allowance permitted under subsection (f), and of the spouse's right to a fair hearing under this subsection respecting ownership or availability of income or resources, and the determination of the community spouse monthly income or resource allowance.

[(2) FAIR HEARING.—

[(A) IN GENERAL.—If either the institutionalized spouse or the community spouse is dissatisfied with a determination of—

[(i) the community spouse monthly income allowance;

[(ii) the amount of monthly income otherwise available to the community spouse (as applied under subsection (d)(2)(B));

[(iii) the computation of the spousal share of resources under subsection (c)(1);

[(iv) the attribution of resources under subsection (c)(2); or

[(v) the determination of the community spouse resource allowance (as defined in subsection (f)(2));

such spouse is entitled to a fair hearing described in section 1902(a)(3) with respect to such determination if an application for benefits under this title has been made on behalf of the institutionalized spouse. Any such hearing respecting the determination of the community spouse resource allowance shall be held within 30 days of the date of the request for the hearing.

[(B) REVISION OF MINIMUM MONTHLY MAINTENANCE NEEDS ALLOWANCE.—If either such spouse establishes that the community spouse needs income, above the level otherwise provided by the minimum monthly maintenance needs allowance, due to exceptional circumstances resulting in significant financial duress, there shall be substituted, for the minimum monthly maintenance needs allowance in subsection (d)(2)(A), an amount adequate to provide such additional income as is necessary.

[(C) REVISION OF COMMUNITY SPOUSE RESOURCE ALLOWANCE.—If either such spouse establishes that the community spouse resource allowance (in relation to the amount of income generated by such an allowance) is inadequate to raise the community spouse's income to the minimum monthly maintenance needs allowance, there shall be substituted, for the community spouse resource allowance under subsection (f)(2), an amount adequate to provide such a minimum monthly maintenance needs allowance.

[(f) PERMITTING TRANSFER OF RESOURCES TO COMMUNITY SPOUSE.—

[(1) IN GENERAL.—An institutionalized spouse may, without regard to section 1917(c)(1), transfer an amount equal to the community spouse resource allowance (as defined in paragraph (2)), but only to the extent the resources of the institutionalized spouse are transferred to (or for the sole benefit of)

the community spouse. The transfer under the preceding sentence shall be made as soon as practicable after the date of the initial determination of eligibility, taking into account such time as may be necessary to obtain a court order under paragraph (3).

[(2) COMMUNITY SPOUSE RESOURCE ALLOWANCE DEFINED.—In paragraph (1), the “community spouse resource allowance” for a community spouse is an amount (if any) by which—

[(A) the greatest of—

[(i) \$12,000 (subject to adjustment under subsection (g)), or, if greater (but not to exceed the amount specified in clause (ii)(II)) an amount specified under the State plan,

[(ii) the lesser of (I) the spousal share computed under subsection (c)(1), or (II) \$60,000 (subject to adjustment under subsection (g)),

[(iii) the amount established under subsection (e)(2); or

[(iv) the amount transferred under a court order under paragraph (3);

exceeds

[(B) the amount of the resources otherwise available to the community spouse (determined without regard to such an allowance).

[(3) TRANSFERS UNDER COURT ORDERS.—If a court has entered an order against an institutionalized spouse for the support of the community spouse, section 1917 shall not apply to amounts of resources transferred pursuant to such order for the support of the spouse or a family member (as defined in subsection (d)(1)).

[(g) INDEXING DOLLAR AMOUNTS.—For services furnished during a calendar year after 1989, the dollar amounts specified in subsections (d)(3)(C), (f)(2)(A)(i), and (f)(2)(A)(ii)(II) shall be increased by the same percentage as the percentage increase in the consumer price index for all urban consumers (all items; U.S. city average) between September 1988 and the September before the calendar year involved.

[(h) DEFINITIONS.—In this section:

[(1) The term “institutionalized spouse” means an individual who—

[(A) is in a medical institution or nursing facility or who (at the option of the State) is described in section 1902(a)(10)(A)(ii)(VI), and

[(B) is married to a spouse who is not in a medical institution or nursing facility;

but does not include any such individual who is not likely to meet the requirements of subparagraph (A) for at least 30 consecutive days.

[(2) The term “community spouse” means the spouse of an institutionalized spouse.

[EXTENSION OF ELIGIBILITY FOR MEDICAL ASSISTANCE

[SEC. 1925. (a) INITIAL 6-MONTH EXTENSION.—

[(1) REQUIREMENT.—Notwithstanding any other provision of this title, each State plan approved under this title must provide that each family which was receiving aid pursuant to a plan of the State approved under part A of title IV in at least 3 of the 6 months immediately preceding the month in which such family becomes ineligible for such aid, because of hours of, or income from, employment of the caretaker relative (as defined in subsection (e)) or because of section 402(a)(8)(B)(ii)(II) (providing for a time-limited earned income disregard), shall, subject to paragraph (3) and without any reapplication for benefits under the plan, remain eligible for assistance under the plan approved under this title during the immediately succeeding 6-month period in accordance with this subsection.

[(2) NOTICE OF BENEFITS.—Each State, in the notice of termination of aid under part A of title IV sent to a family meeting the requirements of paragraph (1)—

[(A) shall notify the family of its right to extended medical assistance under this subsection and include in the notice a description of the reporting requirement of subsection (b)(2)(B)(i) and of the circumstances (described in paragraph (3)) under which such extension may be terminated; and

[(B) shall include a card or other evidence of the family's entitlement to assistance under this title for the period provided in this subsection.

[(3) TERMINATION OF EXTENSION.—

[(A) NO DEPENDENT CHILD.—Subject to subparagraphs (B) and (C), extension of assistance during the 6-month period described in paragraph (1) to a family shall terminate (during such period) at the close of the first month in which the family ceases to include a child, whether or not the child is (or would if needy be) a dependent child under part A of title IV.

[(B) NOTICE BEFORE TERMINATION.—No termination of assistance shall become effective under subparagraph (A) until the State has provided the family with notice of the grounds for the termination.

[(C) CONTINUATION IN CERTAIN CASES UNTIL REDETERMINATION.—With respect to a child who would cease to receive medical assistance because of subparagraph (A) but who may be eligible for assistance under the State plan because the child is described in clause (i) of section 1905(a) or clause (i)(IV), (i)(VI) (i)(VII),, or (ii)(IX) of section 1902(a)(10)(A), the State may not discontinue such assistance under such subparagraph until the State has determined that the child is not eligible for assistance under the plan.

[(4) SCOPE OF COVERAGE.—

[(A) IN GENERAL.—Subject to subparagraph (B), during the 6-month extension period under this subsection, the amount, duration, and scope of medical assistance made available with respect to a family shall be the same

as if the family were still receiving aid under the plan approved under part A of title IV.

[(B) STATE MEDICAID “WRAP-AROUND” OPTION.—A State, at its option, may pay a family’s expenses for premiums, deductibles, coinsurance, and similar costs for health insurance or other health coverage offered by an employer of the caretaker relative or by an employer of the absent parent of a dependent child. In the case of such coverage offered by an employer of the caretaker relative—

[(i) the State may require the caretaker relative, as a condition of extension of coverage under this subsection for the caretaker and the caretaker’s family, to make application for such employer coverage, but only if—

[(I) the caretaker relative is not required to make financial contributions for such coverage (whether through payroll deduction, payment of deductibles, coinsurance, or similar costs, or otherwise), and

[(II) the State provides, directly or otherwise, for payment of any of the premium amount, deductible, coinsurance, or similar expense that the employee is otherwise required to pay; and

[(ii) the State shall treat the coverage under such an employer plan as a third party liability (under section 1902(a)(25)).

Payments for premiums, deductibles, coinsurance, and similar expenses under this subparagraph shall be considered, for purposes of section 1903(a), to be payments for medical assistance.

[(b) ADDITIONAL 6-MONTH EXTENSION.—

[(1) REQUIREMENT.—Notwithstanding any other provision of this title, each State plan approved under this title shall provide that the State shall offer to each family, which has received assistance during the entire 6-month period under subsection (a) and which meets the requirement of paragraph (2)(B)(i), in the last month of the period the option of extending coverage under this subsection for the succeeding 6-month period, subject to paragraph (3).

[(2) NOTICE AND REPORTING REQUIREMENTS.—

[(A) NOTICES.—

[(i) NOTICE DURING INITIAL EXTENSION PERIOD OF OPTION AND REQUIREMENTS.—Each State, during the 3rd and 6th month of any extended assistance furnished to a family under subsection (a), shall notify the family of the family’s option for additional extended assistance under this subsection. Each such notice shall include (I) in the 3rd month notice, a statement of the reporting requirement under subparagraph (B)(i), and, in the 6th month notice, a statement of the reporting requirement under subparagraph (B)(ii), (II) a statement as to whether any premiums are required for such additional extended assistance, and (III) a description of other out-of-pocket expenses,

benefits, reporting and payment procedures, and any pre-existing condition limitations, waiting periods, or other coverage limitations imposed under any alternative coverage options offered under paragraph (4)(D). The 6th month notice under this subparagraph shall describe the amount of any premium required of a particular family for each of the first 3 months of additional extended assistance under this subsection.

[(ii) NOTICE DURING ADDITIONAL EXTENSION PERIOD OF REPORTING REQUIREMENTS AND PREMIUMS.— Each State, during the 3rd month of any additional extended assistance furnished to a family under this subsection, shall notify the family of the reporting requirement under subparagraph (B)(ii) and a statement of the amount of any premium required for such extended assistance for the succeeding 3 months.

[(B) REPORTING REQUIREMENTS.—

[(i) DURING INITIAL EXTENSION PERIOD.— Each State shall require (as a condition for additional extended assistance under this subsection) that a family receiving extended assistance under subsection (a) report to the State, not later than the 21st day of the 4th month in the period of extended assistance under subsection (a), on the family's gross monthly earnings and on the family's costs for such child care as is necessary for the employment of the caretaker relative in each of the first 3 months of that period. A State may permit such additional extended assistance under this subsection notwithstanding a failure to report under this clause if the family has established, to the satisfaction of the State, good cause for the failure to report on a timely basis.

[(ii) DURING ADDITIONAL EXTENSION PERIOD.— Each State shall require that a family receiving extended assistance under this subsection report to the State, not later than the 21st day of the 1st month and of the 4th month in the period of additional extended assistance under this subsection, on the family's gross monthly earnings and on the family's costs for such child care as is necessary for the employment of the caretaker relative in each of the 3 preceding months.

[(iii) CLARIFICATION ON FREQUENCY OF REPORTING.— A State may not require that a family receiving extended assistance under this subsection or subsection (a) report more frequently than as required under clause (i) or (ii).

[(3) TERMINATION OF EXTENSION.—

[(A) IN GENERAL.— Subject to subparagraphs (B) and (C), extension of assistance during the 6-month period described in paragraph (1) to a family shall terminate (during the period) as follows:

[(i) NO DEPENDENT CHILD.— The extension shall terminate at the close of the first month in which the

family ceases to include a child, whether or not the child is (or would if needy be) a dependent child under part A of title IV.

[(ii) FAILURE TO PAY ANY PREMIUM.—If the family fails to pay any premium for a month under paragraph (5) by the 21st day of the following month, the extension shall terminate at the close of that following month, unless the family has established, to the satisfaction of the State, good cause for the failure to pay such premium on a timely basis.

[(iii) QUARTERLY INCOME REPORTING AND TEST.—The extension under this subsection shall terminate at the close of the 1st or 4th month of the 6-month period if—

[(I) the family fails to report to the State, by the 21st day of such month, the information required under paragraph (2)(B)(ii), unless the family has established, to the satisfaction of the State, good cause for the failure to report on a timely basis;

[(II) the caretaker relative had no earnings in one or more of the previous 3 months, unless such lack of any earnings was due to an involuntary loss of employment, illness, or other good cause, established to the satisfaction of the State; or

[(III) the State determines that the family's average gross monthly earnings (less such costs for such child care as is necessary for the employment of the caretaker relative) during the immediately preceding 3-month period exceed 185 percent of the official poverty line (as defined by the Office of Management and Budget, and revised annually in accordance with section 673(2) of the Omnibus Budget Reconciliation Act of 1981) applicable to a family of the size involved.

Information described in clause (iii)(I) shall be subject to the restrictions on use and disclosure of information provided under section 402(a)(9). Instead of terminating a family's extension under clause (iii)(I), a State, at its option, may provide for suspension of the extension until the month after the month in which the family reports information required under paragraph (2)(B)(ii), but only if the family's extension has not otherwise been terminated under subclause (II) or (III) of clause (iii). The State shall make determinations under clause (iii)(III) for a family each time a report under paragraph (2)(B)(ii) for the family is received.

[(B) NOTICE BEFORE TERMINATION.—No termination of assistance shall become effective under subparagraph (A) until the State has provided the family with notice of the grounds for the termination, which notice shall include (in the case of termination under subparagraph (A)(iii)(II), relating to no continued earnings) a description of how the family may reestablish eligibility for medical assistance

under the State plan. No such termination shall be effective earlier than 10 days after the date of mailing of such notice.

[(C) CONTINUATION IN CERTAIN CASES UNTIL REDETERMINATION.—

[(i) DEPENDENT CHILDREN.—With respect to a child who would cease to receive medical assistance because of subparagraph (A)(i) but who may be eligible for assistance under the State plan because the child is described in clause (i) of section 1905(a) or clause (i)(IV) (i)(VI) (i)(VII),, or (ii)(IX) of section 1902(a)(10)(A), the State may not discontinue such assistance under such subparagraph until the State has determined that the child is not eligible for assistance under the plan.

[(ii) MEDICALLY NEEDY.—With respect to an individual who would cease to receive medical assistance because of clause (ii) or (iii) of subparagraph (A) but who may be eligible for assistance under the State plan because the individual is within a category of person for which medical assistance under the State plan is available under section 1902(a)(10)(C) (relating to medically needy individuals), the State may not discontinue such assistance under such subparagraph until the State has determined that the individual is not eligible for assistance under the plan.

[(4) COVERAGE.—

[(A) IN GENERAL.—During the extension period under this subsection—

[(i) the State plan shall offer to each family medical assistance which (subject to subparagraphs (B) and (C)) is the same amount, duration, and scope as would be made available to the family if it were still receiving aid under the plan approved under part A of title IV; and

[(ii) the State plan may offer alternative coverage described in subparagraph (D).

[(B) ELIMINATION OF MOST NON-ACUTE CARE BENEFITS.—At a State's option and notwithstanding any other provision of this title, a State may choose not to provide medical assistance under this subsection with respect to any (or all) of the items and services described in paragraphs (4)(A), (6), (7), (8), (11), (13), (14), (15), (16), (18), (20), and (21) of section 1905(a).

[(C) STATE MEDICAID “WRAP-AROUND” OPTION.—At a State's option, the State may elect to apply the option described in subsection (a)(4)(B) (relating to “wrap-around” coverage) for families electing medical assistance under this subsection in the same manner as such option applies to families provided extended eligibility for medical assistance under subsection (a).

[(D) ALTERNATIVE ASSISTANCE.—At a State's option, the State may offer families a choice of health care coverage under one or more of the following, instead of the

medical assistance otherwise made available under this subsection:

[(i) ENROLLMENT IN FAMILY OPTION OF EMPLOYER PLAN.—Enrollment of the caretaker relative and dependent children in a family option of the group health plan offered to the caretaker relative.

[(ii) ENROLLMENT IN FAMILY OPTION OF STATE EMPLOYEE PLAN.—Enrollment of the caretaker relative and dependent children in a family option within the options of the group health plan or plans offered by the State to State employees.

[(iii) ENROLLMENT IN STATE UNINSURED PLAN.—Enrollment of the caretaker relative and dependent children in a basic State health plan offered by the State to individuals in the State (or areas of the State) otherwise unable to obtain health insurance coverage.

[(iv) ENROLLMENT IN HMO.—Enrollment of the caretaker relative and dependent children in a health maintenance organization (as defined in section 1903(m)(1)(A)) less than 50 percent of the membership (enrolled on a prepaid basis) of which consists of individuals who are eligible to receive benefits under this title (other than because of the option offered under this clause). The option of enrollment under this clause is in addition to, and not in lieu of, any enrollment option that the State might offer under subparagraph (A)(i) with respect to receiving services through a health maintenance organization in accordance with section 1903(m).

If a State elects to offer an option to enroll a family under this subparagraph, the State shall pay any premiums and other costs for such enrollment imposed on the family and may pay deductibles and coinsurance imposed on the family. A State's payment of premiums for the enrollment of families under this subparagraph (not including any premiums otherwise payable by an employer and less the amount of premiums collected from such families under paragraph (5)) and payment of any deductibles and coinsurance shall be considered, for purposes of section 1903(a)(1), to be payments for medical assistance.

[(E) PROHIBITION ON COST-SHARING FOR MATERNITY AND PREVENTIVE PEDIATRIC CARE.—

[(i) IN GENERAL.—If a State offers any alternative option under subparagraph (D) for families, under each such option the State must assure that care described in clause (ii) is available without charge to the families through—

[(I) payment of any deductibles, coinsurance, and other cost-sharing respecting such care, or

[(II) providing coverage under the State plan for such care without any cost-sharing, or any combination of such mechanisms.

[(ii) CARE DESCRIBED.—The care described in this clause consists of—

[(I) services related to pregnancy (including prenatal, delivery, and post partum services), and

[(II) ambulatory preventive pediatric care (including ambulatory early and periodic screening, diagnosis, and treatment services under section 1905(a)(4)(B)) for each child who meets the age and date of birth requirements to be a qualified child under section 1905(n)(2).

[(5) PREMIUM.—

[(A) PERMITTED.—Notwithstanding any other provision of this title (including section 1916), a State may impose a premium for a family for additional extended coverage under this subsection for a premium payment period (as defined in subparagraph (D)(i)), but only if the family's average gross monthly earnings (less the average monthly costs for such child care as is necessary for the employment of the caretaker relative) for the premium base period exceed 100 percent of the official poverty line (as defined by the Office of Management and Budget, and revised annually in accordance with section 673(2) of the Omnibus Budget Reconciliation Act of 1981) applicable to a family of the size involved.

[(B) LEVEL MAY VARY BY OPTION OFFERED.—The level of such premium may vary, for the same family, for each option offered by a State under paragraph (4)(D).

[(C) LIMIT ON PREMIUM.—In no case may the amount of any premium under this paragraph for a family for a month in either of the premium payment periods described in subparagraph (D)(i) exceed 3 percent of the family's average gross monthly earnings (less the average monthly costs for such child care as is necessary for the employment of the caretaker relative) during the premium base period (as defined in subparagraph (D)(ii)).

[(D) DEFINITIONS.—In this paragraph:

[(i) A "premium payment period" described in this clause is a 3-month period beginning with the 1st or 4th month of the 6-month additional extension period provided under this subsection.

[(ii) The term "premium base period" means, with respect to a particular premium payment period, the period of 3 consecutive months the last of which is 4 months before the beginning of that premium payment period.

[(c) APPLICABILITY IN STATES AND TERRITORIES.—

[(1) STATES OPERATING UNDER DEMONSTRATION PROJECTS.—In the case of any State which is providing medical assistance to its residents under a waiver granted under section 1115(a), the Secretary shall require the State to meet the requirements of this section in the same manner as the State would be required to meet such requirement if the State had in effect a plan approved under this title.

[(2) INAPPLICABILITY IN COMMONWEALTHS AND TERRITORIES.—The provisions of this section shall only apply to the 50 States and the District of Columbia.

[(d) GENERAL DISQUALIFICATION FOR FRAUD.—

[(1) INELIGIBILITY FOR AID.—This section shall not apply to an individual who is a member of a family which has received aid under part A of title IV if the State makes a finding that, at any time during the last 6 months in which the family was receiving such aid before otherwise being provided extended eligibility under this section, the individual was ineligible for such aid because of fraud.

[(2) GENERAL DISQUALIFICATIONS.—For additional provisions relating to fraud and program abuse, see sections 1128, 1128A, and 1128B.

[(e) CARETAKER RELATIVE DEFINED.—In this section, the term “caretaker relative” has the meaning of such term as used in part A of title IV.

[(f) SUNSET.—This section shall not apply with respect to families that cease to be eligible for aid under part A of title IV after September 30, 1998.

【(2) A State plan under this title shall not be considered to meet the requirement of section 1902(a)(30)(A) with respect to pediatric services (as defined in paragraph (4)(B)), as of July 1 of each year (beginning with 1990), unless, by not later than April 1 of such year, the State submits to the Secretary an amendment to the plan that specifies, by pediatric procedure, the payment rates to be used for such services under the plan in the succeeding period and includes in such submission such additional data as will assist the Secretary in evaluating the State’s compliance with such requirement, including data relating to how rates established for payments to health maintenance organizations under section 1903(m) take into account such payment rates.

【(3) The Secretary, by not later than 90 days after the date of submission of a plan amendment under paragraph (1) or (2), shall—

【(A) review each such amendment for compliance with the requirement of section 1902(a)(30)(A), and

【(B) approve or disapprove each such amendment.

If the Secretary disapproves such an amendment, the State shall immediately submit a revised amendment which meets such requirement.

【(4) In this section:

[(A) The term “obstetrical services” means services relating to pregnancy covered under the State plan provided by an obstetrician, obstetrician-gynecologist, family practitioner, certified nurse midwife, or certified family nurse practitioner and does not include inpatient or outpatient hospital services or other institutional services.

Such information shall be provided separately for providers located in each metropolitan statistical area (or similar area) in the State and in the remainder of the State.

Such information shall be provided separately for providers located in each metropolitan statistical area (or similar area) in the State and in the remainder of the State.

[(d) Nothing in this title (including section 1902(a)(30)(A)) shall be construed as preventing a State from establishing payment levels for obstetrical or pediatric services that are higher for those services furnished in rural areas than those furnished in metropolitan statistical areas.

SEC. 1927. (a) REQUIREMENT FOR REBATE AGREEMENT.—

[(1) IN GENERAL.—In order for payment to be available under section 1903(a) for covered outpatient drugs of a manufacturer, the manufacturer must have entered into and have in effect a rebate agreement described in subsection (b) with the Secretary, on behalf of States (except that, the Secretary may authorize a State to enter directly into agreements with a manufacturer), and must meet the requirements of paragraph (5) (with respect to drugs purchased by a covered entity on or after the first day of the first month that begins after the date of the enactment of title VI of the Veterans Health Care Act of 1992) and paragraph (6). Any agreement between a State and a manufacturer prior to April 1, 1991, shall be deemed to have been entered into on January 1, 1991, and payment to such manufacturer shall be retroactively calculated as if the agreement between the manufacturer and the State had been entered into on January 1, 1991. If a manufacturer has not entered into such an agreement before March 1, 1991, such an agreement, subsequently entered into, shall not be effective until the first day of the calendar quarter that begins more than 60 days after the date the agreement is entered into.

[(2) EFFECTIVE DATE.—Paragraph (1) shall first apply to drugs dispensed under this title on or after January 1, 1991.

[(3) AUTHORIZING PAYMENT FOR DRUGS NOT COVERED UNDER REBATE AGREEMENTS.—Paragraph (1), and section 1903(i)(10)(A), shall not apply to the dispensing of a single source drug or innovator multiple source drug if (A)(i) the State has made a determination that the availability of the drug is essential to the health of beneficiaries under the State plan for medical assistance; (ii) such drug has been given a rating of 1-A by the Food and Drug Administration; and (iii)(I) the physician has obtained approval for use of the drug in advance of its dispensing in accordance with a prior authorization program described in subsection (d), or (II) the Secretary has reviewed and approved the State's determination under subparagraph (A); or (B) the Secretary determines that in the first calendar quarter of 1991, there were extenuating circumstances.

[(4) EFFECT ON EXISTING AGREEMENTS.—In the case of a rebate agreement in effect between a State and a manufacturer on the date of the enactment of this section, such agreement, for the initial agreement period specified therein, shall be considered to be a rebate agreement in compliance with this section with respect to that State, if the State agrees to report to the Secretary any rebates paid pursuant to the agreement and such agreement provides for a minimum aggregate rebate of 10 percent of the State's total expenditures under the State plan for coverage of the manufacturer's drugs under this title. If, after the initial agreement period, the State establishes to the satisfaction of the Secretary that an agreement in effect on the date of the enactment of this section provides for rebates that are at least as large as the rebates otherwise required under this section, and the State agrees to report any rebates under the agreement to the Secretary, the agreement shall be considered to be a rebate agreement in compliance with the section for the renewal periods of such agreement.

[(5) LIMITATION ON PRICES OF DRUGS PURCHASED BY COVERED ENTITIES.—

[(A) AGREEMENT WITH SECRETARY.—A manufacturer meets the requirements of this paragraph if the manufacturer has entered into an agreement with the Secretary that meets the requirements of section 340B of the Public Health Service Act with respect to covered outpatient drugs purchased by a covered entity on or after the first day of the first month that begins after the date of the enactment of this paragraph.

[(B) COVERED ENTITY DEFINED.—In this subsection, the term "covered entity" means an entity described in section 340B(a)(4) of the Public Health Service Act.

[(C) ESTABLISHMENT OF ALTERNATIVE MECHANISM TO ENSURE AGAINST DUPLICATE DISCOUNTS OR REBATES.—If the Secretary does not establish a mechanism under section 340B(a)(5)(A) of the Public Health Service Act within 12 months of the date of the enactment of such section, the following requirements shall apply:

[(i) ENTITIES.—Each covered entity shall inform the single State agency under section 1902(a)(5) when it is seeking reimbursement from the State plan for medical assistance described in section 1905(a)(12) with respect to a unit of any covered outpatient drug which is subject to an agreement under section 340B(a) of such Act.

[(ii) STATE AGENCY.—Each such single State agency shall provide a means by which a covered entity shall indicate on any drug reimbursement claims form (or format, where electronic claims management is used) that a unit of the drug that is the subject of the form is subject to an agreement under section 340B of such Act, and not submit to any manufacturer a claim for a rebate payment under subsection (b) with respect to such a drug.

[(D) EFFECT OF SUBSEQUENT AMENDMENTS.—In determining whether an agreement under subparagraph (A) meets the requirements of section 340B of the Public Health Service Act, the Secretary shall not take into account any amendments to such section that are enacted after the enactment of title VI of the Veterans Health Care Act of 1992.

[(E) DETERMINATION OF COMPLIANCE.—A manufacturer is deemed to meet the requirements of this paragraph if the manufacturer establishes to the satisfaction of the Secretary that the manufacturer would comply (and has offered to comply) with the provisions of section 340B of the Public Health Service Act (as in effect immediately after the enactment of this paragraph, and would have entered into an agreement under such section (as such section was in effect at such time), but for a legislative change in such section after the date of the enactment of this paragraph.

[(6) REQUIREMENTS RELATING TO MASTER AGREEMENTS FOR DRUGS PROCURED BY DEPARTMENT OF VETERANS AFFAIRS AND CERTAIN OTHER FEDERAL AGENCIES.—

[(A) IN GENERAL.—A manufacturer meets the requirements of this paragraph if the manufacturer complies with the provisions of section 8126 of title 38, United States Code, including the requirement of entering into a master agreement with the Secretary of Veterans Affairs under such section.

[(B) EFFECT OF SUBSEQUENT AMENDMENTS.—In determining whether a master agreement described in subparagraph (A) meets the requirements of section 8126 of title 38, United States Code, the Secretary shall not take into account any amendments to such section that are enacted after the enactment of title VI of the Veterans Health Care Act of 1992.

[(C) DETERMINATION OF COMPLIANCE.—A manufacturer is deemed to meet the requirements of this paragraph if the manufacturer establishes to the satisfaction of the Secretary that the manufacturer would

comply (and has offered to comply) with the provisions of section 8126 of title 38, United States Code (as in effect immediately after the enactment of this paragraph) and would have entered into an agreement under such section (as such section was in effect at such time), but for a legislative change in such section after the date of the enactment of this paragraph.

[(b) TERMS OF REBATE AGREEMENT.—

[(1) PERIODIC REBATES.—

[(A) IN GENERAL.—A rebate agreement under this subsection shall require the manufacturer to provide, to each State plan approved under this title, a rebate for a rebate period in an amount specified in subsection (c) for covered outpatient drugs of the manufacturer dispensed after December 31, 1990, for which payment was made under the State plan for such period. Such rebate shall be paid by the manufacturer not later than 30 days after the date of receipt of the information described in paragraph (2) for the period involved.

[(B) OFFSET AGAINST MEDICAL ASSISTANCE.—Amounts received by a State under this section (or under an agreement authorized by the Secretary under subsection (a)(1) or an agreement described in subsection (a)(4)) in any quarter shall be considered to be a reduction in the amount expended under the State plan in the quarter for medical assistance for purposes of section 1903(a)(1).

[(2) STATE PROVISION OF INFORMATION.—

[(A) STATE RESPONSIBILITY.—Each State agency under this title shall report to each manufacturer not later than 60 days after the end of each rebate period and in a form consistent with a standard reporting format established by the Secretary, information on the total number of units of each dosage form and strength and package size of each covered outpatient drug dispensed after December 31, 1990, for which payment was made under the plan during the period, and shall promptly transmit a copy of such report to the Secretary.

[(B) AUDITS.—A manufacturer may audit the information provided (or required to be provided) under subparagraph (A). Adjustments to rebates shall be made to the extent that information indicates that utilization was greater or less than the amount previously specified.

[(3) MANUFACTURER PROVISION OF PRICE INFORMATION.—

[(A) IN GENERAL.—Each manufacturer with an agreement in effect under this section shall report to the Secretary—

[(i) not later than 30 days after the last day of each rebate period under the agreement (beginning on or after January 1, 1991), on the average manufacturer price (as defined in subsection (k)(1)) and, (for single source drugs and innovator multiple source drugs), the manufacturer's best price (as defined in subsection (c)(2)(B)) for covered outpatient drugs for the rebate period under the agreement, and

[(ii) not later than 30 days after the date of entering into an agreement under this section on the average manufacturer price (as defined in subsection (k)(1)) as of October 1, 1990 for each of the manufacturer's covered outpatient drugs.

[(B) VERIFICATION SURVEYS OF AVERAGE MANUFACTURER PRICE.—The Secretary may survey wholesalers and manufacturers that directly distribute their covered outpatient drugs, when necessary, to verify manufacturer prices reported under subparagraph (A). The Secretary may impose a civil monetary penalty in an amount not to exceed \$100,000 on a wholesaler, manufacturer, or direct seller, if the wholesaler, manufacturer, or direct seller of a covered outpatient drug refuses a request for information about charges or prices by the Secretary in connection with a survey under this subparagraph or knowingly provides false information. The provisions of section 1128A (other than subsections (a) (with respect to amounts of penalties or additional assessments) and (b)) shall apply to a civil money penalty under this subparagraph in the same manner as such provisions apply to a penalty or proceeding under section 1128A(a).

[(C) PENALTIES.—

[(i) FAILURE TO PROVIDE TIMELY INFORMATION.—In the case of a manufacturer with an agreement under this section that fails to provide information required under subparagraph (A) on a timely basis, the amount of the penalty shall be increased by \$10,000 for each day in which such information has not been provided and such amount shall be paid to the Treasury, and, if such information is not reported within 90 days of the deadline imposed, the agreement shall be suspended for services furnished after the end of such 90-day period and until the date such information is reported (but in no case shall such suspension be for a period of less than 30 days).

[(ii) FALSE INFORMATION.—Any manufacturer with an agreement under this section that knowingly provides false information is subject to a civil money penalty in an amount not to exceed \$100,000 for each item of false information. Such civil money penalties are in addition to other penalties as may be prescribed by law. The provisions of section 1128A (other than subsections (a) and (b)) shall apply to a civil money penalty under this subparagraph in the same manner as such provisions apply to a penalty or proceeding under section 1128A(a).

[(D) CONFIDENTIALITY OF INFORMATION.—Notwithstanding any other provision of law, information disclosed by manufacturers or wholesalers under this paragraph or under an agreement with the Secretary of Veterans Affairs described in subsection (a)(6)(A)(ii) is confidential and shall not be disclosed by the Secretary or the Secretary of Veterans Affairs or a State agency (or contractor there-

with) in a form which discloses the identity of a specific manufacturer or wholesaler, prices charged for drugs by such manufacturer or wholesaler, except—

[(ii) to permit the Comptroller General to review the information provided, and

[(iii) to permit the Director of the Congressional Budget Office to review the information provided.

[(4) LENGTH OF AGREEMENT.—

[(A) IN GENERAL.—A rebate agreement shall be effective for an initial period of not less than 1 year and shall be automatically renewed for a period of not less than one year unless terminated under subparagraph (B).

[(B) TERMINATION.—

[(i) BY THE SECRETARY.—The Secretary may provide for termination of a rebate agreement for violation of the requirements of the agreement or other good cause shown. Such termination shall not be effective earlier than 60 days after the date of notice of such termination. The Secretary shall provide, upon request, a manufacturer with a hearing concerning such a termination, but such hearing shall not delay the effective date of the termination.

[(ii) BY A MANUFACTURER.—A manufacturer may terminate a rebate agreement under this section for any reason. Any such termination shall not be effective until the calendar quarter beginning at least 60 days after the date the manufacturer provides notice to the Secretary.

[(iii) EFFECTIVENESS OF TERMINATION.—Any termination under this subparagraph shall not affect rebates due under the agreement before the effective date of its termination.

[(iv) NOTICE TO STATES.—In the case of a termination under this subparagraph, the Secretary shall provide notice of such termination to the States within not less than 30 days before the effective date of such termination.

[(v) APPLICATION TO TERMINATIONS OF OTHER AGREEMENTS.—The provisions of this subparagraph shall apply to the terminations of agreements described in section 340B(a)(1) of the Public Health Service Act and master agreements described in section 8126(a) of title 38, United States Code.

[(C) DELAY BEFORE REENTRY.—In the case of any rebate agreement with a manufacturer under this section which is terminated, another such agreement with the manufacturer (or a successor manufacturer) may not be entered into until a period of 1 calendar quarter has elapsed since the date of the termination, unless the Secretary finds good cause for an earlier reinstatement of such an agreement.

[(c) DETERMINATION OF AMOUNT OF REBATE.—

[(1) BASIC REBATE FOR SINGLE SOURCE DRUGS AND INNOVATOR MULTIPLE SOURCE DRUGS.—

[(A) IN GENERAL.—Except as provided in paragraph (2), the amount of the rebate specified in this subsection for a rebate period (as defined in subsection (k)(8)) with respect to each dosage form and strength of a single source drug or an innovator multiple source drug shall be equal to the product of—

[(i) the total number of units of each dosage form and strength paid for under the State plan in the rebate period (as reported by the State); and

[(ii) subject to subparagraph (B)(ii), the greater of—

[(I) the difference between the average manufacturer price and the best price (as defined in subparagraph (C)) for the dosage form and strength of the drug, or

[(II) the minimum rebate percentage (specified in subparagraph (B)(i)) of such average manufacturer price,

of or the rebate period.

[(B) RANGE OF REBATES REQUIRED.—

[(i) MINIMUM REBATE PERCENTAGE.—For purposes of subparagraph (A)(ii)(II), the “minimum rebate percentage” for rebate periods beginning—

[(I) after December 31, 1990, and before October 1, 1992, is 12.5 percent;

[(II) after September 30, 1992, and before January 1, 1994, is 15.7 percent;

[(III) after December 31, 1993, and before January 1, 1995, is 15.4 percent;

[(IV) after December 31, 1994, and before January 1, 1996, is 15.2 percent; and

[(V) after December 31, 1995, is 15.1 percent.

[(ii) TEMPORARY LIMITATION ON MAXIMUM REBATE AMOUNT.—In no case shall the amount applied under subparagraph (A)(ii) for a rebate period beginning—

[(I) before January 1, 1992, exceed 25 percent of the average manufacturer price; or

[(II) after December 31, 1991, and before January 1, 1993, exceed 50 percent of the average manufacturer price.

[(C) BEST PRICE DEFINED.—For purposes of this section—

[(i) IN GENERAL.—The term “best price” means, with respect to a single source drug or innovator multiple source drug of a manufacturer, the lowest price available from the manufacturer during the rebate period to any wholesaler, retailer, provider, health maintenance organization, nonprofit entity, or governmental entity within the United States, excluding—

[(I) any prices charged on or after October 1, 1992, to the Indian Health Service, the Department of Veterans Affairs, a State home receiving

funds under section 1741 of title 38, United States Code, the Department of Defense, the Public Health Service, or a covered entity described in subsection (a)(5)(B);

[(II) any prices charged under the Federal Supply Schedule of the General Services Administration;

[(III) any prices used under a State pharmaceutical assistance program; and

[(IV) any depot prices and single award contract prices, as defined by the Secretary, of any agency of the Federal Government.

[(ii) SPECIAL RULES.—The term “best price”—

[(I) shall be inclusive of cash discounts, free goods that are contingent on any purchase requirement, volume discounts, and rebates (other than rebates under this section);

[(II) shall be determined without regard to special packaging, labeling, or identifiers on the dosage form or product or package; and

[(III) shall not take into account prices that are merely nominal in amount.

[(2) ADDITIONAL REBATE FOR SINGLE SOURCE AND INNOVATOR MULTIPLE SOURCE DRUGS.—

[(A) IN GENERAL.—The amount of the rebate specified in this subsection for a rebate period, with respect to each dosage form and strength of a single source drug or an innovator multiple source drug, shall be increased by an amount equal to the product of—

[(i) the total number of units of such dosage form and strength dispensed after December 31, 1900, for which payment was made under the State plan for the rebate period; and

[(ii) the amount (if any) by which—

[(I) the average manufacturer price for the dosage form and strength of the drug for the period, exceeds

[(II) the average manufacturer price for such dosage form and strength for the calendar quarter beginning July 1, 1990 (without regard to whether or not the drug has been sold or transferred to an entity, including a division or subsidiary of the manufacturer, after the first day of such quarter), increased by the percentage by which the consumer price index for all urban consumers (United States city average) for the month before the month in which the rebate period begins exceeds such index for September 1990.

[(B) TREATMENT OF SUBSEQUENTLY APPROVED DRUGS.—In the case of a covered outpatient drug approved by the Food and Drug Administration after October 1, 1990, clause (ii)(II) of subparagraph (A) shall be applied by substituting “the first full calendar quarter after the day on which the drug was first marketed” for “the calendar

quarter beginning July 1, 1990” and “the month prior to the first month of the first full calendar quarter after the day on which the drug was first marketed” for “September 1990”.

[(3) REBATE FOR OTHER DRUGS.—

[(A) IN GENERAL.—The amount of the rebate paid to a State for a rebate period with respect to each dosage form and strength of covered outpatient drugs (other than single source drugs and innovator multiple source drugs) shall be equal to the product of—

[(i) the applicable percentage (as described in subparagraph (B)) of the average manufacturer price for the dosage form and strength for the rebate period, and

[(ii) the total number of units of such dosage form and strength dispensed after December 31, 1990, for which payment was made under the State plan for the rebate period.

[(B) APPLICABLE PERCENTAGE DEFINED.—For purposes of subparagraph (A)(i), the “applicable percentage” for rebate periods beginning—

[(i) before January 1, 1994, is 10 percent, and

[(ii) after December 31, 1993, is 11 percent.

[(d) LIMITATIONS ON COVERAGE OF DRUGS.—

[(1) PERMISSIBLE RESTRICTIONS.—(A) A State may subject to prior authorization any covered outpatient drug. Any such prior authorization program shall comply with the requirements of paragraph (5).

[(B) A State may exclude or otherwise restrict coverage of a covered outpatient drug if—

[(i) the prescribed use is not for a medically accepted indication (as defined in subsection (k)(6));

[(ii) the drug is contained in the list referred to in paragraph (2);

[(iii) the drug is subject to such restrictions pursuant to an agreement between a manufacturer and a State authorized by the Secretary under subsection (a)(1) or in effect pursuant to subsection (a)(4); or

[(iv) the State has excluded coverage of the drug from its formulary established in accordance with paragraph (4).

[(2) LIST OF DRUGS SUBJECT TO RESTRICTION.—The following drugs or classes of drugs, or their medical uses, may be excluded from coverage or otherwise restricted:

[(A) Agents when used for anorexia, weight loss, or weight gain.

[(B) Agents when used to promote fertility.

[(C) Agents when used for cosmetic purposes or hair growth.

[(D) Agents when used for the symptomatic relief of cough and colds.

[(E) Agents when used to promote smoking cessation.

[(F) Prescription vitamins and mineral products, except prenatal vitamins and fluoride preparations.

[(G) Nonprescription drugs.

[(H) Covered outpatient drugs which the manufacturer seeks to require as a condition of sale that associated tests or monitoring services be purchased exclusively from the manufacturer or its designee.

[(I) Barbiturates.

[(J) Benzodiazepines.

[(3) UPDATE OF DRUG LISTINGS.—The Secretary shall, by regulation, periodically update the list of drugs or classes of drugs described in paragraph (2) or their medical uses, which the Secretary has determined, based on data collected by surveillance and utilization review programs of State medical assistance programs, to be subject to clinical abuse or inappropriate use.

[(4) REQUIREMENTS FOR FORMULARIES.—A State may establish a formulary if the formulary meets the following requirements:

[(A) The formulary is developed by a committee consisting of physicians, pharmacists, and other appropriate individuals appointed by the Governor of the State (or, at the option of the State, the State's drug use review board established under subsection (g)(3)).

[(B) Except as provided in subparagraph (C), the formulary includes the covered outpatient drugs of any manufacturer which has entered into and complies with an agreement under subsection (a) (other than any drug excluded from coverage or otherwise restricted under paragraph (2)).

[(C) A covered outpatient drug may be excluded with respect to the treatment of a specific disease or condition for an identified population (if any) only if, based on the drug's labeling (or, in the case of a drug the prescribed use of which is not approved under the Federal Food, Drug, and Cosmetic Act but is a medically accepted indication, based on information from the appropriate compendia described in subsection (k)(6)), the excluded drug does not have a significant, clinically meaningful therapeutic advantage in terms of safety, effectiveness, or clinical outcome of such treatment for such population over other drugs included in the formulary and there is a written explanation (available to the public) of the basis for the exclusion.

[(D) The State plan permits coverage of a drug excluded from the formulary (other than any drug excluded from coverage or otherwise restricted under paragraph (2)) pursuant to a prior authorization program that is consistent with paragraph (5).

[(E) The formulary meets such other requirements as the Secretary may impose in order to achieve program savings consistent with protecting the health of program beneficiaries.

A prior authorization program established by a State under paragraph (5) is not a formulary subject to the requirements of this paragraph.

[(5) REQUIREMENTS OF PRIOR AUTHORIZATION PROGRAMS.—A State plan under this title may require, as a condition of coverage or payment for a covered outpatient drug for which Federal financial participation is available in accordance with this section, with respect to drugs dispensed on or after July 1, 1991, the approval of the drug before its dispensing for any medically accepted indication (as defined in subsection (k)(6)) only if the system providing for such approval—

[(A) provides response by telephone or other telecommunication device within 24 hours of a request for prior authorization; and

[(B) except with respect to the drugs on the list referred to in paragraph (2), provides for the dispensing of at least 72-hour supply of a covered outpatient prescription drug in an emergency situation (as defined by the Secretary).

[(6) OTHER PERMISSIBLE RESTRICTIONS.—A State may impose limitations, with respect to all such drugs in a therapeutic class, on the minimum or maximum quantities per prescription or on the number of refills, if such limitations are necessary to discourage waste, and may address instances of fraud or abuse by individuals in any manner authorized under this Act.

[(e) TREATMENT OF PHARMACY REIMBURSEMENT LIMITS.—

[(1) IN GENERAL.—During the period beginning on January 1, 1991, and ending on December 31, 1994—

[(A) a State may not reduce the payment limits established by regulation under this title or any limitation described in paragraph (3) with respect to the ingredient cost of a covered outpatient drug or the dispensing fee for such a drug below the limits in effect as of January 1, 1991, and

[(B) except as provided in paragraph (2), the Secretary may not modify by regulation the formula established under sections 447.331 through 447.334 of title 42, Code of Federal Regulations, in effect on November 5, 1990, to reduce the limits described in subparagraph (A).

[(2) SPECIAL RULE.—If a State is not in compliance with the regulations described in paragraph (1)(B), paragraph (1)(A) shall not apply to such State until such State is in compliance with such regulations.

[(3) EFFECT ON STATE MAXIMUM ALLOWABLE COST LIMITATIONS.—This section shall not supersede or affect provisions in effect prior to January 1, 1991, or after December 31, 1994, relating to any maximum allowable cost limitation established by a State for payment by the State for covered outpatient drugs, and rebates shall be made under this section without regard to whether or not payment by the State for such drugs is subject to such a limitation or the amount of such a limitation.

[(4) ESTABLISHMENT OF UPPER PAYMENT LIMITS.—HCFA shall establish a Federal upper reimbursement limit for each multiple source drug for which the FDA has rated three or more products therapeutically and pharmaceutically equivalent, regardless of whether all such additional formulations are rated as such and shall use only such formulations when determining any such upper limit.

[(g) DRUG USE REVIEW.—

[(1) IN GENERAL.—

[(A) In order to meet the requirement of section 1903(i)(10)(B), a State shall provide, by not later than January 1, 1993, for a drug use review program described in paragraph (2) for covered outpatient drugs in order to assure that prescriptions (i) are appropriate, (ii) are medically necessary, and (iii) are not likely to result in adverse medical results. The program shall be designed to educate physicians and pharmacists to identify and reduce the frequency of patterns of fraud, abuse, gross overuse, or inappropriate or medically unnecessary care, among physicians, pharmacists, and patients, or associated with specific drugs or groups of drugs, as well as potential and actual severe adverse reactions to drugs including education on therapeutic appropriateness, overutilization and underutilization, appropriate use of generic products, therapeutic duplication, drug-disease contraindications, drug-drug interactions, incorrect drug dosage or duration of drug treatment, drug-allergy interactions, and clinical abuse/misuse.

[(B) The program shall assess data on drug use against predetermined standards, consistent with the following:

[(i) compendia which shall consist of the following:

[(I) American Hospital Formulary Service Drug Information;

[(II) United States Pharmacopeia-Drug Information; and

[(III) American Medical Association Drug Evaluations; and

[(ii) the peer-reviewed medical literature.

[(C) The Secretary, under the procedures established in section 1903, shall pay to each State an amount equal to 75 per centum of so much of the sums expended by the State plan during calendar years 1991 through 1993 as the Secretary determines is attributable to the statewide adoption of a drug use review program which conforms to the requirements of this subsection.

[(D) States shall not be required to perform additional drug use reviews with respect to drugs dispensed to residents of nursing facilities which are in compliance with the drug regimen review procedures prescribed by the Secretary for such facilities in regulations implementing section 1919, currently at section 483.60 of title 42, Code of Federal Regulations.

[(2) DESCRIPTION OF PROGRAM.—Each drug use review program shall meet the following requirements for covered outpatient drugs:

[(A) PROSPECTIVE DRUG REVIEW.—(i) The State plan shall provide for a review of drug therapy before each prescription is filled or delivered to an individual receiving benefits under this title, typically at the point-of-sale or

point of distribution. The review shall include screening for potential drug therapy problems due to therapeutic duplication, drug-disease contraindications, drug-drug interactions (including serious interactions with nonprescription or over-the-counter drugs), incorrect drug dosage or duration of drug treatment, drug-allergy interactions, and clinical abuse/misuse. Each State shall use the compendia and literature referred to in paragraph (1)(B) as its source of standards for such review.

[(ii) As part of the State's prospective drug use review program under this subparagraph applicable State law shall establish standards for counseling of individuals receiving benefits under this title by pharmacists which includes at least the following:

[(I) The pharmacist must offer to discuss with each individual receiving benefits under this title or caregiver of such individual (in person, whenever practicable, or through access to a telephone service which is toll-free for long-distance calls) who presents a prescription, matters which in the exercise of the pharmacist's professional judgment (consistent with State law respecting the provision of such information), the pharmacist deems significant including the following:

[(aa) The name and description of the medication.

[(bb) The route, dosage form, dosage, route of administration, and duration of drug therapy.

[(dd) Common severe side or adverse effects or interactions and therapeutic contraindications that may be encountered, including their avoidance, and the action required if they occur.

[(ee) Techniques for self-monitoring drug therapy.

[(ff) Proper storage.

[(gg) Prescription refill information.

[(hh) Action to be taken in the event of a missed dose.

[(II) A reasonable effort must be made by the pharmacist to obtain, record, and maintain at least the following information regarding individuals receiving benefits under this title:

[(aa) Name, address, telephone number, date of birth (or age) and gender.

[(bb) Individual history where significant, including disease state or states, known allergies and drug reactions, and a comprehensive list of medications and relevant devices.

[(cc) Pharmacist comments relevant to the individual's drug therapy.

Nothing in this clause shall be construed as requiring a pharmacist to provide consultation when an individual re-

ceiving benefits under this title or caregiver of such individual refuses such consultation.

【(B) RETROSPECTIVE DRUG USE REVIEW.—The program shall provide, through its mechanized drug claims processing and information retrieval systems (approved by the Secretary under section 1903(r) or otherwise, for the ongoing periodic examination of claims data and other records in order to identify patterns of fraud, abuse, gross overuse, or inappropriate or medically unnecessary care, among physicians, pharmacists and individuals receiving benefits under this title, or associated with specific drugs or groups of drugs.

【(C) APPLICATION OF STANDARDS.—The program shall, on an ongoing basis, assess data on drug use against explicit predetermined standards (using the compendia and literature referred to in subsection (1)(B) as the source of standards for such assessment) including but not limited to monitoring for therapeutic appropriateness, overutilization and underutilization, appropriate use of generic products, therapeutic duplication, drug-disease contraindications, drug-drug interactions, incorrect drug dosage or duration of drug treatment, and clinical abuse/misuse and, as necessary, introduce remedial strategies, in order to improve the quality of care and to conserve program funds or personal expenditures.

【(D) EDUCATIONAL PROGRAM.—The program shall, through its State drug use review board established under paragraph (3), either directly or through contracts with accredited health care educational institutions, State medical societies or State pharmacists associations/societies or other organizations as specified by the State, and using data provided by the State drug use review board on common drug therapy problems, provide for active and ongoing educational outreach programs (including the activities described in paragraph (3)(C)(iii) of this subsection) to educate practitioners on common drug therapy problems with the aim of improving prescribing or dispensing practices.

【(3) STATE DRUG USE REVIEW BOARD.—

【(A) ESTABLISHMENT.—Each State shall provide for the establishment of a drug use review board (hereinafter referred to as the “DUR Board”) either directly or through a contract with a private organization.

【(B) MEMBERSHIP.—The membership of the DUR Board shall include health care professionals who have recognized knowledge and expertise in one or more of the following:

【(i) The clinically appropriate prescribing of covered outpatient drugs.

【(ii) The clinically appropriate dispensing and monitoring of covered outpatient drugs.

【(iii) Drug use review, evaluation, and intervention.

【(iv) Medical quality assurance.

The membership of the DUR Board shall be made up at least $\frac{1}{3}$ but no more than 51 percent licensed and actively practicing physicians and at least $\frac{1}{3}$ licensed and actively practicing pharmacists.

[(C) ACTIVITIES.—The activities of the DUR Board shall include but not be limited to the following:

[(i) Retrospective DUR as defined in section (2)(B).

The Board shall re-evaluate interventions after an appropriate period of time to determine if the intervention improved the quality of drug therapy, to evaluate the success of the interventions and make modifications as necessary.

[(D) ANNUAL REPORT.—Each State shall require the DUR Board to prepare a report on an annual basis. The State shall submit a report on an annual basis to the Secretary which shall include a description of the activities of the Board, including the nature and scope of the prospective and retrospective drug use review programs, a summary of the interventions used, an assessment of the impact of these educational interventions on quality of care, and an estimate of the cost savings generated as a result of such program. The Secretary shall utilize such report in evaluating the effectiveness of each State's drug use review program.

[(h) ELECTRONIC CLAIMS MANAGEMENT.—

[(1) IN GENERAL.—In accordance with chapter 35 of title 44, United States Code (relating to coordination of Federal information policy), the Secretary shall encourage each State agency to establish, as its principal means of processing claims for covered outpatient drugs under this title, a point-of-sale electronic claims management system, for the purpose of performing on-line, real time eligibility verifications, claims data capture, adjudication of claims, and assisting pharmacists (and other authorized persons) in applying for and receiving payment.

[(2) ENCOURAGEMENT.—In order to carry out paragraph (1)—

[(A) for calendar quarters during fiscal years 1991 and 1992, expenditures under the State plan attributable to development of a system described in paragraph (1) shall receive Federal financial participation under section 1903(a)(3)(A)(i) (at a matching rate of 90 percent) if the State acquires, through applicable competitive procurement process in the State, the most cost-effective telecommunications network and automatic data processing services and equipment; and

[(B) the Secretary may permit, in the procurement described in subparagraph (A) in the application of part 433 of title 42, Code of Federal Regulations, and parts 95, 205, and 307 of title 45, Code of Federal Regulations, the substitution of the State's request for proposal in competitive procurement for advance planning and implementation documents otherwise required.

[(i) ANNUAL REPORT.—

[(2) The State plan shall provide that a hospital (providing medical assistance under such plan) that dispenses covered outpatient drugs using drug formulary systems, and bills the plan no more than the hospital's purchasing costs for covered outpatient drugs (as determined under the State plan) shall not be subject to the requirements of this section.

[(3) Nothing in this subsection shall be construed as providing that amounts for covered outpatient drugs paid by the institutions described in this subsection should not be taken into account for purposes of determining the best price as described in subsection (c).

[(k) DEFINITIONS.—In the section—

[(1) AVERAGE MANUFACTURER PRICE.—The term “average manufacturer price” means, with respect to a covered outpatient drug of a manufacturer for a rebate period, the average price paid to the manufacturer for the drug in the United States by wholesalers for drugs distributed to the retail pharmacy class of trade, after deducting customary prompt pay discounts.

[(2) COVERED OUTPATIENT DRUG.—Subject to the exceptions in paragraph (3), the term “covered outpatient drug” means—

[(4) NONPRESCRIPTION DRUGS.—If a State plan for medical assistance under this title includes coverage of prescribed drugs as described in section 1905(a)(12) and permits coverage of drugs which may be sold without a prescription (commonly referred to as “over-the-counter” drugs), if they are prescribed by a physician (or other person authorized to prescribe under State law), such a drug shall be regarded as a covered outpatient drug.

[(C) DEFINITIONS.—For purposes of this paragraph—

[(i) drug products are pharmaceutically equivalent if the products contain identical amounts of the same active drug ingredient in the same dosage form and meet compendial or other applicable standards of strength, quality, purity, and identity;

[(ii) drugs are bioequivalent if they do not present a known or potential bioequivalence problem, or, if they do present such a problem, they are shown to meet an appropriate standard of bioequivalence; and

[(iii) a drug product is considered to be sold or marketed in a State if it appears in a published national listing of average wholesale prices selected by the Secretary, provided that the listed product is generally available to the public through retail pharmacies in that State.

[SEC. 1928. (a) ESTABLISHMENT OF PROGRAM.—

[(1) IN GENERAL.—In order to meet the requirement of section 1902(a)(62), each State shall establish a pediatric vaccine distribution program (which may be administered by the State department of health), consistent with the requirements of this section, under which—

[(A) each vaccine-eligible child (as defined in subsection (b)), in receiving an immunization with a qualified pediatric vaccine (as defined in subsection (h)(8)) from a program-registered provider (as defined in subsection (c)) on or after October 1, 1994, is entitled to receive the immunization without charge for the cost of such vaccine; and

[(B)(i) each program-registered provider who administers such a pediatric vaccine to a vaccine-eligible child on or after such date is entitled to receive such vaccine under the program without charge either for the vaccine or its delivery to the provider, and (ii) no vaccine is distributed under the program to a provider unless the provider is a program-registered provider.

[(2) DELIVERY OF SUFFICIENT QUANTITIES OF PEDIATRIC VACCINES TO IMMUNIZE FEDERALLY VACCINE-ELIGIBLE CHILDREN.—

[(A) IN GENERAL.—The Secretary shall provide under subsection (d) for the purchase and delivery on behalf of each State meeting the requirement of section 1902(a)(62) (or, with respect to vaccines administered by an Indian tribe or tribal organization to Indian children, directly to the tribe or organization), without charge to the State, of

such quantities of qualified pediatric vaccines as may be necessary for the administration of such vaccines to all federally vaccine-eligible children in the State on or after October 1, 1994. This paragraph constitutes budget authority in advance of appropriations Acts, and represents the obligation of the Federal Government to provide for the purchase and delivery to States of the vaccines (or payment under subparagraph (C)) in accordance with this paragraph.

[(B) SPECIAL RULES WHERE VACCINE IS UNAVAILABLE.—To the extent that a sufficient quantity of a vaccine is not available for purchase or delivery under subsection (d), the Secretary shall provide for the purchase and delivery of the available vaccine in accordance with priorities established by the Secretary, with priority given to federally vaccine-eligible children unless the Secretary finds there are other public health considerations.

[(C) SPECIAL RULES WHERE STATE IS A MANUFACTURER.—

[(i) PAYMENTS IN LIEU OF VACCINES.—In the case of a State that manufactures a pediatric vaccine the Secretary, instead of providing the vaccine on behalf of a State under subparagraph (A), shall provide to the State an amount equal to the value of the quantity of such vaccine that otherwise would have been delivered on behalf of the State under such subparagraph but only if the State agrees that such payments will only be used for purposes relating to pediatric immunizations.

[(ii) DETERMINATION OF VALUE.—In determining the amount to pay a State under clause (i) with respect to a pediatric vaccine, the value of the quantity of vaccine shall be determined on the basis of the price in effect for the qualified pediatric vaccine under contracts under subsection (d). If more than 1 such contract is in effect, the Secretary shall determine such value on the basis of the average of the prices under the contracts, after weighting each such price in relation to the quantity of vaccine under the contract involved.

[(b) VACCINE-ELIGIBLE CHILDREN.—For purposes of this section:

[(1) IN GENERAL.—The term “vaccine-eligible child” means a child who is a federally vaccine-eligible child (as defined in paragraph (2)) or a State vaccine-eligible child (as defined in paragraph (3)).

[(2) FEDERALLY VACCINE-ELIGIBLE CHILD.—

[(A) IN GENERAL.—The term “federally vaccine-eligible child” means any of the following children:

[(i) A medicaid-eligible child.

[(ii) A child who is not insured.

[(iii) A child who (I) is administered a qualified pediatric vaccine by a federally-qualified health center (as defined in section 1905(l)(2)(B)) or a rural health

clinic (as defined in section 1905(l)(1)), and (II) is not insured with respect to the vaccine.

[(iv) A child who is an Indian (as defined in subsection (h)(3)).

[(B) DEFINITIONS.—In subparagraph (A):

[(i) The term “medicaid-eligible” means, with respect to a child, a child who is entitled to medical assistance under a state plan approved under this title.

[(ii) The term “insured” means, with respect to a child—

[(I) for purposes of subparagraph (A)(ii), that the child is enrolled under, and entitled to benefits under, a health insurance policy or plan, including a group health plan, a prepaid health plan, or an employee welfare benefit plan under the Employee Retirement Income Security Act of 1974; and

[(II) for purposes of subparagraph (A)(iii)(II) with respect to a pediatric vaccine, that the child is entitled to benefits under such a health insurance policy or plan, but such benefits are not available with respect to the cost of the pediatric vaccine.

[(3) STATE VACCINE-ELIGIBLE CHILD.—The term “State vaccine-eligible child” means, with respect to a State and a qualified pediatric vaccine, a child who is within a class of children for which the State is purchasing the vaccine pursuant to subsection (d)(4)(B).

[(c) PROGRAM-REGISTERED PROVIDERS.—

[(1) DEFINED.—In this section, except as otherwise provided, the term “program-registered provider” means, with respect to a State, any health care provider that—

[(A) is licensed or otherwise authorized for administration of pediatric vaccines under the law of the State in which the administration occurs (subject to section 333(e) of the Public Health Service Act), without regard to whether or not the provider participates in the plan under this title;

[(B) submits to the State an executed provider agreement described in paragraph (2); and

[(C) has not been found, by the Secretary or the State, to have violated such agreement or other applicable requirements established by the Secretary or the State consistent with this section.

[(2) PROVIDER AGREEMENT.—A provider agreement for a provider under this paragraph is an agreement (in such form and manner as the Secretary may require) that the provider agrees as follows:

[(A)(i) Before administering a qualified pediatric vaccine to a child, the provider will ask a parent of the child such questions as are necessary to determine whether the child is a vaccine-eligible child, but the provider need not independently verify the answers to such questions.

[(ii) The provider will, for a period of time specified by the Secretary, maintain records of responses made to the questions.

[(iii) The provider will, upon request, make such records available to the State and to the Secretary, subject to section 1902(a)(7).

[(B)(i) Subject to clause (ii), the provider will comply with the schedule, regarding the appropriate periodicity, dosage, and contraindications applicable to pediatric vaccines, that is established and periodically reviewed and, as appropriate, revised by the advisory committee referred to in subsection (e), except in such cases as, in the provider's medical judgment subject to accepted medical practice, such compliance is medically inappropriate.

[(ii) The provider will provide pediatric vaccines in compliance with applicable State law, including any such law relating to any religious or other exemption.

[(C)(i) In administering a qualified pediatric vaccine to a vaccine-eligible child, the provider will not impose a charge for the cost of the vaccine. A program-registered provider is not required under this section to administer such a vaccine to each child for whom an immunization with the vaccine is sought from the provider.

[(ii) The provider may impose a fee for the administration of a qualified pediatric vaccine so long as the fee in the case of a federally vaccine-eligible child does not exceed the costs of such administration (as determined by the Secretary based on actual regional costs for such administration).

[(iii) The provider will not deny administration of a qualified pediatric vaccine to a vaccine-eligible child due to the inability of the child's parent to pay an administration fee.

[(3) ENCOURAGING INVOLVEMENT OF PROVIDERS.—Each program under this section shall provide, in accordance with criteria established by the Secretary—

[(A) for encouraging the following to become program-registered providers: private health care providers, the Indian Health Service, health care providers that receive funds under title V of the Indian Health Care Improvement Act, and health programs or facilities operated by Indian tribes or tribal organizations; and

[(B) for identifying, with respect to any population of vaccine-eligible children a substantial portion of whose parents have a limited ability to speak the English language, those program-registered providers who are able to communicate with the population involved in the language and cultural context that is most appropriate.

[(4) STATE REQUIREMENTS.—Except as the Secretary may permit in order to prevent fraud and abuse and for related purposes, a State may not impose additional qualifications or conditions, in addition to the requirements of paragraph (1), in order that a provider qualify as a program-registered provider

under this section. This subsection does not limit the exercise of State authority under section 1915(b).

[(d) NEGOTIATION OF CONTRACTS WITH MANUFACTURERS.—

[(1) IN GENERAL.—For the purpose of meeting obligations under this section, the Secretary shall negotiate and enter into contracts with manufacturers of pediatric vaccines consistent with the requirements of this subsection and, to the maximum extent practicable, consolidate such contracting with any other contracting activities conducted by the Secretary to purchase vaccines. The Secretary may enter into such contracts under which the Federal Government is obligated to make outlays, the budget authority for which is not provided for in advance in appropriations Acts, for the purchase and delivery of pediatric vaccines under subsection (a)(2)(A).

[(2) AUTHORITY TO DECLINE CONTRACTS.—The Secretary may decline to enter into such contracts and may modify or extend such contracts.

[(3) CONTRACT PRICE.—

[(A) IN GENERAL.—The Secretary, in negotiating the prices at which pediatric vaccines will be purchased and delivered from a manufacturer under this subsection, shall take into account quantities of vaccines to be purchased by States under the option under paragraph (4)(B).

[(B) NEGOTIATION OF DISCOUNTED PRICE FOR CURRENT VACCINES.—With respect to contracts entered into under this subsection for a pediatric vaccine for which the Centers for Disease Control and Prevention has a contract in effect under section 317(j)(1) of the Public Health Service Act as of May 1, 1993, no price for the purchase of such vaccine for vaccine-eligible children shall be agreed to by the Secretary under this subsection if the price per dose of such vaccine (including delivery costs and any applicable excise tax established under section 4131 of the Internal Revenue Code of 1986) exceeds the price per dose for the vaccine in effect under such a contract as of such date increased by the percentage increase in the consumer price index for all urban consumers (all items; United States city average) from May 1993 to the month before the month in which such contract is entered into.

[(C) NEGOTIATION OF DISCOUNTED PRICE FOR NEW VACCINES.—With respect to contracts entered into for a pediatric vaccine not described in subparagraph (B), the price for the purchase of such vaccine shall be a discounted price negotiated by the Secretary that may be established without regard to such subparagraph.

[(4) QUANTITIES AND TERMS OF DELIVERY.—Under such contracts—

[(A) the Secretary shall provide, consistent with paragraph (6), for the purchase and delivery on behalf of States (and tribes and tribal organizations) of quantities of pediatric vaccines for federally vaccine-eligible children; and

[(B) each State, at the option of the State, shall be permitted to obtain additional quantities of pediatric vaccines (subject to amounts specified to the Secretary by the

State in advance of negotiations) through purchasing the vaccines from the manufacturers at the applicable price negotiated by the Secretary consistent with paragraph (3), if (i) the State agrees that the vaccines will be used to provide immunizations only for children who are not federally vaccine-eligible children and (ii) the State provides to the Secretary such information (at a time and manner specified by the Secretary, including in advance of negotiations under paragraph (1)) as the Secretary determines to be necessary, to provide for quantities of pediatric vaccines for the State to purchase pursuant to this subsection and to determine annually the percentage of the vaccine market that is purchased pursuant to this section and this subparagraph.

The Secretary shall enter into the initial negotiations under the preceding sentence not later than 180 days after the date of the enactment of the Omnibus Budget Reconciliation Act of 1993.

[(5) CHARGES FOR SHIPPING AND HANDLING.—The Secretary may enter into a contract referred to in paragraph (1) only if the manufacturer involved agrees to submit to the Secretary such reports as the Secretary determines to be appropriate to assure compliance with the contract and if, with respect to a State program under this section that does not provide for the direct delivery of qualified pediatric vaccines, the manufacturer involved agrees that the manufacturer will provide for the delivery of the vaccines on behalf of the State in accordance with such program and will not impose any charges for the costs of such delivery (except to the extent such costs are provided for in the price established under paragraph (3)).

[(6) ASSURING ADEQUATE SUPPLY OF VACCINES.—The Secretary, in negotiations under paragraph (1), shall negotiate for quantities of pediatric vaccines such that an adequate supply of such vaccines will be maintained to meet unanticipated needs for the vaccines. For purposes of the preceding sentence, the Secretary shall negotiate for a 6-month supply of vaccines in addition to the quantity that the Secretary otherwise would provide for in such negotiations. In carrying out this paragraph, the Secretary shall consider the potential for outbreaks of the diseases with respect to which the vaccines have been developed.

[(7) MULTIPLE SUPPLIERS.—In the case of the pediatric vaccine involved, the Secretary shall, as appropriate, enter into a contract referred to in paragraph (1) with each manufacturer of the vaccine that meets the terms and conditions of the Secretary for an award of such a contract (including terms and conditions regarding safety and quality). With respect to multiple contracts entered into pursuant to this paragraph, the Secretary may have in effect different prices under each of such contracts and, with respect to a purchase by States pursuant to paragraph (4)(B), the Secretary shall determine which of such contracts will be applicable to the purchase.

[(e) USE OF PEDIATRIC VACCINES LIST.—The Secretary shall use, for the purpose of the purchase, delivery, and administration

of pediatric vaccines under this section, the list established (and periodically reviewed and as appropriate revised) by the Advisory Committee on Immunization Practices (an advisory committee established by the Secretary, acting through the Director of the Centers for Disease Control and Prevention).

[(f) REQUIREMENT OF STATE MAINTENANCE OF IMMUNIZATION LAWS.—In the case of a State that had in effect as of May 1, 1993, a law that requires some or all health insurance policies or plans to provide some coverage with respect to a pediatric vaccine, a State program under this section does not comply with the requirements of this section unless the State certifies to the Secretary that the State has not modified or repealed such law in a manner that reduces the amount of coverage so required.

[(g) TERMINATION.—This section, and the requirement of section 1902(a)(62), shall cease to be in effect beginning on such date as may be prescribed in Federal law providing for immunization services for all children as part of a broad-based reform of the national health care system.

[(B) In the case of a State which used a health insuring organization before January 1, 1986, and which, as of December 31, 1990, had in effect a waiver under section 1115 that provides under the State plan under this title for personal care services for functionally disabled individuals, the term “functionally disabled elderly individual” may include, at the option of the State, an individual who—

[(2) ASSESSMENTS OF FUNCTIONAL DISABILITY.—

[(A) REQUESTS FOR ASSESSMENTS.—If a State has elected to provide home and community care under this section, upon the request of an individual who is 65 years of age or older and who meets the requirements of subsection (b)(1)(C) (or another person on such individual's behalf), the State shall provide for a comprehensive functional assessment under this subparagraph which—

[(i) is used to determine whether or not the individual is functionally disabled,

[(C) may specify other services required by such individual.

An ICCP may also designate the specific providers (qualified to provide home and community care under the State plan) which will provide the home and community care described in subparagraph (B). Nothing in this section shall be construed as authorizing an ICCP or the State to restrict the specific persons or individuals (who are competent to provide home and community care under the State plan) who will provide the home and community care described in subparagraph (B).

[(B) SPECIAL REVIEWS OF COMPLIANCE.—Where the Secretary has reason to question the compliance of a provider of home or community care with any of the requirements of subsection (f), the Secretary may conduct a review of the provider and, on the basis of that review, make independent and binding determinations concerning the extent to which the provider meets such requirements.

[(3) SURVEYS OF COMMUNITY CARE SETTINGS.—

[(A) IN GENERAL.—The certification under this subsection with respect to community care settings must be based on a survey. Such survey for such a setting must be conducted without prior notice to the setting. Any individual who notifies (or causes to be notified) a community care setting of the time or date on which such a survey is scheduled to be conducted is subject to a civil money penalty of not to exceed \$2,000. The provisions of section 1128A (other than subsections (a) and (b)) shall apply to a civil money penalty under the previous sentence in the same manner as such provisions apply to a penalty or proceeding under section 1128A(a). The Secretary shall review

each State's procedures for scheduling and conducting such surveys to assure that the State has taken all reasonable steps to avoid giving notice of such a survey through the scheduling procedures and the conduct of the surveys themselves.

[(B) SURVEY PROTOCOL.—Surveys under this paragraph shall be conducted based upon a protocol which the Secretary has provided for under subsection (k).

[(C) PROHIBITION OF CONFLICT OF INTEREST IN SURVEY TEAM MEMBERSHIP.—A State and the Secretary may not use as a member of a survey team under this paragraph an individual who is serving (or has served within the previous 2 years) as a member of the staff of, or as a consultant to, the community care setting being surveyed (or the person responsible for such setting) respecting compliance with the requirements of subsection (g) or (h) or who has a personal or familial financial interest in the setting being surveyed.

[(D) VALIDATION SURVEYS OF COMMUNITY CARE SETTINGS.—The Secretary shall conduct onsite surveys of a representative sample of community care settings in each State, within 2 months of the date of surveys conducted under subparagraph (A) by the State, in a sufficient number to allow inferences about the adequacies of each State's surveys conducted under subparagraph (A). In conducting such surveys, the Secretary shall use the same survey protocols as the State is required to use under subparagraph (B). If the State has determined that an individual setting meets the requirements of subsection (g), but the Secretary determines that the setting does not meet such requirements, the Secretary's determination as to the setting's noncompliance with such requirements is binding and supersedes that of the State survey.

[(E) SPECIAL SURVEYS OF COMPLIANCE.—Where the Secretary has reason to question the compliance of a community care setting with any of the requirements of subsection (g) or (h), the Secretary may conduct a survey of the setting and, on the basis of that survey, make independent and binding determinations concerning the extent to which the setting meets such requirements.

[(4) INVESTIGATION OF COMPLAINTS AND MONITORING OF PROVIDERS AND SETTINGS.—Each State and the Secretary shall maintain procedures and adequate staff to investigate complaints of violations of applicable requirements imposed on providers of community care or on community care settings under subsections (f), (g) and (h).

[(5) INVESTIGATION OF ALLEGATIONS OF INDIVIDUAL NEGLIGENCE AND ABUSE AND MISAPPROPRIATION OF INDIVIDUAL PROPERTY.—The State shall provide, through the agency responsible for surveys and certification of providers of home or community care and community care settings under this subsection, for a process for the receipt, review, and investigation of allegations of individual neglect and abuse (including injuries of unknown source) by individuals providing such care or in such setting

and of misappropriation of individual property by such individuals. The State shall, after notice to the individual involved and a reasonable opportunity for hearing for the individual to rebut allegations, make a finding as to the accuracy of the allegations. If the State finds that an individual has neglected or abused an individual receiving community care or misappropriated such individual's property, the State shall notify the individual against whom the finding is made. A State shall not make a finding that a person has neglected an individual receiving community care if the person demonstrates that such neglect was caused by factors beyond the control of the person. The State shall provide for public disclosure of findings under this paragraph upon request and for inclusion, in any such disclosure of such findings, of any brief statement (or of a clear and accurate summary thereof) of the individual disputing such findings.

[(6) DISCLOSURE OF RESULTS OF INSPECTIONS AND ACTIVITIES.—

[(A) PUBLIC INFORMATION.—Each State, and the Secretary, shall make available to the public—

[(i) information respecting all surveys, reviews, and certifications made under this subsection respecting providers of home or community care and community care settings, including statements of deficiencies,

[(ii) copies of cost reports (if any) of such providers and settings filed under this title,

[(iii) copies of statements of ownership under section 1124, and

[(iv) information disclosed under section 1126.

[(B) NOTICES OF SUBSTANDARD CARE.—If a State finds that—

[(i) a provider of home or community care has provided care of substandard quality with respect to an individual, the State shall make a reasonable effort to notify promptly (I) an immediate family member of each such individual and (II) individuals receiving home or community care from that provider under this title, or

[(ii) a community care setting is substandard, the State shall make a reasonable effort to notify promptly (I) individuals receiving community care in that setting, and (II) immediate family members of such individuals.

[(C) ACCESS TO FRAUD CONTROL UNITS.—Each State shall provide its State medicaid fraud and abuse control unit (established under section 1903(q)) with access to all information of the State agency responsible for surveys, reviews, and certifications under this subsection.

[(j) ENFORCEMENT PROCESS FOR PROVIDERS OF COMMUNITY CARE.—

[(1) STATE AUTHORITY.—

[(A) IN GENERAL.—If a State finds, on the basis of a review under subsection (i)(2) or otherwise, that a provider of home or community care no longer meets the require-

ments of this section, the State may terminate the provider's participation under the State plan and may provide in addition for a civil money penalty. Nothing in this subparagraph shall be construed as restricting the remedies available to a State to remedy a provider's deficiencies. If the State finds that a provider meets such requirements but, as of a previous period, did not meet such requirements, the State may provide for a civil money penalty under paragraph (2)(A) for the period during which it finds that the provider was not in compliance with such requirements.

[(B) CIVIL MONEY PENALTY.—

[(i) IN GENERAL.—Each State shall establish by law (whether statute or regulation) at least the following remedy: A civil money penalty assessed and collected, with interest, for each day in which the provider is or was out of compliance with a requirement of this section. Funds collected by a State as a result of imposition of such a penalty (or as a result of the imposition by the State of a civil money penalty under subsection (i)(3)(A)) may be applied to reimbursement of individuals for personal funds lost due to a failure of home or community care providers to meet the requirements of this section. The State also shall specify criteria, as to when and how this remedy is to be applied and the amounts of any penalties. Such criteria shall be designed so as to minimize the time between the identification of violations and final imposition of the penalties and shall provide for the imposition of incrementally more severe penalties for repeated or uncorrected deficiencies.

[(ii) DEADLINE AND GUIDANCE.—Each State which elects to provide home and community care under this section must establish the civil money penalty remedy described in clause (i) applicable to all providers of community care covered under this section. The Secretary shall provide, through regulations or otherwise by not later than July 1, 1990, guidance to States in establishing such remedy; but the failure of the Secretary to provide such guidance shall not relieve a State of the responsibility for establishing such remedy.

[(2) SECRETARIAL AUTHORITY.—

[(A) FOR STATE PROVIDERS.—With respect to a State provider of home or community care, the Secretary shall have the authority and duties of a State under this subsection, except that the civil money penalty remedy described in subparagraph (C) shall be substituted for the civil money remedy described in paragraph (1)(B)(i).

[(B) OTHER PROVIDERS.—With respect to any other provider of home or community care in a State, if the Secretary finds that a provider no longer meets a requirement of this section, the Secretary may terminate the provider's participation under the State plan and may provide, in ad-

dition, for a civil money penalty under subparagraph (C). If the Secretary finds that a provider meets such requirements but, as of a previous period, did not meet such requirements, the Secretary may provide for a civil money penalty under subparagraph (C) for the period during which the Secretary finds that the provider was not in compliance with such requirements.

[(C) CIVIL MONEY PENALTY.—If the Secretary finds on the basis of a review under subsection (i)(2) or otherwise that a home or community care provider no longer meets the requirements of this section, the Secretary shall impose a civil money penalty in an amount not to exceed \$10,000 for each day of noncompliance. The provisions of section 1128A (other than subsections (a) and (b)) shall apply to a civil money penalty under the previous sentence in the same manner as such provisions apply to a penalty or proceeding under section 1128A(a). The Secretary shall specify criteria, as to when and how this remedy is to be applied and the amounts of any penalties. Such criteria shall be designed so as to minimize the time between the identification of violations and final imposition of the penalties and shall provide for the imposition of incrementally more severe penalties for repeated or uncorrected deficiencies.

[(k) SECRETARIAL RESPONSIBILITIES.—

[(1) PUBLICATION OF INTERIM REQUIREMENTS.—

[(A) IN GENERAL.—The Secretary shall publish, by December 1, 1991, a proposed regulation that sets forth interim requirements, consistent with subparagraph (B), for the provision of home and community care and for community care settings, including—

[(i) the requirements of subsection (c)(2) (relating to comprehensive functional assessments, including the use of assessment instruments), of subsection (d)(2)(E) (relating to qualifications for qualified case managers), of subsection (f) (relating to minimum requirements for home and community care), of subsection (g) (relating to minimum requirements for small community care settings), and of subsection (h) (relating to minimum requirements for large community care settings), and

[(ii) survey protocols (for use under subsection (i)(3)(A)) which relate to such requirements.

[(B) MINIMUM PROTECTIONS.—Interim requirements under subparagraph (A) and final requirements under paragraph (2) shall assure, through methods other than reliance on State licensure processes, that individuals receiving home and community care are protected from neglect, physical and sexual abuse, financial exploitation, inappropriate involuntary restraint, and the provision of health care services by unqualified personnel in community care settings.

[(2) DEVELOPMENT OF FINAL REQUIREMENTS.—The Secretary shall develop, by not later than October 1, 1992—

[(A) final requirements, consistent with paragraph (1)(B), respecting the provision of appropriate, quality home and community care and respecting community care settings under this section, and including at least the requirements referred to in paragraph (1)(A)(i), and

[(B) survey protocols and methods for evaluating and assuring the quality of community care settings.
The Secretary may, from time to time, revise such requirements, protocols, and methods.

[(3) NO DELEGATION TO STATES.—The Secretary's authority under this subsection shall not be delegated to States.

[(4) NO PREVENTION OF MORE STRINGENT REQUIREMENTS BY STATES.—Nothing in this section shall be construed as preventing States from imposing requirements that are more stringent than the requirements published or developed by the Secretary under this subsection.

[(1) WAIVER OF STATEWIDENESS.—States may waive the requirement of section 1902(a)(1) (related to State wideness for a program of home and community care under this section.

[(m) LIMITATION ON AMOUNT OF EXPENDITURES AS MEDICAL ASSISTANCE.—

[(1) LIMITATION ON AMOUNT.—The amount of funds that may be expended as medical assistance to carry out the purposes of this section shall be for fiscal year 1991, \$40,000,000, for fiscal year 1992, \$70,000,000, for fiscal year 1993, \$130,000,000, for fiscal year 1994, \$160,000,000, and for fiscal year 1995, \$180,000,000.

[(2) ASSURANCE OF ENTITLEMENT TO SERVICE.—A State which receives Federal medical assistance for expenditures for home and community care under this section must provide home and community care specified under the Individual Community Care Plan under subsection (d) to individuals described in subsection (b) for the duration of the election period, without regard to the amount of funds available to the State under paragraph (1). For purposes of this paragraph, an election period is the period of 4 or more calendar quarters elected by the State, and approved by the Secretary, for the provision of home and community care under this section.

[(3) LIMITATION ON ELIGIBILITY.—The State may limit eligibility for home and community care under this section during an election period under paragraph (2) to reasonable classifications (based on age, degree of functional disability, and need for services).

[(4) ALLOCATION OF MEDICAL ASSISTANCE.—The Secretary shall establish a limitation on the amount of Federal medical assistance available to any State during the State's election period under paragraph (2). The limitation under this paragraph shall take into account the limitation under paragraph (1) and the number of elderly individuals age 65 or over residing in such State in relation to the number of such elderly individuals in the United States during 1990. For purposes of the previous sentence, elderly individuals shall, to the maximum extent practicable, be low-income elderly individuals.

TECHNICAL APPENDIX

EXPLANATION OF MEDICAID COMPUTATION OF STATE PAYMENTS

The Medicaid Restructuring Act of 1996 would limit Federal matching payments to each State to a fixed allotment. The first section of this appendix explains how the State allotments are computed. Subject to allotments, payments to the State out of those allotments are based on a new Federal medical assistance percentage (New FMAP) which is explained in the second section of this appendix.

ALLOTMENT OF FUNDS AMONG STATES

Overview

This section presents a step-by-step description of the computation of allotments of funds. The allotment is based on the States sharing a fixed pool of funds. In fiscal year 1996, the State allocations are specified in the legislation. Beginning in fiscal year 1997, a needs-based State allotment formula is used. The needs-based formula is intended to provide a measure of the relative needs of States for Medicaid expenditures. The needs-based allotment is then subject to “floors” and “ceilings” which are transition rules intended to ensure that no State would be subject to sudden large shifts in payments from year-to-year and that no State would lose funds. Finally, the formula computation uses proportional scaling to ensure that the combination of the needs-based formula together with floors and ceilings produces State allotments that sum exactly to the overall funding level for the program in each fiscal year.

Pool of funds

The pool available to be allotted would be \$96.6 billion for fiscal year 1996, \$103.4 billion for fiscal year 1997, \$108.4 billion for fiscal year 1998, \$113.7 billion for fiscal year 1999, \$119.1 billion for fiscal year 2000, \$124.9 billion for fiscal year 2001, and \$130.9 billion for fiscal year 2002. For later years, the pool amount would be the previous year’s amount increased by the lesser of 4 percent or the growth in the Consumer Price Index for all urban consumers

(CPI-U) for the 12-month period ending in June before the start of the year in question. Pool amounts to be allocated among the 50 States and the District of Columbia would be reduced by the amount of allotments to Commonwealths and Territories. The percentage growth in the pool amount over the pool amount in the preceding year would be designated the “national medicaid growth percentage” (NMGP). This percentage is used in floors and ceilings described below.

Fiscal year 1996 allotment

For fiscal year 1996, the State grant amount is specified in the legislation.

Commonwealths and territories

Beginning with fiscal year 1997, the Commonwealths and Territories will have percentage increases equal to the national medicaid growth percentage (NMGP) defined above under “Pool of Funds.” Because comparable data are unavailable, the needs-based formula described below could not be applied to the Commonwealths and Territories. Unless otherwise specified, “State” in this Appendix refers to the 50 States and the District of Columbia.

Description of the needs-based allotment formula

Needs-based amount

The needs-based amount for a State is the Federal share of the State’s aggregate expenditure need (defined below) after application of the floors and ceilings described in section 1511(c)(3) and after these amounts have been proportionally adjusted to ensure that State grant amounts equal the amount available for distribution to the States. The Federal share of a State’s aggregate expenditure need is calculated by multiplying the State’s aggregate expenditure need by its “old” Federal medical assistance percentage (FMAP), as defined in section 1512(d). The floors and ceilings are applied and amounts adjusted by the scaling factor.

Each State’s needs-based amount is computed using the following formula:

$$\text{State NBFA} = \left(\frac{\text{State Aggregate Expenditure Need}}{\text{Expenditure Need}} \right) \times \left(\frac{\text{Old FMAP}}{\text{FMAP}} \right) \times \left(\frac{\text{Adjustment Factor}}{\text{Factor}} \right)$$

State aggregate expenditure need

A State’s aggregate need is an amount which represents the total dollar outlay a State would have make to finance the U.S. average spending per person in poverty in the year prior to enactment after adjusting for inflation since the base year. Aggregate need is the product of four factors: program need (defined below), a health care cost index, the national average spending per person in poverty in the year, and the projected inflation from the base year to the current year.

$$\left(\frac{\text{State Aggregate Expenditure Need}}{\text{Expenditure Need}} \right) = \left(\frac{\text{Program Need}}{\text{Need}} \right) \times \left(\frac{\text{Health Care Cost Index}}{\text{Cost Index}} \right) \times \left(\frac{\text{U.S. Spending Per Person in Poverty}}{\text{Per Person in Poverty}} \right)_{\text{base year}} \times \left(\frac{\text{Projected Inflation Rate}}{\text{Inflation Rate}} \right)$$

Program need

The total number of individuals-in-need in a State is disaggregated into five categories: (1) elderly between 60 and 85; (2) elderly over 85; (3) disabled; (4) children; and (5) all other eligibles. The number of needy in each eligibility category is calculated by multiplying the total number of people in poverty in each State by the percentage of recipients in each eligibility category in that State.

The weight for each eligibility category is to be calculated annually by the Health Care Financing Administration (HCFA) based on the U.S. average spending per recipient in each category compared to the U.S. average spending per recipient in all categories. Program need is calculated using the following formula:

$$\begin{aligned} & \left(\begin{array}{c} \text{Elderly} \\ \text{Ages 60-85} \\ \text{Weight} \end{array} \right) \times \left(\begin{array}{c} \text{Elderly} \\ \text{Need} \\ \text{Ages 60-85} \end{array} \right) + \left(\begin{array}{c} \text{Elderly} \\ \text{Ages 85+} \\ \text{Weight} \end{array} \right) \times \left(\begin{array}{c} \text{Elderly} \\ \text{Need} \\ \text{Ages 85+} \end{array} \right) + \\ \text{Program} & = \left(\begin{array}{c} \text{Disabled} \\ \text{Weight} \end{array} \right) \times \left(\begin{array}{c} \text{Disabled} \\ \text{Need} \end{array} \right) + \left(\begin{array}{c} \text{AFDC} \\ \text{Child} \\ \text{Weight} \end{array} \right) \times \left(\begin{array}{c} \text{AFDC} \\ \text{Child} \\ \text{Need} \end{array} \right) + \\ & \left(\begin{array}{c} \text{Other} \\ \text{Eligible} \\ \text{Weight} \end{array} \right) \times \left(\begin{array}{c} \text{Other} \\ \text{Eligible} \\ \text{Need} \end{array} \right) \end{aligned}$$

Constraint on program need

The value for program need may not exceed 115 percent and may not fall below 90 percent of the State's program need computed on U.S. averages. The State's program computed on U.S. or national averages is calculated similarly to program need for each State except that the percentage of recipients in each eligibility category in that State is replaced by the percentage of recipients in each eligibility category for the entire United States. This calculation is performed for each of the five eligibility categories, and the results are then summed. The summed value is referred to as the State's program need computed on U.S. averages. If the value for the State's program need falls below 90 percent of the State's value computed on U.S. averages, then the State's program need value in the Medicaid formula is set to 90 percent of the State's program computed on U.S. averages. Analogously, if the value for the State's program need exceeds 115 percent of the State's program computed on U.S. averages, then the State's program need value in the Medicaid formula is set to 115 percent of the State's program computed on U.S. averages.

Health care cost index

The health care cost index, or the input cost index, is a factor representing the cost of labor and other inputs used to provide health care services. Data is obtained from HCFA representing wages paid and hours worked in hospitals participating in the Medicare prospective payment system. Based on the total wages paid and hours worked as reported by each participating hospital

in a State, an average annual wage per hour is calculated for the State. This average wage rate for each State is then divided by the U.S. average annual wage rate to produce an index for each State.

The index described in the preceding paragraph is computed for each State in each of the 3 most recent years for which the data are available, and for each State an average of those three indexes is computed. The input cost index used in the formula for State aggregate need is based on multiplying the 3-year average wage index by 85 percent and adding to that 15 percent of one (1.00) to reflect costs of inputs that are uniform nationwide, such as the cost of prescription drugs.

U.S. spending per person in poverty

U.S. spending represents total Federal and State Medicaid spending, based on line 11 of the HCFA Form 64 reports from each State and the District of Columbia for the most recent year prior to enactment, for which data is available from HCFA. This amount is divided by the U.S. average number of persons in poverty for the 3 most recent years data available prior to enactment.

Projected inflation rate

The projected inflation rate is the percent increase in inflation since the year prior to enactment derived from CBO baseline projections of inflation for the year for which grant amounts are being calculated.

Old Federal medical assistance percentage

A State's Old Federal medical assistance percentage (Old FMAP) is the Federal share of total Medicaid spending as calculated by HCFA under current law.¹ (This is not the use of historical FMAP values; the Old FMAP formula would continue to be computed as more current data become available). Old FMAP equals 1 minus the product of .45 multiplied by the square of the ratio of State per capita personal income (PCI) to the U.S. average PCI. This formula is expressed as:

$$OldFMAP = 1.0 - 0.45 \left(\frac{PCI_{state}}{PCI_{us}} \right)^2$$

Also as provided in current law, the Old FMAP for any State shall not be less than 50 percent or greater than 83 percent.

Description of the floor and ceilings

The needs-based formula allotment of each State is constrained by floors and ceilings that are collectively intended to moderate year-to-year changes and, in particular, to ensure that no State loses funds compared to the previous year.

Growth Caps. For fiscal year 1997, no State's growth in Federal funding may exceed 9 percent. In succeeding years, the growth cap for the 10 States with lowest Federal funding per person in poverty may not exceed 150 percent of the U.S. average growth in appro-

¹Note that old FMAP is used to compute State aggregate needs and thus the State allotment, but New FMAP is used to compute payments out of that State allotment.

priations. For all other States, the growth ceiling may not exceed 133 percent of the U.S. average growth in appropriations.

Growth Floors. All States are guaranteed at least 3.5 percent growth for fiscal year 1997, 3.0 percent in fiscal year 1998, and 2.5 percent in fiscal year 1999 and 2.0 percent in succeeding years.

Out-year Hold harmless. States whose growth in Federal funding for fiscal year 1997 is above 6.8 percent may never fall below 90 percent of the U.S. average growth in appropriations beginning in fiscal year 1998.

Small State Minimum. Beginning in fiscal year 1998, no State may receive less than 0.24 percent of total Federal funding, subject to the limitations of the growth caps.

Ensuring that the formula allotments also comply with budget targets

The allotment process is designed to guarantee that three fundamental conditions are met:

1. The amounts allotted any two States are proportional to their relative needs-based formula amounts (except States subject to a floor or ceiling);
2. In any instance where the needs-based formula amount would otherwise fall below a floor or exceed a ceiling, the grant allotment is set to the amount of the applicable growth floor or ceiling; and
3. The sum of all the individual State allotment amounts must exactly equal the pool amount available for the fiscal year.

These three conditions are satisfied by computing a unique, constant multiplier (called the "adjustment factor" or "scalar factor") which increases or decreases every needs-based formula allotment in equal proportions as necessary to ensure that the State grants sum to the target amount. The differences among States' allotments remain in proportion to differences in their aggregate needs with the only exceptions being the allotments for those States which are determined according to the applicable floors and ceilings.

The adjustment factor is used to compute needs-based formula amounts that sum exactly to the pool amount only when subjected to the rules for floors and ceilings. The application of growth ceilings decreases allotments from the needs-based amounts while the growth floors increase allotments over the needs-based formula amount. It is highly unlikely the opposing effects of the ceilings and floors on the allotments will exactly balance. In effect, the adjustment factor balances the aggregate effects of the ceilings and floors by proportionally adjusting all the needs-based formula amounts.

The adjustment factor is determined using a computer model programmed to subject the needs-based formula amounts to the ceilings and floors. The adjustment factor produces a set of needs-based formula amounts such that, after any applicable growth ceiling amounts and floor amounts are substituted for any needs-based formula amounts, the State allotments will then total exactly to the dollar amount available. The resulting distribution among States thereby satisfies all three fundamental conditions above.

Election of alternative growth formula

The bill allows a State to choose to defer a portion of its State allotment in any 1 year and then apply those funds to 1 or more subsequent fiscal years. This does not in any way reduce or change amounts allotted to any other State.

FMAP COMPUTATIONS FOR PAYMENTS TO THE STATES

Payments to the States under the Medicaid program would become closed-ended which means that the State expenditures would be matched up to the amount of the State's allotment in that year. (However, carryover of allotment is allowed so that any State allotment that is unused in a fiscal year is available for matching in a subsequent year or years.) Federal payments to a State would equal the State's spending multiplied by the new Federal medical assistance percentage (New FMAP) computed for that State. New FMAP is the greater of the Old FMAP, as computed under current law, or a New FMAP formula amount. The New FMAP formula amount is 100 percent minus the product of .39 multiplied by the ratio of the State's total taxable resources (TTR) share to the State aggregate expenditure needs share. The TTR is a measure of State revenue raising capacity (it includes per capita personal income as does the Old FMAP, but it is more comprehensive measure of a State's economy) produced by the U.S. Department of the Treasury. A State's TTR share is equal to the most recent 3-year average of TTR of the State divided by the sum of the 3-year average TTR's of all States.² The State aggregate expenditure needs share is the ratio of the State aggregate expenditure needs as defined earlier to the sum of all States' aggregate expenditure needs. New FMAP can be expressed as:

²In the case of the District of Columbia, the TTR share is replaced by a personal income share which is the quotient of the District's most recent 3-year average of personal income divided by the sum of the personal income of the States.

$$NewFMAP = 1.0 - 0.39 \times \left(\frac{(TTR_{State} / TTR_{US})}{(SAEN_{State} / SAEN_{US})} \right)$$

where:

TTR_{State} = the average of the three most-recent years of Total Taxable Resources of the State;
